3267. RECONSIDERATION OF DENIED CLAIMS

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 1712

CFR Citation: 38 CFR 17.133

Legal Deadline: None

Abstract: This document proposes to amend the Department of Veterans Affairs medical regulations by adding a new section 17.133 to set forth reconsideration procedures available if requested by an individual or entity who made a claim for benefits administered by the Veterans Health Administration and who disagrees with the initial decision denying the claim.

VA

Final Rule Stage

It is anticipated that these procedures would not only allow for more reflective decisions at the local level but would allow some disputes to be resolve without the need for further appeal to the Board of Veterans Appeals.

3270. • PROVISION OF DRUGS AND MEDICINES TO CERTAIN VETERANS IN STATE NURSING HOMES

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501; 38 USC 1721

CFR Citation: 38 CFR 17.96

Legal Deadline: None

Abstract: This document amends the Department of Veterans Affairs medical regulations concerning the provision of drugs and medicines prescribed by non-VA physicians for certain veterans who are permanently housebound or in need of regular aid and attendance. The regulations are amended to allow prescriptions to be filled by non-VA pharmacies in state homes under contract with VA for filling prescriptions for patients in state homes. This is consistent with VA's special relationship with state home. It will eliminate duplication in services and will help improve timeliness for filling prescriptions in state homes.

3274. VETERANS EDUCATION: EFFECTIVE DATE FOR THE AWARD OF EDUCATIONAL ASSISTANCE

Priority: Info./Admin./Other

Legal Authority: 38 USC 3018B

CFR Citation: 38 CFR 21.7131

Legal Deadline: None

Abstract: The provisions of 38 U.S.C. allow a veteran who was voluntarily separated from active military, naval, or air service under either 10 U.S.C. 1174a or 1175 before October 23, 1992, to elect to receive educational assistance under the Montgomery GI Bill, Active Duty. He or she was given until October 23, 1993, to make the election. The provisions of 38 U.S.C. 3018B also require the veteran to submit $1,200 to the Department of Veterans Affairs (VA) as a condition of receiving the educational assistance. The statute does not contain a deadline for paying the $1,200. This document amends the VA's Vocational Rehabilitation and Education regulations to explain that an individual who made the election before October 23, 1993, must still submit the $1,200 to VA as a condition of receiving educational assistance under the Montgomery GI Bill, Active Duty.

3275. ELECTION OF EDUCATION BENEFITS

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 3562; 38 USC 3221; 38 USC 3033; 10 USC 16132

CFR Citation: 38 CFR 21.3023; 38 CFR 21.5041; 38 CFR 21.7040; 38 CFR 21.7540

Legal Deadline: None

Abstract: An individual may be eligible for educational assistance under more than one of the education programs VA administers. Often the individual must elect which benefit she or he wants. Current regulations state that these elections are final once the individual negotiates a check issued under the program he or she has chosen. These regulations must be revised to allow for a different method of determining when an election is final because VA will soon begin converting from paying educational assistance with paper checks to paying these benefits electronically.

3281. LOAN GUARANTY: REQUIREMENTS FOR INTEREST RATE REDUCTION REFINANCING LOANS

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501(a)

CFR Citation: 38 CFR 36.4306a

Legal Deadline: None

Abstract: Interest rate reduction refinancing loans assist veterans by allowing them to refinance an outstanding VA guaranteed loan that bears interest at a high rate with a new loan at a loan rate. The law allows the veteran to do so without having to pay any expenses out-of-pocket. The revised regulations will limit these loans in most cases to instances where the veteran's monthly mortgage payment will decrease. They will also limit the maximum loan amount, and generally require that the loans being refinanced be current in their payments.

3283. ELIGIBILITY REPORTING REQUIREMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: PL 103-271

CFR Citation: 38 CFR 3.256

Legal Deadline: None

Abstract: This document amends the Department of Veterans Affairs adjudication regulations concerning eligibility verification reports (EVRs) for recipients of pension under programs in effect prior to January 1, 1979. The amendment reduces the number of circumstances under which VA requires such pensioners to furnish annual EVRs. The intended effect of this amendment is to reduce the reporting burden on these beneficiaries, reduce the workload at VA regional offices, and enable VA to use its resources more effectively.

3287. • NATIONAL SERVICE LIFE INSURANCE

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 1906

CFR Citation: 38 CFR 8.14(a); 38 CFR 8.18

Legal Deadline: None

Abstract: National Service Life Insurance regulations are being amended to provide for the payment of cash value for all current and future term capped policies, either by lump sum cash payment or by the purchase of paid-up additions (PUA), or a combination of the two. Under current law, policyholders whose policies lapse prior to age 96 do not receive any value reserved to their policies. Providing the options of cash values for individuals who no longer need insurance or paid-up additions for policyholders who want to retain insurance coverage without incurring further expense, enables policyholders to choose what is best for them.

3290. • VETERANS EDUCATION: EFFECTIVE DATE FOR DISCONTINUING EDUCATIONAL ASSISTANCE

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 3034; 38 USC 3680; 38 USC 5113

CFR Citation: 38 CFR 21.7135

Legal Deadline: None

Abstract: VA is permitted by statute to require veterans and eligible persons to certify their continued pursuit of a program of education before they may receive their monthly payment of educational assistance. VA has required this by regulation for individuals receiving educational assistance under the Montgomery GI Bill--Active Duty. By statute, any adjustment in the individual's training time resulting from these certifications must be made as of the date of the occurrence. The regulation governing the reduction of benefits will be revised to reflect the statutory requirement.

3291. • VETERANS EDUCATION: INCREASED ALLOWANCES FOR THE EDUCATIONAL ASSISTANCE TEST PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 16131;.10 USC 2144

CFR Citation: 38 CFR 21.7636; 38 CFR 21.5822

Legal Deadline: None

Abstract: By statute, the monthly rates of basic educational assistance payable to reservists under the Montgomery GI Bill--Selected Reserve must be adjusted each fiscal year in accordance with a statutory formula. The Veterans Benefits Act of 1998 provides an increase of approximately 20 percent that supersedes the otherwise applicable statutory increase for fiscal year 1999 (October 1, 1998, through September 30, 1999). The regulations governing rates of basic educational assistance payable under the Montgomery GI Bill--Selected Reserve will be changed to show the rates indicated in the Act. rates will be revised accordingly.

Legal Deadline: None

Abstract: The Department of Veterans Affairs (VA) is amending its regulations to delegate to the Under Secretary for Health along with Veterans Integrated Service Network Directors (VISN) and VA Medical facilities Directors, the authority to adjust, determine, compromise, and settle a claim under the Federal Tort Claims Act where the amount of settlement is $2,500 or less. This authority was granted to the Secretary of the Department of Veterans Affairs pursuant to 28 USC 2672. Prior authority was delegated to the General Counsel encompassing higher limits that remain unchanged. This amendment will facilitate processing of claims under the Federal Tort Claims Act in a more timely manner. The Under Secretary for Health, VISN Directors, and VA Medical Facilities Directors are also given authority pursuant to the provisions of the Military Personnel and Civilian Employees' Claim Act of 1964, 31 USC 3721, as amended to settle and pay a claim for $2,500 or less made by a civilian officer or employee of the Department of Veterans Affairs for damage to, or loss of, personal property incident to his or her service.

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 501; 38 USC 1721

CFR Citation: 38 CFR 17.32

Legal Deadline: None

Abstract: This document proposes to amend the VA medical regulations to codify VA policy regarding advance healthcare planning. The proposed rule sets forth a mechanism for the use of written advance directives, i.e., a VA Living Will, a VA durable power of attorney for health care, and a state-authorized advance directive. The proposed rule also sets forth a mechanism for honoring verbal or nonverbal instructions from a patient when the patient is admitted to care when critically ill and loss of capacity may be imminent and the patient is not physically able to sign an advance directive form, or the appropriate form is not readily available. This is intended to help ensure that VA acts in compliance with patients' wishes concerning future healthcare.

Agency for International Development

Semiannual Regulatory Agenda

AGENCY FOR INTERNATIONAL DEVELOPMENT (AID)

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

U.S. Agency for International Development

22 CFR Ch. II

Federal Regulations; USAID Regulatory Agenda Semiannual Summary

AGENCY: United States Agency for International Development, IDCA.

ACTION: Semiannual regulatory agenda.

SUMMARY: The U.S. Agency for International Development (USAID) is publishing this agenda as required by Executive Order 12866 "Regulatory Planning and Review" (58 FR 51735, October 4, 1993) and the Regulatory Flexibility Act. This agenda reports the status of those regulations currently under review and gives USAID's plan for the issuance of proposed regulations during the next 12 months. It is expected that the information provided in this agenda will enable the public to be more aware of and to participate more effectively in USAID's regulatory process.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda or the review list in general, contact: Willette Smith, Chief, Bureau for Management, Office of Administrative Services, Information and Records Division, U.S. Agency for International Development, Washington, DC 20523; telephone (202) 712-5027, e-mail address wsmith@usaid.gov.

Specific: For further information about any particular item on the agenda, contact the individual listed as the contact for that item.

SUPPLEMENTARY INFORMATION: Executive Order 12866 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of an agenda of regulations. The Regulatory Flexibility Act applies only to regulations for which a notice of proposed rulemaking was issued on or after September 19, 1980. USAID is required to publish an agenda listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities." The Executive order became effective on September 30, 1993, and it is required that USAID publish a listing of all the regulations it expects to have under active consideration for proposal or review during the coming 1-year period.

Dated: August 28, 1998.

Margaret H. Thome,

Director, Bureau for Management, Office of Administrative Services.

AGENCY FOR INTERNATIONAL DEVELOPMENT (AID) — Proposed Rule Stage

3351. MISCELLANEOUS AMENDMENTS TO THE AIDAR (AIDAR NOTICE 98-2)

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 22 USC 2381

CFR Citation: 48 CFR 712; 48 CFR 727; 48 CFR 742; 48 CFR 752; 48 CFR ch 7, app I

Legal Deadline: None

Abstract: The USAID Acquisition Regulation will be amended to establish an Agency policy regarding contract clauses to clarify withholding requirements under IQC contracts, revise reporting requirements, revise the Agency's academic publications policy in appendix I to coordinate with the FAR's Rights in Data coverage, and clarify USAID policy on the use of Government facilities and personnel in commercial contracts.

3354. MISCELLANEOUS AMENDMENTS TO THE AIDAR (AIDAR NOTICE 98-1)

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 22 USC 2381

CFR Citation: 48 CFR 703; 48 CFR 709; 48 CFR 715; 48 CFR 752

Legal Deadline: None

Abstract: The AID Acquisition Regulation (AIDAR) is being amended to add an additional reporting level for violations to be in accordance with Federal Acquisition Regulation (FAR) subpart 3.104; to reflect changes in FAR part 9.5; and to reflect changes in FAR part 15. The AIDAR is also being amended to add a requirement to part 715 for a justification document to support the decision to reject all proposals and cancel the RFPP and to add a provision to part 752 on salary supplements for host government employees.

Legal Deadline: None

Abstract: The USAID Acquisition Regulation (AIDAR) is being amended to bring its organizational conflicts of interest coverage into conformance with the FAR; to implement the August 19, 1997, revisions to Office of Federal Contract Compliance Programs (OFCCP) regulations (41 CFR parts 60-1, 60-60) prohibiting employment discrimination and establishing affirmative action requirements for nonexempt Federal contractors and subcontractors; to allow for advances to for-profit organizations who are awarding grants under their contracts; to clarify the application of USAID's salary policy to fixed-price contractors; and to update corresponding clauses in part 752, as amended. The AIDAR is also being amended to incorporate provisions of various Contract Information Bulletins (CIBs) issued in the past few years that established contracting policies or procedures and to make administrative changes or corrections.

AGENCY FOR INTERNATIONAL DEVELOPMENT (AID) — Completed Actions

3356. RULES AND PROCEDURES APPLICABLE TO COMMODITY TRANSACTIONS (AID REGULATION 1): INSPECTION AND PRICE PROVISIONS

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 2381

CFR Citation: 22 CFR 201.01; 22 CFR 201.21; 22 CFR 201.31; 22 CFR 201.48; 22 CFR 201.52; 22 CFR 201.60; 22 CFR 201.61; 22 CFR 201.63; 22 CFR 201.64

Legal Deadline: None

Abstract: AID Regulation 1 is being amended to provide for the possibility of preshipment inspection and to simplify the rules on maximum prices for commodities. The purpose of preshipment inspection is to complete price review of transactions prior to shipment, rather than after-the-fact, and when determined necessary, to require a physical inspection. The purpose of the amendments to the price rules is to make them easier for suppliers to understand and bring them into line with commercial practices used by preshipment inspection firms that will be contracted with to carry out the preshipment inspection program.

EXPLANATION: A proposed rule to amend USAID Regulation 1 was issued in the Federal Register on August 8, 1997 (62 FR 42712). USAID planned to change the procedure used to assure that prices paid to suppliers for transactions financed under Commodity Import Programs (CIPs) are fair and reasonable by implementing a preshipment review process. However, USAID has since determined that the CIP will be managed by the USAID Mission in Egypt rather than by USAID/Washington. The Mission in Egypt will not implement a preshipment review program; therefore, the proposed rule has been withdrawn.

RIN: 0412–AA34

3357. MISCELLANEOUS AMENDMENTS; 22 CFR PART 228

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 2381

CFR Citation: 22 CFR 228.11; 22 CFR 228.21; 22 CFR 228.51; 22 CFR 228.53

Legal Deadline: None

Abstract: USAID proposes to amend its regulation on source, origin, and nationality by revising the rule on systems determination for commodities, revising the rule on ocean freight eligibility, and clarifying waiver provisions. The change in systems determinations will allow commodities to be shipped directly from their source rather than being shipped through an authorized country if the system is being assembled in the recipient country. The ocean freight rule change would require approval by USAID before a transshipment from a U.S. flag vessel to a foreign flag vessel would be eligible for USAID financing.

Commission on Civil Rights

Semiannual Regulatory Agenda

COMMISSION ON CIVIL RIGHTS (CCR)

COMMISSION ON CIVIL RIGHTS

45 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: Commission on Civil Rights.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda announces the regulations the U.S. Commission on Civil Rights will have under development during the 6-month period from October 1, 1998, through March 30, 1999. The purpose for publishing this agenda is to give notice of any regulatory activity by the Commission in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For further information on any items in the agenda, contact Stephanie Y. Moore, General Counsel, U.S. Commission on Civil Rights, Room 620, 624 Ninth Street NW., Washington, DC 20425, (202) 376-8351.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12866 "Regulatory Planning and Review" and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by the Commission are not "significant" rules within the meaning of E:O. 12866, and no regulatory impact analysis is required. The Commission has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public nor will the regulations have a significant economic impact on a substantial number of small entities. Accordingly, no regulatory analysis is required.

Stephanie Y. Moore,

General Counsel.

COMMISSION ON CIVIL RIGHTS (CCR)

Long-Term Actions

3367. COMMISSION ON CIVIL RIGHTS—UPDATE AND REVISION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 1975 to 1975f; 5 USC 552(a); 5 USC 552(b)

CFR Citation: 45 CFR 701; 45 CFR 702; 45 CFR 703

Legal Deadline: None

Abstract: The regulation updates and revises most of the Commission's current regulations, specifically 45 CFR 701, 702, 703. 45 CFR 701 identifies the organization and functions of the Commission. 45 CFR 702 specifies the rules on hearings, reports, and meetings of the Commission. 45 CFR 703 identifies the operations and functions of the Commission's State Advisory Committees.

Corporation for National and Community Service

Semiannual Regulatory Agenda

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE (CNCS)

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

45 CFR Ch. XXV

Executive Order 12866 "Regulatory Planning and Review"; Semiannual Agenda of Regulations

AGENCY: Corporation for National and Community Service.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda announces the regulations that the Corporation will have under development, revision, or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to provide the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the agency official listed for the particular agenda item. For other information concerning Corporation regulations or this semiannual agenda, contact Kenneth L. Klothen, General Counsel, Corporation for National and Community Service, 1201 New York Avenue NW., Washington, DC 20525, (202) 606-5000, ext. 290.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12866 "Regulatory Planning and Review" and the Regulatory Flexibility Act (5 U.S.C. 601), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The Corporation for National and Community Service has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no regulatory analysis is required under 5 U.S.C. 602.

Dated: August 27, 1998.

Wendy Zenker,

Chief Operating Officer.

3368. • SENIOR COMPANION PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 12501 et seq

CFR Citation: 45 CFR 1207; 45 CFR 2551

Legal Deadline: None

Abstract: The Senior Companion Program provides grants to eligible agencies and organizations to engage older persons, particularly those with limited incomes, in volunteer service to meet critical community needs. Program funds are used to support Senior Companions in providing supportive, individualized services to help adults with special needs maintain their dignity and independence. The program uses the skills and experiences of individuals age 60 and over as a resource to address local needs, and seeks to enrich the lives of older people through their participation in community service.

Environmental Protection Agency

Semiannual Regulatory Agenda

ENVIRONMENTAL PROTECTION AGENCY (EPA)

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[FRL-6161-5]

October 1998 Agenda of Regulatory and Deregulatory Actions

AGENCY: Environmental Protection Agency.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Environmental Protection Agency (EPA) publishes the Semiannual Agenda of Regulatory and Deregulatory Actions to update the public about our:

- Regulations currently under development,
- Reviews of existing regulations, and
- Rulemakings completed or canceled since the last Agenda.

EPA believes that, if the people affected by rules participate in developing them, we will wind up with rules that are clearer, less burdensome, and more effective.

ADDRESSES TO BE PLACED ON THE AGENDA MAILING LIST: If you would like to receive copies of future Agendas, please send a note with your mailing address to one of the following:

- By Mail to USEPA/NCEPI at P.O. Box 42419, Cincinnati, Ohio 45242,
- By Fax to (513) 489-8695, or
- By E-mail to ncepi.mail@epamail.epa.gov.

There is no charge for the Agenda.

FOR FURTHER INFORMATION CONTACT: We welcome your comments and suggestions. If you have general comments or questions about EPA's rulemaking process, please direct them to: Philip Schwartz (2136), Environmental Protection Agency, 401 M Street SW., Washington, DC 20460; phone: (202) 260-5493, fax: (202) 260-5478, e-mail: Schwartz.Philip@epa.gov.

If you have questions or comments about a particular rule, please communicate directly with the agency contact listed for that rule.

You can also get information on current EPA rulemakings from our Internet site on environmental regulations that we update every day. This site includes the text of proposed and final environmental rules issued by the EPA and by other agencies. It also includes an electronic version of this Agenda and EPA's regulatory plan published in part 2 of this issue of the **Federal Register**. The site is located at http://www.epa.gov/epahome/rules.html and is part of EPA's large agencywide Internet site which we invite you to visit at http://www.epa.gov.

We expect that the EPA net site will be an increasingly important means of communication between EPA and the public. We inaugurated this site about 4 years ago, and it has more than 100,000 documents and files currently available on-line. The site receives more than 30 million requests monthly.

SUPPLEMENTARY INFORMATION:

The Rulemaking Process

Congress has established a number of requirements that agencies must meet when they issue regulations. These requirements are designed to support the development of quality regulations and protect the rights of people affected by agencies' rules. These requirements are contained in the Administrative Procedure Act, the Regulatory Flexibility Act as amended by the Small Business Regulatory Enforcement Fairness Act, the Unfunded Mandates Reform Act, the Paperwork Reduction Act, the National Technology Transfer and Advancement Act, and the Congressional Review Act. An Internet site that contains information on Federal statutes is http://www.law.cornell.edu/uscode/.

President Clinton also established requirements that executive agencies must meet when developing regulations. Of particular significance for EPA rulemakings are Executive Orders 12866 (Regulatory Planning and Review), 12875 (Enhancing the Intergovernmental Partnership), 13045 (Children's Health Protection), and 13084 (Consultation and Coordination with Indian Tribal Governments). An Internet site that contains information on Executive orders is http://library.whitehouse.gov/.

We encourage you to participate in the rulemaking process to make your views known and help us develop rules that:

- Protect human health,
- Preserve and enhance the environment, and
- Meet environmental goals without being unnecessarily burdensome.

You can do this by getting in touch with the contact person for a particular rule and asking them about what opportunities are available to participate in developing the rule. You also can comment on proposed rules that we publish in the **Federal Register** and post on our Internet site. We will consider your comments and address them before issuing a final rule. To be most effective, comments should contain information and data which support your position, and you should explain why we should incorporate your suggestion in the final rule.

If you are interested in a particular rulemaking listed in the Agenda, contact the individual listed in the Agenda entry. Areas in which we are initiating regulatory action are listed in the Proposed Rules sections of this Agenda. Areas under consideration for regulatory action are listed in the Prerule sections.

In addition to rules, we also have included in this Agenda some of our more important guidance documents. While these documents do not have the force and effect of law because they are not legally binding on EPA or outside parties, they will guide our thinking in major policy areas, and we also invite you to participate in developing these documents.

EPA's Regulatory Philosophy and Priorities

EPA's efforts to develop a system that works better and costs less are focused on five areas: Greater public access to information, more regulatory flexibility to obtain better results, stronger partnerships with States and industries, more compliance assistance, and less paperwork and red tape. To learn more about what we are accomplishing in these areas, please refer to the "Statement of Regulatory Priorities" contained in EPA's regulatory plan in part 2 of this issue of the **Federal Register**.

What Actions Are Included in the Agenda?

EPA includes regulations and certain major policy documents in the Agenda. We do not generally include minor amendments or the following categories of actions in the Agenda:

- Under the Clean Air Act: Revisions to State Implementation Plans; Equivalent Methods for Ambient Air Quality Monitoring; Deletions from the New Source Performance Standards source categories list; Delegations of Authority to States; Area Designations for Air Quality Planning Purposes.
- Under the Federal Insecticide, Fungicide, and Rodenticide Act: Actions regarding pesticide tolerances and food additive regulations; decision documents defining and establishing registration standards; decision documents and termination decisions for the Rebuttable Presumption Against Registration process; and data call-in requests made under section 3(c)(2)(B).
- Under the Resource Conservation and Recovery Act: Authorization of State solid waste management plans; hazardous waste delisting petitions.
- Under the Clean Water Act: State Water Quality Standards; Deletions from the section 307(a) list of toxic pollutants; Suspensions of toxic testing requirements under the National Pollutant Discharge Elimination System (NPDES); Delegations of NPDES authority to States.
- Under the Safe Drinking Water Act: Actions on State underground injection control programs.

The Office of Management and Budget has exempted most of these actions from the Executive Order 12866 review procedures. There is no legal significance to the omission of an item from the Agenda.

How the Agenda Is Organized and the Relationship Between the Regulatory Agenda and Regulatory Plan

In accordance with E.O. 12866, we publish the EPA Agenda of Regulatory and Deregulatory Actions in April and October of each year as part of the Unified Agenda of Federal Regulatory and Deregulatory Actions. Also, in accordance with E.O. 12866, we publish the Regulatory Plan as part of the October Agenda. Entries in the Plan contain all of the information that is included in the Agenda entries, as well as some additional information on risks, costs, and benefits. Rules included in the Plan are the most significant rules that we expect to publish between October 1, 1998, and September 30, 1999. The Agenda contains information on actions that are less significant than the rules that are covered in the Plan. The Agenda also includes a list of rules that we will publish after September 30, 1999.

We have organized both the Agenda and the Plan:

- First, by the law that would authorize a particular regulation;
- Second, by the current stage of development (proposal, final, etc.); and
- Third, by the section number of the statute which requires or authorizes the rule.

The following 13 sections deal with 12 laws that EPA administers and a thirteenth broader section called "General" that includes cross-cutting actions, such as general acquisition rules and rules authorized by multiple statutes:

1. General
2. The Clean Air Act (CAA)
3. The Atomic Energy Act (AEA)
4. The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
5. The Toxic Substances Control Act (TSCA)
6. The Emergency Planning and Community Right-to-Know Act (EPCRA)
7. The Resource Conservation and Recovery Act (RCRA)
8. The Oil Pollution Act (OPA)
9. The Comprehensive Environmental Response, Compensation, and Liability Act [Superfund] (CERCLA)
10. The Clean Water Act (CWA)
11. The Safe Drinking Water Act (SDWA)
12. The Marine Protection, Research, and Sanctuaries Act (MPRSA)
13. The Shore Protection Act (SPA)

In each of these 13 sections there are up to five headings covering the following stages of rulemaking:

1. Prerulemakings—Prerulemaking actions are intended to determine whether EPA should initiate rulemaking. Prerulemakings may include anything that influences or leads to rulemaking, such as advance notices of proposed rulemaking (ANPRMs), significant studies or analyses of the possible need for regulatory action, requests for public comment on the need for regulatory action, or important preregulatory policy proposals. Finally, we also announce our intent to review certain existing regulations under section 610 of the Regulatory Flexibility Act in this section of the Agenda.
2. Proposed Rules—This section includes EPA rulemaking actions that are within a year of proposal (publication of Notices of Proposed Rulemakings (NPRMs)).
3. Final Rules—This section includes rules that are within a year of final promulgation.
4. Long-Term Actions—This section includes prerulemakings, proposed, and final rules with expected publication dates beyond the next 12 months.
5. Completed Actions—This section contains actions that have been promulgated and published in the **Federal Register** since publication of the April 1998 Agenda. It also includes actions that we are no longer considering. If an action appears in the completed section, it will not appear in future Agendas unless we decide to initiate action again, in which case it will appear as a new entry. EPA also announces the results of our Regultory Flexibility Act section 610 reviews in this section of the Agenda.

Agenda Entries

Agenda entries include the following information, where applicable:

Sequence Number: This indicates where the entry appears in the Agenda.

Title: Titles for new entries (those that haven't appeared in previous Agendas) are preceded by a bullet ("•"). The notation "Section 610 Review" follows the title if we are reviewing the rule as part of our periodic review of existing rules under section 610 of the Regulatory Flexibility Act (5 U.S.C. 610).

Priority: Entries are placed into one of five categories described below.

Economically Significant: As defined in Executive Order 12866, a rulemaking action that will have an annual effect on the economy of $100 million or more or will adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities.

Other Significant: A rulemaking that is not economically significant but is considered significant by the agency. This category includes rules that are an EPA priority and rules that EPA anticipates will be reviewed by the Office of Management and Budget under E.O. 12866 because they are likely to:

- create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;
- materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights or obligations of recipients; or

• raise novel legal or policy issues.

Substantive, Nonsignificant: A rulemaking that has substantive impacts but is neither Significant, nor Routine and Frequent, nor Informational/Administrative/Other.

Routine and Frequent: A rulemaking that is a specific case of a multiple recurring application of a regulatory program in the Code of Federal Regulations and that does not alter the body of the regulation.

Informational/Administrative/Other: A rulemaking that is primarily informational or pertains to agency matters not central to accomplishing the agency's regulatory mandate but that the agency places in the Agenda to inform the public of the activity.

Also, if we believe that a rule may be "major" as defined in section 804 of the congressional review provisions of the Small Business Regulatory Enforcement Fairness Act (SBREFA) (5 U.S.C. 804; Pub.L. 104-121) because it is likely to result in an annual effect on the economy of $100 million or more or meets other criteria specified in this law, we indicate this under the "Priority" heading with the statement "Major under 5 U.S.C. 801".

Legal Authority: The sections of the United States Code (U.S.C.), Public Law (P.L.), Executive Order (E.O.), or common name of the law that authorizes the regulatory action.

CFR Citation: The sections of the Code of Federal Regulations that will be affected by the action.

Legal Deadline: An indication of whether the rule is subject to a statutory or judicial deadline, the date of that deadline, and whether the deadline pertains to a Notice of Proposed Rulemaking, a Final Action, or some other action.

Abstract: A brief description of the problem the regulation will address.

Timetable: The dates (and citations) that documents for this action were published in the **Federal Register** and, where possible, a projected date for the next step. Projected publication dates frequently change during the course of a rule development. The projections in the Agenda are our best estimates as of the date we submit the Agenda for publication. If a date appears in this section as 00/00/00, the date of the action is currently undetermined. "Undetermined" indicates we are very uncertain about the date of completion of the action we will take next. Dates in 2000 or later are printed in the same form as other dates, using the last two digits of the year.

Regulatory Flexibility Analysis Required: Indicates whether EPA has prepared or anticipates that it will be preparing a regulatory flexibility analysis under section 603 or 604 of the Regulatory Flexibility Act. Generally, such an analysis is required for proposed or final rules that EPA believes may have a significant impact on a substantial number of small entities.

Small Entities Affected: Indicates which small entities (businesses, governmental jurisdictions, or organizations), if any, may be affected by the rule.

Government Levels Affected: Indicates whether the rule is expected to affect levels of government and, if so, whether the governments are State, local, tribal, or Federal.

Unfunded Mandates: Section 202 of the Unfunded Mandates Reform Act requires an assessment of anticipated costs and benefits if a rule includes a mandate that may result in expenditures of more than $100 million in any 1 year by State, local, and tribal governments, in the aggregate, or by the private sector. If the section 202 threshold is expected to be exceeded, we note that in this section.

Reinventing Government: If an action is part of the President's Reinventing Government Initiative, we indicate it in this section.

Agency Contact: The name, address, phone number, and e-mail address, if available, of a person who is knowledgeable about the regulation.

SAN Number: A code number that EPA uses to identify and track rulemakings.

RIN: The Regulatory Identifier Number is a code number that OMB uses to identify and track rulemakings.

Plan Entries

The Plan, which includes a Statement of Regulatory Priorities and information about the most significant actions that we will publish between October 1, 1998, and September 30, 1999, is published in part 2 of today's **Federal Register**. Plan entries include all of the Agenda data fields described above, plus up to five other types of information: Statement of Need, Summary of the Legal Basis, Alternatives, Anticipated Costs and Benefits, and a discussion of Risks.

Regulatory Flexibility Act Considerations

The Regulatory Flexibility Act (RFA) requires that an agency prepare a Regulatory Flexibility Analysis for any rule subject to notice and comment rulemaking requirements, unless the agency certifies that the rule will not have a "significant economic impact on a substantial number of small entities" (i.e., small governments, small businesses, and small nonprofit organizations). A Regulatory Flexibility Analysis must, among other items specified in the RFA, identify the extent to which small entities will be subject to the rule's requirements and describe any significant alternatives to the rule which accomplish the objectives of applicable statutes and which minimize any significant economic impacts on small entities. We have listed in the first index at the end of the Agenda all rules under development that we expect will require a Regulatory Flexibility Analysis.

In the "Small Entities Affected" section, we say whether we expect the action will have an impact on small entities that is less than a significant impact on a substantial number of small entities. All of the actions so identified are listed in the second index at the end of the Agenda.

Section 610 of the RFA requires that an agency review within 10 years of promulgation those regulations that have or will have a significant economic impact on a substantial number of small entities. We undertake these reviews to decide whether we should continue the rule unchanged, amend it, or withdraw it. We encourage small entities to provide comments on the need to change these rules, as these comments will factor into the Agency's determination to continue or amend the rules. In the "Prerule" sections of this Agenda, we report on two ongoing and one new 610 reviews. These entries have "Section 610 Review" after the title of the action. We also report on the status of nine previously initiated section 610 reviews in the "Completed Actions" sections of the Agenda. One rule previously identified as needing a 610 review, Importation of Nonconforming Vehicles, upon closer inspection turned out not to require one.

Dated: September 4, 1998.

David Gardiner,

Assistant Administrator, Office of Policy.

ENVIRONMENTAL PROTECTION AGENCY (EPA)

General

Proposed Rule Stage

3374. UTILIZATION OF SMALL, MINORITY AND WOMEN'S BUSINESS ENTERPRISES IN PROCUREMENT UNDER ASSISTANCE AGREEMENTS

Priority: Other Significant

Legal Authority: PL 101-507; PL 102-389; PL 101-549 sec 1001; 42 USC 9605(f); PL 100-590; EO 12432; EO 12138; EO 11625

CFR Citation: 40 CFR 33

Legal Deadline: None

Abstract: The regulation will codify revisions to the Agency's program for the utilization of Small, Minority and Women's Business Enterprises in procurements under assistance agreements (i.e., grants and cooperative agreements awarded by EPA as well as grants and cooperative agreements awarded by other agencies under interagency agreements with EPA). The revisions are necessary to ensure consistency with the Supreme Court's decision in Adarand Constructors, Inc. v. Pena, 115 S.Ct. 2097 (1995), and were identified as part of the Administration's recent review of affirmative action programs. They include: 1) placing greater emphasis on requiring assistance agreement recipients to submit documentation supporting proposed fair share procurement objectives for Minority Business Enterprises (MBEs) and Women's Business Enterprises (WBEs) based on the availability of qualified MBEs and WBEs in the relevant geographic market; 2) authorizing or requiring recipients and their prime contractors to take reasonable race/gender-conscious measures (e.g. bidding credits) in the event that race/gender-neutral efforts prove inadequate to meet fair share objectives; and 3) administering statutory MBE/WBE objectives as a national goal, allowing smaller or larger fair share objectives for particular grants or cooperative agreements based on the availability standard.

Proposed Rule Stage

3375. • REWRITING OF EPA REGULATIONS IMPLEMENTING THE FREEDOM OF INFORMATION ACT

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 552

CFR Citation: 40 CFR 2

Legal Deadline: None

Abstract: This document sets forth proposed revisions to the Agency's regulations under the Freedom of Information Act (FOIA). The FOIA regulations have been streamlined and condensed, in accordance with the principles of the National Performance Review, with more "user-friendly" language wherever possible. These revisions also reflect the principles established by President Clinton and Attorney General Reno in their FOIA Policy Memoranda of October 4, 1993. Additionally, the regulations have been updated to reflect developments in the case law and to include updated cost figures to be used in calculating and charging fees. These proposed revisions also contain new provisions implementing the Electronic Freedom of Information Act Amendments of 1996. These revisions will simplify and expedite responses to FOIA requests.

Priority: Other Significant

Legal Authority: 5 USC 301 sec 205(c); 63 Stat 390 as amended

CFR Citation: 48 CFR 1503; 48 CFR 1515; 48 CFR 1552

Legal Deadline: None

Abstract: This rule is being promulgated to redesignate EPAAR subparts and sections for structural conformance with the FAR part 15 rewrite as published on September 30, 1997, and EPA implemented on December 19, 1997. The EPAAR is in substantive compliance, but requires extensive redesignation for structural conformance to the FAR. Also, EPAAR 1515 is of critical importance to the effective and efficient accomplishment of EPA acquisitions. The substance of EPAAR 1515 was published previously for public comment.

3379. • EPAAR COVERAGE ON CONTRACTOR PERFORMANCE EVALUATIONS

Priority: Other Significant

Legal Authority: 5 USC 301 Sec 205(c); 63 Stat 390 as amended

CFR Citation: 48 CFR 1509; 48 CFR 1552

Legal Deadline: None

Abstract: This rule will establish a solicitation provision and contract clause in the EPA Acquisition Regulation to be used when evaluating contractor performance. The rule provides a uniform method for determining and recording the effectiveness of contractors in meeting contractual obligations. It also provides a systematic approach for identifying and maintaining records of contractors' performance histories. This rule will satisfy the Federal Acquisition Regulation requirements pertaining to the establishment of a past performance evaluation system.

Proposed Rule Stage

3380. • EPAAR COVERAGE ON LOCAL HIRING AND TRAINING

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 301 sec 205(c); 63 Stat 390 as amended

CFR Citation: 48 CFR 1526; 48 CFR 1552

Legal Deadline: None

Abstract: This rule will amend the EPA Acquisition Regulation (EPAAR) to include part 1526, Other Socioeconomic Programs, and to revise part 1552, Solicitation Provisions and Contract Clauses. The purpose is to provide an incentive for prime contractors to utilize local hiring and provide training to local hires in specific geographical locations where contractual requirements will be performed and to support economic development in areas where underemployment is high and jobs are scarce.

3381. • SERVICE CONTRACTING—AVOIDING IMPROPER PERSONAL SERVICES RELATIONSHIPS

Priority: Other Significant

Legal Authority: 5 USC 301 sec 205(c); 63 Stat 390 as amended

CFR Citation: 48 CFR 1537; 48 CFR 1552

Legal Deadline: None

Abstract: This rule is being promulgated to amend the EPAAR to highlight the proper relationship between the Government and its contractors in nonpersonal services contracts. The Agency recognizes that regardless of the express terms of its contracts, if a contract is administered improperly, an improper personal services relationship may be the result. Accordingly, the Agency will use this rule to state the manner in which nonpersonal services contracts must be administered to avoid creating an improper employer-employee relationship.

3386. REVISION OF EPA ACQUISITION REGULATIONS FOR QUALITY SYSTEMS FOR ENVIRONMENTAL PROGRAMS

Priority: Substantive, Nonsignificant

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR 1546.2

Legal Deadline: None

Abstract: EPA is updating the quality assurance requirements in its Acquisition Regulation (EPAAR). The Agency relies on environmental measurement data in many of its activities, including regulatory development, the application of regulations (e.g., permitting, enforcement actions), and research programs. The Agency must be ensured that the data are of appropriate type and quality to support the proposed use (that data meet the needs for rulemaking, enforcement action, etc.). The extramural community has been using the existing EPAAR QA requirements since 1984 and recognizes the need to update these requirements to reflect the current understanding of quality systems.

3387. IMPLEMENTATION OF CHANGES TO 40 CFR PART 32

Priority: Info./Admin./Other

Legal Authority: EO 12549; EO 12689 and FASA

CFR Citation: 40 CFR 32

Legal Deadline: None

Abstract: Periodically OMB amends the Governmentwide Common Rule for suspension and debarment of contractors and assistance participants who threaten the integrity of Federal programs because of criminal misconduct or poor performance. All agencies must issue changes to their individual codified versions to conform to the Common Rule. Recently, the Interagency Suspension and Debarment Coordinating Committee prepared recommendations for comprehensive changes to the Common Rule to conform to changes made in the Federal Acquisition Regulation (FAR) as a result of the Federal Acquisition Streamlining Act (FASA). In addition, several other proposals to improve or change the rule were recommended by various agencies. In December, 1996, OMB declined to implement the changes at this time due to differences with some agencies about some changes unrelated to those occasioned by FASA.

Among other things, FASA replaced the small purchase threshold ($25,000) with the simplified acquisition amount ($100,000). That change unintentionally exposed certain EPA programs to participation by contractors who may have been debarred for serious misconduct already. OMB has agreed to permit agencies to amend the coverage section of their individual agency rules to reduce or eliminate exposure to suspended or debarred persons.

EPA intends to issue a notice of proposed rulemaking to amend 40 CFR

3388. CONSOLIDATION OF GOOD LABORATORY PRACTICE STANDARDS (GLPS) REGULATIONS CURRENTLY UNDER TSCA AND FIFRA INTO ONE RULE

Priority: Info./Admin./Other

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 7 USC 136 et seq; 15 USC 2601 et seq

CFR Citation: 40 CFR 160; 40 CFR 792

Legal Deadline: None

Abstract: On November 29, 1983, EPA published Good Laboratory Practice Standards (GLPS) regulations intended to help ensure data integrity for studies required to support marketing and research permits under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). These rules were last amended on August 17, 1989. GLPS data integrity measures can be applied to a wide variety of scientific studies. Although the TSCA and FIFRA GLPS contain identical provisions, they were published as separate rules to account for statutory and program differences between TSCA and FIFRA, such as differences in records retention requirements. EPA believes it will be able to address the differences between TSCA and FIFRA, such as differences in records retention requirements. EPA believes it will be able to address the differences of those programs without duplicating the entire GLP standard in two places.

This action is intended to consolidate EPA's GLPS into one rule. Program-specific requirements will be addressed in either separate sections of the consolidated rule, or in separate rules as is determined appropriate. This action is not intended to change the requirements, applicability, or enforceability of GLPS with respect to any statute.

EPA has received comments from stakeholders regarding the understandability of many aspects of the GLPS, and over the years has issued numerous clarifications. EPA believes that some clarifications, if included directly in the rule, would make the rule easier to understand and enhance compliance. Therefore, EPA intends to include such clarifications where appropriate in this rulemaking. Finally, in the interest of maintaining consistency between EPA's and Food and Drug Administration's regulations, EPA will determine any modifications that have occurred to the FDA GLP rule and consider incorporation of such changes into the EPA rule. This action will serve to reduce the total regulatory text in the Code of Federal Regulations by an estimated 10 pages, by consolidating 23 pages of text to approximately 13. In the process it will provide a generic GLP rule that may be used by other programs in the Agency.

Final Rule Stage

3389. • ELECTRONIC FUNDS TRANSFER

Priority: Other Significant

Legal Authority: 5 USC 301 Sec 205(c); 63 Stat 390 as amended

CFR Citation: 48 CFR 1532.11

Legal Deadline: None

Abstract: This rule complies with the revised Federal Acquisition Regulations (FAR) coverage regarding implementation of the Debt Collection Improvement Act. Because the revised FAR offers choices in implementation, each agency must communicate with its vendor community its choices. This rule will let our vendor community know that EPA will require the use of FAR Clause 52.232-34, Payment by Electronic Funds Transfer (Non-CCR), as prescribed in FAR 32.1105(a)(2). Within the Clause, under (c) "the payment office" shall be inserted as the prescribed designated office. Further inserted shall be that the required EFT information shall be provided "no later than 15 days prior to submission of the first request for payment."

RIN: 2030–AA58

3391. GUIDELINES FOR CARCINOGEN RISK ASSESSMENT

Priority: Info./Admin./Other

Legal Authority: Not applicable

CFR Citation: None

Legal Deadline: None

Abstract: The Agency will use these guidelines to evaluate suspect carcinogens in line with the policies and procedures established in the statutes administered by the EPA. These guidelines revise and replace EPA Guidelines for Carcinogen Risk Assessment published at 51 FR 33992, September 24, 1986. These guidelines provide EPA staff and decision-makers with the directions and perspectives necessary to develop and use risk assessments. The guidelines also provide the general public with basic information about the Agency's approaches to risk assessment.

To develop guidelines the Agency must find a balance between consistency and innovation. Consistent risk assessments provide consistent bases to support regulatory decision-making. On the other hand, innovation is necessary so the Agency will base its decisions on current scientific thinking. In balancing these and other science policies, the Agency relies on input from the general scientific community through established scientific peer review processes. The guidelines incorporate basic principles and science policies based on evaluation of the currently available information. The revisions place increased emphasis on the role of carcinogenic mechanisms in risk assessment and clearer explication of underlying assumptions in risk assessment.

These guidelines will have minimal to no impact on small businesses or State, local, and tribal governments.

EPA—GENERAL — Final Rule Stage

Legal Deadline: None

Abstract: EPA regulations at 40 CFR part 2, subpart B, provide procedures for handling and disclosing information claimed as CBI. Although these regulations have succeeded in protecting business information, changes in Agency workload, practice, and statutory authority have outstripped the ability of these regulations to cut down on unnecessary procedures, expedite activities involving confidential business information, and simplify the regulations. In addition, EPA would consolidate confidentiality provisions from other parts of 40 CFR.

3394. ENVIRONMENTAL IMPACT ASSESSMENT OF NONGOVERNMENTAL ACTIVITIES IN ANTARCTICA

Priority: Other Significant

Legal Authority: 16 USC 2401 et seq as amended, 16 USC 2403a; PL 104-227

CFR Citation: 40 CFR 8

Legal Deadline:
Final, Statutory, October 2, 1998, See additional information.

Abstract: The purpose of this action is to develop regulations for: (1) the environmental impact assessment of nongovernmental activities, including tourism, for which the United States is required to give advance notice under paragraph 5 of Article VII of the Antarctic Treaty and (2) coordination of the review of information regarding environmental impact assessment received by the United States from other parties under the Protocol on Environmental Protection. The Office of Federal Activities (OECA/OFA) will use the decisionmaking process of the National Environmental Policy Act (NEPA) to analyze the environmental setting; the types of nongovernmental activities, including tourism, to be addressed by the regulations; their potential for impact; and the alternatives available under rulemaking for environmental impact assessments for nongovernmental activities. An interim final rule, 40 CFR part 8, promulgated April 30, 1997, and on July 15, 1998 extended through the 2000-2001 austral summer, will be replaced by a final rule. The interim final rule was effective immediately so that the U.S. could ratify the Protocol and implement its obligations under the Protocol as soon as it entered into force. These rules are being developed in coordination with other Federal agencies with specific interests in and expertise with Antarctica including the Department of State, National Science Foundation, National Oceanic and Atmospheric Administration, U.S. Coast Guard, Marine Mammal Commission, Department of Justice, and the Council on Environmental Quality.

3400. CONSOLIDATED EMISSION REPORTING RULE

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7410(a)(2)

CFR Citation: 12 CFR 120.2(d)(4); 40 CFR 51.321 to 51.323

Legal Deadline: None

Abstract: Three sections of the Clean Air Act and its amendments require State agencies to report emission estimates to EPA. Some of these sections contain obsolete wording, inconsistent instructions, and duplicate reporting requirements. This rule will consolidate the requirements into one area, eliminate obsolete wording, eliminate duplicate reporting requirements, and provide options for collecting and reporting data. There will be no impact on small businesses. State agencies will continue to report the same or reduced amounts of data to EPA. The rule will provide for flexibility in collecting and reporting data. There will be no affect on local agencies.

3401. PROTECTION OF STRATOSPHERIC OZONE: ALLOWANCE SYSTEM FOR CONTROLLING HCFC PRODUCTION, IMPORT AND EXPORT

Priority: Info./Admin./Other

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 82.8

Legal Deadline: None

Abstract: This action will begin with development of an ANPRM which will outline a variety of options under which the Stratospheric Protection Division could develop and implement an allowance distribution system for HCFCs, and request comment on which options would be most appropriate. SPD currently oversees an allowance allocation system for the class I ozone-depleting substances. A class II allowance distribution system had not been required, because of the early estimates that the U.S. would not reach its HCFC production and consumption cap imposed by the Montreal Protocol in the near future. As people phase out of class I substances, the demand for HCFCs has increased, as has the production and importation to meet that demand. As a consequence, EPA is exploring potential options for an allowance distribution system that would ensure that the U.S. does not violate its HCFC cap under the Montreal Protocol.

RIN: 2060–AH67

3402. STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES; NEW RESIDENTIAL WOOD HEATERS (SECTION 610 REVIEW)

Priority: Info./Admin./Other

Legal Authority: 5 USC 610; Clean Air Act sec 112

CFR Citation: 40 CFR 60

Legal Deadline: None

Abstract: On February 26, 1988, EPA promulgated standards of performance limiting emissions of particulate matter (PM) from new residential wood heaters. Wood heaters were determined to cause, or contribute significantly to, air pollution which may reasonably be anticipated to endanger public health or welfare. EPA performed a Regulatory Flexibility Analysis for this rule and determined that it would have a significant impact on a substantial number of small entities.

EPA is initiating a review of this rule under section 610 of the Regulatory Flexibility Act to determine if the rule should be continued without change, or should be amended or rescinded, to minimize adverse economic impacts on small entities. EPA will consider, and solicits comment on, the following factors: (1) the continued need for the rule; (2) the nature of complaints or comments received concerning the rule; (3) the complexity of the rule; (4) the extent to which the rule overlaps, duplicates, or conflicts with other Federal, State, or local government rules; and (5) the degree to which technology, economic conditions, or other factors have changed in the area affected by the rule.

This rule is also being separately reviewed as part of a process to reduce unnecessary recordkeeping and reporting requirements. (See RIN 2060-AG30)

ENVIRONMENTAL PROTECTION AGENCY (EPA)
Clean Air Act (CAA) — Proposed Rule Stage

3403. • REDEFINITION OF GLYCOL ETHERS LISTED AS HAPS UNDER THE CLEAN AIR ACT, AND HAZARDOUS SUBSTANCES UNDER CERCLA

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq; 42 USC 9602; 33 USC 1321 and 1361

CFR Citation: 40 CFR 63 (Revision); 40 CFR 302 (Revision)

Legal Deadline: None

Abstract: The proposed action will redefine the glycol ethers category of hazardous air pollutants (HAPs) regulated under the Clean Air Act and hazardous substances under the Comprehensive Emergency Response, Compensation, and Liability Act. The new definition will omit specific compounds of high molecular weight used as surfactants by the soap and detergent industry. These compounds have low volatility, so only minor amounts are emitted during manufacture and use of soaps and detergents. The compounds also have low toxicity, so the small amounts that are released are extremely unlikely to cause any harm to health or the environment. The proposal will reduce the burden of environmental regulations on soap and detergent manufacturers, and will have no adverse environmental impact.

Timetable:

Action	Date	FR Cite

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: Title III of the Clean Air Act amendments of 1990 requires EPA to develop national emission standards for hazardous air pollutants (NESHAPs). EPA promulgated NESHAP rules for petroleum refineries on August 18, 1995 (RIN 2060-AD94). This action covers three process vents not covered under RIN 2060-AD94. These are the catalyst regeneration vents from fluid catalytic cracking units (FCCU) and catalytic reformers and the tail gas vents from sulfur recovery plants.

RIN: 2060–AF34

3412. COMPREHENSIVE RADIATION WASTE MANAGEMENT REGULATION

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 2011 to 2296; 5 USC app 1; 15 USC 2601 to 2671

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The proper management (i.e., storage, treatment and disposal) of radioactive wastes depends on a number of factors. These include the type and quantity of waste, the availability of storage, treatment and disposal facilities, and the cost of management of these wastes. Another rulemaking, EPA's radiation site cleanup rule, will be concerned with the cleanup standards for sites contaminated with radioactivity. As contaminated sites are cleaned up, a tremendous quantity of radiation contaminated waste, including mixed waste, will be generated. The Agency intends that the comprehensive radiation waste management rule will promote consistent, protective, and cost-effective management of such wastes at Federal facilities.

3416. AMENDMENT TO STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES; MONITORING REQUIREMENTS (PS-1)

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act sec 407

CFR Citation: 40 CFR 60

Legal Deadline: None

Abstract: This action proposes to clarify and update requirements for source owners and operators who must install and use continuous stack or duct opacity monitoring equipment. This action also proposes amendments regarding design and performance validation requirements for continuous opacity monitoring system (COMS) equipment in appendix B, PS-1. These amendments to subpart A and PS-1 will not change the affected facilities' applicable emission standards or requirement to monitor. The amendments will: (1) clarify owner and operator and monitor vender obligations, (2) reaffirm and update COMS design and performance requirements, and (3) provide EPA and affected facilities with equipment assurances for carrying out effective monitoring. The specifications shall apply to all COMS's installed or replaced after the date of promulgation. Following promulgation, a source owner, operator, or manufacturer will be subject to these performance specifications if installing a new COMS, relocating a COMS, replacing a COMS, recertifying a COMS that has undergone substantial refurbishing, or has been specifically required to recertify the COMS with these revisions.

Legal Authority: 42 USC 7401 to 7626

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 2000.

Abstract: Section 129 of the Clean Air Act, as amended November 1990, requires the Administrator to establish new source performance standards and emission guidelines for new and existing solid waste incineration units including units that incinerate municipal sewage sludge. The standards and guidelines are to specify numerical emission limitations for the following substances: particulate matter (total and fine), opacity (as appropriate), sulfur dioxide, hydrogen chloride, oxides of nitrogen, carbon monoxide, lead, cadmium, mercury, and dioxins and dibenzofurans. In addition, the standards and guidelines are to include requirements for emissions and parameter monitoring and provisions for operator training and certification.

3420. TRANSPORTATION CONFORMITY RULE AMENDMENT: CLARIFICATION OF TRADING PROVISIONS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 7401 to 7671 Clean Air Act sec 176(c)

CFR Citation: 40 CFR 51; 40 CFR 93

Legal Deadline: None

Abstract: The transportation conformity rule, promulgated in November 1993, ensures that transportation and air quality planning are consistent with Clean Air Act air quality standards. The Open Market Trading Guidance provides guidance to states for establishing a method to quantify emissions reductions (called discrete emissions reductions or DERs) that can be traded among parties and how such trading should occur. This action will amend the transportation conformity rule to clarify how emissions trading could be reconciled in the conformity process.

3421. STREAMLINED EVAPORATIVE TEST PROCEDURES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7521(m)

CFR Citation: 40 CFR 86 (Revision)

Legal Deadline: None

Abstract: This action will streamline the test procedure used to establish compliance with evaporative emission requirements for light duty vehicles and trucks. The current test procedure requires both two and three day diurnal emission tests; as well as running lost testing. The revisions will delete the three day requirement and add flexibilities for running loss compliance. This will enable manufacturers to save significant resources without any loss in environmental benefits.

3422. REVIEW OF MINOR NEW SOURCES AND MODIFICATIONS IN INDIAN COUNTRY

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7410

CFR Citation: 40 CFR 51.165; 40 CFR 51.166; 40 CFR 52.10; 40 CFR 52.21

Legal Deadline: None

Abstract: Consistent with its trust responsibility to Indian tribes, EPA proposes to develop a permit program that would extend to Indian country some of the same protections that States afford their citizens through minor new source review and non-attainment major new source review programs. The proposed rule would require that stationary air sources located in Indian country obtain a permit prior to construction or undergoing modification, in certain cases. Permits would be required of minor sources that exceed a specified emissions threshold if they propose to construct or make a modification that will increase emissions from the source. The proposed rule would allow existing stationary sources to accept federally enforceable limits in order to be considered as minor sources for the applicability of other source requirements.

3423. REVISIONS TO CLARIFY THE PERMIT CONTENT REQUIREMENTS FOR STATE OPERATING PERMITS

Priority: Substantive, Nonsignificant

Legal Authority: 41 USC 7661 et seq

CFR Citation: 40 CFR 70.6

Legal Deadline: None

Abstract: The proposed rule will revise the permit content requirements for State operating permit programs to clarify EPA's existing regulations and policy that require all applicable requirements to be included in title V operating permits. This action will also require a few approved State programs that are inconsistent with this policy and that EPA did not identify as such during program approval actions to be revised. In addition, this action will take comment on allowing an exemption from permit content requirements for insignificant activities that are subject to certain applicable requirements that are found only in State Implementation Plans and will finalize such provisions if it is convinced by comments that such a policy is appropriate. The benefit of the proposed action is that it will clarify existing permit content requirements. There is no anticipated impact on small businesses as this rulemaking only clarifies existing requirements and takes comment on exemptions that may further streamline permits. Impact on State or local governments is limited to a small number of State programs where certain applicable requirements are exempt from permit content requirements in conflict with existing EPA requirements.

3424. REVISIONS TO NEW SOURCE REVIEW (NSR) REGULATIONS TO IMPLEMENT THE NEW NATIONAL AMBIENT AIR QUALITY STANDARDS (NAAQS) FOR OZONE

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 51.160 to 51.166; 40 CFR 52.21; 40 CFR 52.24

Legal Deadline: None

Abstract: The Clean Air Act requires that construction permit programs for new or modified major stationary sources of air pollution be established for areas not attaining the NAAQS. Regulations setting forth requirements for State and Federal permitting programs are found at 40 CFR 51.160-166 and 52.21 and 52.24, respectively.

The proposed regulations implement preconstruction permit requirements for new and modified major stationary sources locating in areas that do not meet the new, 8-hour NAAQS for ozone, but do meet the 1-hour ozone standard. The rules are intended to implement the major NSR provisions in a flexible, common sense, cost-effective, and non-burdensome manner by allowing States with these nonattainment areas to make minimal changes to their existing major preconstructed permit programs in their State implementation plans. The EPA will continue to work with other Federal agencies, State and local governments, small businesses, industry, and environmental and public health groups to develop the requirements.

3425. NESHAP: COKE OVENS: PUSHING, QUENCHING, AND BATTERY STACKS

Priority: Other Significant

Legal Authority: 42 USC 7412

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 2000.

Abstract: There are currently 25 active domestic coke plants, 20 of which are furnace coke plants and 5 of which are foundry coke plants. Coke oven batteries used to produce metallurgical coke at these plants emit hazardous air pollutants (HAPs) such as coke oven emissions and polycylic organic matter listed in section 112 of the Clean Air Act (CAA).

This action will establish a National Emission Standard for Hazardous Air Pollutants (NESHAP) for three specific operations associated with coke ovens, namely pushing, quenching, and battery stacks.

3426. ACID RAIN PROGRAM: DETERMINATION ON SECTION 75.7 (EPA STUDY OF BIAS TEST) AND SECTION 75.8 (RELATIVE ACCURACY AND AVAILABILITY ANALYSIS)

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 7651 et seq

CFR Citation: 40 CFR 75 (Revision)

Legal Deadline: None

Abstract: On January 11, 1993, EPA promulgated the final core acid rain rules, including the Continuous Emission Monitoring (CEM) regulation at 40 CFR part 75. Since the rule was promulgated, the 263 Phase I and 783 Phase II utility units have already begun to comply with this regulation by installing and completing certification testing by the January 1, 1995 statutory deadline.

As part of the original acid rain rulemaking and subsequent settlements with industry and environment groups, the Agency agreed to undertake field studies and analyze performance data to determine if current bias test requirement should be tightened (environmental group request). The regulatory requirements that were originally at issue have been shown to be workable and effective and are now generally accepted as integral parts of the acid rain regulations. In particular, through the field tests and analysis of 3 years' worth of performance test data, the Agency is in a position to allay industry's concern that the bias test is arbitrary and environmentalists' concern that the relative accuracy test and availability trigger condition are insufficiently stringent.

3427. FINAL RULE TO AMEND THE NATIONAL EMISSION STANDARDS FOR MAGNETIC TAPE MANUFACTURING OPERATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63.703(c)(4); 40 CFR 63.705

Legal Deadline: None

Abstract: The EPA is amending the promulgated emission standards for Magnetic Tape Manufacturing to include an additional compliance option for facilities that choose to control their coatings operation to a hazardous air pollutant (HAP) reduction efficiency greater than 95% by weight. In the currently promulgated standard, compliance options are provided whereby a facility operator may choose to control HAP emissions from all coating operations by an overall HAP control efficiency of at least 97%, 98% or 98%, in lieu of controlling 10, 15, or 20 HAP solvent storage tanks, respectively. This amendment would provide a further option that a facility operator controlling the coating operations by one of those higher control efficiencies could choose to leave uncontrolled certain combinations of storage tanks and/or pieces of mix preparation equipment.

3428. NESHAP: ORGANIC HAZARDOUS AIR POLLUTANTS FROM THE SYNTHETIC ORGANIC CHEMICAL MANUFACTURING INDUSTRY (SOCMI) & OTHER PROCESSES SUBJECT TO THE NEGOTIATED REGULATION FOR EQUIPMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63.100 to 63.152

Legal Deadline: None

Abstract: The actions will amend the HON that was first promulgated on April 22, 1994, to clarify applicability of process vent requirements. The changes to the rule will clarify the EPA's intent regarding the meaning of the term process vent and address the way these provisions are to be implemented through the permit rule. The need for this action became apparent recently when it was learned that industry was interpreting the definition more narrowly than we intended, and thus, not identifying all process vents subject to the HON. These amendments will clarify the rule to ensure consistent interpretations of the term process vent while preserving the intended applicability of the requirements. These clarifications will not increase or lower or otherwise affect emissions or environmental protection. Additionally, the actions may clarify additional sections of the HON and correct any typographical errors noted. These actions may contain guidance as well as amended rule language.

3429. PERFORMANCE SPECIFICATION 16 - SPECIFICATIONS AND TEST PROCEDURES FOR PREDICTIVE EMISSION MONITORING SYSTEMS IN STATIONARY SOURCES

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act section 111

CFR Citation: 40 CFR 60

Legal Deadline: None

Abstract: Performance Specification 16 is being proposed to provide performance criteria for predictive emission monitoring systems. Predictive systems represent a new technology that uses process information or parameters to predict pollutant emissions instead of directly measuring them. The Agency is allowing their use in recently-promulgated rules and they are being considered by a number of regulated facilities. The specification lists the requirements for acceptable systems that are met by passing tests that compare the monitoring system with standardized methods and audit gases to determine system accuracy and stability. Performance Specification 16 will primarily apply to facilities whose emissions can be predicted from process parameters such as combustion processes (including gas turbines and internal combustion engines).

3430. FEDERAL IMPLEMENTATION PLANS TO REDUCE THE REGIONAL TRANSPORT OF OZONE IN THE EASTERN UNITED STATES; PROPOSED RULES

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 42 USC 7410

CFR Citation: 40 CFR 52; 40 CFR 97; 40 CFR 98

Legal Deadline:
Final, Statutory, See additional information.

Abstract: This action proposes to require emissions decreases in 22 States and the District of Columbia. The intended effect is to reduce the transport of ozone (smog) pollution and one of its main precursors--emissions of nitrogen oxides (NOx)--across State boundaries in the eastern half of the United States. The emission sources affected by this action are in the Ozone Transport Assessment Group (OTAG) Region.

On November 7, 1997, EPA proposed to find that the transport of ozone from certain States in the OTAG region (the 37 eastern most States and the District of Columbia) contribute significantly to nonattainment of the ozone national ambient air quality standards (NAAQS), or interfere with maintenance of the NAAQS, in downwind States. Further, EPA proposed the appropriate levels of NOx emissions that each of the affected States will be required to achieve. That proposal allows States 12 months to develop, adopt, and submit revisions to their State implementation plans (SIPs) in response to the final rulemaking.

The Administrator is required to promulgate a Federal implementation plan (FIP) within 2 years of: (1) finding that a State has failed to make a required submittal or (2) finding that a submittal is not complete or (3) disapproving a SIP submittal. Although the Clean Air Act allows EPA up to 2 years after the finding to promulgate a FIP, EPA intends to expedite the FIP

promulgation to help assure that the downwind States realize the air quality benefits of regional NOx reductions as soon as practicable. Therefore, EPA is proposing FIPs at the same time as final action is taken on the November 7, 1997, proposal. Furthermore, EPA intends to make a finding and promulgate a FIP immediately after the SIP submittal due date for each upwind State that fails to submit a SIP.

3431. FINDINGS OF SIGNIFICANT CONTRIBUTION AND RULEMAKING ON SECTION 126 PETITIONS FOR PURPOSES OF REDUCING INTERSTATE OZONE TRANSPORT

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 42 USC 7426

CFR Citation: 40 CFR 52; 40 CFR 75; 40 CFR 97

Legal Deadline:
Other, Statutory, April 30, 1998, See additional information.

Abstract: In August 1997, eight northeastern States (Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, Pennsylvania, and Vermont) submitted individual petitions to EPA under section 126 of the Clean Air Act. Each petition requests that EPA make a finding that certain major stationary sources in upwind States contribute significantly to ozone nonattainment problems in the petitioning State. The petitions target sources in the eastern half of the United States. If EPA grants the requested findings, EPA must establish Federal emission control requirements for the affected sources. Sources would have to comply with the emissions limits within three years from the finding. These sources may also subjected to State-adopted emission limitations and control schedules in response to a separate EPA rulemaking action on regional ozone transport that EPA proposed in October 1997. In this related action, EPA made a proposed finding that emissions from 22 eastern States and the District of Columbia significantly contribute to nonattainment problems in downwind States. EPA proposed that these States and DC must revise their State implementation plans to include provisions that will reduce State-wide nitrogen oxide emissions (an ozone precursor) to a specified level. Because this ozone transport rulemaking overlaps considerably with the section 126 petition process, EPA believes it is important to coordinate the two actions as much as possible. On December 17, 1997, EPA signed a memorandum of agreement with the eight petitioning States concerning the schedule for EPA action on the petitions. The agreement provides EPA with additional time beyond the statutory deadline for analyzing the technical merits of the petitions and carrying out the rulemaking process. The agreement is designed to ensure that EPA will take timely action on the petitions while recognizing that EPA is simultaneously examining ozone transport through a State-based process.

Regulatory Flexibility Analysis Required: Yes

Small Entities Affected: Businesses, Governmental Jurisdictions

Government Levels Affected: Local, Federal

Sectors Affected: 221112 Fossil Fuel Electric Power Generation

Additional Information: SAN No. 4095

Legal Deadline continued:
Memorandum of Agreement: The section 126 petitions request EPA to establish emission limitations and compliance schedules for groups of stationary sources that may also be subject to emissions limitations in State implementation plans submitted in response to an ozone transport rulemaking that EPA proposed in October 1997. The Clean Air Act establishes deadlines for taking final action on section 126 petitions. However EPA has negotiated and signed a memorandum of agreement with the petitioning States on a schedule for taking action on the petitions which goes beyond the statutory timeframe. The memorandum of agreement is designed to ensure that EPA will take timely action on the petitions while recognizing that EPA is simultaneously examining regional ozone transport in a separate rulemaking. The memorandum of agreement requires EPA to meet the following schedule:

ANPRM: publish in Federal Register by April 30, 1998.

NPRM: publish in Federal Register by September 30, 1998.

Final action by April 30, 1999.

The petitioning States have sued EPA for missing the statutory deadline for action and they intend to submit to the court a proposed consent decree that incorporates the terms of the memorandum of agreement.

3432. WET-FORMED FIBERGLASS MAT PRODUCTION NESHAP

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 1857 et seq; 44 USC 350 et seq; 5 USC 605; EO 12866

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 2000.

Abstract: The CAA required the EPA to publish an initial list of all categories of major and area sources of hazardous air pollutants (HAPs) listed in section 112(b) of the CAA and to establish and meet dates for promulgation of emission standards for each of the listed categories of HAP emissions sources. The wet-formed fiberglass mat production industry is not included in the initial list of categories for standards development but information available to the Administrator suggests that the industry is a major source of HAP emissions and, as such, emission standards shall be developed for this industry. The standards are to be technology-based and are to require the maximum degree of reduction determined to be achievable by the Administrator. The EPA has determined that the wet-formed fiberglass mat production industry may be reasonably expected to emit one of the pollutants listed in section 112(b) of the CAA. The purpose of this action is to include the industry in the source category list and to pursue a regulatory development program such that emission standards may be proposed and promulgated for this industry.

3433. TECHNICAL CHANGE TO DOSE METHODOLOGY FOR 40 CFR 191, SUBPART A

Priority: Routine and Frequent

Legal Authority: Atomic Energy Act of 1954; Reorganization Plan No. 3 of 1970; Nuclear Waste Policy Act of 1982

CFR Citation: 40 CFR 191(A)

Legal Deadline: None

Abstract: This action is a technical change to the dose methodology for subpart A, Environmental Standards for Management and Storage, of 40 CFR 191, Environmental Radiation Protection Standards for the Management and Disposal of Spent Nuclear Fuel, High-Level and Transuranic Radioactive Wastes. The current methodology is outdated. The new method, which would be employed as a result of this action, is consistent with recent radiation protection standards as well as Federal Guidance reports issued by EPA. No significant impacts from this action are anticipated.

3434. REVISIONS TO THE POLLUTANT STANDARDS INDEX AND SIGNIFICANT HARM LEVEL PROGRAMS FOR OZONE AND PARTICULATE MATTER

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: This regulation will update the Pollutant Standards Index (PSI) and the Significant Harm Level (SHL) Programs to reflect revisions to the NAAQS for ozone and particulate matter. The PSI program is codified in section 58.50 and appendix G to part 58, and the SHL program is codified in sections 51.150 to 51.153 and appendix L to part 51, of the CFR. Also included in this regulatory package is the deletion of the last sentence in section 51.115(e) of the CFR.

Section 58.50 and appendix G to part 58 require that States report to the public an air quality index, the Pollutant Standards Index, which translates ambient concentrations of five of the criteria pollutants to a uniform, numerical index, ranging from 0 to 500. The scale of the PSI is based on human health effects information. Revisions will be made to the ambient concentrations which specify the breakpoints between the PSI categories (i.e., the good, moderate, unhealthful, very unhealthful, and hazardous categories) and associated example health advisories.

Sections 51.150-51.153 of the CFR require that States have contingency plans to prevent air pollution emergency episodes from reaching the significant harm level. Appendix L provides example guidance to the States on appropriate courses of action that should be taken at each stage of the episode (i.e., alert, warning and emergency) to ensure the SHL is not reached.

Section 51.115(e) reads: In developing an ozone control strategy for a particular area, background ozone concentrations and ozone transported into an area must be considered. States may assume that the ozone standard will be attained in the upwind areas. Because of the increase in knowledge about transport and because of action taken in the NOx State Implementation Plan (SIP) call, the second sentence of this section is now inconsistent with the current requirements for SIP development and needs to be removed.

3435. GENERAL CONFORMITY REGULATIONS; REVISIONS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 to 7671

CFR Citation: 40 CFR 51.850 to 860; 40 CFR 93.150 to 160

Legal Deadline: None

Abstract: Section 176(c)of the Clean Air Act prohibits Federal entities from taking actions which do not conform to the State implementation plan (SIP) for the attainment and maintenance of the national ambient air quality standards (NAAQS). In November 1993, EPA promulgated two sets of regulations to implement section 176(c). First, on November 24, EPA promulgated the Transportation Conformity Regulations to establish the criteria and procedures for determining that transportation plans, programs, and projects which are funded under title 23 U.S.C. or the Federal Transit Act conform with the SIP. Then, on November 30, EPA promulgated regulations, know as the General Conformity Regulations, to ensure that other Federal actions also conformed to the SIPs. Since 1993, EPA has amended the transportation conformity rule three times in response to stakeholders' requests. The EPA is working on a separate revision to address transportation conformity in transitional areas which will be final by December 1998. The EPA has not reviewed or revised the General Conformity Regulations since their 1993 promulgation. Several Federal agencies have identified concerns over the implementation of the General Conformity Regulations, including the requirements for areas designated nonattainment for the newly promulgated NAAQS. In conjunction with an ad hoc work group of representatives from several Federal agencies, EPA will review the implementation of the General Conformity Regulations. The EPA will then propose and promulgate any appropriate revision to those regulations.

3436. REVIEW OF OPERATING PERMITS ISSUED BY INDIAN TRIBES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7661 et seq

CFR Citation: 40 CFR 70.4

Legal Deadline: None

Abstract: The current regulation that sets forth minimum standards for State operating permits programs does not require that citizens be allowed to appeal permit decisions made by tribal permitting authorities. The proposed rule would require that tribes allow for judicial review or that they develop alternative options for citizen recourse. The benefit of the proposed action is that citizens would be able to hold those responsible for issuing permits accountable for their actions. There is no anticipated impact on small businesses. Tribal governments that develop operating permits programs will need to provide citizens an opportunity to challenge permitting actions in order to obtain EPA approval of their permits programs.

3437. PROTECTION OF STRATOSPHERIC OZONE: RECONSIDERATION ON THE 610 NONESSENTIAL PRODUCTS BAN

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7414; 42 USC 7601; 42 USC 7671 to 7671(q)

CFR Citation: 40 CFR 82(C)

Legal Deadline: None

Abstract: This action would propose to extend the current class I and class II bans on the sale and distribution of nonessential uses of ozone-depleting substances where sufficient substitutes are already readily available. As part of the initial 1993 rulemaking, EPA banned the use of ozone-depleting substances in aerosols, pressurized dispensers, and foams where substitutes were available. Since that rulemaking was issued, the phaseout of production and consumption of class I substances has become effective and the Significant New Alternatives Policy (SNAP) Program under section 612 has been promulgated. The phaseout of newly manufactured class I substances and the identification of new acceptable substitutes for both class I and class II applications provide compelling reasons to reconsider the initial decisions regarding both product-specific exemptions and the decision to limit the ban's effect on major sectors that traditionally used ozone-depleting substances. Most domestic manufacturers have already incorporated the non-ozone-depleting substances in their products. The continued availability and use of ozone-depleting substances in parts and products manufactured abroad, which are sold or incorporated into larger products that are then sold into interstate commerce in the United States, negatively affects the competitiveness of domestic manufacturers who use substitute substances in their production. Therefore, it is appropriate to reconsider the applicability of the class I ban to both specific products and product categories. Amending these requirements would limit the potential use of ozone-depleting substances in applications where substitutes are available and thus, further protect the stratospheric ozone layer.

3438. CONTROL OF EMISSIONS FROM NEW NONROAD SPARK-IGNITION ENGINES AT OR BELOW 19 KILOWATTS, MINOR AMENDMENTS TO THE PHASE I EMISSION STANDARDS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7547; 42 USC 7601(a)

CFR Citation: 40 CFR 90

Legal Deadline: None

Abstract: This direct final rule revises the existing new nonroad Phase 1 small spark-ignited (SI) engine regulations. Although no adverse comments are anticipated, EPA will simultaneously propose this action.

Subsequent to the July 3, 1995, Federal Register publication of the Phase 1 small spark-ignited (SI) engine final rule, several typographical errors and incorrect figure references have been identified. In addition, corrections need to be made to a handful of minor test procedure issues. Representatives of the small SI engine industry have been requesting that EPA make these corrections to the final Phase 1 small SI engine rulemaking in order that they may certify their 1997 model year engines without making unnecessary alternative test procedure demonstrations. In addition, finalization of this Phase 1 amendment package will decrease the complexity of the development of court-ordered Phase 2 regulations.

3439. NOTICE OF TEMPORARY STAY, NOTICE OF PROPOSED COMPLIANCE EXTENSION; EQUIVALENCY DETERMINATION-NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS: HALOGENATED SOLVENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: Halogenated solvent cleaning emissions include: 1,1,1 trichloroethane, perchloroethylene, methylene chloride, trichloroethylene, carbon tetrachloride, and chloroform. This rule was promulgated on December 2, 1994 and codified at 40 CFR part 63, subpart T. This action will announce a temporary 3-month stay for good cause and a proposed compliance extension for continuous web cleaning machines. This action will also amend the final halogenated solvent cleaning NESHAP to include equivalency determinations for different control equipment for batch vapor cleaners to those required by the rule. These equivalency determinations have been requested by a halogenated solvent cleaning machine manufacturer.

3440. • CONTROL OF EMISSIONS OF AIR POLLUTION FROM NEW MARINE DIESEL ENGINES AT OR ABOVE 37 KILOWATTS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7547(a)

CFR Citation: 40 CFR 89

Legal Deadline:
NPRM, Judicial, November 25, 1998, Consent Decree.
Final, Judicial, November 26, 1999, Consent Decree.

Abstract: The ANPRM notifies and invites comments from the public on EPA's plans to propose stringent standards for control of emissions of oxides of nitrogen, hydrocarbons, and particulate matter from diesel marine engines at or above 37 kilowatts. The ANPRM contains a broad outline of

EPA's plans for defining a national emission control program for these engines, including engine categories to be covered, emission standard levels being considered, and potential compliance programs. Results of a Nonroad Engine and Vehicle Emission Study conducted by EPA indicated the need for regulation of categories or classes of new nonroad engines and vehicles that are significant contributors to ozone or CO in NAAQS nonattainment areas. Such a finding led to control of emissions from various nonroad sources. This action outlines a strategy to control emissions from one nonroad source: diesel marine engines. If the emission control program discussed in the ANPRM is implemented, EPA would expect to see NOx and PM reductions comparable to their land-based counterparts on a per engine basis, for marine engines which are derivatives of land-based engines.

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act Amendments of 1990 sec 110(a)(2); Clean Air Act Amendments of 1990 sec 165(e); Clean Air Act Amendments of 1990 sec 172(a); Clean Air Act Amendments of 1990 sec 172(c); Clean Air Act Amendments of 1990 sec 301(a)(1); Clean Air Act Amendments of 1990 sec 320

CFR Citation: 40 CFR 51.112; 40 CFR 51.160; 40 CFR 51.166; 40 CFR 52.21

Legal Deadline: None

Abstract: This action proposes revisions to the Guideline on Air Quality Models, published as appendix W to 40 CFR part 51. Such models are used to predict ambient concentrations of pollutants for programs ranging from Prevention of Significant Deterioration (PSD) to State Implementation Plans (SIPs) for controlling air pollution sources. Appendix W to 40 CFR part 51 fulfills a Clean Air Act mandate for EPA to specify models for air management purposes. This proposed rulemaking enhances appendix W with new and/or improved techniques.

3444. NESHAP FOR THE MANUFACTURING OF AMINO AND PHENOLIC RESINS (POLYMERS AND RESINS GROUP III)

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act Amendments of 1990 sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: Title III of the amended Clean Air Act requires development of emission standards for all major sources, and selected area sources, emitting any of the 188 hazardous air pollutants identified in section 112(b) of the Act. Amino, and phenelic resins productions have been listed as categories of major sources based on documented emissions of phenol and/or formaldehyde. The purpose of the NESHAP for the Manufacturing of Amino and Phenolic Resins (Polymers and Resins Group III) project is to initiate the regulatory process for sources engaged in the production of amino, and phenolic resins, and to ultimately develop a NESHAP based on candidate Maximum Achievable Control Technology.

3445. NESHAP: SECONDARY ALUMINUM INDUSTRY

Priority: Other Significant

Legal Authority: 42 USC 1857 et seq; 44 USC 350 et seq; 5 USC 605; EO 12866

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: The Act requires EPA to publish an initial list of all categories of major and area sources of the hazardous air pollutants (HAPs) listed in section 112(b) of the Act, to promulgate a schedule establishing a date for the promulgation of emission standards for each of the listed categories of HAP emission sources, and develop emission standards for each source of HAPs such that the schedule is met. The standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator. The Agency has determined that the secondary aluminum industry may reasonably be anticipated to emit several of the 189 HAPs listed in section 112(b) of the Act. As a consequence, the source category is included on the initial list of HAP emitting categories and is on the list of categories scheduled for standards promulgation within seven years of enactment of the Act. The purpose of this action is to pursue a regulatory development program that would help to ensure that emission standards may be proposed and promulgated.

3449. NESHAP: MANUFACTURING OF NUTRITIONAL YEAST

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act sec 112 (d)

CFR Citation: 40 CFR 63

Legal Deadline:
NPRM, Statutory, November 14, 2000.
Final, Statutory, November 15, 2000.

Abstract: Section 112 of the Act requires major sources of hazardous air pollutants to achieve a maximum degree of emission reduction based on the maximum achievable control technology (MACT). This regulatory action will establish this level of control for both new and existing sources in the baker's yeast manufacturing industry. This industry is currently comprised of 11 sources of 5 different manufacturers located in 8 different states. The only known HAP emission from this source is acetaldehyde. It is produced as a by-product during the fermentation process. It is likely that regulatory options will set maximum emission limits of acetaldehyde, which will be achievable by improved process control to reduce formation of this by-product.

3450. AMENDMENTS TO GENERAL PROVISIONS SUBPART A AND B FOR 40 CFR 63

Priority: Substantive, Nonsignificant

Legal Authority: PL 101-549; 42 USC 7401 Clean Air Act sec 112

CFR Citation: 40 CFR 63.1; 40 CFR 63.51

Legal Deadline: None

Abstract: The General Provisions (subpart A) were promulgated on March 16, 1994 (59 FR 12408). The General Provisions create the technical and administrative framework and establish general procedures and criteria for implementing MACT standards. On May 16, 1994, six litigants filed petitions for EPA to review certain provisions of the General Provisions. Subpart B, the procedures for implementing section 112(j), were promulgated on May 26, 1994. In June, 1994 litigants filed petitions for EPA to review the promulgated procedures. As a result of the litigation, it is anticipated that a number of technical and administrative amendments to subpart A and B will be proposed.

3451. NESHAP: ETHYLENE PROCESSES

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
NPRM, Statutory, November 15, 2000.
Final, Statutory, November 20, 2000.

Abstract: Title III of the Clean Air Act requires development of emission standards for all major sources emitting any of the 188 hazardous air pollutants (HAPs) identified in section 112(b) of the CAA. Ethylene Processes is listed as a category of major sources based on process knowledge emissions of benzene and butadiene. This action will explore alternatives controlling the release of HAPs from the following process areas located at ethylene process facilities: process streams, storage, equipment leaks and other fugitive sources, and wastewater operations. There are no anticipated impacts on small businesses.

3452. REVISIONS TO THE REGULATION FOR APPROVAL OF STATE PROGRAMS AND DELEGATION OF FEDERAL AUTHORITIES 112(L)

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: Clean Air Act sec 112(l)

CFR Citation: 40 CFR 63(E)

Legal Deadline: None

Abstract: Guidance in the form of rulemaking is being developed in accordance with the requirements of section 112(l) of the Clean Air Act Amendments of 1990 for the approval of State air toxic programs and the delegation of Federal authorities to the States for the implementation and enforcement of section 112 emission standards and other requirements. This regulatory document will provide some flexibility to States in the following areas: minimum requirements for EPA approval of State air toxics regulations that are equivalent to or more stringent than the Federal standards and minimum requirements for EPA approval of State air toxics programs that are equivalent to or more stringent than the Federal program. Specific issues that will be addressed include: alternative work practice standards; alternative monitoring, recordkeeping, and reporting; alternative test method approval process; equivalency by permits; and mechanisms and requirements for approval of State air toxics programs. Additionally, the Partial Approval and Delegable Authorities rulemakings will be added to this rulemaking. The Partial Approval language will provide flexibility to States by allowing States to accept delegation of parts of standards. This will allow them to implement and enforce these provisions on a smaller scale. The delegable authorities rulemaking will clarify what authorities EPA has delegated to States when the part 63, subpart A, general provisions have been delegated. Due to a lack of clear guidance, the EPA Regions have not been consistent in the delegation of general provisions to States.

3453. NESHAP: LIME MANUFACTURING

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 7401 Clean Air Act sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 2000.

Abstract: Title III of the Clean Air Act Amendments of 1990 requires the EPA to develop emission standards for each major source category of hazardous air pollutants (HAPs). The standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator of the EPA. The EPA has determined that some lime manufacturing plants may be major sources for one or more HAPs. As a consequence, a regulation (emission standards) is being developed for the lime manufacturing industry.

3454. GENERIC MACT FOR SOURCE CATEGORIES (ACRYLIC MODACRYLIC FIBERS, POLYCARBONATES, HYDROGEN FLUORIDE, AND ACETAL RESINS)

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act sec 112

CFR Citation: Not yet determined

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: Several of the source categories that are subject to MACT (maximum available control technology) standards contain only a few sources (e.g., less than five). For such source categories, EPA plans to develop the underlying information through its MACT Partnership Program and then allow the affected sources and states to develop the detailed MACT requirements. To do this, EPA needs to develop a generic MACT standard for these source categories. This reinvention to the MACT standards development process will allow for proper participation by all stakeholders. Given the relatively few affected sources caught by the generic standard, the overall cost and environmental effects of this action are expected to be small, nationally.

The MACT program addresses hazardous air pollutants. This action will only affect major sources of these HAPs.

3455. NESHAP: SEMICONDUCTOR PRODUCTION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 2000.

Abstract: This rule will either establish MACT (maximum available control technology) for semiconductor production facilities. There are currently 6 major sources that would be affected by the NESHAP. This action will result in little or no additional emission reduction but will establish a Federal MACT level for large facilities. It is anticipated that no major sources subject to the rule at time of promulgation.

3457. NESHAP: CHROMIUM ELECTROPLATING AMENDMENT

Priority: Other Significant

Legal Authority: 42 USC 7402 CAA 112

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: Final standards under section 112(d) for chromium emissions from hard and decorative chromium electroplating and chromium anodizing tanks (40 CFR 63, subpart N) were promulgated on January 25, 1995. Since promulgation, the Agency has determined that a class of chromium electroplating operations were inadvertently excluded from regulation. Specifically, the final standards do not apply to sources engaged in continuous chromium electroplating of steel sheet used to make cans and other containers. It is the Agency's intent to regulate all facilities engaged in chromium electroplating. Therefore, the Agency plans to amend the chromium electroplating rule to extend its applicability to continuous chromium electroplating operations.

3458. NATIONAL STRATEGY FOR URBAN AREA SOURCES OF TOXIC AIR EMISSIONS

Priority: Other Significant

Legal Authority: 42 USC 7412(k) Clean Air Act sec 112(k); 42 USC 7412(c)(3) Clean Air Act sec 112(c)(3)

CFR Citation: Not yet determined

Legal Deadline:
Final, Statutory, November 15, 1995.
Final, Judicial, August 31, 1998.

Abstract: Congress directed EPA in the 1990 Amendments to the Clean Air Act to study the nature and magnitude of air toxic emissions, exposures and risks in U.S. cities. This was in response to growing evidence that an urban soup existed that was causing cancer and other effects, and which may not adequately be addressed by the MACT program on major sources. The 1990 Amendments call for EPA to appraise the sources and pollutants which contribute most to the urban soup phenomenon, and to publish a national strategy by 1995 that summarizes these findings and identifies actions to mitigate the problem. This strategy will contain (1) general and specific recommendations for additional research, (2) an accounting of actions and measures undertaken by the EPA and state and local agencies that reduce emissions of the hazardous substances of particular concern, and (3) a call for additional measures needed to complete sufficient mitigation of the problem. This action is not considered deregulatory. This action has no direct impacts on small businesses; however, as the strategy is subsequently implemented through later actions and specific rules, some small businesses may be regulated as a consequence of carrying out the regulatory recommendations in the strategy.

3459. NESHAP: FLEXIBLE POLYURETHANE FOAM FABRICATION OPERATIONS

Priority: Info./Admin./Other

Legal Authority: 42 USC 7412 Clean Air Act Amendments of 1990, section 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 2000.

Abstract: The Clean Air Act (CAA) requires development of emission standards for sources emitting any of the hazardous air pollutants HAP listed in section 112(b) of the CAA. Flexible Polyurethane Foam Fabrication Operations is listed as a category of major sources based on documented emissions of the following HAP: methylene chloride, trichlorethane, hydrogen cyanide, and hydrogen chloride. This source category covers emissions from various polyurethane foam bonding operations, including foam gluing and flame lamination. This action will explore alternatives for reducing HAP emissions from the following emission sources located at foam fabrication plants: process vents, raw material storage and transfer operations, and equipment leaks. Ultimately, a NESHAP for this source category will be developed based on Maximum Achievable Control Technology.

3460. NESHAP: GROUP I POLYMERS AND RESINS AND GROUP IV POLYMERS AND RESINS AND GROUP IV POLYMERS AND RESINS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63.480 to 506 (Revision); 40 CFR 63.1310 to 1335 (Revision)

Legal Deadline: None

Abstract: During the development of the National Emission Standard for Hazardous Air Pollutants (NESHAP) for elastomers (Group I Polymers and resins) and thermoplastics (Group IV polymers and resins) (RINs 2060-AD56 and 2060-AE37), many of the provisions contained in the Hazardous Organic NESHAP (HON) were referenced directly by these polymers and resins regulations due to similarities in processes, emission characteristics, and control technologies. On January 17, 1997 the EPA promulgated changes to the HON to remove ambiguity, to clearly convey EPA intent, and to make the rule easier to understand and implement in response to industry petitions. It is necessary to make parallel changes to the polymers and resins NESHAP, otherwise inconsistencies will exist for NESHAPs regulating similar source categories. An ANPR, was published in the Federal Register on 11/25/96 (61 FR 59849), to explain the nature of changes planned.

Subsequently, six litigants have petitioned for review of the elastomers and thermoplastics regulations. Four companies have petitioned EPA to reconsider specific provisions in the thermoplastics regulation. Revisions will be proposed to parallel HON changes and to resolve petitioners issues. There are no impacts anticipated for small businesses or State/local/tribal governments.

3463. SPECIFICATION OF SUBSTANTIALLY SIMILAR DEFINITION FOR DIESEL FUELS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 7545 Clean Air Act sec 211(f)

CFR Citation: 40 CFR 80

Legal Deadline: None

Abstract: EPA is proposing a definition of the term "substantially similar," as used in section 211(f)(1)(B) of the Clean Air Act (CAA), with respect to diesel fuel and fuel additives. The prohibitions of section 211(f)(1)(A) apply to fuels and fuel additives which are not substantially similar to fuels or additives used to certify vehicles to emissions standards. This definition will enable manufacturers to determine whether their diesel fuels and additives are covered by, or excluded from, the section 211(f)(1)(B) prohibitions. This definition will also reduce potential burdens on manufacturers and EPA for processing waivers for fuels and additives under 211(f)(4).

3464. PROTECTION OF STRATOSPHERIC OZONE: RECONSIDERATION OF SECTION 608 SALES RESTRICTION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq Clean Air Act sec 608

CFR Citation: 40 CFR 82(F)

Legal Deadline: None

Abstract: The rule will include the reconsideration of the sales restriction as it relates to split systems. The Agency was petitioned to reconsider the part of the sales restriction that included the sale of pre-charged split systems. It restricted such sales to certified technicians. Since then, EPA stayed that portion of the sales restriction in response to the petition. This rule will include the determination of the Agency related to the reconsideration. It addresses environmental problems of ozone depletion resulting from emissions of chlorofluorocarbons, hydrochlorofluorocarbons, and other ozone-depleting substances. Through restricting sales of certain pre-charged items to persons certified as technicians, emissions to the atmosphere are decreased. The impact on small businesses and governments would be negligible, since persons can become certified if the EPA determination is a full restriction. Most businesses and governments will have at least one certified technician on board. This action has no impact on small business and State, local, and tribal governments.

EPA—CAA — Proposed Rule Stage

3465. SERVICING OF MOTOR VEHICLE AIR CONDITIONERS: STANDARDS FOR EQUIPMENT THAT RECOVERS AND RECYCLES REFRIGERANTS OTHER THAN CFC-12 AND HFC-134A

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7671

CFR Citation: 40 CFR 82(B) (Revision)

Legal Deadline: None

Abstract: This rule serves to amend the regulations initially promulgated on July 14, 1992, under section 609 of the CAA. Specifically, this rule fulfills the statutory mandate set forth in section 609 requiring the Administrator to promulgate regulations for the proper recycling in motor vehicle air conditioners (MVACs) of any refrigerants that substitute for CFC-12. Specifically, section 609 requires EPA to establish standards for refrigerant recycling equipment and for the proper use of such equipment. This rule will provide flexibility for service technicians to meet section 609 requirements, because in addition to using equipment that recovers and recycles CFC-12 and HFC-134a refrigerants, technicians will now be permitted to use equipment that recovers and recycles other substitute refrigerants listed as acceptable under EPA's SNAP program.

This rule will affect, although not adversely affect, those small entities such as independent repair shops, service station, truck fleet shops, collision repair shops, new car and truck dealers, car and truck rental shops, and radiator repair shops that choose to service vehicles that contain refrigerants other than CFC-12 or HFC-134a that are listed as acceptable under EPA's SNAP program. Specifically, it will allow them to use equipment to recycle these refrigerants.

ENVIRONMENTAL PROTECTION AGENCY (EPA) — Final Rule Stage

Clean Air Act (CAA)

3467. NESHAP: CHROMIUM ELECTROPLATING AMENDMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63 (Revision)

Legal Deadline: None

Abstract: Since the promulgation of the chromium electroplating NESHAP we have been informed of several sources that are experiencing difficulty in complying with the concentration limit for new sources even though they have installed and operate composite mesh pad scrubber technology similar or identical to that used as the basis for the MACT emission limit. These sources operate new state-of-the-art plating tanks not encountered during rule development which feature enclosing hoods that completely cover the surface of the plating tank. This covered tank design allows for effective capture and ventilation at substantially lower exhaust air flow rates than otherwise encountered with more conventional exterior hooding. Although these sources exceed the new source standard concentration limit of 0.015 mg/dscm, actual mass rate emissions are more than 50 percent lower than would otherwise be achieved with more conventional hooding and higher ventilation rates. The chromium electroplating standard will be amended to include this alternative type of control system.

3468. 1998 REVISION OF ACID RAIN ALLOWANCE ALLOCATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7651 et seq

CFR Citation: 40 CFR 73

Legal Deadline:
Final, Statutory, June 1, 1998.

Abstract: Title IV of the Clean Air Act directs the EPA to establish an acid rain program to reduce adverse effects of acidic deposition. The centerpiece of this control program is allocation of allowances, or authorizations to emit SO2, that are distributed by the Administrator in limited quantities to utility units and must be held by all affected units to cover their SO2 emissions. In 1993, EPA finalized the allowance allocations and provided, in the regulation, the methodology for revising the allocations in 1998 based on several statutory provisions. This rulemaking will implement that methodology, eliminate unaffected units, and eliminate unnecessary sections of regulation. This rulemaking will affect only utility units affected by the acid rain program requirements and does not affect small businesses or government entities.

3470. NESHAP: FERROALLOY PRODUCTION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 1857 et seq; 44 USC 350 et seq; 5 USC 605; EO 12866

CFR Citation: 40 CFR 63

Legal Deadline:
NPRM, Statutory, November 15, 1997.

Abstract: The Clean Air Act, as amended November 1990, requires the EPA to develop emission standards for each major source category of hazardous air pollutants. The standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator of EPA. The EPA has determined that two plants in the ferroalloy production industry are major sources for one or more hazardous air pollutants. As a consequence, production facilities are among the HAP-emitting source categories selected for regulation.

3471. ACID RAIN PROGRAM: DELETION OF CERTAIN UNITS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7651 et seq

CFR Citation: 40 CFR 73.10

Legal Deadline: None

Abstract: The Acid Rain Program requires affected utility units to hold allowances sufficient to cover emissions of SO2, have an Acid Rain Permit under part 72, and meet appropriate monitoring requirements under part 75. Many affected units are listed in 40 CFR 73.10 tables 2 and 3. In the process of implementing the Acid Rain Program, EPA has learned that several units listed in the tables should not be affected by the Acid Rain Program requirements. This action would delete specific named units from the tables.

3473. METHODS FOR MEASUREMENT OF VISIBLE EMISSIONS - ADDITION OF METHODS 203A, 203B, AND 203C TO APPENDIX M OF PART 51

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401(b)(1); 42 USC 7410; 42 USC 7470 to 7479; 42 USC 7501 to 7508; 42 USC 7601(a)

CFR Citation: 40 CFR 51

Legal Deadline: None

Abstract: This rulemaking adds Test Methods 203A, 203B, and 203C to 40 CFR part 51, appendix M (entitled Example Test Methods for State Implementation Plans). These methods describe procedures for estimating the opacity of visible emissions. States have requested that EPA promulgate these methods so that they can use them in State Implementation Plans in enforcing visible emissions regulations from Stationary Sources.

3476. AMENDMENTS TO PART 60, PART 61, AND PART 63 AND ADDITION OF METHOD 14A TO PART 60

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401; 42 USC 7410 to 7412; 42 USC 7414; 42 USC 7416

CFR Citation: 40 CFR 60; 40 CFR 61; 40 CFR 63

Legal Deadline: None

Abstract: This rulemaking will amend the emission test methods and performance specifications in appendices A and B of part 60, appendix B of part 61, and appendix A of part 63 by revising the method format to conform with Environmental Monitoring Management Council (EMMC) guidelines. Conformance to the guidelines will promote consistency among inter-program methods. In addition, minor technical and printing errors in the methods will be corrected. Similar errors in various subparts of part 60 will also be corrected. Performance specification 15 is also being proposed in this rulemaking.

3477. REGULATION REVIEW/BURDEN REDUCTION

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or

duplication, or streamline requirements.

Legal Authority: Clean Air Act sec 407

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: On March 16, 1995, President Clinton issued a report entitled, Reinventing Environmental Regulation, that identified 25 initiatives to improve the current regulatory system. This action is part of the regulatory review process to reduce unnecessary recordkeeping and reporting requirements. Existing rules are being reviewed for excess and/or duplicative requirements. The Agency will publish a list of those regulations that will be revised or amended to reduce unnecessary recordkeeping and reporting requirements.

RIN: 2060–AG30

3478. ACID RAIN PROGRAM: CONTINUOUS EMISSION MONITORING (CEM) RULE REVISIONS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 7651 et seq

CFR Citation: 40 CFR 75 (Revision)

Legal Deadline: None

Abstract: On January 11, 1993, EPA promulgated the final core acid rain rules, including the CEM regulation at 40 CFR part 75. Since the rule was promulgated, the 263 Phase I and 783 Phase II utility units have already begun to comply with this regulation by installing and completing certification testing by the January 1, 1995, statutory deadline.

As a result of on-going internal and external assessment of the Acid Rain Program monitoring and reporting requirements, EPA, State environmental agencies, and affected utilities have identified areas of the part 75 CEM regulations which would benefit from revision or clarification. Many of the suggested revisions will add increased flexibility to the utility industry in implementing and complying with the requirements of part 75. Other revisions will clarify existing provisions in an effort to make the regulation more understandable. Still other revisions will provide increased quality assurance of the Acid Rain Program CEM data. These issues include allowing reduced monitoring and reporting requirements for low emitting units, more effective and economical quality assurance requirements, greater flexibility for fuel sampling and fuel flowmeter testing procedures under appendix D, clarification of span/range equipment specifications, greater flexibility for monitoring controlled emissions, and greater flexibility for using backup monitors during malfunction of the primary monitor. This action is necessary because of the experience and additional information both EPA and industry have gained from 1993 to the present. Industry views this action as positive because it provides industry with more implementation flexibility.

RIN: 2060–AG46

3479. AMENDMENT TO THE USER FEES FOR RADON PROFICIENCY PROGRAMS RULE

Priority: Other Significant

Legal Authority: 15 USC 2661 to 2665

CFR Citation: 40 CFR 195; 40 CFR 700 (Revision)

Legal Deadline: None

Abstract: The User Fees for Radon Proficiency Programs Final Rule established fees in 1994 that EPA will collect annually to support its voluntary Radon Proficiency Programs. The rule requires individuals and organizations applying to or participating in the Radon Proficiency Program (RPP) to pay annual fees. The final rule states that EPA shall adjust the fees over the next year to a level that will ultimately be sufficient to recover the full annual costs of the program. Through this technical amendment, EPA will revise its fee schedule to collect a larger percentage of its annual (FY 97) operating costs. The annual fees will also reflect changes in the proficiency programs, participation, inflation, etc. In the calculation of the annual fees, the Agency will take into consideration the impact of the fourth year of fee collection on the radon industry.

RIN: 2060–AG64

3480. ADDITION OF METHOD 207 TO APPENDIX M OF 40 CFR PART 51 - METHOD FOR MEASURING ISOCYANATES IN STATIONARY SOURCE EMISSIONS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7410

CFR Citation: 40 CFR 51

Legal Deadline: None

Abstract: The Clean Air Act Amendments of 1990 listed certain isocyanate compounds as hazardous air pollutants (HAPs). The Agency does not have any published test methods that would measure air emissions of these isocyanate compounds from stationary sources. This action would add a validated test method to measure isocyanate emissions to appendix M of part 51. Test methods in part 51 can be adopted by any State for use in any regulation that requires the measurement of any of the isocyanate compounds on the HAP list. This action would not impose any new regulatory requirements that do not already exist. It should benefit State governments by providing them with a validated test procedure for measuring the emissions of isocyanate compounds.

3481. FEDERAL OPERATING PERMITS PROGRAM IN INDIAN COUNTRY

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 7661a(d)(3)

CFR Citation: 40 CFR 71.4

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: Recognizing its trust responsibilities to Indian tribes, EPA plans to exercise its regulatory authority to issue permits to sources of air pollution in Indian country where sources are not regulated by Indian tribes. The Federal operating permits program for stationary air sources should extend to all of Indian country, but the regulation that created the program inadvertently created a regulatory gap. A change in regulations is needed to assure that each major source in Indian country is subject to either a State, tribal, or Federal permit program.

The regulatory change would create a level playing field for industry. Also, the regulatory change would assure that EPA can regulate sources that create air pollution problems in Indian country or that are located in Indian country and generate air pollution problems for other areas.

There are no anticipated impacts on small businesses or State or local governments. The regulatory change would eliminate a burden on tribal governments. They would not need to demonstrate their jurisdiction over an area in order for EPA to administer a permit program for the area.

3483. FINDING OF SIGNIFICANT CONTRIBUTION AND RULEMAKING FOR CERTAIN STATES IN THE OZONE TRANSPORT ASSESSMENT GROUP (OTAG) REGION FOR PURPOSES OF REDUCING REGIONAL TRANSPORT OF OZONE

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 42 USC 7410(a)(2)(D); 42 USC 7410(k)(5)

CFR Citation: 40 CFR 51; 40 CFR 52(a)

Legal Deadline: None

Abstract: Ozone and ozone precursors are transported across the northeastern United States. The Ozone Transport Assessment Group (OTAG) was formed in 1995 to document the amount and extent of this transport and to develop control recommendations. The OTAG was a collaborative process conducted by the affected States. This action builds on the work of the OTAG. Controls are intended to reduce the

ozone and ozone precursors "blowing into" the nonattainment areas and allow the impacted States to design local control programs that they can consider in their strategies. This action proposed to find that 22 States and DC in the OTAG Region significantly contribute to nonattainment of the ozone NAAQS or interferes with maintenance of the NAAQS. EPA proposed appropriate levels of NOx emissions that each of the affected States will be required to achieve.

Legal Authority: 15 USC 2001; 15 USC 2002; 15 USC 2003; 15 USC 2005; 15 USC 2006; 15 USC 213; 42 USC 7521; 42 USC 7522; 42 USC 7524; 42 USC 7525; 42 USC 7541; 42 USC 7542; 42 USC 7549; 42 USC 7550; 42 USC 7552

CFR Citation: 40 CFR 86; 40 CFR 88

Legal Deadline: None

Abstract: This action will ease the burden of certification for both Original Equipment Manufacturers (OEMs) and after-market conversion entities. This action will, for vehicles and engines meeting LEV emission standards, broaden the definition of the term dedicated fuel system, broaden the criteria for engine families, and provide an exemption from certification fees. This action is not a deregulatory action. This action will provide another means for small business to remain active entities in supplying alternatively fueled vehicles to the market place. The above three changes are intended to reduce the cost of complying with the requirements of certification, and small business will benefit from these changes. This action will enhance the ability for the regulated industry to provide alternatively fueled vehicles to the consumer in support of the Executive Order 13031.

3486. REVISIONS TO THE PERMITS AND SULFUR DIOXIDE ALLOWANCE SYSTEM REGULATIONS UNDER TITLE IV OF THE CLEAN AIR ACT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7601; 42 USC 7651 et seq

CFR Citation: 40 CFR 72; 40 CFR 73

Legal Deadline: None

Abstract: This rulemaking would amend certain provisions in the Permits and Sulfur Dioxide Allowance Rules under title IV of the Clean Air Act to improve the operation of the Allowance Tracking System and the allowance market. The revisions are proposed in light of the Agency's experience in implementing the acid rain rules (first promulgated in 1993) and would result in a small extension of the allowance transfer deadline, allowing a limited number of allowances to be held for a unit outside the unit's account, and the deletion of one of the signature requirements on allowance transfer requests.

3488. NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS FOR SOURCE CATEGORY: PULP AND PAPER PRODUCTION; AMENDMENTS TO THE PROMULGATED RULE

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63.440 to 63.459 (Revision)

Legal Deadline: None

Abstract: The purpose of this action is to clarify sections of the promulgated pulp and paper industry maximum achievable control technology (MACT) standards where commenters have indicated that the wording is confusing. This action will also correct any typographical errors noted. This action will contain guidance and amended rule language.

RIN: 2060–AH74

3489. SUPPLEMENTAL RULEMAKING FOR CERTAIN STATES IN THE OZONE TRANSPORT ASSESSMENT GROUP REGION FOR PURPOSES OF REDUCING REGIONAL TRANSPORT OF OZONE

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 42 USC 7410(a)(2)(D); 42 USC 7410(k)(5)

CFR Citation: 40 CFR 51(G); 40 CFR 51; 40 CFR 52(A); 40 CFR 76; 40 CFR 96

Legal Deadline: None

Abstract: On October 10, 1997, the Administrator signed a proposed rule making a finding of significant contribution and assigning Statewide NOx emission budgets to 22 States and the District of Columbia for purposes of reducing regional transport of ozone. The Agency has several follow-up items resulting from discussions with OMB and management within EPA that need to be proposed as part of the effort to reduce transport. This supplemental proposal includes the rule language for the NOx emission budgets, a model cap-and-trade rule, air quality analyses of the proposed emission budgets, emissions reporting requirements, a discussion of the interaction with the title IV NOx rule, and alternative approaches to the proposed emission budgets.

3490. ELECTRIC ARC FURNACE NSPS AMENDMENT

Priority: Substantive, Nonsignificant

Legal Authority: Not yet determined

CFR Citation: 40 CFR 60 (Revision)

Legal Deadline: None

Abstract: The NSPS currently requires monitoring of the furnace pressure by installing a pressure sensor in the furnace or in the duct connected to the furnace. Maintaining an operating pressure sensor under these conditions of extreme temperatures is difficult. The NSPS will be amended to allow daily observations of visible emissions from the shop in conjunction with monitoring of primary and secondary emission control system parameters, in lieu of monitoring internal furnace pressure. This amendment was recommended by the iron and steel common sense initiative.

3491. NESHAP: OFF-SITE WASTE AND RECOVERY OPERATIONS; FINAL RULE—SETTLEMENT AGREEMENT; AND NESHAP FOR OFF-SITE WASTE AND RECOVERY OPERATIONS FOR TECHNICAL AMENDMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: The actions will amend the Off-site Waste and Recovery Operations rule that was promulgated on July 1, 1996, based on the settlement agreement with the Chemical Manufacturers Association, the Hazardous Waste Management Association, and the Environmental Technology Council. The changes to the rule will clarify the EPA's intent and do not increase or lower or otherwise affect emissions or environmental protection. Additionally, the actions will clarify sections of the promulgated off-site waste and recovery operations regulation and correct any typographical errors noted. These actions will contain guidance and amended rule language.

RIN: 2060–AH96

3492. ACID RAIN PROGRAM: PROPOSED REVISION OF TEST METHOD 1, 2, AND 2F FOR MEASURING VOLUMETRIC FLOW IN STACKS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401; 42 USC 7411; 42 USC 7414; 42 USC 7416; 42 USC 7429; 42 USC 7601

CFR Citation: 40 CFR 60; 40 CFR 60, app A "Test Methods 1 and 2"; 40 CFR 75

Legal Deadline:
Other, Statutory, December 31, 1998, Voluntary.

Abstract: EPA Test Methods are Agency-approved procedures used by test teams to accurately determine emissions from sources; e.g., power plants. The proposed revisions to Test Methods 1, 2, and 2F will improve the accuracy of the determination of volumetric flow measurements in utility stacks. These revisions will affect electric utilities and other sources covered by EPA's Acid Rain Program and possibly by other air quality control regulations; e.g., New Source Performance Standards, Prevention of Significant Deterioration, and State emission limits. Currently, the Test Methods do not allow yaw or pitch angles or wall effects to be considered in calculating volumetric flow. In the Acid Rain Program and in other programs requiring reporting of mass emission rates, e.g., lbs SO2/hour, not allowing these parameters in the calculation of volumetric flow may cause overreporting of pollutant emissions in some situations. The Test Method revisions are also expected to help reduce such overreporting as well as the disparity between stack-measured power plant heat rate and combustion-calculated heat rate. Heat rate is important to power plants because it affects, e.g., electric rates, and limitations on plant operations in State permits.

3494. • TRANSPORTATION CONFORMITY RULE AMENDMENTS: FLEXIBILITY AND STREAMLINING

Priority: Economically Significant. Major under 5 USC 801.

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 7521(a); Clean Air Act sec 176(c)

CFR Citation: 40 CFR 51; 40 CFR 93

Legal Deadline: None

Abstract: The Clean Air Act Amendments (CAAA) of 1990 recognized that transportation planning and air quality planning must be coordinated towards achieving the National Ambient Air Quality Standards (NAAQS). The transportation conformity rule was promulgated in November of 1993, in response to CAAA concerns. Conformity ensures that transportation planning does not (a) produce new air quality violations, (b) worsen existing violations, and (c) delay timely attainment of the NAAQS. This rulemaking is the third in a series of amendments to the original transportation conformity rule. This rulemaking will streamline the original rule to simplify the conformity process in response to conformity stakeholder concerns. Flexibility will be added for rural nonattainment areas. Difficulties associated with the build/no-build test and adding transportation projects to plans will be resolved, and non-Federal projects will have additional flexibility through these amendments.

3496. NESHAP: MINERAL WOOL PRODUCTION INDUSTRY

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 1857 et seq; 44 USC 350 et seq; 4 USC 605; EO 12866

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: The Clean Air Act, as amended in 1990, requires the EPA to (1) publish an initial list of all categories of major and area sources of the hazardous air pollutants (HAPs) listed in section 112(b) of the CAA, (2) promulgate a schedule establishing a date for the promulgation of emissions standards for each of the listed categories of HAPs emission sources, and (3) develop emission standards for each source of HAPs. These standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator. The Agency has determined that the mineral wool production industry emits several of the 188 HAPs listed in section 112(b) of the CAA. As a consequence, a regulatory development program is being pursued for the mineral wool production industry to promulgate emission standards.

3498. NESHAP: PHOSPHORIC ACID MANUFACTURING

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act Amendments of 1990 sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997, Clean Air Act Amendments of 1990.

Abstract: The CAAA required EPA to publish an initial list of all categories of major and area sources of the hazardous air pollutants (HAPs) listed in section 112(b) of the CAAA and to establish dates for the promulgation of emission standards for each of the listed categories of HAP emission sources and develop emission standards for each source of HAPs so that the schedule is met. The standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator. The Agency has determined that the phosphoric acid manufacturing industry emits several of the 189 HAPs listed in section 112(b) of the CAAA. The purpose of this action is to pursue a regulatory development program that would ensure that emission standards may be proposed and promulgated for this industry.

3499. NESHAP: STEEL PICKLING, HC1 PROCESS

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act Amendments of 1990 sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: Hydrochloric acid (HC1) and chlorine are among the pollutants listed as hazardous air pollutants in section 112 of the Clean Air Act, as amended in November of 1990. Steel pickling processes that use HC1 solution and HC1 regeneration processes have been identified by the EPA as potentially significant sources of HC1 and chlorine air emissions and, as such, a source category for which national emission standards may be warranted.

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act Amendments of 1990 sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: The primary copper smelting industry is known to emit a number of the hazardous air pollutants listed in section 112 of the Clean Air Act. The industry is comprised of seven smelters located in four states. All have extensive control systems for oxides of sulfur and HAPs. However, fugitive emissions may cause several smelters to exceed major source levels.

3503. NESHAP: PORTLAND CEMENT MANUFACTURING

Priority: Other Significant. Major under 5 USC 801.

Legal Authority: 42 USC 1857 et seq; 44 USC 350 et seq; 5 USC 605; EO 12866

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: Title III of the Clean Air Act Amendments of 1990 requires the EPA to develop emission standards for each major source category of hazardous air pollutants. The standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator of EPA. The EPA has determined that most plants in the Portland cement manufacturing industry source category are major sources of hazardous air pollutants. A regulation (emission standards) is being developed for the Portland cement manufacturing industry. Cement kilns which burn RCRA hazardous waste are subject to a separate rule that has been proposed by the EPA Office of Solid Waste.

3504. NESHAP: POLYETHER POLYOLS PRODUCTION

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act Amendments of 1990 sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: Title III of the CAA requires development of emission standards for all major sources emitting any of the hazardous air pollutants (HAPs) identified in section 112(b) of the CAA. Polyether Polyol Production is listed as a category of major sources based on documented emissions of propylene oxide and ethylene oxide. This action will regulate the release of HAPs from the following process areas located at polyether polyol manufacturing facilities: process vents (e.g., reactors), storage, equipment leaks and other fugitive sources, and wastewater operations.

3505. NESHAP: PESTICIDE ACTIVE INGREDIENT PRODUCTION (PRODUCTION OF AGRICULTURAL CHEMICALS)

Priority: Other Significant

Legal Authority: Clean Air Act sec 112

CFR Citation: Not yet determined

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: The following ten source categories (which are all pesticide active ingredients) are listed under the Production of Agricultural Chemicals (PAC) industry group: 1) 2,4-D Salts and Esters Production; 2) 4-Chloro-2-Methylphenoxyacetic Acid Production; 3) 4, 6-Dinitro-o-Cresol Production; 4) Captafol Production; 5) Captan Production; 6) Chloroneb Production; 7) Chlorothalonil Production; 8) Dacthal (tm) Production; 9) Sodium Pentachlorophenate Production; 10) Tordon (tm) Acid Production.

On November 10, 1997, the EPA proposed standards for all pesticide active ingredient producers including the 10 categories listed above. Any other pesticide active ingredient production plant which produces or uses any of the 188 listed hazardous air pollutants was also included. A variety of HAPs are emitted including, toluene, methyl chloride, methanol, chlorinated compounds, etc.

3506. NESHAP: FLEXIBLE POLYURETHANE FOAM PRODUCTION

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act Amendments of 1990 sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: Title III of the amended Clean Air Act (CAA) requires development of emission standards for all major sources, and selected area sources, emitting any of the hazardous air pollutants (HAP) identified in section 112(b) of the CAA. Flexible Polyurethane Foam Production is listed as a category of major sources based on documented emissions of methylene chloride and 2,4-toluene diisocyanate. This action will regulate the release of HAP from the following emission sources located at slabstock, rebond, and molded polyurethane foam production facilities: process vents, storage, equipment leaks and other fugitive sources, and transfer operations. This action, however, will not cover emissions from foam fabrication (i.e., gluing and flame lamination). In June 1996 the Agency added a separate source category to address HAP from fabrication operations.

3507. NESHAP: PRIMARY LEAD SMELTERS

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997, Statutory Section 112 of the CAA.

Abstract: Primary lead smelters are a major source category of hazardous air pollutants. Potential emissions include compounds of lead, and other metallic HAPs as well as organic HAPs. Emission standards would establish maximum achievable control technology requirements for affected process units and fugitive dust sources. This industry is comprised of two companies which operate three smelters in two states.

3509. NESHAP: AEROSPACE TECHNICAL AMENDMENTS

Priority: Substantive, Nonsignificant

Legal Authority: Clean Air Act sec 112

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: The NESHAP for Aerospace Manufacturing and Rework Facilities was promulgated in September of 1995. Afterwards, EPA discovered a few problems with the rule and needed to publish the Control Techniques Guideline (CTG) for this industry. This final rule (63 FR 15006) corrected these problems and announced the final CTG. An additional set of amendments was proposed (63 FR 15034) at the same time, which addressed issues with General Aviation.

3510. • NESHAP: OIL AND NATURAL GAS PRODUCTION AND NESHAP: NATURAL GAS TRANSMISSION AND STORAGE , AMENDMENTS TO PROPOSED RULE

Priority: Other Significant

Legal Authority: Clean Air Act sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Final, Statutory, November 15, 1997.

Abstract: Hazardous air pollutants (HAPs) known to be emitted from oil and gas production, storage, and transmission facilities include benzene, toluene, ethyl benzene, and xylene isomers (collectively referred to as BTEX), along with 2,2,4-trimethylpentane and n-hexane. Potential HAP emission sources are glycol dehydrator reboilers (stand-alone and co-located); condensate storage vessels; and equipment leaks at natural gas processing plants.

3511. FIELD CITATION PROGRAM

Priority: Other Significant

Legal Authority: 42 USC 7413(d) Clean Air Act sec 113(d)

CFR Citation: 40 CFR 59

Legal Deadline: None

Abstract: The Clean Air Act Amendments give EPA the authority to issue on-the-spot field citations for minor violations of the Clean Air Act, with penalties of up to $5,000 per day of violation. Section 113(d) of the Act requires the field citation program to be implemented through regulations which provide the informal hearing procedures. These hearing procedures are not required to be as rigorous as those imposed by the Administrative Procedures Act (APA), but nevertheless must provide due process. Agency guidance providing appropriate penalties for specific minor violations will be prepared for EPA employees and made available to the regulated community. Training on the issuance of field citations will also be developed.

3512. STANDARDS FOR REFORMULATED AND CONVENTIONAL GASOLINE, INDIVIDUAL BASELINE FUEL ADJUSTMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 7414 Clean Air Act sec 114; 42 USC 7545(c) Clean Air Act sec 211(c); 42 USC 7601 Clean Air Act sec 301

CFR Citation: 40 CFR 80

Legal Deadline: None

Abstract: This rule would establish criteria by which a refiner could receive an adjustment to its baseline under certain circumstances. Baseline adjustments reduce the cost of compliance (primarily with the antidumping requirements of the reformulated gasoline program) for those refiners which would otherwise be extremely burdened.

Baseline adjustments under certain circumstances were provided for in the December 1993 final Reformulated Gasoline and Anti-Dumping rule. However, baseline adjustments are only allowed under certain narrowly defined circumstances; broad adjustments are beyond EPA's discretion. The circumstances for which baseline adjustments would be allowed under this rule are as follows: (1) production of JP-4 in 1990; (2) use of an extremely low-sulfur crude in 1990; and (3) having extremely low baseline values for sulfur and olefins. Refiners must meet specific criteria in order to order to qualify for one or more of these adjustments.

3513. TRANSPORTATION CONFORMITY RULE AMENDMENT AND SOLICITATION FOR PARTICIPATION IN THE PILOT PROGRAM

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 7401 to 7671, Clean Air Act sec 176

CFR Citation: 40 CFR 51; 40 CFR 93

Legal Deadline: None

Abstract: The Transportation Conformity rule promulgated in November 1993 ensures that transportation and air quality planning are consistent with Clean Air Act air quality standards. This action is part of an Agency effort to streamline the existing conformity regulation and offer flexibility in the conformity process. This action would amend the conformity regulation to allow EPA to create and implement a conformity pilot program.

The rule amendment would allow EPA to exempt up to six areas from certain requirements of the conformity rule. The main objective of the pilot program is to offer State and local air and transportation agencies the flexibility to identify the conformity procedures that work best for their area. This action will enable EPA to test out innovative methods of streamlining the conformity regulation's requirements while ensuring that Clean Air Act objectives are met. In addition to the rule amendment, this action also includes the pilot program's proposed eligibility and application requirements, selection criteria, and implementation procedures.

RIN: 2060–AG79

3514. NATIONAL VOC EMISSION STANDARDS FOR AUTOMOBILE REFINISH COATINGS

Priority: Other Significant

Legal Authority: Clean Air Act Amendments of 1990 sec 183(e)

CFR Citation: 40 CFR 59

Legal Deadline:
Final, Judicial, August 15, 1998.

Abstract: Section 183(e) requires EPA to study the emissions of volatile organic compounds (VOC) from consumer and commercial products, list those categories of products that account for at least 80 percent of the total VOC emissions from consumer and commercial products in areas classified as nonattainment for ozone, divide the list into four groups, and regulate one group every 2 years using best available controls (BAC). Based on the criteria described in the consumer and commercial product study (March 1995), and category listing (March 1995), EPA has determined that VOC emissions from automobile refinish coatings should be regulated. Automobile refinish coatings can be generally classified as primers and topcoats, each consisting of several different types. The proposed rule divides automobile refinish coatings into 6 categories, and contains VOC content limits for each category. Automobile refinish coatings are used by body shops and by do-it-yourselfers. However, the proposed rule does not directly affect these small businesses. Rather, the rule would apply to coating manufacturers and importers, and would limit the VOC content of coatings that are produced for sale in the United States.

3517. REDUCTION OF VOLATILE ORGANIC COMPOUND (VOC) EMISSIONS FROM COATINGS USED IN THE AEROSPACE, WOOD FURNITURE, AND SHIPBUILDING INDUSTRIES UNDER CLEAN AIR ACT SECTION 183(E)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 59

Legal Deadline: None

Abstract: This action would result in the reduction of volatile organic compound (VOC) emissions from the coatings used by the Aerospace, Wood Furniture and Shipbuilding industries. The Agency will study the various VOC pollutants contained in these coatings and will evaluate pollution prevention and control techniques which can reduce these emissions; Control Techniques Guidelines can be issued in lieu of regulations if they are substantially as effective in reducing VOC emissions from the use of these coatings in ozone nonattainment areas. This rulemaking will be conducted in accordance with statutory requirements for VOC emission reduction under section 183(e) of the Clean Air Act. Data recently gathered for the development of National Emission Standards for Hazardous Air Pollutants (NESHAP) for these industries will be used to maximize resources and avoid duplication of data gathering efforts.

CFR Citation: 40 CFR 85

Legal Deadline: None

Abstract: This action will amend the regulations in 40 CFR part 85, subpart P to allow entry into the U.S. of vehicles which are originally sold in Canada and which are identical to their U.S. counterparts, without obtaining a certificate of conformity from EPA. This action is in response to a petition for review of import rules. The final rule also will address certain other issues in part 85, subpart P and subpart R, including: 1) formalizing a longstanding EPA policy regarding the importation of owned vehicles that are proven to be identical to a vehicle certified for sale in the U.S., 2) establishing new emission standards applicable to imported nonconforming vehicles, 3) clarifying the regulatory language that concerns exclusions and exemptions from meeting Federal emission requirements, and 4) providing several minor clarifications to the existing regulations.

3520. REVISION TO THE COVERED AREAS PROVISION FOR REFORMULATED GASOLINE

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 7545 Clean Air Act sec 211

CFR Citation: 40 CFR 80

Legal Deadline: None

Abstract: Under authority of the Clean Air Act as amended in 1990, EPA promulgated regulations to require a cleaner burning reformulated gasoline (RFG) in nine mandated areas of the country with the worst ozone air pollution problems. These areas are designated as covered areas (e.g., areas in which non-RFG (conventional gasoline) is prohibited from being sold or dispensed to the ultimate consumers of the gasoline).

The RFG regulations also include a provision which allows a State, upon petition by the Governor, to have other areas designated as nonattainment for ozone included as covered areas under the Federal RFG program (the opt-in provision).

This action will expand the opt-in provision to include areas that formerly were in nonattainment for ozone as well as areas presently in nonattainment for ozone. This action will give States the flexibility to use the RFG program in their maintenance plans and as contingency measures for those areas that have been redesignated to attainment status but are in need of ozone controls to maintain that status.

3523. NSPS: NITROGEN OXIDE EMISSIONS FROM FOSSIL-FUEL FIRED STEAM GENERATING UNITS—REVISION

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: Clean Air Act Amendments of 1990 sec 407(c)

CFR Citation: 40 CFR 60.40

Legal Deadline:
Final, Judicial, September 3, 1998, Deadlines may be revised.

Abstract: The current NSPS for electric utility and nonutility steam generating units were promulgated in 1979 and 1986, respectively. A major feature of the NSPS is NOx control through the use of low NOx burners or overfired air. Section 407 of the Clean Air Act requires the EPA to revise existing NSPS for NOx emissions from fossil-fuel fired steam generating units, including both electric utility and nonutility units. These revised standards are to reflect improvements in methods for the reduction of NOx emissions. The proposed revisions are based on the performance of selective catalytic reduction(SCR).

Priority: Other Significant

Legal Authority: 42 USC 7414; 42 USC 7601; 42 USC 7671k Clean Air Act sec 612

CFR Citation: 40 CFR 9; 40 CFR 82

Legal Deadline: None

Abstract: Section 612 of the Clean Air Act requires EPA to identify alternatives to Class I and II ozone depleting substances and to publish lists of acceptable and unacceptable substitutes. Producers of substitutes must notify EPA at least 90 days before alternatives are introduced into interstate commerce. Unlike acceptable alternatives (see Notices), substitutes which are deemed by EPA to be unacceptable or acceptable subject to use restrictions must go through notice and comment rulemaking. Substitute lists are updated intermittently depending on the volume of notifications.

3527. TECHNICAL AMENDMENTS TO HAZARDOUS WASTE TSDF & HAZARDOUS WASTE GENERATORS: ORGANIC AIR EMISSION STANDARDS FOR TANKS, SURFACE IMPOUNDMENTS & CONTAINERS

Priority: Substantive, Nonsignificant

Legal Authority: Resource Conservation Recovery Act sec 3002; Resource Conservation Recovery Act sec 3004

CFR Citation: 40 CFR 264; 40 CFR 265; 40 CFR 270

Legal Deadline: None

Abstract: These standards were promulgated on December 6, 1994, and were effective on December 6, 1996.

EPA—CAA — Final Rule Stage

The final standards control organic air emissions from hazardous waste TSDF and generator sites. These emissions have been shown to contribute greatly to ground-level ozone formation and to cancer incidence among exposed populations.

Following promulgation, the EPA identified certain provisions for which the intended emission reductions can be achieved with less burdensome standards. The EPA amended the final rule on 11/25/96 to include several revised provisions, including the following: certain fixed-roof tanks may be equipped with pressure relief devices that vent to the atmosphere; containers may be vented during loading and emptying operations; a facility may comply with the final rule using an implementation schedule in several different circumstances; and the frequency of monitoring for certain equipment shall be semiannual rather than annual. An additional amendment was promulgated 12/8/97 to clarify the intent and effect of a few amendment provisions which were not clear in the 11/25/96 amendment notice. EPA had been considering an additional amendment to show facilities to vent emissions from tank enclosures to non-combustion devices. After reviewing relevant information, EPA has decided to not add such a provision. EPA will publish an amendment to correct minor wording errors, in the early fall of 1998.

3530. • CONTROL OF EMISSIONS FROM NONROAD SPARK-IGNITION ENGINES RATED OVER 19 KW

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 7401 to 7671q

CFR Citation: 40 CFR 94

Legal Deadline:
NPRM, Judicial, September 30, 2000.
Final, Judicial, December 31, 2001.

Abstract: Emissions from large spark-ignition engines are currently unregulated. EPA and CARB are cooperating in an effort to set emission standards for these engines to substantially reduce their contribution to the emission inventory.

3587. • PROTECTION OF STRATOSPHERIC OZONE: HALON RECYCLING AND RECOVERY EQUIPMENT CERTIFICATION

Priority: Substantive, Nonsignificant

Legal Authority: 40 CFR 82

CFR Citation: 40 CFR 82

Legal Deadline:
NPRM, Judicial, The settlement agreement requires signature by 7/31/98.

Abstract: This action regards a potential need to, in the interest of reducing unnecessary emissions of halons (a group of Class I ozone depleting substances), require the certification of halon recycling and recovery equipment and allowing halon removal only through the use of certified equipment. This proposed action is in response to a lawsuit filed by the Sierra Club. In a consent decree between EPA and the Sierra Club (notice of which was published on September 17, 1996, in the Federal Register at 61 FR 48950) the Agency agreed to, among other things, by May 29, 1998 either (1) issue a proposed rule requiring the certification of recycling and recovery equipment for halons and allowing the removal of halons only through use of certified equipment; or (2) issue a direct final determination that no such rule is either necessary or appropriate under section 608(a)(2) of the Clean Air Act. If EPA issues a proposed rule under (1) or receives adverse comment on the direct final determination under (2), the Administrator shall take final action no later than January 29, 1999.

3588. • INDUSTRIAL PROCESS COOLING TOWER NESHAP AMENDMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 7401 et seq

CFR Citation: 40 CFR 63 (Revision)

Legal Deadline:
Other, Statutory, June 13, 1998, Settlement Agreement.

Abstract: As the result of a settlement agreement with Libbey-Owens-Ford Company, the Industrial Process Cooling Tower NESHAP is being amended to allow facilities to maintain records indicating chromium-based water treatment chemicals are no longer used as an alternative means of demonstrating compliance.

3611. • LEAD PHASEDOWN (SECTION 610 REVIEW)

Priority: Info./Admin./Other

Legal Authority: 42 USC 7545

CFR Citation: 40 CFR 80

Legal Deadline: None

Abstract: In 1996, as part of a program to reduce regulatory burden, EPA promulgated a final rule to reduce the recordkeeping and reporting burden of the Lead Phasedown rule (61 FR 3872, 2/2/96). Subsequently, in the April 25, 1997 issue of the Regulatory Agenda (62 FR 22297), EPA announced the review of this rule under Section 610 of the Regulatory Flexibility Act, and solicited public comment on whether additional changes to that rule would further reduce impacts on small entities while still accomplishing the objectives of the statute authorizing the rule. No public comments were received, and EPA has not found additional changes that would benefit small entities beyond those announced in the 1995 rule cited above. EPA has also determined that this rule continues to be necessary to maintain the ban on lead in gasoline under the Clean Air Act. Therefore, EPA intends to continue the Lead Phasedown rule in its present form and with this notice, EPA hereby concludes its section 610 review of this rule.

Priority: Info./Admin./Other

Legal Authority: 42 USC 7411

CFR Citation: 40 CFR 60

Legal Deadline: None

Abstract: In 1996, as part of a program to reduce regulatory burden, EPA promulgated a final rule to reduce the recordkeeping and reporting burden of the Metal Coils rule (61 FR 47840, 9/11/96). Subsequently, in the April 25, 1997 issue of the Regulatory Agenda (62 FR 22297), EPA announced the review of this rule under Section 610 of the Regulatory Flexibility Act, and solicited public comment on whether additional changes to that rule would further reduce impacts on small entities while still accomplishing the objectives of the statute authorizing the rule. No

public comments were received, and EPA has not found additional changes that would benefit small entities beyond those announced in the 1996 rule cited above. EPA has also determined that this rule continues to be necessary to reduce emissions of smog-causing volatile organic compounds as required by the Clean Air Act. Therefore, EPA intends to continue the Metal Coils rule in its present form and with this notice, EPA hereby concludes its section 610 review of this rule.

3615. • ARIZONA FIP: MODERATE AREA PM-10 PLAN FOR PHOENIX

Priority: Other Significant

Legal Authority: Clean Air Act sec 110(c)

CFR Citation: 40 CFR 52.123; 40 CFR 52.124; 40 CFR 52.127; 40 CFR 52.128

Legal Deadline: NPRM, Judicial, March 20, 1998. Final, Judicial, July 18, 1998.

Abstract: EPA promulgated a Federal implementation plan (FIP) to address the moderate area PM-10 requirements for the Phoenix PM-10 nonattainment area. Specifically, for both the annual and 24-hour PM-10 standards, EPA is promulgating a demonstration that reasonably available control measures (RACM) will be implemented as soon as possible, a demonstration that it is impracticable for the area to attain the standards by the statutory attainment deadline, and a demonstration that reasonable further progress (RFP) is being met.

As part of the FIP, EPA is promulgating a fugitive dust rule to control PM-10 emissions from vacant lots, unpaved parking lots, and unpaved roads, and is also promulgating an enforceable commitment to ensure that RACM for agricultural sources will be proposed by September 1999, finalized by April 2000, and implemented by June 2000.

In addition, EPA made its disapproval of the Arizona moderate area plan's RACM, RFP, and impracticability demonstrations final, because those demonstrations do not adequately address the Act's moderate area PM-10 requirements.

EPA recently established a new standard for PM-2.5 and also revised the PM-10 standards; however, this action does not address those standards.

3616. • AMENDMENTS TO MUNICIPAL SOLID WASTE LANDFILLS

Priority: Economically Significant

Legal Authority: 42 USC 7411 Clean Air Act sec 111

CFR Citation: 40 CFR 60

Legal Deadline: None

Abstract: The purpose of this action is to develop standards for regulating non-methane organic compounds (NMOC) emissions from new and modified municipal solid waste (MSW) landfills under Section 111(b). Section 111(d) requires States to develop emission standards for existing landfills based on EPA guidelines. The intended effect of the standards and guidelines is to require certain municipal solid waste landfills to control emissions to the level achievable by the best demonstrated system of continuous emission reduction, considering costs, nonair quality health, and environmental and energy impacts.

EPA has worked with landfill owners and operators, including local governments and private owners, to produce a regulation based on common-sense techniques, providing maximum flexibility for owners and operators, and achieving the desired emissions reductions in the most cost-effective way. The rule focuses on only the largest sources of emissions, thereby avoiding regulation of small landfills where controls would be inefficient and onerous. The rule also provides complete flexibility to design a control system based on the particular, site-specific conditions at each landfill.

Proposed Rule Stage

3624. RADIATION WASTE MANAGEMENT REGULATION

Priority: Other Significant

Legal Authority: Atomic Energy Act of 1954; Reorganization Plan No. 3 of 1970; Waste Policy Act of 1982

CFR Citation: 40 CFR 193

Legal Deadline: None

Abstract: This action is directed to the disposal of low-activity radioactive wastes in disposal facilities that meet the design requirements for RCRA-C disposal cells. The wastes to be disposed of in these cells are intended to be mixed wastes, consisting of a chemically hazardous component and low levels of radioactivity. These wastes are anticipated to arise in the commercial sector from various sources. The rule is intended to increase disposal options for these wastes and offer a streamline regulatory process which melds hazardous chemical protection and radioactivity protection requirements while protecting public health and safety. The rule is permissive in the sense that the disposal method proposed is not a mandated disposal method, but rather an alternative to existing disposal methods. The U.S. Nuclear Regulatory Commission is anticipated to be the implementing Agency for the application of this rule.

Prerule Stage

3626. • PESTICIDES; PROCEDURES FOR REGISTRATION REVIEW PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 7 USC 136a(g)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Agency is establishing procedures to implement section 3(g) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) which provides for periodic review of pesticide registrations. The goal of these regulations is to review a pesticide's registration every 15 years. However, pesticides cannot be canceled as a result of registration review. For cancellations, EPA must continue to follow the procedures specified in FIFRA section 6. EPA will use authority in FIFRA section 3(c)(2)(B) to require submission of data needed for registration review. FIFRA sections 3(c)(1), 3(c)(2)(B) and 3(c)(2)(D) will apply to data submission, compensation and exemption for data required for registration review.

3629. TOLERANCES FOR PESTICIDE EMERGENCY EXEMPTIONS

Priority: Substantive, Nonsignificant

Legal Authority: 21 USC 346a

CFR Citation: 40 CFR 176

Legal Deadline:
Other, Statutory, Statutory.
Final, Statutory, August 3, 1997.

Abstract: This regulation will set out policies and procedures under which EPA will establish food tolerances associated with the use of pesticides under emergency exemptions. Emergency exemptions are issued for temporary use of pesticides in States where emergency conditions exist. Under the Federal Food, Drug and Cosmetic Act, as amended by the Food Quality Protection Act, EPA must establish time-limited tolerances for such pesticides if the use is likely to result in residues in food. EPA expects to describe the procedures to be used, and the criteria for establishing tolerances.

3630. THE 10-ACRE LIMITATION FOR PESTICIDE SMALL-SCALE FIELD TESTING

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 7 USC 136c

CFR Citation: 40 CFR 172

Legal Deadline: None

Abstract: EPA will propose a modification to its pesticide experimental use permit (EUP) regulations that will permit field testing of new pesticides or existing pesticides for new uses on a greater number of acres without an experimental use permit. Currently such testing is limited to 10 acres cumulative total per pesticide under a presumption that this limited testing poses no adverse effects, and therefore does not warrant the Agency's oversight under the EUP program. This action would reduce burdens on pesticide producers who currently must obtain an experimental use permit for greater than 10 acres testing. Little impact would be expected on small businesses, because they rarely engage in pesticide field testing of new chemicals or new uses.

CFR Citation: 40 CFR 152; 40 CFR 156

Legal Deadline:
NPRM, Statutory, May 1, 1997.

Abstract: This regulation will specify antimicrobial registration reforms that will reduce to the extent possible the review time for antimicrobial pesticides. The regulation will clarify criteria for completeness of applications, and will specify or refer to a definition of the various classes of antimicrobial pesticide use patterns and the associated data and labeling requirements that would be consistent with the degree and type of risk presented by each class. EPA will evaluate the feasibility and cost-effectiveness of various registration process reforms, including registrant certification, and expansion of the current notification procedures. This regulation will also implement some general provisions of FIFRA pertaining to all pesticides, including labeling requirements and notification procedures.

3632. EXEMPTION OF CERTAIN PESTICIDE SUBSTANCES FROM FIFRA REQUIREMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: FIFRA 25(b)

CFR Citation: 40 CFR 152.25(g)(1)

Legal Deadline: None

Abstract: This proposed rule would exempt from regulation under section 25(b)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) certain substances when used, sold or distributed as pesticide active ingredients. EPA believes regulation of these substances is not necessary to prevent unreasonable adverse effects on the environment, and these substances are not of a character necessary to be subject to FIFRA in order to carry out its purposes. Substances exempted are pesticides and would continue to be distributed and sold as pesticides after promulgation of a final rule. If exemptions are established, false claims and advertising would still be subject to jurisdiction of the Federal Trade Commission or could result in civil liabilities for the manufacturer and distributor. This proposal, and any subsequent final rule, would not establish or alter exemptions or tolerances for the listed substance under provisions of the Federal Food, Drug and Cosmetic Act.

3633. PESTICIDES; TOLERANCE PROCESSING FEES

Priority: Substantive, Nonsignificant

Legal Authority: 21 USC 346a

CFR Citation: 40 CFR 180.33

Legal Deadline: None

Abstract: In 1996, the Food Quality Protection Act amended the Federal Food, Drug, and Cosmetic Act to require EPA to charge tolerance fees that, in the aggregate, will cover all costs associated with processing tolerance actions, including filing a tolerance petition, and establishing, modifying, leaving in effect, or revoking a tolerance or tolerance exemption. Since 1983 (the last time a cost analysis was conducted), factors such as expanded data requirements, changes in risk assessment methods, improvements in data base management and tracking systems, and the increasing complexity of scientific review of petitions have resulted in costs substantially exceeding the fees currently charged. This proposed rule will adjust the fee structure and fee amounts for tolerance actions.

3635. WPS; PESTICIDE WORKER PROTECTION STANDARDS; PESTICIDE HAZARD COMMUNICATION

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 7 USC 136w; Federal Insecticide, Fungicide, and Rodenticide Act sec 25

CFR Citation: 40 CFR 170

Legal Deadline: None

Abstract: In 1992, EPA proposed to require the provision of hazard information to agricultural workers covered by the Worker Protection Standard. The requirements as proposed were designed to be substantially equivalent to the Hazard Communication Standard promulgated by the Occupational Safety and Health Administration. Specific hazard information would be made available to agricultural workers and pesticide handlers concerning the pesticides to which they are exposed. EPA is reconsidering the specifics of the proposal. During 1998, EPA plans to hold discussions on options with various stakeholders.

3636. • DATA REQUIREMENTS FOR ANTIMICROBIAL REGISTRATIONS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 7 USC 136a to 136y

CFR Citation: 40 CFR 158

Legal Deadline: None

Abstract: EPA will update and revise its pesticide data requirements for antimicrobial products. The data requirements specify the data that is required for EPA to evaluate the registrability of a pesticide product. The revisions will clarify all data requirements to reflect current practice. Procedural and explanatory sections of the current regulations will be amended to make them consistent with the revised data requirements and new use indexing.

3637. PESTICIDE MANAGEMENT AND DISPOSAL: STANDARDS FOR PESTICIDE CONTAINERS AND CONTAINMENT

Priority: Other Significant

Legal Authority: 7 USC 136q FIFRA sec 19; 7 USC 136a FIFRA sec 3; 7 USC 136w FIFRA sec 25

CFR Citation: 40 CFR 165; 40 CFR 156

Legal Deadline:
Final, Statutory, December 24, 1991.

Abstract: The 1988 amendments to FIFRA section 19 significantly expanded and strengthened EPA's authority to regulate the management of pesticides and their containers, including storage, transportation and disposal. As proposed, this rule would establish standards for removal of pesticides from containers and for rinsing containers; facilitate the safe use, refill, reuse, and disposal of pesticide containers by establishing standards for container design, labeling and refilling; and establish requirements for containment of stationary bulk containers and for containment of pesticide dispensing areas.

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 7 USC 136w

CFR Citation: 40 CFR 170

Legal Deadline: None

Abstract: Since the issuance of the 1992 WPS and the January 1, 1995 implementation, farmworker groups have expressed an interest in enhancing specific protection measures, while grower groups, the National Association of State Departments of Agriculture and others have expressed an interest in addressing practical, operational concerns. The Agency received various requests and comments in the form of letters, petitions, and individual and public meetings to address the concerns with the WPS. As a result, there may be a need to make further changes of a minor nature to the WPS rule. EPA will take such actions as rules, policy statements or other documents as appropriate, and provide Regulatory Agenda entries when actions are planned.

3639. REGULATION OF PLANT-PRODUCED PESTICIDES UNDER FIFRA AND FFDCA

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 7 USC 136 et seq; 21 USC 346a et seq

CFR Citation: 40 CFR 152.20; 40 CFR 174

Legal Deadline: None

Abstract: Substances that plants produce to protect themselves against pests are pesticides under FIFRA. The Agency designates these substances, along with the genetic material necessary to produce them, plant-pesticides. This rulemaking will exempt several categories of plant-pesticides from FIFRA and FFDCA regulations; confirms that plants used as biological control agents are exempt from regulation under FIFRA, and establishes a new part in title 40 of the CFR, part 174, which consolidates regulations specific for plant-pesticides in one part of the CFR. The proposed consolidation is expected to benefit the public by providing greater focus, enhanced clarity and ease of use. These actions will reduce burden on both the regulated community and EPA.

3650. • TSCA SECTION 4 ENFORCEABLE CONSENT AGREEMENT FOR CERTAIN OXYGENATED FUEL ADDITIVES

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 2603; 15 USC 2611; 15 USC 2625

CFR Citation: 40 CFR 790; 40 CFR 799

Legal Deadline: None

Abstract: Methyl tertiary butyl ether (MTBE) alcohol is commonly found at concentrations above the current EPA draft lifetime health advisory for drinking water at many point source-gasoline release sites. MTBE is significantly more persistent than benzene, toluene, ethyl-benzene and xylenes (BTEX) in the subsurface. Releases of fuel oxygenates occur during manufacture, distribution, storage, and use, particularly from point sources such as underground storage tanks, pipelines and refueling facilities. The Toxic Release Inventory (TRI) estimates that MTBE releases in the United States exceeded 3.3 million pounds in 1994. EPA has not established water quality criteria for fuel oxygenates for protection of freshwater or marine aquatic life. The American Petroleum Institute (API) has recently completed a search and evaluation of extant literature on the acute and chronic toxicity of oxygenates for aquatic organisms and has provided the results to EPA. From the data gaps identified through that effort, testing to fill critical needs is expected to be conducted within a year of the API submission. Current actions should provide an appropriate basis for later determining whether additional effects testing or research is needed. Most of the testing and research on the toxicity of oxygenates has been concerned with the effects of inhaled MTBE in laboratory and human volunteers. Virtually no information exists on the effects of ingested oxygenates on humans, with the notable exception of the extensive database on the health effects of ingested alcohol. The lack of a more substantial health effects database has made it difficult to develop a final drinking water Health Advisory or derive an oral Reference Dose (RfD) for MTBE and other oxygenates. Further subchronic and chronic data are necessary to develop a final Health Advisory. This action, which would reflect a cooperative effort between EPA and Industry to develop a testing program, would serve as a mechanism to develop the needed data.

3655. LEAD; TSCA REQUIREMENTS FOR THE DISPOSAL OF LEAD-BASED PAINT DEBRIS

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 2601 to 2671; 42 USC 6901 to 6992

CFR Citation: 40 CFR 745

Legal Deadline: None

Abstract: Currently, waste derived from lead-based paint (LBP) abatements is managed under the Resource Conservation and Recovery Act (RCRA)

hazardous waste regulations. Other Federal agencies (Department of Housing and Urban Development, Department of Health and Human Services) and several States and advocacy groups have expressed concern that the costs associated with the disposal of large volume architectural components (e.g., doors and windows) may interfere with abatement activities. EPA's Office of Prevention, Pesticides and Toxic Substances and the Office of Solid Waste have initiated a joint rulemaking to address the disposal of these architectural components. This rulemaking would develop disposal standards for these components under the Toxic Substances Control Act (TSCA) title IV, (the definition of abatement under TSCA title IV, section 401(1)(B), includes disposal). The TSCA regulations would establish appropriate disposal standards for LBP architectural components and identify recycling and incineration activities that would be controlled or prohibited. To minimize duplication of waste management requirements, EPA is developing a companion RCRA rule to suspend temporarily hazardous waste management regulations applicable to lead-based paint debris which will be subject to the new TSCA standards.

3657. MULTI-CHEMICAL TEST RULE; HIGH PRODUCTION VOLUME CHEMICALS

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 2603

CFR Citation: 40 CFR 799

Legal Deadline: None

Abstract: This action is related to Vice President Gore's challenge to industry on the eve of Earth Day, April 21, 1998, to come forward quickly with needed test data on high production volume (HPV) chemicals. This challenge encompasses approximately 3,000 chemicals which are manufactured (including imported) in the aggregate at more than 1 million pounds on an annual basis. The data needed on these chemicals are: acute toxicity, repeat dose toxicity, developmental and reproductive toxicity; mutagenicity; ecotoxicity and environmental fate. This rule will require testing and recordkeeping requirements for those chemicals for which industry does not voluntarily agree to provide testing in a timely manner. The action is part of the Chemical Right-to-Know Initiative, which is described in the Regulatory Plan.

3659. TEST RULE; ATSDR SUBSTANCES

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 2603 TSCA 4; 42 USC 9604(i) CERCLA 104(i); 15 USC 2611

CFR Citation: 40 CFR 795 to 799

Legal Deadline: None

Abstract: EPA is proposing a test rule under section 4(a) of the Toxic Substances Control Act (TSCA) requiring manufacturers and processors of eight chemicals (benzene, chloroethane, methylene chloride, perchloroethylene, hydrogen cyanide, sodium cyanide, toluene, and trichloroethylene) to fulfill data needs identified by the Agency for Toxic Substances and Disease Registry (ATSDR), the National Toxicology Program (NTP), and EPA pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) section 104(i).

Under CERCLA, the Agency for Toxic Substances and Disease Registry (ATSDR) is to establish a list of priority hazardous substances found at superfund sites, develop toxicological profiles for the hazardous substances, identify priority data needs, and establish a research program obtaining the necessary data. This action is a component of ATSDR's research program.

Data from this action would provide specific information about the substances for the public and scientific community. The information would be used in conducting comprehensive public health assessments of populations living near hazardous waste sites. Scientific data improves the quality of risk assessments used by EPA, other Federal agencies, and State and local governments. The risk assessments affect standards, guidelines, listing/delisting, and other decisions affecting public health and the environment.

3660. MULTI-CHEMICAL TEST RULE; CHILDREN'S HEALTH

Priority: Other Significant

Legal Authority: 15 USC 2603 TSCA 4

CFR Citation: 40 CFR 799

Legal Deadline: None

Abstract: A multi-chemical test rule will propose the testing of chemicals to which the general population, including children, have potentially high exposure. The chemical selection criteria will include high production volume, indoor air pollutant present in consumer products, presence with high frequency in consumer products, TRI chemical with annual release to environment of more than 1 million pounds, pesticide inert, unregulated drinking water contaminant, presence in breast milk, and nominations from other government agencies. The test battery will include acute and subchronic toxicity, developmental neurotoxicity, 2-generation reproductive toxicity, mutagenicity, oncogenicity, and pharmacokinetics. This Children's Health test rule will focus on chemicals with a high potential for exposure; future test rules may also consider chemicals with suggestive, but not fully characterized, evidence of toxicity. The purpose of this and future Children's Health test rules is to improve our understanding of the risks posed to children's health by chemicals to which they may be exposed in the home, school, and the environment.

3661. TEST RULE FOR CERTAIN METALS

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 2603 TSCA 4; 15 USC 2611; 15 USC 2625; 42 USC 9604(i) CERCLA

CFR Citation: 40 CFR 795 to 799

Legal Deadline: None

Abstract: EPA is proposing a test rule under section 4(a) of the Toxic Substances Control Act (TSCA) requiring manufacturers and processors of certain metals (beryllium, chromium, manganese, mercury, nickel, and selenium) to fulfill data needs identified by the Agency for Toxic Substances and Disease Registry (ATSDR), the National Toxicology Program (NTP), and EPA pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) section 104(I).

Under CERCLA, the Agency for Toxic Substances and Disease Registry (ATSDR) is to establish a list of priority hazardous substances found at superfund sites, develop toxicological profiles for the hazardous substances, identify priority data needs, and establish a research program obtaining the necessary data. This action is a component of ATSDR's research program.

Data from this action would provide specific information about the substances for the public and scientific community. The information would be used in conducting comprehensive public health assessments of populations living near hazardous waste sites. Scientific data improves the quality of risk assessments used by EPA, other Federal agencies, and State and local governments. The risk assessments affect standards, guidelines, listing/delisting, and other decisions affecting public health and the environment.

The metals listed here, including cadmium, are also hazardous air pollutants (HAPs) under the Clean Air Act (CAA) section 112. Data from this

action would also be used to implement several provisions of section 112 of the CAA, including determining risks remaining after the application of technology based on standards under section 112(d) of the CAA, estimating the risks associated with accidental releases, and determining whether or not substances should be removed from the CAA section (b)(1) list of HAPs (delisting).

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 2604 TSCA 5; 15 USC 2607 TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 721

Legal Deadline: None

Abstract: EPA has established a program to monitor the commercial development of existing chemicals of concern and/or to gather information to support planned or ongoing risk assessments on such chemicals. As these chemicals are identified, EPA will initiate rulemakings under the Toxic Substances Control Act (TSCA) sections 5 and/or 8 to require reporting of appropriate needed information by the manufacturers, importers and/or processors of these chemicals. Individual proposed or final rules will be published on at least the chemicals listed below.

3663. TSCA BIOTECHNOLOGY FOLLOW-UP RULES

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 2604 TSCA 5(a)

CFR Citation: 40 CFR 720; 40 CFR 725 (Revision)

Legal Deadline: None

Abstract: As a follow-up to the final Biotechnology rule under the Toxic Substances Control Act (TSCA), EPA plans to address the following actions: 1) Intergeneric Scope of Oversight: OPPT currently defines new microorganisms which are subject to reporting under TSCA section 5 as those resulting from the deliberate combination of genetic material originally isolated from microorganisms classified in different taxonomic genera. Such microorganisms are referred to as intergeneric microorganisms. EPA indicated in its 1994 proposed biotechnology regulations that it may reconsider its interpretation of "new" microorganism in a later rulemaking, based on the more current state of scientific knowledge about the manner in which genetic material is exchanged among microorganisms in the environment. 2) TSCA Oversight of Transgenic Plants. Certain transgenic plants which express products or which are used for purposes subject to EPA jurisdiction under TSCA may be used for commercial purposes in the United States without oversight by EPA. Such uses include: plants used as intermediates to produce industrial grade oils; and plants used for phytoremediation (clean-up of contaminated soils). Section 5 of TSCA requires that new chemical substances be reviewed by the Agency prior to their introduction into commerce. In its proposed rule, 59 FR 45526 (September 1, 1994), EPA stated that it was reserving jurisdiction over certain transgenic plants and animals: "Plants and animals could also be chemical substances under TSCA....EPA is reserving authority under TSCA to screen transgenic plants and animals in the future as needed," 59 FR 45526, 45527 (September 1, 1994). This action will address whether EPA should exercise jurisdiction under TCSA over products produced by transgenic plants, and/or certain plants.

3664. ASBESTOS; AMENDMENTS TO THE ASBESTOS-CONTAINING MATERIALS IN SCHOOLS RULE, MODEL ACCREDITATION PLAN, AND WORKER PROTECTION RULE

Regulatory Plan: This entry is Seq. No. 110 in Part II of this issue of the Federal Register.

RIN: 2070–AC62

3665. ASBESTOS WORKER PROTECTION RULE; AMENDMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 15 USC 2604 TSCA sec 6

CFR Citation: 40 CFR 763

Legal Deadline: None

Abstract: EPA is proposing to amend the Asbestos Abatement Projects, Worker Protection Rule (WPR), by incorporating certain revisions to the Occupational Safety and Health Administration (OSHA) asbestos workplace standards issued since EPA's WPR was promulgated in 1987. The proposal would generally extend the coverage provided under the OSHA Asbestos Standard for Construction to State and local government employees who are not covered by OSHA or EPA-approved State plans. It would also extend coverage provided under OSHA's Asbestos Standard for general industry for brake and clutch repair to such employees, and would clarify that they include prisoners and students employed by the State and/or local government. EPA also proposes to delegate authority to grant or deny State exclusions under the WPR to EPA Regional Administrators and to add compliance and enforcement requirements for State exclusions. In addition, EPA is proposing to amend the Asbestos-Containing Materials in Schools Rule by relocating certain worker protection provisions in the WPR. EPA plans to further update this rule to make it consistent with the most recent OSHA rule.

3667. LEAD-BASED PAINT ACTIVITIES; TRAINING AND CERTIFICATION FOR RENOVATION AND REMODELING

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: PL 102-550 Sec 402(c)(3)

CFR Citation: 40 CFR 745

Legal Deadline:
Final, Statutory, October 31, 1996.

Abstract: Under section 402(c)(2) of TSCA title IV, EPA is currently conducting a study of the extent to which persons engaged in renovation and remodeling activities in target housing are exposed to lead in the conduct of such activities or disturb lead and create a lead-based paint hazard. EPA must use the results of this study and consult with interested parties to determine which categories of renovation and remodeling activities require training and certification. EPA must then revise the training and certification regulations originally developed for individuals performing lead-based paint abatement under section 402(c)(a) of TSCA title IV to apply them to the renovation and remodeling categories. If EPA determines that any category does not require certification, EPA must publish an explanation of the basis for that determination.

EPA—TSCA

Proposed Rule Stage

3668. • LEAD-BASED PAINT; NOTIFICATION OF COMMENCEMENT OF ABATEMENT ACTIVITIES

Priority: Info./Admin./Other

Legal Authority: PL 102-550; 15 USC 2603 TSCA 4

CFR Citation: 40 CFR 745

Legal Deadline: None

Abstract: Section 402 of TSCA directs EPA to establish regulations containing standards for performing lead-based paint activities, one of the standards EPA developed, codified at 40 CFR section 745.227 (e)(4) requires notification to EPA of the commencement of lead-based paint abatement activities in a residential dwelling or child-occupied facility or as a result of a Federal State, or local order.

This rule establishes requirements for the notification of commencement of lead-based paint abatement activities. These provisions include uniform procedures to notify the Agency of routine and emergency lead-based paint abatement activities. The rule will also prohibit lead-based paint abatement activities from starting on any date other than the one contained in the notification. This information is necessary to provide enforcement personnel with information for compliance activities and to prioritize inspections.

3672. TEST RULE; HAZARDOUS AIR POLLUTANTS (HAPS)

Priority: Other Significant

Legal Authority: 15 USC 2603 TSCA 4; 42 USC 7412 CAA 112; 42 USC 7403 CAA 103

CFR Citation: 40 CFR 789 to 795

Legal Deadline: None

Abstract: EPA is proposing health effects testing under TSCA section 4 in support of programs and activities required under section 112 of the Clean Air Act (CAA), governing Hazardous Air Pollutants (HAPs). Section 112 of the CAA directs EPA to determine the risk to health and the environment remaining after application of a technology-based standard to major and area sources. Section 112 also sets forth a mechanism for revising and modifying the statutory list of 189 HAPs under section 112(b), and requirements for an accidental release control program. These data will also be important for the right-to-know program given the large release of these chemicals to the atmosphere. In order to implement these and other programs and requirements under section 112, EPA must identify the health and environment effects of potential concern from exposure to HAPs, ascertain the minimum data needed to adequately characterize those health and environmental effects, and assess the risks posed by HAPs. In addition, under section 103(d), EPA is required to conduct a research program on the short- and long-term effects of air pollutants on human health, ascertain the minimum data needed to adequately characterize those health and environmental effects, and assess the risks posed by HAPs.

3673. FOLLOW-UP RULES ON NON-5(E) NEW CHEMICAL SUBSTANCES

Priority: Routine and Frequent

Legal Authority: 15 USC 2604 TSCA sec 5

CFR Citation: 40 CFR 704; 40 CFR 721

Legal Deadline: None

Abstract: EPA regulates the commercial development of new chemicals that have completed premanufacture notice (PMN) review, where activities described in the PMN did not present an unreasonable risk but uncontrolled manufacture, import, processing, distribution, use, or disposal outside the activities described in the PMN may present an unreasonable risk. EPA will issue Significant New Use Rules (SNURs) requiring 90-day notification to EPA from any manufacturer, importer, or processor who would engage in activities that are designated as significant new uses. Under the Expedited Follow-up Rule (EFUR) which became effective on October 12, 1989, EPA will identify such new chemicals and publish them in a batch SNUR 3-4 times per year. Chemicals that were subject to a proposed SNUR before the effective date of the EFUR or do not qualify under the EFUR, may be regulated individually by notice and comment rulemaking and are listed below.

3674. CHEMICAL-SPECIFIC SIGNIFICANT NEW USE RULES (SNURS) TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Priority: Routine and Frequent

Legal Authority: 15 USC 2604 TSCA sec 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: When the Agency determines that uncontrolled manufacture, import, processing, distribution, use or disposal of a premanufacture notification (PMN) substance may present an unreasonable risk, it may issue a section 5(e) consent order to limit these activities. However, such orders apply only to the PMN submitter. Once the new substance is

entered on the Toxic Substances Control Act (TSCA) chemical inventory, others can manufacture, import or process the substance without controls. Therefore, EPA extends the controls to apply to others by designating manufacture, import or processing of the substances for uses without the specified controls as significant new uses. Under the Expedited Follow-Up Rule, which became effective on October 10, 1989 (54 FR 31314), EPA routinely publishes batch SNURs containing routine section 5(e) and non-5(e) SNURs. However, certain activities, such as modifications, withdrawals, revocations, and SNURs upon which comments are received in the direct final publication process, are subject to notice and comment rulemaking and are listed below.

Legal Deadline: None

Abstract: EPA has instituted a program to monitor the commercial development of existing chemicals of concern and/or to gather information to support risk assessments on such chemicals. As these chemicals are identified, EPA will initiate rulemakings under the Toxic Substances Control Act (TSCA) sections 5 and/or 8 to require reporting by the manufacturers, importers and/or processors of these chemicals. Proposed rules may be published on at least the chemicals listed on the timetable below.

3677. PCBS; POLYCHLORINATED BIPHENYLS (PCBS) TRANSFORMER RECLASSIFICATION RULE

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 15 USC 2605 TSCA sec 6(e)

CFR Citation: 40 CFR 761

Legal Deadline: None

Abstract: This rule would relax the regulatory requirements for reclassifying PCB transformers to a lower regulatory status by modifying the current reclassification requirements of 50 degree centigrade temperature and 90-day testing. Results of a preliminary analysis indicate that many transformers never reach the required temperature, but still reduce PCB concentrations and that safety risks to employees and to the general public occur in mandating the continued adherence to the current regulations.

3678. TSCA SECTION 8(A) PRELIMINARY ASSESSMENT INFORMATION RULES

Priority: Routine and Frequent

Legal Authority: 15 USC 2607(a) TSCA sec 8(a)

CFR Citation: 40 CFR 712

Legal Deadline: None

Abstract: These rules add chemicals to the list of chemicals and designated mixtures subject to the requirements of the Toxic Substances Control Act section 8(a) Preliminary Assessment Information Rule (40 CFR part 712). These chemicals have been identified by the Office of Pollution Prevention and Toxics, other EPA offices, and other Federal agencies, as well as recommended for testing consideration by the Interagency Testing Committee. Manufacturers and importers are required to submit exposure-related data (EPA Form No. 7710-35) on the chemicals. These data will be used to monitor the levels of production, import and/or processing of these substances and the avenues of human and environmental exposure to these substances. These data will also support risk assessment and test rule decisions.

Priority: Routine and Frequent

Legal Authority: 15 USC 2607(d) TSCA sec 8(d)

CFR Citation: 40 CFR 716

Legal Deadline: None

Abstract: These rules require manufacturers, importers and processors to submit unpublished health and safety data on chemicals added to the requirements of the Toxic Substances Control Act section 8(d) Health and Safety Data Reporting Rule (40 CFR part 716). These chemicals have been identified by the Office of Pollution Prevention and Toxics, other EPA offices, and other Federal agencies, as well as recommended for testing consideration by the Interagency Testing Committee.

3680. USE OF ACRYLAMIDE FOR GROUTING

Priority: Other Significant

Legal Authority: 15 USC 2605 TSCA sec 6; TSCA sec 8

CFR Citation: 40 CFR 764

Legal Deadline: None

Abstract: On October 2, 1991, EPA proposed a regulation of acrylamide and NMA grouts based on the unreasonable risk associated with their usage. EPA's rule would prohibit the manufacture, distribution in commerce, and use of acrylamide grout. In February 1996, EPA reopened the record for 30 days to take additional comments, specifically to seek data on the durability of acrylamide and NMA grouts. The Agency has reviewed the

comments and expects to promulgate the final rule in fall 1998.

3681. TSCA SECTION 8(E) POLICY; NOTICE OF CLARIFICATION

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 15 USC 2607(e) TSCA sec 8(e)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The TSCA section 8(e) Notice of Clarification and Solicitation of Public Comment would amend certain aspects of the 1978 TSCA section 8(e) Statement of Interpretation and Enforcement Policy (1978 Policy Statement). The 1978 Policy Statement describes the types of information that EPA considers reportable under section 8(e), the substantial risk reporting provision of TSCA, and describes the procedures for reporting such information to EPA. This clarification effort derives from a review of the existing section 8(e) guidance done in the context of questions raised by companies considering participating in the section 8(e) Compliance Audit Program (CAP). As a result of this review, EPA determined that parts of the 1978 Policy Statement concerning the reportability of information on widespread and previously unsuspected distribution in environmental media and emergency incidents of environmental contamination needed some refinement. The subject Federal Register action solicited comment on refined reporting guidance concerning widespread and previously unsuspected distribution in environmental media and provides additional circumstances where information is not reportable because it is considered known to the Administrator. Finally, the notice solicited comments on changes to the section 8(e) reporting deadline and reaffirmed the standards for claims of confidentiality for information contained in a notice of substantial risk under section 8(e).

3682. NOTICE OF TSCA SECTION 4 REIMBURSEMENT PERIOD AND TSCA SECTION 12(B) EXPORT NOTIFICATION PERIOD SUNSET DATES FOR TSCA SECTION 4 SUBSTANCES

Priority: Info./Admin./Other

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 15 USC 2603 TSCA sec 4; 15 USC 2611 TSCA sec 12

CFR Citation: 40 CFR 707; 40 CFR 790; 40 CFR 791; 40 CFR 799

Legal Deadline: None

Abstract: EPA is developing a list of substances that are or have been subject to TSCA section 4 testing actions which required testing under rules or Enforceable Consent Orders. EPA will identify sunset, or termination dates that will identify: (1) the end of section 4 reporting requirements (40 CFR 790); (2) the end of the reimbursement period under which persons subject to test rules are subject to an obligation to reimburse test sponsors (40 CFR 791); and (3) the end of the period during which export notification requirements under TSCA section 12(b) are triggered.

RIN: 2070–AC84

3683. LEAD-BASED PAINT; FEES FOR ACCREDITATION AND CERTIFICATION ACTIVITIES

Priority: Info./Admin./Other

Legal Authority: PL 102-550; 15 USC 2603 TSCA 4

CFR Citation: 40 CFR 745

Legal Deadline: Other, Statutory, August 31, 1998, See additional information.

Abstract: This rule is mandated by section 402(a) of the Toxic Substances Control Act (TSCA) for the purpose of implementing a fee schedule for lead-based paint activities that were addressed in the TSCA section 402 rule, 40 CFR part 745, Lead Requirements for Lead-Based Paint Activities in Target Housing and Child-Occupied Facilities, which published on August 28, 1996. The fee schedule will establish a framework for States to process applications for training providers of lead-based paint training courses and for certification of workers engaged in lead-based paint activities in the five disciplines delineated in the section 402 rule.

The fee rule in concert with the section 402 rule is intended to ensure that individuals conducting lead-based paint inspections, risk assessments, and abatement in target housing and child-occupied facilities are properly trained and certified and that training programs providing instruction in such activities are accredited. This rule is also intended to ensure that these activities are conducted according to reliable, effective, and safe work practice standards and to provide the availability of a trained and qualified workforce to identify and address lead-based paint hazards. By promoting the establishment of this workforce the Agency will help to ensure that individuals and firms conducting lead-based paint (LBP) activities in target housing and child-occupied facilities will do so in a way that safeguards the environment and protects the health of building occupants, especially children aged six years and younger.

Regarding the anticipated impact on small business, section 402(a) does not require or mandate the abatement of lead-based paint, nor require that any particular enterprise participate in the lead-based paint field. However, if firms choose to participate, compliance costs consist of two components that may impact small businesses: (1) accreditation and training costs for workers and supervisors, as well as certification fees that this rule will establish and (2) incremental costs of work practice standards for abatement procedures. The "Notification of Commencement of Lead-Based Paint Abatement Activities" portion has been split off as a separate rule.

Toxic Substances Control Act (TSCA)

3684. TRI; DATA EXPANSION AMENDMENTS; TOXIC CHEMICAL RELEASE REPORTING; COMMUNITY RIGHT-TO-KNOW

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 11013 EPCRA; 42 USC 11023; 42 USC 11048; 42 USC 11076

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: The original Toxics Release Inventory (TRI) required reporting from manufacturing facilities on the releases and other waste management activities including waste treatment and disposal methods. This requirement was imposed under the Emergency Planning and Community Right-to-Know Act (EPCRA) section 313(g). Information on waste management practices, including recycling, energy recovery, and source reduction activities, were added to TRI pursuant to the 1990 passage of the Pollution Prevention Act. EPA is currently considering whether additional data elements related to a mass balance/materials accounting program should be considered for incorporation into the TRI database. The additional data elements included for consideration include: quantity brought on site; quantity produced on site; quantity consumed on site; quantity contained in or as product; quantity stored on site as waste, and beginning and ending raw materials inventory. The issue of collecting mass balance/materials accounting information has been debated for over a decade. Congress, in enacting EPCRA, directed the National Academy of Sciences (NAS) to study this issue further. NAS recommended that the issue of adding materials accounting data merited further analysis. Because of competing priorities, this project is currently on-hold. No activities are planned for 1999.

Priority: Info./Admin./Other

Legal Authority: 15 USC 2605(e)TSCA sec 6(e)

CFR Citation: 40 CFR 761

Legal Deadline: None

Abstract: In the April 25, 1997, issue of the Regulatory Agenda (62 FR 22297), EPA announced the review of the requirements for Polychlorinated Biphenyls (PCBs) Disposal (see RIN 2070-AD04) under section 610 of the Regulatory Flexibility Act, and solicited public comment on whether additional changes to that rule would further reduce impacts on small entities while still accomplishing the objectives of the statute authorizing the rule. We did not receive any comments in response to this request. On June 29, 1998, (63 FR 35384) EPA issued the final PCB Disposal Amendments which are anticipated to provide significant cost savings to the regulated community including small entities. EPA has also determined that this rule continues to be necessary to provide options for the safe disposal of PCB and to protect human health and the environment from potential unreasonable risks associated with exposure to PCBs as required by the Toxic Substances Control Act. With this notice, EPA hereby concludes its section 610 review of this rule.

3701. • EMERGENCY PLANNING AND COMMUNITY RIGHT-TO-KNOW PROGRAMS; AMENDMENTS TO HAZARDOUS CHEMICAL REPORTING THRESHOLDS FOR GASOLINE AND DIESEL FUEL AT RETAIL GAS STATIONS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: PL 99-499

CFR Citation: 40 CFR 370

Legal Deadline: None

Abstract: On June 8, 1998, EPA proposed a series of modifications to section 302 through 312 of EPCRA. These proposed modifications included raising the threshold for gasoline and diesel fuel at retail gas stations when stored entirely underground, and in compliance with Underground Storage Tank Regulation; raising the threshold under sections 311 and 312 for sand, gravel, rock salt and other chemicals that pose minimal risk and minimal hazards to the community; revising existing regulations to put them in a Plain English format; and providing other regulatory changes and draft guidance. However, in this rule, the Agency is finalizing only the new thresholds for gasoline and diesel fuel at retail gas stations when stored entirely underground, and in compliance with Underground Storage Tank Regulation. The other proposals will be finalized in a separate, later rulemaking.

3702. ACCIDENTAL RELEASE PREVENTION REQUIREMENTS: RISK MANAGEMENT PROGRAMS UNDER THE CLEAN AIR ACT, SECTION 112(R)(7): AMENDMENT

Priority: Other Significant

Legal Authority: 42 USC 7412(r); 42 USC 7601(a)(1)

CFR Citation: 40 CFR 68

Legal Deadline: None

Abstract: The Clean Air Act section 112(r) required EPA to publish regulations focusing on the prevention of chemical accidents, building on the chemical safety work begun under the Emergency Planning and Community Right-to-Know Act (EPCRA). On June 20, 1996, EPA published the final rule for Risk Management Programs. An estimated 66,000 facilities are subject to this regulation based on the quantity of regulated substances they have on-site. These facilities will be required to implement a Risk Management Program and submit a summary of the program (the risk management plan, or RMP) to a central location specified by EPA. The RMP data will assist State and local government entities responsible for chemical emergency preparedness and prevention. It will also be useful to environmental and community organizations and the public in understanding the chemical risks in their communities. EPA will use the RMP data to set priorities, target resources, and measure the success of the Risk Management Program in accordance with the Government Performance and Results Act (GPRA). In addition, EPA hopes the availability of this information will stimulate a dialogue between industry and the public to improve accident prevention and emergency response practices at the local level.

EPA proposed the following modifications to the RMP final rule: (1) clarify how Confidential Business Information (CBI) should be submitted to EPA; (2) add 4 required and 5 optional data elements to the previous requirements; and (3) replace Standard Industrial Classification (SIC) codes with the North American Industry Classification System (NAICS).

3707. REINVENTING THE LAND DISPOSAL RESTRICTIONS PROGRAM

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 6905; 42 USC 6912(a); 42 USC 6921; 42 USC 6924

CFR Citation: 40 CFR 268

Legal Deadline: None

Abstract: The Land Disposal Restrictions (LDR) program was established to minimize threats posed by the land disposal of untreated hazardous wastes. The program has been in place for a number of years and now regulates all but the most recently listed hazardous wastes. The Agency is now examining the LDR program, exploring past accomplishments, current issues, and future possibilities. The goals of the examination are to make the LDR program cheaper, smarter, cleaner, and more flexible. The Agency will develop an Advance Notice of Proposed Rulemaking (ANPRM) to present initial thinking and the results of some activities taken as part of the ongoing LDR Reinvention Project so that the public will have an opportunity to comment. A proposed and final rule will follow.

3708. LAND DISPOSAL RESTRICTIONS; POTENTIAL REVISIONS FOR MERCURY LISTED AND CHARACTERISTIC WASTES; ANPRM

Priority: Other Significant

Legal Authority: 42 USC 6905; 42 USC 6912(a); 42 USC 6921; 42 USC 6924

CFR Citation: 40 CFR 268

Legal Deadline: None

Abstract: This Advance Notice of Proposed Rulemaking (ANPRM) will solicit data and comments on treatment data that the Agency has gathered on the treatment of mercury wastes. Some forms of mercury wastes are now required to be treated by either incineration or retorting. Both of these forms of treatment have the potential to emit mercury via air emissions. Also, some information suggests that certain waste types which are required to be retorted are not amenable to that form of treatment. There also is a shrinking demand for mercury, which brings up concerns about requiring recovery of mercury wastes. The data and information gathered by this ANPRM process are intended to be used to propose revised treatment standards for some forms of mercury hazardous wastes in a future rulemaking.

3709. REVIEW OF TOXICITY CHARACTERISTIC LEVEL FOR SILVER UNDER THE RESOURCE CONSERVATION RECOVERY ACT (RCRA)

Priority: Info./Admin./Other

Legal Authority: 42 USC 6905; 42 USC 6912(a); 42 USC 6921; 42 USC 6922; 42 USC 6938

CFR Citation: 40 CFR 261; 40 CFR 268

Legal Deadline: None

Abstract: This action initiates a technical review of the possible risks associated with management of silver-bearing wastes, which is being conducted in response to petitions submitted to the Agency to delete the toxicity characteristic level for silver. EPA will address all potential pathways for risks from silver-bearing wastes, including possible ecological effects.

Silver is on the toxicity characteristic list because it was a regulated drinking water contaminant. In January 1991, the Agency deleted the primary drinking water maximum contaminant level (MCL) for silver because the Agency concluded that silver causes no adverse human health effects. The petitioners, users of silver materials and silver waste generators, petitioned the Agency to delete silver from the TC list on the basis of the Agency's conclusions regarding silver toxicity to humans in deleting the MCL.

The Agency believes that before a decision can be made to delete or modify the toxicity characteristic level for silver, a more complete assessment of risks posed by management of silver-bearing wastes must be conducted, including a review of possible ecological risks.

Pending the outcome of this review, the Agency may revise or delete the TC level for silver, if warranted.

3710. RCRA REPORTING AND RECORDKEEPING BURDEN REDUCTION; ANPRM

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: PL 104-13; 42 USC 6907; 42 USC 6912(a); 42 USC 6921 to 6927; 42 USC 6930; 42 USC 6934; 42 USC 6935; 42 USC 6937 to 6939; 42 USC 6944; 42 USC 6949a; 42 USC 6974

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: To comply with the requirements of the Paperwork Reduction Act of 1995, EPA must reduce the information collection burden associated with the reporting and recordkeeping requirements imposed on the regulated community by the Agency's regulatory programs. Information Collection Requests (ICRs) approved by the Office of Management and Budget provide a measure of the reporting and recordkeeping requirements associated with a particular regulation. The Office of Solid Waste (OSW) is conducting a review of RCRA ICRs and developing options for reducing the associated burden. OSW will solicit comment on these ideas in either an Advance Notice of Proposed Rulemaking or a proposed rulemaking.

3712. REGULATORY DETERMINATION ON REMAINING WASTES FROM THE COMBUSTION OF FOSSIL FUELS

Priority: Other Significant

Legal Authority: 42 USC 6921(b)(3)(C); RCRA sec 3001(b)(3)(C)

CFR Citation: Not yet determined

Legal Deadline:
Final, Judicial, April 1, 1999, The Agency is seeking a 6 month extension to the legal deadline.

Abstract: On December 1, 1992, the Agency determined that additional study of four large-volume wastes -- fly ash, bottom ash, boiler slag and flue gas emission control wastes -- from the combustion of coal by electric utility power plants was not necessary. A Final Regulatory Determination on these wastes was signed on August 2, 1993 and published in the Federal Register on August 9, 1993. The Agency also determined that for the remaining fossil-fuel combustion wastes, additional data collection is necessary to make a Regulatory Determination on these wastes and a Final Regulatory Determination will be made by April 1, 1999. These remaining wastes include: (1) fly ash, bottom ash, boiler slag, and flue gas emission control wastes from the combustion of coal by electric utility power plants when such wastes are mixed with, co-disposed, co-treated, or otherwise co-managed with other wastes generated in conjunction with the combustion of coal or other fossil fuels, and (2) any other wastes subject to section 8002(n) of RCRA other than those subject to the August 1993 regulatory determination referenced above. The Agency is seeking a six-month extension to the legal deadline for the Phase II regulatory determination.

3713. MODIFICATIONS TO RCRA RULES ASSOCIATED WITH SOLVENT-CONTAMINATED SHOP TOWELS AND WIPERS

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 6921

CFR Citation: 40 CFR 261; 40 CFR 273

Legal Deadline: None

Abstract: This action would modify RCRA rules that impact the management of solvent-contaminated shop towels and wipers. Solvent contaminated shop towels and wipers are used throughout industry for equipment cleaning and other related facility operations. Many times the spent shop towels and wipers are a hazardous waste because the solvent used is either a characteristic or listed solvent. An examination of industry use and management practices reveals that many facilities may use only small amounts of solvent on their disposable wipers, and use small numbers of wipers daily -- suggesting that these materials, particularly if listed solvents are being used, may pose little or no risk to human health and the environment if disposed in municipal landfills. Similarly, situations exist where both disposable wipers and reusable shop towels are not being managed according to prescribed Federal and States rules and policies. Problems with this issue have persisted since the late 1980s.

RIN: 2050–AE51

3714. GLASS-TO-GLASS RECYCLING OF CATHODE RAY TUBES (CRTS): CHANGES TO HAZARDOUS WASTE REGULATIONS

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 6912(a); 42 USC 6921; 42 USC 6922; 42 USC 6923; 42 USC 6924; 42 USC 6925

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: This action will revise the existing Federal hazardous waste regulations to remove unnecessary regulatory barriers to glass-to-glass recycling of Cathode Ray Tubes (CRTs). A CRT is the main component of a television or computer monitor. A CRT is made largely of specialized glasses, some of which contain lead to protect the user from X-rays inside the CRT. Due to the lead, when they are disposed of or reclaimed, some CRTs are hazardous wastes under the Federal Resource Conservation and Recovery Act (RCRA) regulations. Glass-to-glass recycling involves the return of used CRT glass to manufacturing of new CRTs.

This action is planned in response to a June 9, 1998 recommendation on CRT recycling from the Common Sense Initiative (CSI) to the Environmental Protection Agency (EPA). CSI is a consensus-based process for developing cleaner, cheaper, smarter environmental improvements that includes representatives of: industry; environmental groups; community groups; environmental justice groups; labor; and, Federal, State, local, and tribal governments. The recommendation involves minimizing RCRA requirements for glass-to-glass recycling while retaining appropriate controls to ensure protection of human health and the environment. The goal of the recommendation is to facilitate an increase in glass-to-glass recycling, thereby minimizing disposal of lead, increasing resource recovery, and enhancing protection of human health and the environment. The recommendation was developed by the Workgroup on Overcoming Barriers to Pollution Prevention, Product Stewardship, and Recycling of the Computers and Electronics CSI Subcommittee. The Workgroup's process for developing the recommendation on CRT recycling included information gathering, analysis, and discussion to reach consensus. The Workgroup started evaluating CRT recycling in general, and then agreed to limit the first phase of the project to glass-to-glass recycling. Other recycling processes will be evaluated in subsequent phases.

Legal Deadline: None

Abstract: The EPA Office of Solid Waste (OSW) has been actively working to break down the barriers that the environmental monitoring community faces when trying to use new monitoring techniques. As a first step, OSW has accelerated its review process for new methods by eliminating several unnecessary internal review steps, and by streamlining the internal approval process for each new method. However, there are currently 32 citations in title 40 of the Code of Federal Regulations (CFR) where the use of SW-846 methods is required. As a second step for speeding up the approval process, OSW plans to remove the requirements to use SW-846 methods for other than method defined parameters (i.e., where the method defines the regulations, such as the Toxicity Characteristic Leaching Procedure) from 40 CFR. This will likely lead to an even more streamlined approval process since SW-846 will then be able to be handled strictly as guidance and not need the regulatory process for approval. This additional streamlining will permit new, more cost-effective methods to attain public and regulatory authority acceptance in much less time, allowing required monitoring to be done more cheaply, faster and, in some cases, more accurately.

3718. MODIFICATIONS TO THE DEFINITION OF SOLID WASTE AND REGULATIONS OF HAZARDOUS WASTE RECYCLING: GENERAL

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 6905 Resource Conservation Recovery Act sec 1004; 42 USC 6921 to 6928; Resource Conservation Recovery Act sec 3001 to 3008

CFR Citation: 40 CFR 261; 40 CFR 266

Legal Deadline: None

Abstract: Recycling of hazardous waste is governed by the Resource Conservation and Recovery Act (RCRA) hazardous waste regulations. The portion of these regulations known as the Definition of Solid Waste specifies whether hazardous materials that are recycled are subject to RCRA regulatory jurisdiction or not. Other parts of the regulations set forth requirements for managing recycled hazardous waste. This regulatory action will revise the hazardous waste recycling regulations to respond partially to concerns that they are overly complex, difficult to understand, and that they pose a barrier to safe hazardous waste recycling.

3721. REVISIONS TO THE COMPREHENSIVE GUIDELINE FOR PROCUREMENT OF PRODUCTS CONTAINING RECOVERED MATERIALS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 6912(a) Resource Conservation Recovery Act sec 6002(e)

CFR Citation: 40 CFR 247

Legal Deadline: None

Abstract: RCRA section 6002 requires EPA to issue guidelines which designate items that are or can be made with recovered materials and to recommend practices for government procurement of these materials. Once designated, procuring agencies are required to purchase these items with the highest percentage of recovered materials practicable. Government procurement of EPA-designated items containing recovered materials fosters markets for those materials and, thereby, closes the recycling loop. On May 1, 1995, under the authority of RCRA and in compliance with Executive Order (E.O.) 12873, Federal Acquisition, Recycling, and Waste Prevention, EPA designated 19 items in a Comprehensive Procurement Guideline (CPG) (60 FR 21370). EPA also issued purchasing recommendations in a related Recovered Materials Advisory Notice (RMAN) (60 FR 21386). The E.O. requires EPA to update the CPG and issue RMANs annually. On November 13, 1997, EPA issued the first update to the CPG (CPG2), in which 12 additional items were designated; additional recommendations are discussed in RMAN II. The new actions would: (1) propose the second update to the CPG (CPG3), including recommendations in RMANs, and (2) propose the third update to the CPG (CPG4). In addition, EPA will issue a revision to the Paper Products RMAN to incorporate E.O. 12873 requirements to buy printing and writing grade papers with 30% post-consumer content starting 12/31/98. EPA will also revise its RMAN I to include recommendations for purchasing recycled content carpet and plastic batt building insulation.

3724. MERCURY-CONTAINING AND RECHARGEABLE BATTERY MANAGEMENT ACT; CODIFICATION OF WASTE MANAGEMENT PROVISIONS

Priority: Other Significant

Legal Authority: 42 USC 14303

CFR Citation: 40 CFR 271; 40 CFR 273

Legal Deadline: None

Abstract: The purpose of this rule is to codify into the Code of Federal Regulations certain provisions of the Mercury-Containing and Rechargeable Battery Management Act that impact the May 11, 1995 Universal Waste Rule (60 FR 25492). The Act was signed by the President on May 13, 1996 and became immediately effective nationwide on the date of signature. Specifically, one provision of the law requires the collection, storage, and transportation of the following types of batteries be managed according to standards established in the Universal Waste rule: used rechargeable batteries, lead-acid batteries not covered by 40 CFR part 266 or the equivalent requirements of an approved state program, rechargeable alkaline batteries, certain mercury-containing batteries banned from domestic sale, and used consumer products containing rechargeable batteries that are not easily removable. The law prohibits State imposed requirements that are not identical to those found in the final Federal universal waste rule, but allows States to adopt and enforce identical standards and to implement and enforce collection, storage, and transport requirements identical to those included in the universal waste rule if the standards are approved by the EPA Administrator.

The costs of this action should be minimal to the regulated industry since the community regulated by the law -- battery manufacturers, industries that use batteries in their consumer products, and the retail industry -- all support the law. In addition, the regulated community has rechargeable battery recycling programs already in place and such recycling programs are in compliance with the labeling and management provisions of the law. Second, most States have state rechargeable battery recycling statutes in place but their recycling programs vary to some degree with respect to labeling and management requirements. Therefore, modifications to State statutes for rechargeable battery recycling will be necessary, but not costly.

3725. RECYCLED USED OIL CONTAINING PCBS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 9601(37); 42 USC 9614(c); 42 USC 6905; 42 USC 6912(a); 42 USC 6921 to 6927; 42 USC 6930; 42 USC 6934; 42 USC 6974

CFR Citation: 40 CFR 261; 40 CFR 279

Legal Deadline: None

Abstract: The direct final rule, published May 6, 1998, eliminates errors and clarifies ambiguities in the used oil management standards. Specifically, the rule clarifies (1) when used oil contaminated with polychlorinated biphenyls (PCBs) is regulated under the used oil management standards and when it is not, (2) that the requirements applicable to releases of used oil apply in States that are not authorized for the RCRA base program, (3) that mixtures of conditionally exempt small quantity generator (CESQG) wastes and used oil are subject to the used oil management standards irrespective of how that mixture is to be recycled, and (4) that the initial marketer of used oil that meets the used oil fuel specification need only keep a record of a shipment of used oil to the facility to which the initial marketer delivers the used oil. This rule also amends three incorrect references to the pre-1992 used oil specifications in the provisions which address hazardous waste fuel produced from, or oil reclaimed from, oil bearing hazardous wastes from petroleum refining operations.

EPA received relevant adverse comments on three of the amendments included in the May 6, 1998 direct final rule: the amendments to 40 CFR 261.5(j) (mixtures of conditionally exempt small quantity generator waste and used oil), 40 CFR 279.10(i) (applicability of the used oil management standards to used oil contaminated with polychlorinated biphenyls (PCBs)), and 40 CFR 279.74(b) (recordkeeping requirements for marketers of used oil that meets the used oil fuel specification). On July 14, 1998, the Agency removed these three amendments and reinstated the regulatory text that existed prior to the May 6, 1998 direct final rule. EPA will promulgate a final rule addressing the comments received and finalizing the three amendments, as appropriate.

3726. HAZARDOUS WASTE MANAGEMENT SYSTEM: POST-CLOSURE REQUIREMENTS

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 6926 Resource Conservation Recovery Act sec 3006; 42 USC 6912(a) Resource Conservation Recovery Act sec 2002(a); 42 USC 6924 Resource Conservation Recovery Act sec 3004; 42 USC 6925 Resource Conservation Recovery Act sec 3005

CFR Citation: 40 CFR 264; 40 CFR 265; 40 CFR 270; 40 CFR 124

Legal Deadline: None

Abstract: Under the current RCRA regulations, a facility that needs post-closure care must obtain a permit. In many cases, the post-closure permit is an appropriate mechanism for the regulatory agency to use to address the environmental needs at the facility. In other cases, however, a permit may not be appropriate. And, in some cases, the facility's post-closure care needs may have already been addressed through other legal mechanisms, such as enforcement actions or Superfund actions. In these cases, subsequent issuance of a post-closure permit would not provide any environmental benefit, although, under the current regulations, it is still required. This rule would remove the requirements to issue a permit to address post-closure care in all cases. A permit would remain an option, but EPA Regions and authorized States would be able to use other mechanisms as well, depending on the circumstances at the facility.

3727. SPENT SOLVENTS LISTING DETERMINATION

Priority: Other Significant

Legal Authority: 42 USC 6921 Resource Conservation Recovery Act sec 3001; 42 USC 9602 Superfund (CERCLA) sec 102

CFR Citation: 40 CFR 261; 40 CFR 264; 40 CFR 265; 40 CFR 271; 40 CFR 302

Legal Deadline:
Final, Judicial, October 31, 1998.

Abstract: This action addresses the potential human health and environmental risks posed by certain used solvents and wastes from their use, and determines whether or not these wastes should be listed as hazardous wastes under RCRA. If listed under RCRA these wastes would also be added to the CERCLA list of hazardous substances. The spent solvents currently under this listing determination are: cumene, phenol, isophorone, acetonitrile, fufural, epichlorohydrin, methyl chloride, ethylene dibromide, benzyl chloride, p-dichlorobenzene, 2-methoxyethanol, 2-ethoxyethanol, 2-ethoxyethanol acetate, and cyclohexanol. On August 14, 1996, the Agency proposed not to list these spent solvents.

3728. HAZARDOUS WASTE MANAGEMENT SYSTEM; MODIFICATION OF THE HAZARDOUS WASTE PROGRAM; MERCURY-CONTAINING LAMPS

Priority: Other Significant

Legal Authority: 42 USC 6905; 42 USC 6912; 42 USC 6921; 42 USC 6922; 42 USC 6923; 42 USC 6930; 42 USC 6938

CFR Citation: 40 CFR 273

Legal Deadline: None

Abstract: This final rulemaking addresses the management of spent mercury-containing lamps. The rulemaking is based on data which indicate that mercury-containing lamps may be safely managed outside of the full subtitle C requirements of the RCRA hazardous waste system, using a streamlined regulatory structure under RCRA. The rule would have positive impacts on small businesses and State, local and tribal governments interested in collecting and managing lamps.

3729. HAZARDOUS REMEDIATION WASTE MANAGEMENT REQUIREMENTS (COMMONLY REFERRED TO AS HAZARDOUS WASTE IDENTIFICATION RULE FOR CONTAMINATED MEDIA OR HWIR-MEDIA)

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 6905 Resource Conservation Recovery Act (RCRA) sec 1006; 42 USC 6906 RCRA sec 1007; 42 USC 6912 RCRA sec 2002; 42 USC 6912(a) RCRA sec 2002(a); 42 USC 6921 RCRA sec 3001; 42 USC 6922 RCRA sec 3002; 42 USC 6923 RCRA sec 3003; 42 USC 6924 RCRA sec 3004; 42 USC 6925 RCRA sec 3005; 42 USC 6926 RCRA sec 3006; 42 USC 6927 RCRA sec 3007; 42 USC 6935 RCRA sec 3014; 42 USC 6936 RCRA sec 3015; 42 USC 6937 RCRA sec 3016; 42 USC 6974 RCRA sec 7004

CFR Citation: 40 CFR 260; 40 CFR 261; 40 CFR 264; 40 CFR 265; 40 CFR 268; 40 CFR 270; 40 CFR 271

Legal Deadline: None

Abstract: The Agency's goal for the HWIR-media proposal was to provide significant relief from administrative and substantive obstacles for the management of remediation wastes, so that states and EPA could base waste management decisions on actual site conditions and waste characteristics, according to their professional judgment instead of strict national requirements that are not uniformly appropriate at all cleanup sites. The Agency wanted to reduce the overlap between RCRA and the Clean Water Act (CWA) or Marine Protection, Research and Sanctuaries Act (MPRSA) for dredging operations, and EPA was considering withdrawing the regulations for Corrective Action Management Units (CAMUs). Finally, an additional goal was to streamline state authorization.

The Agency has decided on the general framework for finalization of the HWIR-media rule. The Agency plans to promulgate only targeted elements of the proposal rather than go forward with a more comprehensive approach. EPA plans to complement the targeted elements by leaving the CAMU regulations in place, rather than withdrawing these regulations as proposed. Targeted elements EPA plans to include are: streamlined permitting for cleanup sites that would eliminate the requirements for facility-wide corrective action at cleanup-only sites; options for remediation piles that resolve issues raised in the public comments; and a RCRA exclusion for dredged materials managed under CWA or MPRSA permits. EPA is also planning to include streamlined procedures for state authorization of minor or routine RCRA rules. EPA is withdrawing the portions of the proposal which would have distinguished between lower- and higher-risk contaminated media and would have given regulatory agencies the flexibility to exempt lower-risk contaminated media from RCRA requirements. The Agency has finalized the alternative land disposal restriction treatment standards for hazardous contaminated soil as part of the Land Disposal Restrictions Phase IV rulemaking (63 FR 28556, May 26, 1998).

3730. RCRA SUBTITLE C FINANCIAL TEST CRITERIA (REVISION)

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 6912(a) Resource Conservation Recovery Act sec 2002(a); 42 USC 6924 Resource Conservation Recovery Act sec 3004; 42 USC 6925 Resource Conservation Recovery Act sec 3005; 42 USC 6926 Resource Conservation Recovery Act sec 3006

CFR Citation: 40 CFR 264; 40 CFR 265; 40 CFR 280; 40 CFR 761

Legal Deadline: None

Abstract: The revised financial responsibility test is intended to improve the current test in predicting which firms will enter bankruptcy and not be able to cover their financial obligations for liability and closure costs of hazardous waste treatment, storage and disposal facilities. A bankrupt firm may be unable to afford the proper closure of a facility which would require the government to incur response costs at the facility. The rule would also qualify owners and operators of RCRA Treatment, Storage, and Disposal Facilities which must currently use more expensive ways, such as surety bonds or letters of credit, of demonstrating financial assurance, to use the less expensive corporate financial responsibility test for more of their obligations. The combined savings from screening out riskier firms and making the test more available to viable firms would be approximately $19 million annually in public and private costs. These regulatory amendments would have no effect on local or tribal governments.

3731. RCRA SUBTITLE D SOLID WASTE FACILITIES; STATE PERMIT PROGRAM—DETERMINATION OF ADEQUACY (STATE IMPLEMENTATION RULE)

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 6945 Resource Conservation Recovery Act sec 4005; 42 USC 6912 Resource Conservation Recovery Act sec 2002

CFR Citation: 40 CFR 239

Legal Deadline: None

Abstract: This rule will establish criteria and procedures for EPA to use to determine whether State municipal solid waste (MSW) landfill permit programs and State permit programs relating to non-municipal, non-hazardous waste disposal units that receive conditionally exempt small quantity generator (CESQG) waste are adequate to ensure compliance with the Federal revised criteria in 40 CFR parts 258 and 257, subpart B, respectively. While the Federal revised criteria apply to all MSW landfills and non-municipal, non-hazardous waste disposal units receiving CESQG waste, States with permit programs deemed adequate under this rule can provide some flexibility on certain requirements to owners and operators who meet the revised criteria's performance standards. In providing this flexibility, this action offers an opportunity to reduce the regulatory burden on State and local governments and on landfill owners and operators.

3736. • INTERIM EMERGENCY RULE REVISING LAND DISPOSAL RESTRICTION TREATMENT STANDARDS FOR ALUMINUM POTLINERS—K088 WASTE

Priority: Other Significant

Legal Authority: 42 USC 6924, RCRA 3004m

CFR Citation: 40 CFR 268; 40 CFR 271

Legal Deadline: Final, Judicial, September 24, 1998.
Interim Final Rule

Abstract: EPA is promulgating treatment standards for spent potliners from primary aluminum reduction (EPA hazardous waste: K088) under its Land Disposal Restrictions (LDR) program. The purpose of the LDR program, authorized by the Resource Conservation and Recovery Act (RCRA), is to minimize threats to human health and the environment due to land disposal of hazardous wastes. As a result of this rule, spent potliners will be prohibited from land disposal unless the wastes have been treated in compliance with the numerical standards contained in the rule. These treatment standards are necessary to minimize threats to human health and the environment from exposure to hazardous constituents which may potentially leach from landfills to groundwater.

Oil Pollution Act (OPA)

Final Rule Stage

3747. OIL POLLUTION PREVENTION REGULATION: REVISIONS

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 33 USC 1321 Clean Water Act sec 311(j)(1)(C)

CFR Citation: 40 CFR 112

Legal Deadline: None

Abstract: Following a major inland oil spill with substantial environmental impacts (i.e., Ashland Oil in Floreffe, PA, in January 1988), an interagency task force recommended steps to improve EPA's oil spill prevention program (40 CFR part 112). This program requires oil storage facilities to prevent and contain discharges that could reach waters of the United States. On October 22, 1991, the Agency proposed revisions to implement some of the task force recommendations and on February 17, 1993, the Agency proposed further clarifications and technical changes to the spill prevention regulations. This action supplements the 1991 and 1993 proposed revisions, and proposes to reduce burdens associated with the rule by reducing the recordkeeping provisions or exempting some facilities from some recordkeeping requirements. In proposing these burden reductions, EPA will consider available data on how factors, such as facility type, size, throughput, and location, may affect the threat of discharging oil to waters of the United States.

3749. STREAMLINING THE PREAUTHORIZATION MIXED FUNDING FOR APPLICATION AND IMPLEMENTATION OF CLAIMS AGAINST SUPERFUND

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 9601

CFR Citation: 40 CFR 307

Legal Deadline: None

Abstract: Current regulations at 40 CFR part 307 provide for the preauthorization of claims against the Superfund in instances where the Agency makes a determination that mixed funding is appropriate. This process has been labeled by many stakeholders as overly burdensome. The Agency has reviewed the current process in order to identify areas in which burdens may be lessened and requirements may be streamlined. As a result, the Agency is considering a proposal to amend the current regulation to: streamline the application process by eliminating duplicative information requirements; minimize the requirements related to management, oversight, and reporting of the cleanup, by removing the requirement to be guided by the Federal Acquisition Requirements, and replacing the requirement of maximum free and open competition with a bright-line standard; allow claimants to provide independent certification of claims and supporting documentation; streamline the actual payment process by taking advantage of the electronic funds transfer process; ensure that cost recovery concerns are addressed by requiring claimants, within a settlement document, to reimburse the Fund for costs not recovered (only in the event cost recovery is initiated), due to claimants' failure to provide adequate documentary support or upon a determination that response costs expended (and claimed) were not reasonable or not incurred consistent with the NCP; and ensure proper accounting by requiring offsets for funds owed to the Agency by claimants.

3750. GRANTS FOR TECHNICAL ASSISTANCE RULE REFORM—40 CFR PART 35 SUBPART M

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 9617(e) Superfund (CERCLA) sec 117

CFR Citation: 40 CFR 35

Legal Deadline: None

Abstract: The proposed revisions to the Technical Assistance Grants (TAG) Rule are intended to simplify the application and administrative processes. The new TAG Rule would eliminate the requirement that budget periods may not exceed 3 years. Budget periods would be negotiated with TAG applicants so that they have flexibility to synchronize the period of time during which the recipient anticipates having a technical advisor involved with the schedule of work at a site. In addition, the new rule would eliminate the 20 percent ceiling for administrative costs of a grant so that recipients do not need to differentiate between programmatic and administrative cost. The Agency is also proposing to eliminate the distinction between sole and multiple applicants under the rule, since both must meet identical criteria. The requirement that the applicant demonstrate that there is an actual or potential health threat

EPA—CERCLA — Proposed Rule Stage

posed to group members by the site would also be deleted since EPA believes that there is a potential health threat at all Superfund sites. EPA also believes that all Superfund sites pose potential economic and recreational threats to adjacent communities, and that there is no need for the applicant to provide evidence of those threats. Furthermore, EPA may already have sufficient information from various sources concerning the potential health, economic, and recreational threats posed by Superfund sites. This proposed rule also includes a new provision that allows communities to receive cash advances of up to $5,000.

3751. REPORTABLE QUANTITY ADJUSTMENTS FOR CARBAMATES

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: PL 96-510 Sec 102(a); PL 99-499

CFR Citation: 40 CFR 302

Legal Deadline: None

Abstract: EPA has listed carbamate waste streams as hazardous wastes under the Resource Conservation and Recovery Act (RCRA). RCRA listed wastes, by statute, automatically become hazardous substances under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and are assigned a one pound statutory reportable quantity (RQ) unless EPA adjusts them. These substances also become subject to reporting requirements under the Emergency Planning and Community Right-to-Know Act (EPCRA) with a one pound threshold. EPA, in this action, will propose RQ adjustments for the carbamates. Most RQ adjustments are expected to be greater than one pound. Raising the RQs for these substances would decrease the burden on 1) the regulated community for complying with the reporting requirements under CERCLA and EPCRA; 2) Federal, State, and local authorities for program implementation; and 3) Federal, State, or local authorities, if they release hazardous substances at the RQ level or greater.

3752. NATIONAL PRIORITIES LIST FOR UNCONTROLLED HAZARDOUS WASTE SITES: PROPOSED AND FINAL RULES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 9605 Superfund (CERCLA) sec 105

CFR Citation: 40 CFR 300.425

Legal Deadline: None

Abstract: This action proposes to revise the sites included on the National Priorities List (NPL) of uncontrolled waste sites in the National Contingency Plan (NCP). CERCLA requires that the Agency revise the NPL at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substance releases and to delete sites that have been cleaned up.

3753. REVOCATION OF CAPROLACTAM'S DESIGNATION AS A HAZARDOUS SUBSTANCE UNDER CERCLA

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 9602,et seq

CFR Citation: 40 CFR 302.4

Legal Deadline: None

Abstract: The purpose of this rulemaking is to give notice that caprolactam is no longer a designated CERCLA hazardous substance. When the Clean Air Act (CAA) section 112 listed caprolactam as a hazardous air pollutant, caprolactam became designated as a CERCLA hazardous substance under section 101(14) and 40 CFR 302.4(a). In response to a petition filed by Allied Signal, Inc., BASF Corporation, and DSM Chemicals North America, the Agency made a determination pursuant to CAA section 112(b)(3)(C) that there are adequate data on the health and environmental effects of caprolactam to determine that emissions, ambient concentrations, bioaccumulation, or deposition of the compound may not be reasonably anticipated to cause adverse human health or environmental effects. Caprolactam is no longer listed as a CAA section 112 hazardous air pollutant and also does not appear in any regulations designating as hazardous substances referred to in section 101(14) of CERCLA (exclusive of section 101(14)(B)). In this regulation, the Agency is revoking caprolactam's designation as a hazardous substance under CERCLA.

Clean Water Act (CWA)

3756. EFFLUENT GUIDELINES AND STANDARDS FOR THE ORE MINING AND DRESSING POINT SOURCE CATEGORY, GOLD PLACER MINE SUBCATEGORY (SECTION 610 REVIEW)

Priority: Info./Admin./Other

Legal Authority: 5 USC 610

CFR Citation: 40 CFR 440

Legal Deadline: None

Abstract: On May 24, 1988, EPA issued final effluent guidelines for the Gold Placer Mine Subcategory (40 CFR part 440)under the authority of sections 301; 304(b), (c), and (e); 306; 307; and 501 of the Clean Water Act. In the 1988 promulgation notice, EPA noted that the effluent limitations were economically achievable for facilities of all sizes. Due to the large number of small entities covered by the final rule and EPA's concern about the economic impact on the small facilities, the final rule included a request for comments concerning the impact on small mines. After evaluating all of the comments and data submitted during this comment period, the Agency reaffirmed the conclusions regarding economic achievability. In January 1989, EPA published a notice of the Agency's response to the comments and the Agency's conclusion not to modify the final rule.

This new action is a review of the final rule as required by section 610 of the Regulatory Flexibility Act. The purpose of the review is to determine whether the Placer Mine effluent guidelines should be continued without change, or should be amended or rescinded, to minimize economic impacts on small entities while still complying with the provisions of the Clean Water Act. In reviewing this final rule to minimize any significant economic impacts, EPA will consider the following factors: (1) the continued need for the rule; (2) the nature of complaints or comments received concerning the rule; (3) the complexity of the rule; (4) the extent to which the rule overlaps, duplicates or conflicts with other Federal, State, or local government rules; and (5) the degree to which technology, economic

EPA—CWA — Prerule Stage

conditions, or other factors have changed in the area affected by the rule. EPA invites public comment on the rule.

EPA continues to view the effluent guidelines for the Gold Placer Mine Subcategory as a necessary component of the comprehensive program to restore and maintain the quality of our Nation's waters. Unless and until the Agency modifies the rule, the discharges described in 40 CFR 440.140 remain subject to the final rule.

ENVIRONMENTAL PROTECTION AGENCY (EPA) — Proposed Rule Stage

Clean Water Act (CWA)

3757. • TOTAL MAXIMUM DAILY LOAD (TMDL) PROGRAM REGULATIONS REVISIONS

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1313

CFR Citation: 40 CFR 130.7

Legal Deadline: None

Abstract: The Office of Water will be proposing changes to the existing regulations for implementing the Total Maximum Daily Load (TMDL) program under the Clean Water Act. The TMDL program is a key component of watershed management. It requires States to identify water quality-limited segments still in need of TMDLs for these waters. EPA is required to approve or disapprove State lists and TMDLs, and to establish lists of waters and TMDLs when it disapproves the State action.

In 1996, EPA convened a Federal Advisory Committee to provide comprehensive recommendations for improving the TMDL program, with a particular emphasis on the following issues: listing waters needing TMDLs; criteria for EPA approval of TMDLs; State and Federal program oversight; and science and tools for TMDL development. On July 28, 1998 the Committee submitted its recommendations to the EPA Administrator in the spring of 1998. EPA will carefully consider the Committee's recommendations and then propose changes to the existing TMDL program regulations. The ultimate purpose of these changes is to improve water quality by providing States with clear direction regarding listing of impaired waterbodies and the development of TMDLs.

3758. REVISIONS TO EFFLUENT GUIDELINES AND STANDARDS FOR THE OIL AND GAS EXTRACTION POINT SOURCE CATEGORY

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1311; 33 USC 1314; 33 USC 1316; 33 USC 1317; 33 USC 1318; 33 USC 1361

CFR Citation: 40 CFR 435

Legal Deadline:
NPRM, Judicial, December 31, 1998.
Final, Judicial, December 31, 2000.

Abstract: This regulatory action will establish effluent limitations for the use of synthetic-based drilling fluids (SBF). Oil and Gas Extraction is covered by existing effluent guidelines at 40 CFR part 435. However, the SBFs are a new technology not addressed in the guidelines, and applying the existing regulations which were developed for water-based and oil-based drilling fluids is not appropriate. The use of SBFs presents an opportunity for environmental gain. On a drilling performance basis, SBFs replace oil-based drilling fluids, but unlike oil-based drilling fluids, SBFs are free of aromatic hydrocarbon priority pollutants, exhibit greatly reduced toxicity, biodegrade relatively rapidly, and do not bioaccumulate. Compared to water-based drilling fluids, SBFs have reduced aquatic toxicity and lower discharge volumes resulting in lower toxic metals discharge. To realize the potential environmental gain, new guidelines specific to the SBFs are necessary to minimize the wastestream volume and control potential contaminants, toxicity, biodegradation, and bioaccumulation.

3760. REFORMATTING OF EFFLUENT GUIDELINES AND STANDARDS IN 40 CFR PARTS 405 THROUGH 471

Priority: Info./Admin./Other

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 33 USC 1251; 33 USC 1313 Clean Water Act sec 101; 33 USC 1311 Clean Water Act sec 301; 33 USC 1314 Clean Water Act sec 304; 33 USC 1316 Clean Water Act sec 306; 33 USC 1317 Clean Water Act sec 307

CFR Citation: 40 CFR 405 to 471 (Revision)

Legal Deadline: None

Abstract: This regulatory action would reformat the existing Effluent Limitation Guidelines and Standards found in 40 CFR parts 405 through 471 without making any changes to the requirements therein. The purpose of this action is to streamline the CFR and establish a format that is easier for Federal, State, and local regulators and the regulated community to read and understand. This action does not require State, local, or tribal governments or the regulated community to do anything beyond what is currently required. This rule, will, therefore, not impose any economic burden.

3761. STREAMLINING 301(H) WAIVER RENEWAL REQUIREMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1311 CWA sec 301; 33 USC

CFR Citation: 40 CFR 125(g)

Legal Deadline: None

Abstract: EPA is proposing an amendment to the regulations contained in 40 CFR part 125, subpart G. These regulations implement Section 301(h) of the Clean Water Act, 33 USC section 1311(h). Section 301(h) provides publicly owned treatment works (POTWs) discharging to marine waters an opportunity to obtain a modification of secondary treatment requirements if they demonstrate to EPA that they comply with a number of criteria aimed at protecting the marine environment. This proposal is designed to streamline the renewal process for POTWs with 301(h) modified permits. The action would eliminate unnecessary paperwork. It would specify that a completed application would not be required for renewals in cases where EPA already has the required information. Additional information would only be required as necessary to determine ongoing compliance with the 301(h) criteria. This regulation should reduce paperwork submissions from municipalities, which should save time and resources.

3763. GUIDELINES ESTABLISHING TEST PROCEDURES FOR THE ANALYSIS OF TRACE METALS UNDER THE CLEAN WATER ACT

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1314(h) Clean Water Act sec 304(h); 33 USC 1361(a) Clean Water Act sec 501

CFR Citation: 40 CFR 136

Legal Deadline: None

Abstract: This regulatory action would propose to amend the Guidelines Establishing Test Procedures for the Analysis of Pollutants under 40 CFR 136 to approve new EPA methods for the determination of trace metals at EPA's water quality criteria levels. These methods are necessary for the implementation of water quality-based permits under the National Pollutant Discharge Elimination System (NPDES) of the CWA. Water quality-based permits are necessary when technology-based controls do not allow a particular water body to meet the State's designated water quality standard. Because the methods currently approved under 40 CFR 136 were designed to support primarily technology-based permitting needs, and because these technology-based levels are as much as 280 times higher than water quality-based criteria for metals, approval of new EPA test procedures is necessary.

3767. REVISIONS TO NPDES REQUIREMENTS FOR COMPLIANCE REPORTING AND COLLECTION SYSTEM DISCHARGES

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1311 Clean Water Act sec 301; 33 USC 1318 Clean Water Act sec 308; 33 USC 1342 Clean Water Act sec 402; 33 USC 1361 Clean Water Act sec 501(a)

CFR Citation: 40 CFR 122.41

Legal Deadline: None

Abstract: EPA is proposing revisions to the NPDES regulations. The proposed revisions would clarify how standard noncompliance reporting requirements and prohibition/defense provisions in NPDES permits apply to discharges from sanitary sewer and combined sewer collection systems owned and operated by municipal entities. These proposed revisions respond to recommendations made by a FACA Subcommittee (under the Urban Wet Weather Federal Advisory Committee) that was convened by U.S. EPA to provide recommendations for improving NPDES program implementation efforts which address sanitary sewer overflows (SSOs) and sanitary sewer operation, management, and maintenance. The proposed revisions would address combined sewers as well as separate sanitary sewers in order to avoid confusion among the regulatory community. Failures in sewer collection systems can result in discharges of wastewater containing raw sewage to surface waters. Pathogens and other pollutants in these discharges can create significant health and environmental risks. The SSO FACA Subcommittee identified inconsistent application of several key NPDES provisions to SSOs as a major implementation problem. There is substantial agreement among the SSO FACA Subcommittee that EPA should modify the NPDES regulations to clarify how noncompliance reporting and prohibition/defense provisions apply to dischargers to waters of the U.S. from a sanitary sewer collection system.

3768. ESTABLISHMENT OF ELECTRONIC REPORTING FOR NPDES PERMITTEES

Priority: Substantive, Nonsignificant

Legal Authority: CWA 301; CWA 304(i); CWA 308; CWA 402; CWA 501

CFR Citation: 40 CFR 122.22; 40 CFR 122.41(k); 40 CFR 122.41(j); 40 CFR 122.41(l); 40 CFR 122.63

Legal Deadline: None

Abstract: EPA is proposing changes to its NPDES regulations to allow reports and other information to be submitted electronically. When EPA promulgated the current NPDES regulations, the Agency did not anticipate the need or technologies for electronic reporting. Consequently, the current regulations do not specifically address use of electronic reporting technologies. The proposed rule would establish criteria for electronic reporting and a specific process and conditions for electronic reporting of discharge monitoring reports (DMR) to EPA that are intended to achieve reliable and secure electronic reporting in the NPDES program. The proposal addresses electronic signature, certification, and record keeping requirements that permittees would follow when submitting forms to EPA electronically.

3769. CLEAN WATER ACT DEFINITION OF THE WATERS OF THE UNITED STATES

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1361; 33 USC 1362; Clean Water Act sec 501; Clean Water Act sec 502

CFR Citation: 40 CFR 232

Legal Deadline: None

Abstract: This joint action by EPA and Department of Army (Army) likely will address two aspects of the regulatory definition of waters of the United States under the Clean Water Act (CWA). First, the proposal would clarify CWA jurisdiction over isolated waters and wetlands, the use, degradation, or destruction of which would or could affect interstate commerce. This would include addressing the issues raised with regard to such waters by the May 1998 decision of the United States Court of Appeals for the Fourth Circuit in U.S. v. Wilson, 133 F.3d 251. Second, the proposal would clarify what specific categories of artificial waters created out of dry land are generally not considered to be waters of the United States and, therefore, not subject to permit requirements. The proposal would appropriately reflect existing agency guidance interpreting the regulatory definition of waters of the United States as is currently applied to CWA regulatory programs. The purpose of this action is to update and clarify regulatory definitions in light of existing guidance and program developments.

3770. AMENDMENTS TO ROUND I FINAL SEWAGE SLUDGE USE OR DISPOSAL RULE —PHASE TWO

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 33 USC 1251 Clean Water Act sec 101; 33 USC 1345 Clean Water Act sec 405

CFR Citation: 40 CFR 503

Legal Deadline: None

Abstract: EPA is amending the Round I Final Sewage Sludge Use or Disposal Regulation in two phases (i.e., Phase One and Phase Two). Phase Two will address issues presented by judicial remand of specific requirements in the final rule (part 503) and requests for reconsideration and will modify certain technical requirements. The proposed changes will impact Federal, State, local and tribal governments, as well as small businesses and small governmental jurisdictions. EPA expects that these changes will increase flexibility and thus reduce the regulatory burden.

CFR Citation: 40 CFR 136; 40 CFR 141

Legal Deadline: None

Abstract: This regulatory action would propose to amend the Guidelines Establishing Test Procedures for the Analysis of Pollutants under 40 CFR 136 and the analytical methods under 40 CFR 141 to approve EPA Method 1622 for the detection of Cryptosporidium and Giardia in ambient waters and finished drinking water by filtration of a 10-L sample in laboratory, separation of target organisms from other debris using immunomagnetic separation, and detection of the organisms using immunofluorescence assay and differential interference contrast microscopy and confirmation examination of the organisms using vital dye stains. This method would be used by public water systems to collect occurrence and treatment data to characterize Cryptosporidium and Giardia in drinking water articulated in a National Primary Drinking Water Regulation. EPA expects that EPA Method 1622 would increase recovery and would provide better precision than the method included in an earlier EPA rulemaking that collected occurrence data on these contaminants, thus providing for more reliable data.

ENVIRONMENTAL PROTECTION AGENCY (EPA)
Clean Water Act (CWA) — Final Rule Stage

3772. • WATER QUALITY STANDARDS FOR ALABAMA

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1313; CWA 303

CFR Citation: 40 CFR 131

Legal Deadline:
Final, Statutory, June 3, 1998, EPA is required to promulgate rule 90 days after proposal.

Abstract: Under the CWA, States have primary authority in developing water quality standards for waters within their jurisdiction. EPA maintains oversight authority in that States must submit their water quality standards to EPA for review and approval or disapproval. If a State's water quality standards are not consistent with the requirements of the CWA and its supporting regulations, and are subsequently disapproved by EPA, the State must revise the disapproved water quality standards. If the State does not revise the disapproved water quality standards, the CWA authorizes the EPA Administrator to promulgate Federal water quality standards to supersede those disapproved provisions in the water quality standards.

On March 5, 1998, EPA proposed water quality standards applicable to nine stream segments to replace those provisions in Alabama's water quality standards that were disapproved in 1986 and in 1991. Specifically, EPA proposed use designations consistent with those specified in section 101(a) of the CWA to replace the State's assigned Agricultural and Industrial Water Supply use. The effect of the proposed standards is to replace the State-adopted water quality criteria, which protect only for fish survival, with water quality criteria based on protection of propagation of fish, aquatic life, and wildlife.

3773. • WATER QUALITY STANDARDS; ESTABLISHMENT OF NUMERIC CRITERIA FOR PRIORITY TOXIC POLLUTANTS; STATES' COMPLIANCE—REVISION OF POLYCHLORINATED BIPHENYLS (PCBS) CRITERIA

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1251

CFR Citation: 40 CFR 131

Legal Deadline:
Other, Judicial, September 27, 1999, Settlement Agreement for publication of final rule.

Abstract: EPA is revising the rule promulgated on December 22, 1992, (National Toxics Rule or NTR) that established water quality criteria for twelve States and the District of Columbia and Puerto Rico, that has not adopted sufficient chemical-specific numeric criteria for toxic pollutants necessary to comply with the Clean Water Act. Among the criteria promulgated in the NTR were human health criteria for polychlorinated biphenyls (PCBs). EPA has proposed and taken comments on revisions to the human health criteria for PCBs in the NTR, based on the Agency's reassessment of the cancer potency of PCBs.

3776. ESTABLISHMENT OF NUMERIC CRITERIA FOR PRIORITY TOXIC POLLUTANTS FOR THE STATE OF CALIFORNIA

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1313 CWA 303

CFR Citation: 40 CFR 131

Legal Deadline:
Final, Statutory, November 3, 1997, EPA is required to promulgate 90 days after proposal.

Abstract: Several municipal entities and one industry in California sued the California State Water Resources Control Board (SWRCB) in State court over whether the SWRCB's water quality control plans for inland surface waters and enclosed bays and estuaries were adopted in compliance with authorizing State law. The court issued its final decision in March 1994; the Court agreed with the plaintiffs and found that the plans could not remain in effect. The SWRCB was ordered to rescind its plans which contain the State's numeric criteria for priority toxic pollutants. In the absence of State criteria, the Clean Water Act requires the Administrator to promulgate water quality criteria for priority toxic pollutants where EPA has issued section 304(a) criteria guidance when the discharge of such pollutants could reasonably be expected to interfere with the State's designated uses.

3777. GUIDELINES ESTABLISHING OIL AND GREASE TEST PROCEDURES FOR THE ANALYSIS OF POLLUTANTS UNDER THE CLEAN WATER ACT

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1314(h) Clean Water Act sec 304(h); 33 USC 1361(a) Clean Water Act sec 501(a)

CFR Citation: 40 CFR 136

Legal Deadline: None

Abstract: This regulation will amend the Guidelines establishing Test Procedures for the Analysis of Pollutants under section 304(h) of the Clean Water Act to replace existing gravimetric test procedures for the conventional pollutants, Oil and Grease (40 CFR 401.16) with EPA Method 1664 consistent with the Chlorofluorocarbon (CFC) phaseout requirements of the Clean Air Act Amendments of 1990. Method 1664 uses normal hexane (n-hexane) as the extraction solvent in place of 1,1,2-trichloro-1,2, 2-trifluoroethane (CFC-113; Freon-113), which is used in current 40 CFR 136 approved methods for the determination of oil and grease. Presently approved methods are EPA Method 413.1 in Methods for Chemical Analysis of Water and Wastes (EPA-600/4-79-020) and Method 5520B in Standard Methods for the Examination of Water and Wastewater, 18th edition.

3778. GUIDELINES ESTABLISHING TEST PROCEDURES FOR THE ANALYSIS OF CYANIDE UNDER THE CLEAN WATER ACT

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1314(h) Clean Water Act sec 304(h); 33 USC 1361(a) Clean Water Act sec 501(a)

CFR Citation: 40 CFR 136

Legal Deadline: None

Abstract: This regulatory action would amend the Guidelines Establishing Test Procedures for the Analysis of Pollutants under 40 CFR Part 136 to approve new procedures for the analysis of cyanide under the Clean Water Act.

"Cyanides" is a toxic pollutant as defined in the Clean Water Act section 307 and "total cyanide" is a priority pollutant listed at 40 CFR part 423, appendix A. The term total cyanide refers to all forms of cyanide, including those forms that are readily bioavailable such as free and weakly bound cyanide and those forms that are less bioavailable because the cyanide is strongly bound to a metal ion. EPA Method 335.1, Cyanides Amenable to Chlorination (CATC), is currently approved for the measurement of free and weakly complexed forms of cyanides. EPA Methods 335.2 and 335.3 are currently approved for measurement of total cyanides.

EPA Methods 335.1 and 335.3 call for hour-long distillation, chlorination requiring an hour, and two separate aliquots of a given sample distilled and analyzed independently to determine the CATC levels. In order to improve the accuracy and reduce the cost of cyanide measurements, EPA proposed new test procedures for the determination of cyanides.

RIN: 2040–AC76

3779. INCREASED METHOD FLEXIBILITY FOR TEST PROCEDURES APPROVED FOR CLEAN WATER ACT COMPLIANCE MONITORING UNDER 40 CFR PART 136

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1314(h) Clean Water Act sec 304 (h); 33 USC 1361(a) Clean Water Act sec 501 (a)

CFR Citation: 40 CFR 136

Legal Deadline: None

Abstract: This regulatory action would highlight the flexibility already contained in the 600 and 1600 series of EPA Methods that are currently approved for Clean Water Act compliance monitoring under 40 CFR part 136, "Guidelines Establishing Test Procedures for the Analysis of Pollutants." These methods typically contain a statement that "In recognition of advances that are occurring in analytical technology, and to allow the analyst to overcome sample matrix interferences, the analyst is permitted certain options to improve separations or lower the costs of measurements. These options include alternate extraction, concentration, cleanup procedures, and changes in columns and detectors ...." The methods further require the analyst to demonstrate that the method modifications will not adversely affect the quality of data by generating quality control results that meet the specifications contained in the method. Despite this stated flexibility, the Agency has found that many NPDES and pretreatment permitting authorities are not aware of this flexibility when issuing or enforcing NPDES and pretreatment permits. Therefore, this regulatory action will highlight the existing method flexibility and clarify EPA's position regarding its application. This action will also extend this flexibility to other methods currently approved under 40 CFR part 136. The purpose of extending this flexibility to other methods is to (1) increase consistency between methods, (2) provide for increased recognition of advances in analytical technology, and (3) reduce costs associated with analytical measurements.

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1314(h) Clean Water Act sec 304(h); 33 USC 1361(a) Clean Water Act sec 501(a)

CFR Citation: 40 CFR 136

Legal Deadline: None

Abstract: This regulatory action will amend the Guidelines Establishing Test Procedures for the Analysis of Pollutants under 40 CFR 136 to approve new procedures for the analysis of miscellaneous metals, anions, and volatile organics under the Clean Water Act (CWA). These methods are used for implementing water quality based permits under the National Pollutant Discharge Elimination System (NPDES) of the CWA. This action will not have a significant economic impact on State, local, or tribal governments, or small businesses. This regulation will approve test procedures to be used in measuring this group of compounds under the NPDES Program unless the Regional Administrator approves an alternative procedure. EPA plans to segment the rulemaking into two phases to accommodate different amounts of data for the long list of compounds.

3782. TEST PROCEDURES FOR THE ANALYSIS OF MERCURY UNDER THE CLEAN WATER ACT

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1251 et seq Clean Water Act sec 304 (h); 33 USC 1314(h) Clean Water Act sec 501 (a); 33 USC 1361(a)

CFR Citation: 40 CFR 136

Legal Deadline:
NPRM, Judicial, February 18, 1999, Judicial settlement Agreement in NDRC v EPA- No. 92-1415 (D.C. Cir.).

Abstract: This regulatory action would amend the "Guidelines Establishing Test Procedures for the Analysis of Pollutants" under 40 CFR 136 to approve EPA Method 1631 for the determination of mercury at EPA's recommended water quality criteria levels. This method is necessary for the implementation of water quality-based permits under the National Pollutant Discharge Elimination System (NPDES) of the Clean Water Act. Water quality-based permits are necessary when technology-based controls do not allow a particular water body to meet the State's designated water quality standard. Because the methods currently approved under 40 CFR part 136 were designed primarily to support technology-based permitting needs, and because these technology-based levels are as much as two orders of magnitude higher than water quality-based criteria for metals, approval of new EPA test procedures is necessary.

3783. EFFLUENT GUIDELINES AND STANDARDS FOR THE INDUSTRIAL LAUNDRIES POINT SOURCE CATEGORY

Regulatory Plan: This entry is Seq. No. 137 in Part II of this issue of the Federal Register.

RIN: 2040–AB97

3784. UNIFORM NATIONAL DISCHARGE STANDARDS FOR ARMED FORCES VESSELS - PHASE I

Priority: Substantive, Nonsignificant

Legal Authority: Clean Water Act sec 312(n) as amended

CFR Citation: 40 CFR 139

Legal Deadline:
Final, Statutory, February 10, 1998.

Abstract: Section 312 of the CWA, as amended by the 1996 Defense Authorization Act, requires EPA and the Department of Defense, in consultation with other Federal agencies and affected States, to develop Uniform National Discharge Standards (UNDS) for discharges from armed forces vessels. These regulations will enable the Navy to design vessels to one protective uniform standard, instead of attempting to conform to diverse State standards. Promulgation of uniform standards may result in innovative waste management technologies that can be transferred to the private sector. The first phase of the legislation requires promulgation of joint regulations that specify which discharges require regulation, which

EPA—CWA — Final Rule Stage

entail the use of marine pollution control devices, as well as those which will not require regulation. Marine pollution control devices may be a piece of equipment designed to control a particular waste stream, or a management practice that would reduce the impacts of a discharge. The Navy and EPA will determine the nature and environmental effects of vessel discharges, as well as the practicability of installing marine pollution control devices for those discharges that require regulation. This regulation applies only to vessels of the armed forces, and therefore will have no impact on small businesses. State governments will be involved in the rulemaking process as this rule may impact State standards, if any exist, by taking precedence over those standards for vessels of the armed forces. The uniform national standards proposed by this action will regulate those liquid vessel discharges that would have adverse impacts on the marine environment. If there is new information that suggests the standard should be changed, a State may submit a petition for review to EPA and DoD concerning any standard promulgated under this action.

3787. COMPARISON OF DREDGED MATERIAL TO REFERENCE SEDIMENT

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1344 Clean Water Act sec 404

CFR Citation: 40 CFR 230

Legal Deadline: None

Abstract: This action would revise the testing provisions of the Clean Water Act section 404(b)(1) Guidelines to provide for comparisons between dredged material proposed for discharge and reference sediment. Reference sediment would be defined as sediment that reflects conditions at the disposal site had no dredged material disposal ever occurred there. Because the disposal site itself is currently used as the point of comparison, this action would make a technical improvement in assessing cumulative impacts and help make dredged material testing under section 404 more consistent with that conducted for ocean disposal, which currently employs a reference sediment approach. This action is not expected to have a significant impact on state, local, or tribal governments or small business, as the action will be limited to Corps projects and permit applications for which dredged material testing is necessary, and because the effect of the action will be limited to changing the location of an otherwise collected sample.

3788. AMENDMENTS TO ROUND I FINAL SEWAGE SLUDGE USE OR DISPOSAL RULE—PHASE ONE

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 33 USC 1251 Clean Water Act sec 101; 33 USC 1345 Clean Water Act sec 405

CFR Citation: 40 CFR 503

Legal Deadline: None

Abstract: EPA is amending the Round I Final Sewage Sludge Use or Disposal Regulation in two phases (i.e., Phase One and Phase Two). Phase I will respond to minor comments received on the Final Sewage Sludge Use or Disposal Round I Rule (part 503), correct some publication errors, and include some technical amendments. This action will modify the existing regulation to make the requirements for sewage sludge incinerators self-implementing and provide the regulated community flexibility in meeting other Part 503 requirements. The changes should not have any adverse impact on State, local, or tribal government or small businesses because no additional requirements are being imposed.

Clean Water Act (CWA)

3789. • EFFLUENT LIMITATIONS, GUIDELINES, AND STANDARDS FOR THE FEEDLOTS POINT SOURCE CATEGORY, SWINE AND POULTRY SUBCATEGORIES, AND NPDES REGULATION FOR CONCENTRATED ANIMAL FEEDING OPERATIONS

Priority: Other Significant

Legal Authority: 33 USC 1311; 33 USC 1314; 33 USC 1316; 33 USC 1317; 33 USC 1318; 33 USC 1361

CFR Citation: 40 CFR 412; 40 CFR 122.23

Legal Deadline:
NPRM, Judicial, December 31, 1999, Effluent Guideline.
Final, Judicial, December 31, 2001, Effluent Guideline.

Abstract: Feedlot operations are covered by existing effluent guidelines at 40 CFR part 412 and concentrated animal feeding operations (CAFOs) are covered by regulations at 40 CFR part 122.23. This action will revise the existing regulations for two of the effluent guidelines subcategories to address swine and poultry operations and the NPDES regulation for concentrated animal feeding operations. The existing regulations, which require the largest confined animal feeding operations to achieve zero discharge of wastes to surface waters except for certain storm related discharges, have not been sufficient to resolve water quality impairment from feedlot operations. Swine and poultry operations have been identified as substantial contributors of nutrients in surface waters that have severe anoxia (low levels of dissolved oxygen) and problem algae blooms.

3790. • EFFLUENT LIMITATIONS GUIDELINES AND STANDARDS FOR THE FEEDLOTS POINT SOURCE CATEGORY, DAIRY AND BEEF CATTLE SUBCATEGORIES

Priority: Other Significant. Major under 5 USC 801.

Legal Authority: 33 USC 1211; 33 USC 1214; 33 USC 1317; 33 USC 1318; 33 USC 1361

CFR Citation: 40 CFR 412

Legal Deadline:
NPRM, Judicial, December 31, 2000.
Final, Judicial, December 31, 2002.

Abstract: Feedlot operations are covered by existing effluent guidelines at 40 CFR part 412. This new regulatory action will revise the existing regulations for two of the subcategories--dairy and beef cattle operations. The existing regulations, which require the largest confined animal feeding operations to achieve zero discharge of wastes to surface waters except for certain storm related discharges, have not been sufficient to resolve water quality impairment from feedlot operations. Beef and dairy cattle operations represent a large segment of the feedlot industry and have been identified as substantial contributors of nutrients in surface waters that have severe anoxia (low levels of dissolved oxygen) and affect drinking water sources in the western and central regions of the country.

3791. • REVISIONS TO EFFLUENT GUIDELINES AND STANDARDS FOR THE COAL MINING POINT SOURCE CATEGORY

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1311; 33 USC 1314; 33 USC 1316; 33 USC 1317; 33 USC 1361

CFR Citation: 40 CFR 434

Legal Deadline:
NPRM, Judicial, December 31, 1999.
Final, Judicial, December 31, 2001.

Abstract: Coal mining discharges are covered by existing effluent guidelines at 40 CFR part 434. This new regulatory action will revise the existing regulations to address two new subcategories: coal remining and Western coal mining. The existing regulations do not cover remining operations, which, when appropriately planned and regulated, will improve effluent quality from abandoned mine lands while reclaiming them and prevent disturbance of unexploited lands. Advances in treatment technologies and Best Management Practices pertinent to coal mines in the arid West show promise of being more protective of water quality.

ENVIRONMENTAL PROTECTION AGENCY (EPA) — Proposed Rule Stage

Safe Drinking Water Act (SDWA)

3811. DRINKING WATER UNREGULATED CONTAMINANT MONITORING PROGRAM

Priority: Other Significant

Legal Authority: 43 USC 300(f) et seq; PL 104-182

CFR Citation: 40 CFR 141.35(a) to (d); 40 CFR 141.40(a) to (n)

Legal Deadline:
NPRM, Statutory, August 6, 1999, See Additional Information.

Abstract: The Unregulated Contaminant Regulation is required by the Safe Drinking Water Act as amended in 1996. Under these amendments EPA is required to publish a list of not more than 30 unregulated contaminants which public water supply systems are to monitor to determine, on a national basis, the location, concentration and related information regarding the occurrence of these contaminants and their potential for migrating to sources of public drinking water. The Amendments further require EPA to issue regulations which establish criteria for listing contaminants and for carrying out the Unregulated Contaminant Monitoring Program.

The results of the unregulated contaminant monitoring data are to be used by the Agency in determining which contaminants pose the greatest risks to human health and, if necessary, in setting priorities for their regulation. Conversely, contaminants that potentially pose risk to human health but are not found in drinking water supplies may be removed from consideration for regulation under the Safe Drinking Water Act.

The requirement to monitor for unregulated contaminants was first established by the 1986 Amendments to the Safe Drinking Water Act. Under the 1986 Amendments, the Agency required by regulation as many as 48 contaminants to be monitored. In addition, only public water systems serving 500 persons or fewer were exempt from monitoring provided that they made their facilities available for the States to monitor. Furthermore, repeat monitoring was required every 5 years.

The 1996 Amendments reduce the burden upon public water systems in several ways. First, the Amendments limit the number of contaminants that can be on the unregulated contaminant monitoring list to 30 or fewer. Second, instead of requiring all systems to monitor for unregulated contaminants, the amendments require that only a representative sample of systems serving 10,000 persons monitor. The SDWA Amendments authorize the States to develop the representative sample monitoring plans. Finally, the SDWA Amendments authorize EPA to pay for the reasonable cost of sample analysis for the small public water systems if funds are appropriated.

Safe Drinking Water Act (SDWA)

3815. NATIONAL PRIMARY AND SECONDARY DRINKING WATER REGULATIONS: ANALYTICAL METHODS FOR CERTAIN PESTICIDES AND MICROBIAL CONTAMINANTS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 300f Safe Drinking Water Act sec 1401; 42 USC 300g-1 Safe Drinking Water Act sec 1412

CFR Citation: 40 CFR 141; 40 CFR 143

Legal Deadline: None

Abstract: In promulgating National Primary Drinking Water Regulations, EPA includes analytical methods for determination of regulated drinking water contaminants. EPA approved methods include EPA methods, Standard Methods (methods evaluated and recommended for use by the America Public Health Association (APHA)), American Society for Testing and Materials (ASTM) Methods, United States Geological Survey (USGS) Methods and others. Periodically, the Agency updates and revises methods to incorporate newer technologies. Standard setting organizations such as APHA, ASTM, and USGS also routinely revise and update methods.

In this regulatory effort, EPA proposes to approve new methods or newer versions of existing methods for total coliforms, E. coli, and acid herbicides. At the same time, the Agency will

withdraw approval of selected outdated methods.

3817. NATIONAL PRIMARY DRINKING WATER REGULATIONS FOR LEAD AND COPPER

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 300g-1 Safe Drinking Water Act sec 1412

CFR Citation: 40 CFR 141; 40 CFR 142

Legal Deadline: None

Abstract: EPA will promulgate revisions to the National Primary Drinking Water Regulations for Lead and Copper published June 7, 1991. The basic lead and copper regulations will remain intact; however, EPA will promulgate minor revisions to refine specific requirements and improve implementation of the rule. Some of these revisions are deregulatory in nature, in that they will lessen monitoring requirements for public water systems which have consistently shown very low levels of lead and copper at the tap. EPA also plans to promulgate changes that will provide many community water systems more flexibility in the delivery of lead public education requirements, and allow States to invalidate inappropriate samples. Other revisions would promote consistent national implementation by clarifying the monitoring requirements that apply in different circumstances. Finally, EPA plans to respond to a remand in American Water Works Association v. EPA, 40 F.3D 1266 (DC Circuit 1994), on portions of the Lead and Copper regulation by promulgating a revised definition of control as it applies to lead service line replacement and to address the current exemption of transient non-community water systems from coverage under the rule. Nationally, EPA estimates the changes will not affect the cost or benefits of the Lead and Copper Rule significantly. State governments may experience a minor increase in costs as a result of these revisions. Many local and tribal governments and small businesses that operate public water systems should experience a small decrease in annual costs.

3818. REFORMATTING OF DRINKING WATER REGULATIONS

Priority: Info./Admin./Other

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 300g-1 Safe Drinking Water Act sec 1412

CFR Citation: 40 CFR 141; 40 CFR 142

Legal Deadline: None

Abstract: This rule reformats the current drinking water regulations to make them easier to understand and follow. This rule is not intended to change any of the regulatory requirements. The rule affects State, local and tribal governments in that it makes the rules easier to implement and thus facilitates their jobs.

3820. MANAGEMENT OF CLASS V INJECTION WELLS UNDER PART C OF THE SAFE DRINKING WATER ACT

Priority: Other Significant

Legal Authority: 42 USC 300h Safe Drinking Water Act 1421 to 1425

CFR Citation: 40 CFR 144; 40 CFR 145; 40 CFR 146

Legal Deadline:
NPRM, Judicial, July 18, 1998.
Final, Statutory, August 30, 1999.

Abstract: The EPA proposed changes to the Class V Underground Injection Control (UIC) regulations that would add new requirements for three categories of Class V wells that pose a high risk when located in ground water-based source water protection areas being delineated by States under the 1996 Amendments to the Safe Drinking Water Act (SDWA). EPA proposed these new requirements to address three categories of wells that it has identified as posing a high risk of ground water contamination based on available information. Class V wells that would be impacted by the proposed regulation include motor vehicle waste disposal wells, industrial waste disposal wells, and cesspools in ground water-based source water protection areas. Targeting the requirements to those wells will achieve substantial protection of underground sources of drinking water.

Safe Drinking Water Act (SDWA)

Long-Term Actions

3821. • FILTER BACKWASH RECYCLING REGULATION

Priority: Substantive, Nonsignificant

Legal Authority: Safe Drinking Water Act

CFR Citation: 40 CFR 141; 40 CFR 142

Legal Deadline: None

Abstract: The regulation will control the recycle, or reintroduction, of filter backwash and other waste water streams into the influent (untreated source waters entering the treatment plant) of public utilities. The regulation is required by the 1996 amendments to the Safe Drinking Water Act. The regulation is necessary to protect against outbreaks of waterborne microbial disease that can occur during normal treatment plant operation, operational upsets, or times of poor source water quality. The regulation will provide another barrier to prevent occurrence of microbial pathogens in finished drinking water supplies,

Systems of all sizes, including package plants, will be covered by the regulation. Conventional, direct, and in-line filtration plants, as well as absorption clarification plants, will be covered by the final rule.

3822. • LONG TERM 1 ENHANCED SURFACE WATER TREATMENT RULE

Priority: Substantive, Nonsignificant

Legal Authority: Safe Drinking Water Act

CFR Citation: 40 CFR 141; 40 CFR 142

Legal Deadline: None

Abstract: The 1996 amendments to the Safe Drinking Water Act (SDWA) require the Environmental Protection Agency (EPA) to establish National Primary Drinking Water Regulations for contaminants that may have an adverse public health effect and that present a meaningful opportunity for health risk reduction. The Agency's goal in the Long Term 1 Enhanced Surface Water Treatment Rule (LT1ESWTR) is to reduce the risk from microbial contaminants in public surface water systems that serve 10,000 people or less. In order to accomplish this, the rule will focus on turbidity reduction through filtration optimization, and continued microbial protection through the disinfection benchmark (i.e. a measurement of current Giardia inactivation). In November 1998, EPA will promulgate an Interim Enhanced Surface Water Treatment Rule (IESWTR) , which focuses on these same public health goals and is applicable to public surface water systems serving greater than 10,000 people. Also, like the IESWTR, the LT1ESWTR will reflect the fundamental principle that new standards for control of disinfection byproducts (i.e. compliance with the Stage 1 DBP rule) must not result in significant increases in microbial risk.

To develop the LT1ESWTR, EPA will use the template of the Interim Enhanced Surface Water Treatment Rule (IESWTR) as a starting point. EPA will then determine if the unit costs and principles for reduction in turbidity used to develop the IESWTR will be appropriate for the LT1ESWTR.

3823. • DRINKING WATER STATE REVOLVING FUND REGULATIONS

Priority: Other Significant

Legal Authority: 42 USC 300 et seq SDWA 1452 (g)(3)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Safe Drinking Water Act (SDWA) Amendments of 1996 (Pub. L. 104-182) authorize a Drinking Water State Revolving Fund (DWSRF) to assist public water systems in financing the costs of infrastructure needed to achieve or maintain compliance with SDWA requirements and to further the public health objectives of the Act. Section 1452(a)(1) authorizes the Administrator of the U.S. Environmental Protection Agency (EPA) to award capitalization grants to States, which in turn provide low cost loans

EPA—SDWA — Long-Term Actions

and other types of assistance to eligible systems. A State determines the portion of the funds from the capitalization grant to conduct set-aside activities and the remaining grant monies are deposited into the project Fund to finance infrastructure projects.

Each State has considerable flexibility, with minimum Federal requirements imposed, to determine the design of its DWSRF program and to direct funding toward its most pressing compliance and public health needs. This regulation is intended to codify the DWSRF Final Guidelines published in February, 1997 which explain: what States must do to receive a DWSRF capitalization grant; what States may do with Federal capitalization grant funds; what States may do with funds the law intends for activities other than project construction (set-asides); and the roles of both the States and EPA in managing and administering the program.

The DWSRF program helps to ensure that the nation's drinking water supplies remain safe and affordable, that drinking water systems that receive funding are properly operated and maintained, and that permanent institutions exist in each State to provide financial support for drinking water needs.

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 2601 Shore Protection Act of 1988; PL 100-688 sec 4103(b)

CFR Citation: 40 CFR 237

Legal Deadline: None

Abstract: This rule will implement the Shore Protection Act (SPA) and is designed to prevent the deposit of municipal and commercial waste into U.S. Coastal Waters. This rule establishes minimum waste handling practices for vessels and waste handling facilities involved in the transport of municipal or commercial wastes in the coastal waters of the U.S. The rule may require certain vessels and waste handling facilities to develop an operation and maintenance manual that identifies procedures to prevent, report, and clean up deposits of waste into coastal waters. State and local governments and businesses involved with the vessel transportation and shore side handling of these wastes would be affected by this rule.

Currently no tribes are known to be involved in waste handling of this type; therefore none would be affected by this rule. In regards to small businesses, EPA has provided guidance on development of operation-and maintenance manuals and encourages the use and documentation of existing industry practices that meet or exceed the EPA proposed minimum waste handling standards. All indications are that this regulation as proposed would have a minimal economic impact. This regulation will result in reduction of municipal and commercial wastes deposited in coastal waters.

Equal Employment Opportunity Commission

Semiannual Regulatory Agenda

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION (EEOC)

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Ch. XIV

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission (EEOC or Commission) is publishing its semiannual regulatory agenda pursuant to Executive Order 12866, 58 FR 51735, and the Regulatory Flexibility Act, 5 U.S.C. chapter 6. The agenda lists all regulations that are scheduled for review or development during the next 12 months or that have been finalized since the publication of the last agenda.

For this edition of EEOC's regulatory agenda, the most important significant regulatory action is included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entry is listed in the table of contents below and is denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

FOR FURTHER INFORMATION CONTACT: Ellen J. Vargyas, Legal Counsel, Office of Legal Counsel, Equal Employment Opportunity Commission, 1801 L Street NW., Washington, DC 20507; telephone (202) 663-7197.

SUPPLEMENTARY INFORMATION: The Commission has identified 10 items for inclusion in this regulatory agenda. Nine of these items are currently under development or review by Commission staff, and one item is final.

Signed in Washington, DC, this 2nd day of September 1998.

For the Commission.

Paul M. Igasaki,

Chairman.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION (EEOC)

Long-Term Actions

3840. PROCEDURES—THE AGE DISCRIMINATION IN EMPLOYMENT ACT

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 628, sec 115, Civil Rights Act of 1991

CFR Citation: 29 CFR 1626

Legal Deadline: None

Abstract: Section 115 of the Civil Rights Act of 1991 deleted references to the Portal to Portal Act from the private suit provisions of the Age Discrimination in Employment Act (ADEA) and replaced them with a requirement that suit be filed no later than 90 days after termination of proceedings or dismissal of a charge by EEOC. Accordingly, section 1626.7(a) is being deleted and section 1626.15(b) is being revised because they were both based upon the Portal to Portal Act. New sections are being added concerning termination of EEOC

proceedings and the issuance of notices of the new 90-day limitation period.

3841. FEDERAL SECTOR EQUAL EMPLOYMENT OPPORTUNITY

Priority: Substantive, Nonsignificant

Legal Authority: PL 102-569, The Rehabilitation Act Amendments of 1992; 42 USC 2000e-16; 29 USC 633a; 29 USC 794a

CFR Citation: 29 CFR 1614

Legal Deadline: None

Abstract: The proposed amendments to this regulation implement the Rehabilitation Act Amendments of 1992. Those amendments provide that the standards used to determine if title I of the Americans With Disabilities Act has been violated will apply to complaints of nonaffirmative action employment discrimination under the Rehabilitation Act.

3842. DISPARATE IMPACT UNDER THE AGE DISCRIMINATION IN EMPLOYMENT ACT (ADEA)

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 628

CFR Citation: 29 CFR 1625.7 (Revision); 29 CFR 1625.23 (New)

Legal Deadline: None

Abstract: The Commission proposes to issue legislative regulations to reaffirm and clarify its long-standing interpretive rule regarding the availability of the disparate impact theory under the ADEA. The proposed rule also would set forth the nature and order of proof in such disparate impact cases.

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2000e-12(a); 42 USC 2000e-14; 42 USC 2000e-4(g); EO 12067

CFR Citation: None

Legal Deadline: None

Abstract: The existing 1981 Memorandum of Understanding (MOU) between EEOC and OFCCP sets forth complaint processing and information sharing procedures to coordinate enforcement under title VII and EO 11246. The changes contemplated for the MOU would authorize OFCCP to act as EEOC's agent to process and resolve the title VII component of dual-filed EO 11246/title VII complaints retained by OFCCP under existing procedures. The contemplated changes also would add new language about confidentiality.

Federal Emergency Management Agency

Semiannual Regulatory Agenda

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA)

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Ch. I

Semiannual Regulatory Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual regulatory agenda.

SUMMARY: The Federal Emergency Management Agency publishes its semiannual regulatory agenda in April and October to inform interested parties of progress on FEMA regulations. The agenda lists regulations that will be under development or review during the period October 1, 1998, to April 30, 1999.

ADDRESSES: For information about specific regulations, please contact the person listed as the agency contact in the agenda.

FOR FURTHER INFORMATION CONTACT: For general information of FEMA's regulatory agenda, contact H. Crane Miller, Office of the General Counsel, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3340, FAX (202) 646-4536, or e-mail Crane.Miller@fema.gov.

SUPPLEMENTARY INFORMATION: Executive Order 12866 "Regulatory Planning and Review" directs each executive agency to publish only such regulations the law requires, are necessary to interpret the law, or are necessary by compelling public need. We and other Federal departments and agencies publish an agenda of regulations semiannually in order to give you adequate notice of agency rulemaking activities. We also publish a regulatory agenda of rules likely to be significant regulatory actions when that is appropriate; presently, none of our regulatory actions fall in the "significant regulatory action" category.

To fulfill the requirements of Executive Order 12866, this agenda describes current and projected regulatory actions and rules that will be under review or development from October 1, 1998, to April 30, 1999. This agenda also contains information of regulations on which we completed action since the last FEMA semiannual agenda was published Monday, April 27, 1998, at 63 FR 22752 to 22757.

We invite your comments on the agenda, including comments by State and local governments. Comments should be submitted to the Rules Docket Clerk, Office of the General Counsel, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472; FAX (202) 646-4536, or e-mail *rules@fema.gov*. Please refer to the title of the rule that you are inquiring about or commenting on and to the rule's Regulation Identifier Number (RIN) found at the end of each agenda entry.

The agenda is not limited to significant regulatory actions and it contains information about FEMA regulations to be developed, reviewed, or published in the next 12 months, except for routine flood elevation determinations, listings of eligible communities under the National Flood Insurance Program, listings of suspended communities and similar designations under the National Flood Insurance Program, and FEMA organizational and management matters.

Dated: September 18, 1998.

Ernest B. Abbott,

General Counsel.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) — Proposed Rule Stage

3846. PRODUCTION OR DISCLOSURE OF INFORMATION

Priority: Substantive, Nonsignificant

Legal Authority: PL 104-231

CFR Citation: 44 CFR 5

Legal Deadline: None

Abstract: This proposed rule would give the public access to Government information and records maintained in an electronic format, provide for expedited processing of certain requests, establish an "electronic reading room," require redacted material to be estimated or indicated in an agency's delay in processing requests, and require FEMA to make an agency reference guide on the Freedom of Information Act (FOIA) available.

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) — Long-Term Actions

3847. GROUP FLOOD INSURANCE POLICY FOR INDIVIDUAL AND FAMILY GRANT PROGRAM

Priority: Substantive, Nonsignificant

Unfunded Mandates: Undetermined

Legal Authority: 42 USC 5174; 42 USC 5178

CFR Citation: 44 CFR 206

Legal Deadline: None

Abstract: This interim final rule establishes a Group Flood Insurance Policy to be issued by the National Flood Insurance Program when Federal disaster assistance for flood damage to real or personal property, or both, is provided under the Individual and Family Grant Program following a major disaster declaration by the President.

3848. FLOOD MITIGATION ASSISTANCE PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 4104c; 42 USC 4104d

CFR Citation: 44 CFR 78

Legal Deadline: None

Abstract: This interim final rule implements secs. 553 and 554 of the National Flood Insurance Reform Act of 1994 to provide grants under the National Flood Mitigation Fund to States and communities for planning assistance and for mitigation projects that reduce the risk of flood damages to structures covered under contracts for flood insurance.

3853. DISASTER ASSISTANCE; HAZARD MITIGATION GRANT PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 5121 et seq

CFR Citation: 44 CFR 206

Legal Deadline: None

Abstract: This proposed rule would revise the categories of projects eligible for funding under the Hazard Mitigation Grant Program. It emphasizes nonstructural flood mitigation measures to reduce the number of floodprone structures and clarifies that major structural flood control projects will not be considered for funding under the grant program.

Timetable:

3855. DISASTER ASSISTANCE; DECLARATION PROCESS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 5121 et seq

CFR Citation: 44 CFR 206

Legal Deadline: None

Abstract: This proposed rule would establish the financial criteria under which a cost-share adjustment would be granted for permanent restorative work and for emergency work unless otherwise adjusted and caps that cost-share at 90 percent Federal. Secondly, it would phase in the threshold for granting cost-share adjustments to current dollars over a two-year period, and would allow that threshold to be adjusted annually for inflation.

3857. DEBT COLLECTION

Priority: Substantive, Nonsignificant

Legal Authority: 31 USC 3720A

CFR Citation: 44 CFR 11

Legal Deadline: None

Abstract: Under this rule FEMA will refer delinquent debts owed to this Agency to the Department of the Treasury for collection under the Governmentwide Treasury Offset Program and for tax refund offsets at the same time. FEMA amends its administrative offset regulations to allow administrative offset against delinquent debtor States and units of general local government. FEMA also amends its regulations to change the method for calculating interest, penalty and administrative charged assessed on delinquent debts and to make States and units of general local government subject to such changes.

Federal Mediation and Conciliation Service

Semiannual Regulatory Agenda

FEDERAL MEDIATION AND CONCILIATION SERVICE (FMCS)

FEDERAL MEDIATION AND CONCILIATION SERVICE

29 CFR Ch. XII

Semiannual Regulatory Agenda

AGENCY: Federal Mediation and Conciliation Service (FMCS).

ACTION: Semiannual regulatory agenda.

SUMMARY: This document sets forth the Federal Mediation and Conciliation Service's (FMCS) regulatory agenda issued under Executive Order 12866 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or review or that FMCS expects to have under development or review during the next 12 months. The effect of this agenda is to advise the public of FMCS' current and future regulatory activities.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact Jane A. Lorber, General Counsel, Office of the General Counsel, Federal Mediation and Conciliation Service, at (202) 606-5444. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's order on Regulatory Planning and Review, Executive Order 12866 (58 FR 51735, October 4, 1993), each agency is required to prepare an agenda of all regulations under development or review. The Regulatory Flexibility Act, Public Law 98-354, has a similar agenda requirement (5 U.S.C. 602). Under the law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next 12 months and provide certain specified information on each regulation. All of the items on this agenda are current or projected rulemakings.

Vella Traynham,

Deputy Director, Federal Mediation and Conciliation Service.

FEDERAL MEDIATION AND CONCILIATION SERVICE (FMCS) — Prerule Stage

3871. • PUBLIC INFORMATION

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 5 USC 552 et seq

CFR Citation: 29 CFR 1401 (Revision)

Legal Deadline: None

Abstract: The proposed revision to FMCS' Public Information regulations is intended to incorporate the recent Amendments to the Freedom of Information Act into FMCS' portion of the Code of Federal Regulations.

General Services Administration

Semiannual Regulatory Agenda

GENERAL SERVICES ADMINISTRATION (GSA)

GENERAL SERVICES ADMINISTRATION

41 CFR Chs. 1, 101, 105, 301, 302, 303, and 304

October 1998 Regulatory Plan and Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: General Services Administration (GSA).

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda announces the proposed regulatory actions that GSA plans for the next 12 months and those that were completed since April 1998. This agenda was developed under the guidelines in an Office of Management and Budget memorandum dated July 8, 1998. GSA's purpose in publishing this agenda is to allow interested persons an opportunity to participate in the rulemaking process. GSA also invites interested persons to recommend existing significant regulations for review to determine whether they should be modified or eliminated.

FOR FURTHER INFORMATION CONTACT: Sharon A. Kiser, Federal Acquisition Policy Division, (202) 501-4755.

SUPPLEMENTARY INFORMATION:

GSA's Regulatory Plan

For this edition of GSA's regulatory plan, the Statement of Regulatory and Deregulatory Priorities is included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**.

Dated: August 28, 1998.

John G. Sindelar,

Acting Associate Administrator, Office of Governmentwide Policy.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
3872	Nondiscrimination on the Basis of Sex and Education for Individuals Receiving or Benefiting from Federal Financial Assistance	3090-AG58
3873	Federal Advisory Committee Management	3090-AG49
3874	Annual Real Property Inventories	3090-AG55
3875	User Fees; Network Registration Services	3090-AG79
3876	Federal Property Management Regulations, Part 101-17, Assignment and Utilization of Space	3090-AG31
3877	Federal Property Management Regulations, Part 101-20, Management of Buildings and Grounds	3090-AG32
3878	Federal Property Management Regulations, Part 101-21, Federal Buildings Fund	3090-AG33
3879	Increase Smoke Development Rating	3090-AG69

Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
3880	Reissuance of the General Services Administration Acquisition Regulation (GSAR)	3090-AE90
3881	Federal Property Management Regulations, Part 101-16, Governmentwide Real Property Policy	3090-AF95
3882	Relocation of FIRMR Provisions Relating To Use of Government Telephone Systems and GSA Services and Assistance	3090-AG03
3883	Motor Vehicle Management	3090-AG12
3884	Negotiation Procedures for Acquisition of Leasehold Interests in Real Property; CHGE 79	3090-AG70
3885	FTR Amendment; Fly American	3090-AG73
3886	Donation Requirements for Firearms	3090-AG80
3887	Streamlining Administration of Federal Supply Service (FSS) Multiple Award Schedule (MAS) Contracts	3090-AG81
3888	The Composition of the Evaluation Board for Architect-Engineer Procurements	3090-AG82
3889	Federal Property and Administrative Services Regulation	3090-AG83
3890	Public Availability of Agency Records and Informational Materials	3090-AG78
3891	Federal Building Fund, Billing Procedures for Reimbursable Charges	3090-AG35
3892	Utilization and Disposal of Real Property	3090-AG39
3893	Utilization and Disposal of Real Property	3090-AG53

Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
3894	Enforcement of Nondiscrimination on the Basis of Handicap in Federally Assisted Programs	3090-AE32
3895	FTR Amendment (Unassigned); Acceptance of Payment From a Non-Federal Source for Travel Expenses	3090-AE19
3896	FTR Interim Rule 6, Last Move Home Benefits for Certain Individuals	3090-AF63

Long-Term Actions (Continued)

Sequence Number	Title	Regulation Identifier Number
3897	Relocation of FIRMR Provisions Relating to GSA's Role in Records Management	3090-AG02
3898	Federal Travel Regulations	3090-AG11
3899	Donation of Federal Surplus Personal Property to Nonprofit Providers of Assistance for Impoverished Families and Individuals	3090-AG63
3900	FTR Amendment (Unassigned); Payment of Expenses Connected With Death	3090-AG76
3901	Donations to Service Educational Activities	3090-AG77
3902	Location of Federal Facilities in Urban Areas	3090-AF94
3903	Disposals of Surplus Real Property for Housing Assistance (PL 105-50)	3090-AG60

Completed Actions

Sequence Number	Title	Regulation Identifier Number
3904	Office Copying Machines	3090-AF08
3905	Update of Transportation Documentation and Audit Regulations	3090-AE77
3906	FTR Amendment (Unassigned); Use of Government Aircraft and Government-Negotiated Rental Agreement Automobiles	3090-AE82
3907	Relocation of FIRMR Provisions Relating to GSA's Role in the Disposal of Excess and Exchange/Sale Information Technology Equipment	3090-AG01
3908	General Services Administration Acquisition Regulation; Revision of GSAR Clauses	3090-AG08
3909	Accident and Incident Reporting and Investigation	3090-AG13
3910	Transportation and Traffic Management Regulations	3090-AG34
3911	10-Day Payment Clause for Federal Supply Service Contracts Under the FSS-19 Procurement System	3090-AG47
3912	Management, Use, and Disposal of Aircraft	3090-AG56
3913	GSA Agency Protest Procedures	3090-AG57
3914	Change to the Disposal Condition Codes for Reporting Excess Personal Property	3090-AG64
3915	Requesting Debriefings at GSA; Electronic Sales Reporting; Schedule for Submission of Reports; Fees for Industrial Funding	3090-AG71
3916	FTR Amendment 72; Maximum Per Diem Rates	3090-AG72
3917	Disposal of Excess and Exchange Sale IT Equipment	3090-AG74
3918	FTR Amendment No. (Unassigned); Privately Owned Vehicle Mileage Reimbursement	3090-AG75
3919	FPMR 101-20, Smoking Policy	3090-AG61
3920	Disposals of Surplus Real Property for Public Safety Purposes (PL 105-119)	3090-AG67

PUBLIC BUILDINGS SERVICE

3876. FEDERAL PROPERTY MANAGEMENT REGULATIONS, PART 101-17, ASSIGNMENT AND UTILIZATION OF SPACE

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 40 USC 486(c), sec 205(c), 63 Stat 390

CFR Citation: 41 CFR 101-17

Legal Deadline: None

Abstract: This proposed rule revises the methods by which GSA-controlled space is identified and measured, eliminates the specific physical description of the components of standard level alterations, and substitutes budget guidelines for alterations, thereby providing tenant agencies flexibility in designing space to meet their mission needs. It also introduces new guidelines for establishing the funding responsibilities of both GSA and tenant agencies associated with moves. The regulation also revises coverage related to location of Federal facilities.

3878. FEDERAL PROPERTY MANAGEMENT REGULATIONS, PART 101-21, FEDERAL BUILDINGS FUND

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 40 USC 486(c), sec 205(c), 63 Stat 390

CFR Citation: 41 CFR 101-21

Legal Deadline: None

Abstract: Part 101-21 of the FPMR prescribes policies and procedures applicable to the furnishing of, and charges for, space and services by GSA in Government-owned and leased buildings. New procedures for establishing these charges were recently developed as part of GSA's reinvention efforts. The purpose of this proposed rule is to implement these new procedures.

GENERAL SERVICES ADMINISTRATION (GSA) — Final Rule Stage

OFFICE OF GOVERNMENTWIDE POLICY

3880. REISSUANCE OF THE GENERAL SERVICES ADMINISTRATION ACQUISITION REGULATION (GSAR)

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR 501 to 570

Legal Deadline: None

Abstract: GSA plans to publish those aspects of the GSAR for public comment that have a significant cost or administrative impact on contractors or offerors, or significant effect beyond the internal operating procedures of the agency. After consideration of public comments, the entire regulation will be reissued in final form. The regulation will redefine the objectives of the procurement system and its regulatory base, establish very narrow standards for the scope and nature of the regulation, and reduce the overall volume of the regulation by at least 50 percent. The General Services Administration (GSA) plans to revise and reissue chapter 5, 48 CFR, in its entirety. The reissuance will represent the culmination of the Total Quality Management project to review GSA's acquisition regulation/directive system.

3883. MOTOR VEHICLE MANAGEMENT

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 40 USC 486(c), sec 205(c), 63 Stat 390

CFR Citation: 41 CFR 101-38

Legal Deadline: None

Abstract: This regulation changes 41 CFR 101-38 to remove the obsolete passenger vehicle classification "IA-Small," changes the requirement to acquire compact or smaller sedans to midsize or smaller sedans, and removes the certification requirement to GSA when sedans larger than compact are acquired by Federal agencies. FPMR 101-38 will further be changed to address the new fleet credit card, remove references to the obsolete fleet credit cards (SFs 149 and 149A), and reference the Home-to-Work vehicle use provisions in 41 CFR 101-6.4. The regulation will also address the seat belt use provisions in EO 13043 and revised light truck fuel economy standards issued by the Secretary of Transportation.

3884. • NEGOTIATION PROCEDURES FOR ACQUISITION OF LEASEHOLD INTERESTS IN REAL PROPERTY; CHGE 79

Priority: Substantive, Nonsignificant

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR 503; 48 CFR 515; 48 CFR 552; 48 CFR 570

Legal Deadline: None

Abstract: This final rule will amend the GSAR to update negotiation procedures for acquisitions of leasehold interests in real property. The changes made GSAR part 570 consistent, where applicable, with Federal Acquisition Regulation part 15, as revised by Federal Acquisition Circular 97-02. The changes also updated GSAR provisions and clauses applicable to acquisitions of leasehold interests in real property.

3889. • FEDERAL PROPERTY AND ADMINISTRATIVE SERVICES REGULATION

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101; 41 CFR 102

Legal Deadline: None

Abstract: This interim rule establishes the Federal Property and Administrative Services Regulation (FPASR) as a replacement for the Federal Property Management Regulations (FPMR). The FPASR is

written in plain language and appears in a question and answer format to make the regulation easier to understand and use. Non-regulatory material that had been in the FPMR will not be in the FPASR. Such material will become available in customer service guides issued by responsible offices within GSA.

PUBLIC BUILDINGS SERVICE

3891. FEDERAL BUILDING FUND, BILLING PROCEDURES FOR REIMBURSABLE CHARGES

Priority: Substantive, Nonsignificant

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-21

Legal Deadline: None

Abstract: This rulemaking modifies the Public Buildings Service (PBS) pricing practices for Reimbursable Work Authorizations (RWA). Currently, customer agencies are billed the actual costs for supplies, materials, labor, contract costs, and overhead related to the RWA. This interim final rule established a fixed price for an RWA.

3892. UTILIZATION AND DISPOSAL OF REAL PROPERTY

Priority: Substantive, Nonsignificant

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-47

Legal Deadline: None

Abstract: This final rule amends the FPMR regarding responsibilities of Federal agencies with respect to appraisals. This amendment helps to ensure the reliability of the estimate of fair market value by allowing the appraiser to consider the effect of historic covenants on fair market values for properties eligible for inclusion or that are on the National Register of Historic Places. Additionally, this revision adds a provision for appraisal confidentiality.

3896. FTR INTERIM RULE 6, LAST MOVE HOME BENEFITS FOR CERTAIN INDIVIDUALS

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 5701 to 5709; 5 USC 5721 to 5734; 5 USC 5741 to 5742; 20 USC 905(a); 31 USC 1353; 40 USC 486(c); EO 11609, 36 FR 13747, 3 CFR, 1971 to 1975 Comp, p 586; EO 12466, 49 FR 7349, 3 CFR, 1984 Comp, p 165; EO 12522, 50 FR 26337, 3 CFR, 1985 Comp, p 375

CFR Citation: 41 CFR 301-1; 41 CFR 301-3; 41 CFR 302-1; 41 CFR 302-6; 41 CFR 303

Legal Deadline: None

Abstract: This amendment implements provisions of the Jerry Litton Post Office Building Act (PL 103-338), October 6, 1994, which provides "last move home" benefits to members of the immediate family of a Senior Executive Service (SES) career appointee who dies while in service and would otherwise have been eligible for "last move home" benefits. The Act also provides "last move home" benefits for Veterans Affairs medical center directors who are now SES career appointees, but who transferred prior to November 18, 1988, when medical center directors were not in the SES. This amendment also revises FTR provisions to clarify that personal funds and personal frequent flyer mileage may be used to upgrade to first-class transportation accommodations. The estimated annual economic impact of this amendment on all Federal agencies has not been determined to date.

3901. • DONATIONS TO SERVICE EDUCATIONAL ACTIVITIES

Priority: Other Significant

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-44

Legal Deadline: None

Abstract: This rule would amend the regulation issued by GSA for donations to educational activities of special interest to the armed services. Under this rule, State agencies for surplus property (SASPs) will assume certain responsibilities that were previously performed by the Defense Department. The changes are necessary to comply with subsection 203(j)(2) of the Federal Property Act, which requires all donations of surplus property under the control of the Department of Defense to service educational activities to be made through SASPs.

3915. • REQUESTING DEBRIEFINGS AT GSA; ELECTRONIC SALES REPORTING; SCHEDULE FOR SUBMISSION OF REPORTS; FEES FOR INDUSTRIAL FUNDING

Priority: Other Significant

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR 501; 48 CFR 515; 48 CFR 538; 48 CFR 552

Legal Deadline: None

Abstract: This rule amended the GSAR by providing for electronic reporting of sales under the Federal Supply Service Schedule program and by requiring reporting of sales and payment of the industrial funding fee on a calendar quarter basis. The rule also amended the GSAR to define GSA's business hours for purposes of requesting postaward debriefings.

3918. • FTR AMENDMENT NO. (UNASSIGNED); PRIVATELY OWNED VEHICLE MILEAGE REIMBURSEMENT

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 5704; 5 USC 5707

CFR Citation: 41 CFR 301

Legal Deadline: None

Abstract: This rule increases the mileage reimbursement rates for use of a privately owned vehicle (POV) on official business travel to reflect current costs of operation as determined in cost studies conducted by the General Services Administration (GSA). Based on preliminary findings, we anticipate the new rates will be: 32.5 cents per mile for use of a privately owned automobile, 88 cents per mile for use of a privately owned airplane, and 26 cents per mile for use of a privately owned motorcycle.

National Aeronautics and Space Administration

Semiannual Regulatory Agenda

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA)

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

14 CFR Ch. V

Regulatory Agenda

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Semiannual regulatory agenda.

SUMMARY: NASA's regulatory agenda describes those regulations being considered for development or amendment by NASA, the need and legal basis for the actions being considered, the name and telephone number of the knowledgeable official, whether a regulatory analysis is required, and the status of regulations previously reported.

ADDRESSES: Director, Management Assessment Division (Code JM), Office of Management Systems and Facilities, NASA Headquarters, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: June Flickinger, (202) 358-2876.

SUPPLEMENTARY INFORMATION: OMB guidelines dated July 8, 1998, "October 1998 Unified Agenda of Federal Regulatory and Deregulatory Actions," and Executive Order 12866 "Regulatory Planning and Review" require a regulatory agenda of those regulations under development and review be published in the **Federal Register** each April and October.

This edition of the Unified Agenda of Federal Regulatory and Deregulatory Actions includes The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. NASA's Statement of Regulatory Priorities is included in part II.

Dated: August 25, 1998.

Danalee Green,

Director, Management Assessment Division.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
3921	Meritorious Claims Arising From The Conduct of NASA Functions Under 42 USC 2473 (c) (13)	2700-AC35

Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
3922	Cross-Waiver of Liability	2700-AB51

Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
3923	Tracking and Data Relay Satellite System; Use and Reimbursement Policy for Non-U.S. Government Users	2700-AA29
3924	Uniform Administrative Requirements for Grants and Cooperative Agreements	2700-AA95
3925	New Restrictions on Lobbying	2700-AB06
3926	Miscellaneous Administrative Changes to the NASA Federal Acquisition Regulation Supplement (NFS)	2700-AC33
3927	Grant and Cooperative Agreement Handbook	2700-AC34

Completed Actions

Sequence Number	Title	Regulation Identifier Number
3928	Minor Clarifying Changes to Existing Award Fee Coverage	2700-AB92
3929	Contracting and Subcontracting Policies and Procedures To Achieve Goals for Small Disadvantaged Businesses	2700-AB94
3930	Contract Financing	2700-AC20
3931	Equitable Adjustments	2700-AC32

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA) — Proposed Rule Stage

3921. • MERITORIOUS CLAIMS ARISING FROM THE CONDUCT OF NASA FUNCTIONS UNDER 42 USC 2473 (C) (13)

Priority: Info./Admin./Other

Unfunded Mandates: Undetermined

Major: Undetermined

Legal Authority: 42 USC 2473; 31 USC 3104

CFR Citation: 14 CFR 1267

Legal Deadline: None

Abstract: This proposed rule would establish NASA policies and procedures for meritorious claims, other than Federal Tort Claims Act claims or claims otherwise covered under 14 CFR part 1261, arising from the conduct of NASA functions and pursuant to 203(c)(13) of the National Aeronautics and Space Act of 1958, as amended (42 USC 2473 (c) (13)).

National Archives and Records Administration

Semiannual Regulatory Agenda

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA)

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: National Archives and Records Administration.

ACTION: Regulatory plan and semiannual regulatory agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since April 1998.

This agenda was developed under the guidelines in OMB's Memorandum for Regulatory Policy Officers at Executive Departments and Agencies and Managing and Executive Directors of Certain Agencies and Commissions, dated July 8, 1998. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory plans and to participate in the rulemaking process. Some of the regulations listed in the agenda are considered significant under Executive Order 12866 "Regulatory Planning and Review."

FOR FURTHER INFORMATION CONTACT: Nancy Allard, Regulatory Contact, Policy and Communications Staff, (301) 713-7360, ext. 226.

SUPPLEMENTARY INFORMATION: For this edition of the NARA's regulatory agenda, the most important significant regulatory actions are included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

Dated: August 27, 1998.

John W. Carlin,

Archivist of the United States.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
3932	NARA Facilities	3095-AA06
3933	Records Services Centers	3095-AA27
3934	Creation and Maintenance of Federal Records	3095-AA61
3935	NARA Privacy Act	3095-AA66
3936	Records Declassification	3095-AA67
3937	Researcher Registration and Research Room Procedures	3095-AA69
3938	NARA Freedom of Information Act Regulations	3095-AA72
3939	Limitations on Testimony by NARA Employees	3095-AA75
3940	Collection of Debts Owed to the United States by NARA Employees	3095-AA76
3941	Storage of Nonpaper Records and Artifacts	3095-AA80
3942	Agency Records Centers **(Reg Plan Seq. No. 143)**	3095-AA81
3943	Presidential Library Facilities	3095-AA82
3944	Records Center Facilities Reimbursable Program **(Reg Plan Seq. No. 144)**	3095-AA86
3945	NARA Reproduction Fees	3095-AA87
3946	Standards for Agency Recordkeeping Requirements **(Reg Plan Seq. No. 145)**	3095-AA88

References in boldface appear in the Regulatory Plan in Part II of this issue of the **Federal Register**.

Final Rule Stage

Sequence Number	Title	Regulation Identifier Number

RIN: 3095–AA06

3933. RECORDS SERVICES CENTERS

Priority: Substantive, Nonsignificant

Legal Authority: 44 USC 2907; 44 USC 3103

CFR Citation: 36 CFR 1228

Legal Deadline: None

Abstract: NARA is updating regulations in subpart I of part 1228 to clarify provisions for the transfer of records to records centers. NARA is also adding a new procedure that new accessions of Top Secret records will only be accepted at the Washington National Records Center. The new policy also will identify which records centers will accept records with other levels of security classification. The new policy for security classified records will reduce NARA costs associated with storing and servicing Top Secret records.

RIN: 3095–AA76

3941. STORAGE OF NONPAPER RECORDS AND ARTIFACTS

Priority: Other Significant

Legal Authority: 44 USC 2104 (a)

CFR Citation: 36 CFR 1228; 36 CFR 1230; 36 CFR 1232; 36 CFR 1234

Legal Deadline: None

Abstract: NARA is revising records management regulations and policies concerning storage of non-paper records and non-documentary materials (e.g., three-dimensional artifacts and exhibits that are related to a case file) at the Washington National Records Center and regional NARA facilities that provide temporary storage for Federal records. Agencies are responsible for ensuring that all of their records are maintained properly so that they are accessible throughout their scheduled retention period. NARA is concerned about the storage of non-paper records in facilities that do not provide appropriate environmental conditions. Such storage may contribute to deterioration of the records. Past practice has been inconsistent, and current regulations do not adequately address the issue.

Priority: Substantive, Nonsignificant

Legal Authority: 44 USC 2104 (a); 44 USC 2118 (c)

CFR Citation: 36 CFR 1258

Legal Deadline: None

Abstract: NARA proposes to revise its schedule of fees for reproduction of records created by other Federal agencies and transferred to the custody of the Archivist of the United States; donated historical materials; Presidential records and Presidential historical materials transferred to the custody of the Archivist; and records filed with the Office of the Federal Register. The fees are being changed to reflect current costs of providing the reproductions. This rule will affect members of the public and Federal agencies who order reproductions from NARA.

Semiannual Regulatory Agenda

OFFICE OF FEDERAL HOUSING ENTERPRISE OVERSIGHT (OFHEO)

OFFICE OF FEDERAL HOUSING ENTERPRISE OVERSIGHT

12 CFR Ch. XVII

Semiannual Agenda

AGENCY: Office of Federal Housing Enterprise Oversight.

ACTION: Semiannual regulatory agenda.

SUMMARY: This notice is given pursuant to the requirements of the "Regulatory Flexibility Act" (Pub. L. 96-354, September 19, 1980) and Executive Order 12866 ("Regulatory Planning and Review," September 30, 1993), which require the publication of a semiannual agenda of regulations.

FOR FURTHER INFORMATION CONTACT: Gary L. Norton, Deputy General Counsel, Office of Federal Housing Enterprise Oversight, 1700 G Street NW., Washington, DC 20552.

Dated: September 1, 1998.

Mark A. Kinsey,

Acting Director, Office of Federal Housing Enterprise Oversight.

OFFICE OF FEDERAL HOUSING ENTERPRISE OVERSIGHT (OFHEO) — Proposed Rule Stage

3968. RULES OF PRACTICE AND PROCEDURE

Priority: Info./Admin./Other

Legal Authority: 12 USC 4513(b)(1); 12 USC 4631 to 4641

CFR Citation: 12 CFR 1780

Legal Deadline: None

Abstract: The Office of Federal Housing Enterprise Oversight (OFHEO) issued a final regulation setting forth rules of practice and procedure related to OFHEO's statutory enforcement provisions found in subtitle C of title XIII of the Housing and Community Development Act of 1992, known as the Federal Housing Enterprises Financial Safety and Soundness Act of 1992, 12 U.S.C. 4501 et seq. The proposed regulation will describe procedures for answering notices of charges, filing and service of papers, the designation of a presiding officer, the conduct of formal hearings, access to agency process of parties afforded a hearing, and various time requirements. In addition, the final regulation sets rules of practice, including debarment, suspension and other sanctions, for persons who practice before OFHEO.

3969. RELEASING INFORMATION

Priority: Other Significant

Legal Authority: 5 USC 552; 12 USC 4513; 12 USC 4522; 12 USC 4526; 12 USC 4639; EO 12600

CFR Citation: 12 CFR 1710

Legal Deadline: None

Abstract: The Office of Federal Housing Enterprise Oversight (OFHEO) issued a proposed rule to set forth the basic policies of OFHEO regarding information it maintains and the procedures for obtaining access to such information. The rule contains regulations of OFHEO implementing the Freedom of Information Act (FOIA) and establishes a schedule of fees that will be charged for the processing of document requests under the FOIA. In addition, the proposed rule sets forth procedures to be followed with respect to testimony and the production of documents in legal proceedings in which OFHEO is not a named party as well as procedures for service of process upon OFHEO in any legal proceeding. After reviewing and considering public comments, OFHEO intends to issue a final rule in 1998.

3970. RISK-BASED CAPITAL

Priority: Other Significant

Legal Authority: 12 USC 4611; 12 USC 4513(b)(1)

CFR Citation: 12 CFR 1750

Legal Deadline: Final, Statutory, December 1, 1994.

Abstract: Title XIII of the Housing and Community Development Act of 1992, Pub. L. No. 102-550, known as the Federal Housing Enterprises Financial Safety and Soundness Act of 1992, 12 U.S.C. 4501 et seq., gives the Office of Federal Housing Enterprise Oversight (OFHEO) the responsibility for developing a risk-based capital regulation for the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation (collectively, the Enterprises). To discharge this responsibility, OFHEO must develop and implement a risk-based capital "stress test" that determines the amount of capital that an Enterprise must hold initially to maintain positive capital throughout a 10-year period of economic stress (stress period). A notice of proposed rulemaking was published on June 11, 1996, with a 90-day comment period. The comment period was later extended to October 24, 1996. The proposed regulation includes a discussion of the basis for identifying the benchmark loss experience which will provide the basis for calculating credit losses during the stress period. The proposed regulation also discusses OFHEO's housing price index which is proposed to be used to calculate the seasoning of mortgages. A subsequent second proposed regulation will include the details of all other aspects of the risk-based capital stress test.

3971. IMPLEMENTATION OF THE PRIVACY ACT OF 1974

Priority: Other Significant

Legal Authority: 5 USC 552a

CFR Citation: 12 CFR 1720

Legal Deadline: None

Abstract: The final regulation implements the Privacy Act of 1974 (5 U.S.C. 552a). The Privacy Act is a records management statute designed to balance the Government's need to maintain information about individuals with the rights of individuals to be protected against unwarranted invasions of their privacy. The final regulation applies to all records that are contained in systems of records maintained by the Office of Federal Housing Enterprise Oversight. The final regulation informs individuals how to obtain and amend non-exempt records indexed under their names. The regulation also places restrictions on the release of covered information.

Office of Government Ethics

Semiannual Regulatory Agenda

OFFICE OF GOVERNMENT ETHICS (OGE)

OFFICE OF GOVERNMENT ETHICS

5 CFR Ch. XVI

Semiannual Regulatory Agenda, October 1998

AGENCY: Office of Government Ethics.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following Office of Government Ethics (OGE) substantive and procedural regulations are scheduled for development or review during the period from October 1, 1998, through September 30, 1999. This agenda fulfills OGE's responsibility to publish a semiannual regulatory agenda under Executive Order 12866 "Regulatory Planning and Review" and has been prepared in accordance with guidance received from the Office of Management and Budget. None of the OGE regulations in this October 1998 agenda will have a significant economic impact on a substantial number of small entities as defined under the Regulatory Flexibility Act, 5 U.S.C. chapter 6. In addition, none of the listed OGE regulatory actions is procurement-related. Furthermore, the Office of Government Ethics rulemakings are not included in The Regulatory Plan.

This publication in the **Federal Register** does not impose a binding obligation on the Office of Government Ethics with respect to any particular item on its agenda. The dates shown for the future steps of each action are estimates and not commitments to act by the date shown. Moreover, other OGE regulatory actions, in addition to the entries listed, are not precluded.

FOR FURTHER INFORMATION CONTACT: William E. Gressman, Associate General Counsel, Office of Government Ethics, Suite 500, 1201 New York Avenue NW., Washington, DC 20005-3917; telephone: 202-208-8000, extension 1110; TDD: 202-208-8025; FAX: 202-208-8037.

Approved: August 31, 1998.

F. Gary Davis,

Deputy Director, Office of Government Ethics.

3977. INTERPRETATION, EXEMPTIONS, AND WAIVER GUIDANCE CONCERNING 18 USC 208 (ACTS AFFECTING A PERSONAL FINANCIAL INTEREST)

Priority: Other Significant

Legal Authority: 18 USC 208; 5 USC app (Ethics in Government Act of 1978); EO 12674; EO 12731

CFR Citation: 5 CFR 2640 (New)

Legal Deadline: None

Abstract: This regulation (a proposed rule was published in 1995) interprets section 208(a) of title 18, USC, which prohibits officers and employees of the executive branch from officially participating personally and substantially in a particular matter in which there is a personal financial interest or a financial interest of a related person or organization (absent a waiver under 18 USC 208(b)). It also lists and describes interests considered too remote or too inconsequential to affect the integrity of the services of executive branch officers or employees, in accordance with 18 USC 208(b)(2). Such interests are exempt from the restrictions of 18 USC 208(a), generally requiring disqualification. The regulation also provides guidance to executive branch agencies as to the kinds of interests that are not so substantial as to be deemed likely to affect the integrity of the services the Government may expect from an employee and which, therefore, may be waived from the general rule of disqualification under 18 USC 208(a) pursuant to 18 USC 208(b)(1). In addition, guidance is provided concerning the issuance of waivers to special Government employee advisory committee members pursuant to 18 USC 208(b)(3). A separate interim final rule, published in 1995 exempting certain financial interests arising from Federal Government executive branch employment as well as from Social Security or veterans' benefits from the general prohibition in section 208(a), was incorporated in the overall final rule.

CFR Citation: 5 CFR 2634

Legal Deadline: None

Abstract: Regulation revising the executive branch public and confidential financial disclosure report systems for high-level officials and certain mid-level employees, respectively, in light of the changes to the Ethics in Government Act effected by the Ethics Reform Act of 1989 (Pub. L. 101-194), as amended. These disclosure provisions apply to public reports filed since January 1, 1991. Subpart I of the regulation, effective October 5, 1992, superseded prior executive branchwide and agency-specific regulations and established a revised system of confidential reporting, modeled generally on the public reporting system, for executive branch agency mid-level employees with sensitive duties and special Government employees. This regulation also has a subpart dealing with certificates of divestiture.

3979. STANDARDS OF ETHICAL CONDUCT FOR EMPLOYEES OF THE EXECUTIVE BRANCH

Priority: Other Significant

Legal Authority: 5 USC 7301; 5 USC 7351; 5 USC 7353; 5 USC app (Ethics in Government Act of 1978); EO 12674; EO 12731

CFR Citation: 5 CFR 2635

Legal Deadline: None

Abstract: Regulation implementing certain provisions of Executive Order 12674 on Principles of Ethical Conduct, as modified by EO 12731, and the Ethics Reform Act of 1989 (Pub. L. 101-194), as amended. Effective February 3, 1993, this ethical conduct standards regulation generally superseded executive branch employee conduct and gifts rules, as well as pertinent portions of agency-specific conduct regulations issued thereunder. For certain existing agency regulatory standards setting forth financial interest prohibitions and prior approval for outside employment/activities, an extended grace period was in effect until November 1, 1996, or until individual concerned agencies issued supplemental regulations, with Office of Government Ethics concurrence.

Priority: Other Significant

Legal Authority: 5 USC app (Ethics in Government Act of 1978); EO 12674; EO 12731

CFR Citation: 5 CFR 2636

Legal Deadline: None

Abstract: The regulation had, in pertinent part, implemented, effective January 1, 1991, the prohibition on honoraria (now declared unconstitutional by the courts as to most rank and file executive branch employees and hence determined to be eviscerated as to all other Federal employees by the Office of Legal Counsel of the Justice Department). In addition, the regulation continues to implement the limitation on outside employment as provided in the 1989 Ethics Reform Act revisions to the Ethics in Government Act, as amended. The regulation has now been amended in light of the above-noted litigation and other pertinent developments.

3981. POST-EMPLOYMENT CONFLICT OF INTEREST RESTRICTIONS

Priority: Other Significant

Legal Authority: 5 USC app (Ethics in Government Act of 1978); 18 USC 207; EO 12674; EO 12731

CFR Citation: 5 CFR 2641; 5 CFR 2637 (Continuation)

Legal Deadline: None

Abstract: Interpretive regulation giving guidance for the executive branch on the various substantive restrictions of the current version of the post-Government employment conflict of interest statute 18 U.S.C. 207, which became effective January 1, 1991, pursuant to title I of the Ethics Reform Act of 1989 (Pub. L. 101-194), as amended. Parts of the regulation, dealing with procedures for waivers by the Office of Government Ethics of certain senior official constraints (based on executive agency hardship), designated senior employees, and separate agency designations, have already been published in the Federal Register; such designations are periodically updated by the Office of Government Ethics. The Office of Government Ethics also has continued to publish in the CFR the interpretive regulation, 5 CFR part 2637 (but now without the no-longer-effective former Senior Employee and old agency component designation listings), under the lifetime bar of the prior version of the post-employment law which still applies to executive branch employees who left the Government before January 1, 1991. Once a complete current post-employment law regulation is published, the old part 2637 regulation will be removed from the CFR.

OFFICE OF GOVERNMENT ETHICS (OGE)

Long-Term Actions

3982. EXECUTIVE AGENCY SUPPLEMENTAL STANDARDS OF ETHICAL CONDUCT REGULATIONS ISSUED JOINTLY WITH THE CONCURRENCE OF THE OFFICE OF GOVERNMENT ETHICS

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 7301; 5 USC app (Ethics in Government Act of 1978); EO 12674; EO 12731; 5 CFR 2635.105

CFR Citation: 5 CFR 2635; 5 CFR ch XXI et seq

Legal Deadline: None

Abstract: The supplemental executive agency standards of ethical conduct regulations, once issued jointly with the concurrence of the Office of Government Ethics (OGE) at agency expense in new chapters at the end of 5 CFR, after OGE approval, supplement for each individual agency concerned the new OGE executive branch standards of ethical conduct, as codified at 5 CFR part 2635. The supplemental regulations, as they are issued in accordance with section 201(a) and 301(a) of EO 12674, as modified by EO 12731, set forth those agency-specific provisions under applicable law and regulation, such as regulatory restrictions on holding certain financial interests and designation of departmental subunits, which are needed for certain agencies to round out the executive branchwide

Office of Management and Budget

Semiannual Regulatory Agenda

OFFICE OF MANAGEMENT AND BUDGET (OMB)

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Ch. III and 48 CFR Ch. 99

Federal Regulations; OMB Circulars, OFPP Policy Letters, and CASB Cost Accounting Standards Included in the Semiannual Agenda of Federal Activities

AGENCY: Office of Management and Budget.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities for OMB Circulars, Office of Federal Procurement Policy (OFPP) Policy Letters, and Cost Accounting Standards Board (CASB) Cost Accounting Standards.

OMB Circulars and OFPP Policy Letters are published in accordance with OMB's internal procedures for implementing Executive Order No. 12866 (October 4, 1993; 58 FR 51735). OMB policy guidelines are issued under authority derived from several sources including: Subtitles I, II, and V of title 31, United States Code; Executive Order No. 11541; and other specific authority as cited. OMB Circulars and OFPP Policy Letters communicate guidance, instructions, and information of a continuing nature to executive branch agencies. As such, most OMB Circulars and OFPP Policy Letters are not regulations. Nonetheless, because these issuances are typically of public interest, they are generally published in the **Federal Register** in both proposed (for public comment) and final stages. For this reason, they are presented below in the standard format of "prerule," "proposed rule," and "final rule" stages.

CASB Cost Accounting Standards are issued under authority derived from 41 U.S.C. 422. Cost Accounting Standards are rules governing the measurement, assignment, and allocation of costs to contracts with the United States Government.

For purposes of this agenda, we have excluded directives that outline procedures to be followed in connection with the President's budget and legislative programs and directives that affect only the internal functions, management, or personnel of Federal agencies.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda, c/o Office of Management and Budget, Washington, DC 20503. On the overall agenda, contact Clarence C. Crawford, (202) 395-3060, at the above address.

Dated: October 23, 1998.

Clarence C. Crawford,

Associate Director for Administration.

OFFICE OF MANAGEMENT AND BUDGET (OMB) — Proposed Rule Stage

3984. REVISION OF OMB CIRCULAR A-127 TO IMPLEMENT THE FEDERAL FINANCIAL MANAGEMENT IMPROVEMENT ACT (FFMIA) AND TO REFLECT UPDATED FINANCIAL MANAGEMENT POLICIES

Priority: Substantive, Nonsignificant

Legal Authority: 31 USC 503 et seq, CFOs Act; PL 104-208, Federal Financial Mgmt. Improvement Act of 1996; 31 USC 3111

CFR Citation: None

Legal Deadline: None

Abstract: The Federal Financial Management Improvement Act (FFMIA) of 1996 requires that financial management systems at each Federal agency covered by the CFOs Act, substantially comply with Federal financial management systems requirements, applicable Federal accounting standards, and the U.S. Government Standard General Ledger at the transaction level. The revisions are to incorporate this and other policy updates since the 1993 issuance of the last revision to A-127.

3985. POLICIES ON MANAGEMENT OF FEDERAL INFORMATION RESOURCES (CIRCULAR NO. A-130)

Priority: Substantive, Nonsignificant

Legal Authority: PL 104-106

CFR Citation: None

Legal Deadline: None

Abstract: OMB Circular A-130, Management of Federal Information Resources, establishes policies for the management of Federal information resources and provides certain procedures and analytical guidelines for implementing specific aspects of these policies. OMB is reviewing the Circular for consistency with the Information Technology Management Reform Act (ITMRA) of 1996, P.L. 104-106. This proposed revision is consistent with the National Performance Reviews reinventing government efforts.

3988. REVISION TO OMB CIRCULAR NO. A-125, "PROMPT PAY"

Priority: Substantive, Nonsignificant

Legal Authority: 31 USC ch 39

CFR Citation: None

Legal Deadline: None

Abstract: Circular A-125 prescribes policy for the Executive departments and agencies in paying for goods and services pursuant to the Prompt Payment Act of 1982 as amended. These revisions will incorporate provisions of the Debt Collection Improvement Act of 1996. This proposed revision is consistent with the National Performance Reviews reinventing government efforts.

Office of Personnel Management

Semiannual Regulatory Agenda

OFFICE OF PERSONNEL MANAGEMENT (OPM)

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Ch. I

Regulatory Agenda

AGENCY: Office of Personnel Management.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following Office of Personnel Management (OPM) regulations are scheduled for development or review from October 1, 1998, through September 30, 1999. This agenda carries out OPM's responsibilities to publish a semiannual agenda under E.O. 12866 "Regulatory Planning and Review" and the Regulatory Flexibility Act (5 U.S.C. chapter 6). This publication in the **Federal Register** does not impose a binding obligation on the Office of Personnel Management with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded.

FOR FURTHER INFORMATION CONTACT: Jacquline D. Carter, (202) 606-1973.

SUPPLEMENTARY INFORMATION: For this edition of OPM's regulatory agenda, the most important significant regulatory actions are included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

U.S. Office of Personnel Management.

Janice R. Lachance,

Director.

Prerule Stage

Sequence Number	Title	Regulation Identifier Number
3995	Availability of Official Information	3206-AG92

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
3996	Personnel Records	3206-AH24
3997	Employment in the Excepted Service	3206-AH83
3998	Career and Career-Conditional Appointment Under Special Authorities	3206-AG90
3999	Noncompetitive Appointment of Former Peace Corps and Vista Volunteers	3206-AI18
4000	Probation on Initial Appointment to a Competitive Position **(Reg Plan Seq. No. 146)**	3206-AI47
4001	Merit Promotion and Internal Placement **(Reg Plan Seq. No. 147)**	3206-AI20
4002	Taper Employment - Specific Authority for Worker Trainee **(Reg Plan Seq. No. 148)**	3206-AI45
4003	Clarification of Various Staffing Provisions	3206-AH49
4004	Interagency Placement Program	3206-AI24
4005	Reemployment Priority List **(Reg Plan Seq. No. 149)**	3206-AI34
4006	Career Transition Assistance for Surplus and Displaced Federal Employees	3206-AI39
4007	Clarification of Hiring Authorities **(Reg Plan Seq. No. 150)**	3206-AI46
4008	Other Than Full-Time Employment (Part-Time, Seasonal, Intermittent)	3206-AI22
4009	Re-Employment Rights	3206-AI19
4010	Demonstration Project Authority	3206-AI40
4011	Classification Appeals of General Schedule Employees	3206-AH38
4012	Superior Qualifications Appointments	3206-AI00
4013	Miscellaneous Changes in Compensation Regulations	3206-AH11
4014	Prevailing Rate Systems; Changing the Helper (Trades) WG-5 Survey Job from Required to Optional	3206-AH81
4015	Prevailing Rate Systems; Environmental Differential Pay for Working at High Altitudes	3206-AI36
4016	Job Grading Reviews and Appeals of Federal Wage System Employees	3206-AI14
4017	Severance Pay: Miscellaneous	3206-AH12
4018	Pay Administration Under the Fair Labor Standards Act (FLSA)	3206-AI15
4019	Reemployment of Military and Civilian Retirees To Meet Exceptional Employment Needs	3206-AI32

OFFICE OF PERSONNEL MANAGEMENT (OPM) — Prerule Stage

3995. AVAILABILITY OF OFFICIAL INFORMATION

Priority: Info./Admin./Other

Legal Authority: 5 USC 552 Freedom of Information Act

CFR Citation: 5 CFR 294

Legal Deadline: None

Abstract: The proposed rulemaking will make minor changes to subpart A of 5 CFR 294, Availability of Official Information Act. The rulemaking will provide additional information on the definition of terms used in the search and review process, update office addresses , and clarify that any written request that meets the specified marking and content requirements will be recognized as an official FOIA request. These changes are designed to benefit the public by providing updated information on where to direct FOIA requests, and improve the wording of the regulation to fully and accurately meet the provisions of the FOIA. There will be no significant change to the existing operational procedures in place at OPM.

4014. PREVAILING RATE SYSTEMS; CHANGING THE HELPER (TRADES) WG-5 SURVEY JOB FROM REQUIRED TO OPTIONAL

Priority: Info./Admin./Other

Legal Authority: 5 USC 5343

CFR Citation: 5 CFR 532

Legal Deadline: None

Abstract: OPM plans regulatory actions to remove the Helper (Trades) WG-5 Federal Wage System (FWS) appropriated fund survey job from the list of required FWS survey jobs and add it to the list of optional FWS survey jobs. This change was recommended by the Federal Prevailing Rate Advisory Committee.

4015. • PREVAILING RATE SYSTEMS; ENVIRONMENTAL DIFFERENTIAL PAY FOR WORKING AT HIGH ALTITUDES

Priority: Info./Admin./Other

Legal Authority: 5 USC 5343

OPM

Proposed Rule Stage

CFR Citation: 5 CFR 532

Legal Deadline: None

Abstract: The Office of Personnel Management (OPM) is proposing regulation to establish an 8 percent environmental differential pay (EDP) category for Federal Wage System (FWS) employees who work at land-based worksites located at more than 3900 (12,795) meters in altitude, provided such employees are required to commute to their worksites on the same day from a substantially lower altitude under circumstances in which the rapid change in altitude may result in acclimation problems. OPM is creating this new EDP category so that Federal agencies may provide additional compensation to FWS employees who are exposed to unusual health risks by these working conditions.

4025. FEDERAL EMPLOYEES' HEALTH AND COUNSELING PROGRAMS

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 7361; 5 USC 7362

CFR Citation: 5 CFR 792

Legal Deadline: None

Abstract: OPM is proposing to remove the following sentence which appears

in this part, "If an employee fails to participate in any rehabilitative program or, having participated, the employee fails to bring conduct or performance up to a satisfactory level, the agency shall evaluate the employee accordingly and initiate the appropriate performance-based or adverse action." This sentence confuses or misleads agency management in dealing with employees who have an alcohol or drug abuse problem and whose job performance or conduct is affected as a result of their problem. Some agency officials believe that this sentence guarantees Federal employees, with these problems, two chances to avoid disciplinary and/or corrective action. We also propose to add a new section to this part which provides for the confidentiality of Employee Assistance Program (EAP) records and conversations between the counselor and the client. There are regulations which provide confidentiality of alcohol and drug abuse patient records; however, there is no such regulation for other personal problems which affect Federal employees such as family, financial, marital, etc. Without this regulation, agency EAP administrators and counselors are not protected when they refuse to disclose information without the signed written consent of the EAP client.

4031. RETIREMENT; WAIVER OF MILITARY RETIRED PAY TO ENHANCE CIVIL SERVICE RETIREMENT ANNUITY

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 8332(c)(4); 5 USC 8347(a); 5 USC 8411(c)(5)

CFR Citation: 5 CFR 831, subpart C; 5 CFR 842, subpart C

Legal Deadline: None

Abstract: These regulations implement provisions of the National Defense Authorization Act for Fiscal Year 1997. The Act changed the statutory requirements for allowing credit under the Civil Service Retirement System (CSRS) and the Federal Employees Retirement System (FERS) for military service in certain situations. CSRS or FERS credit based on a waiver of military retired pay after January 1, 1997 is no longer permitted to adversely affect a former spouse with a court order on file affecting the military retired pay.

4042. MORATORIUM ON INVOLUNTARY SES REASSIGNMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 3395

CFR Citation: 5 CFR 317

Legal Deadline: None

Abstract: The interim regulations will clarify the existing regulatory provision at 5 CFR 317.901 covering the statutory 120-day moratorium on involuntary reassignments of SES career appointees following the appointment of a new agency head or noncareer supervisor. As agency transitions began to get underway after January 20, 1997, agency questions revealed that the moratorium regulations could be subject to an interpretation not intended by the statute. The interim regulations will make it clear that an agency may effect an involuntary reassignment, based on an unsatisfactory rating issued before the appointment that initiates the moratorium, as an exception to the moratorium.

4049. PREVAILING RATE SYSTEMS; REDEFINITION OF THE NORFOLK, MA, NONAPPROPRIATED FUND WAGE AREA

Priority: Info./Admin./Other

Legal Authority: 5 USC 5343

OPM — Final Rule Stage

CFR Citation: 5 CFR 532

Legal Deadline: None

Abstract: OPM plans regulatory actions to abolish the Norfolk, MA, nonappropriated fund (NAF) wage area and to redefine (1) Norfolk, Plymouth, and Suffolk Counties in MA to the Middlesex, MA, NAF wage area and (2) Barnstable and Nantucket Counties in MA to the Newport, RI, wage area. This change is necessary because the closing of the wage area host activity, Naval Air Station, South Weymouth, MA, left Norfolk County without an activity having the capability to conduct a wage survey.

4051. HOLIDAY AND PREMIUM PAY

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 5548; 5 USC 6133; 29 USC 204(f)

CFR Citation: 5 CFR 523; 5 CFR 550; 5 CFR 551; 5 CFR 610

Legal Deadline: None

Abstract: The regulations implement recent changes in law which provide authority for compensatory time off for prevailing rate (wage) employees in lieu of overtime pay and agency flexibility in determining the "in lieu of" holiday for employees on compressed work schedules when the actual holiday for the employee is on a nonworkday. A current regulation is also corrected to comply with a provision of law authorizing use of alternative work schedules for civilian nonappropriated fund employees of the Armed Services.

CFR Citation: 5 CFR 630, subpart K

Legal Deadline: None

Abstract: Section 9004 of Pub. L. 105-18, June 12, 1997, added section 6391 to title 5, United States Code, to provide that in the event of a major disaster or emergency, as declared by the President, that results in severe adverse effects for a substantial number of employees, the President may direct the Office of Personnel Management (OPM) to establish an emergency leave transfer program under which an employee in any Executive agency may donate annual leave for transfer to employees of his or her agency or to employees in other agencies who are adversely affected by such disaster or emergency. The Act also permits agency leave banks established under 5 U.S.C. 6362 to donate leave under an emergency leave transfer program established by OPM.

4084. • VOLUNTARY EARLY RETIREMENT AUTHORITY

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 8336(d); 5 USC 814(b)(1)(B)

CFR Citation: 5 CFR 831; 5 CFR 842

Legal Deadline: None

Abstract: Section 7001 of Public Law 105-174, the Supplemental Appropriations and Rescissions Act, FY 1998, provided authority for OPM and agencies to apply special provisions affecting the manner in which voluntary early retirements may be administered and approved for the period from May 1, 1998, through September 30, 1999. The law allows OPM to prescribe regulations which permit the agency, after OPM approval, to determine the scope of voluntary early retirement offers on the basis of one or more organizational units; one or more occupational series or levels; one or more geographic locations; other similar nonpersonal factors; or any appropriate combination of such factors. These regulations implement the temporary provisions of Public Law 105-174.

4085. DEBARMENTS, CIVIL MONETARY PENALTIES, AND ASSESSMENTS IMPOSED AGAINST PROVIDERS

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 8902a

CFR Citation: 5 CFR 890, subpart J

Legal Deadline: None

Abstract: These regulations will implement amendments to 5 U.S.C. section 8902a, which authorize OPM to debar health care providers who have committed certain types of legal offenses or program-related violations, from participation in the Federal Employees Health Benefits Program (FEHBP) and to levy monetary penalties and assessments against individuals who have improperly obtained payments of FEHBP funds. Passage of the proposed legislation will remove unnecessary administrative constraints on the agency, provide more flexible and less time consuming procedures, and improve OPM's administration of sanctions against unfit health care providers.

OVERSEAS PRIVATE INVESTMENT CORPORATION (OPIC)

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Overseas Private Investment Corporation

22 CFR Ch. VII

Federal Regulations; OPIC Regulatory Agenda Semiannual Summary

AGENCY: Overseas Private Investment Corporation, IDCA.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Overseas Private Investment Corporation (OPIC) is publishing this agenda as required by Executive Order 12866 "Regulatory Planning and Review" (58 FR 51735, October 4, 1993) and the Regulatory Flexibility Act. This agenda gives OPIC's plan for the issuance of proposed regulations during the next 12 months. It is expected that the information provided in this agenda will enable the public to be more aware of and to participate more effectively in OPIC's regulatory process.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda contact: Michael Cushing, Managing Director for Administration, Overseas Private Investment Corporation, 1100 New York Avenue NW., Washington, DC 20527; telephone (202) 336-8520, e-mail address mcush@opic.gov.

Dated: August 14, 1998.

Michael Cushing,

Managing Director for Administration.

Panama Canal Commission

Semiannual Regulatory Agenda

PANAMA CANAL COMMISSION (PANAMA)

PANAMA CANAL COMMISSION

35 CFR Ch. I

Semiannual Regulatory Agenda, October 1998

AGENCY: Panama Canal Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The purpose of this agenda is to report the rulemaking activities of the Panama Canal Commission.

FOR FURTHER INFORMATION CONTACT: For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project. For general information, contact John A. Mills, Secretary, Panama Canal Commission, International Square, 1825 I Street NW., Suite 1050, Washington, DC 20006-5402, (202) 634-6441 TDD or e-mail pancanalwo@aol.com; or John L. Haines, Jr., Esquire, General Counsel, Panama Canal Commission, Unit 2300, APO AA 34011-2300, 011/507-272-7511.

SUPPLEMENTARY INFORMATION: Executive Order 12866 "Regulatory Planning and Review" and the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, require that executive agencies publish in the **Federal Register** a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains certain regulations which are limited in public impact, but they are included to increase public awareness of Commission activities and to allow for increased public participation in the Agency's regulatory review and development process. This agenda was prepared pursuant to guidelines established by the Office of Management and Budget.

Dated: August 13, 1998.

John A. Mills,

Secretary, Panama Canal Commission.

Peace Corps

Semiannual Regulatory Agenda

PEACE CORPS (PEACE)

PEACE CORPS

22 CFR Ch. III

Regulatory Agenda

AGENCY: Peace Corps.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda announces the regulations the Peace Corps will have under development during the 12-month period from October 1, 1998, through September 30, 1999. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the agency official listed for the particular agenda item. For other information concerning Peace Corps' regulations or this semiannual agenda, contact Nancy H. Hendry, General Counsel, Peace Corps, 1111 L Street NW., Washington, DC 20526, (202) 692-2150.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12866 entitled "Regulatory Planning and Review" and the Regulatory Flexibility Act, 5 U.S.C. 601-612, executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year. The regulations being considered by the Peace Corps are not "significant" rules within the meaning of Executive Order 12866, and no regulatory impact analysis is required. In addition, the Peace Corps has determined, under the Regulatory Flexibility Act, that the regulations under consideration will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Flexibility Analysis is required. The Agency has also determined that the regulations will not impose compliance costs or reporting burdens on the public.

Dated: August 28, 1998.

Nancy H. Hendry,

General Counsel.

PEACE CORPS (PEACE) — Long-Term Actions

4104. IMPLEMENTATION OF REHABILITATION ACT OF 1973, PART 504—HANDICAPPED DISCRIMINATION PROHIBITION

Priority: Info./Admin./Other

Legal Authority: 29 USC 794

CFR Citation: 22 CFR 312

Pension Benefit Guaranty Corporation

Semiannual Regulatory Agenda

PENSION BENEFIT GUARANTY CORPORATION (PBGC)

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Ch. XXVI

Agenda of Regulations Under Development

AGENCY: Pension Benefit Guaranty Corporation (PBGC).

ACTION: Semiannual regulatory agenda.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12866 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or review or that PBGC expects to have under development or review during the next 12 months. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESSES: Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street NW., Washington, DC 20005-4026.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, (202) 326-4024. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's order on Regulatory Planning and Review, Executive Order 12866 (58 FR 51735, October 4, 1993), each agency is required to prepare an agenda of all regulations under development or review. The Regulatory Flexibility Act, Public Law 98-354, 5 U.S.C. 601, has a similar agenda requirement. Under that law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next 12 months and provide certain specified information on each regulation. All of the items on this agenda are current or projected rulemakings. This edition of the Unified Agenda of Federal Regulatory and Deregulatory Actions includes The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Pension Benefit Guaranty Corporation's Statement of Regulatory Priorities is included in part II.

David M. Strauss,

Executive Director, Pension Benefit Guaranty Corporation.

4110. • FILING RULES

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 29 USC 1301 et seq

CFR Citation: 29 CFR 4000

Legal Deadline: None

Abstract: The PBGC's rules governing the date of filing vary, depending on the regulation involved and the method of filing used (e.g., mail postmarked by the United States Postal Service, metered mail, commercial delivery service, facsimile). The PBGC intends to clarify and simplify its filing rules and to provide greater flexibility in methods of filing (including by electronic means).

4112. PAYMENT OF BENEFITS IN PBGC-TRUSTEED PLANS

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322; 29 USC 1342

CFR Citation: 29 CFR 4022

Legal Deadline: None

Abstract: When the PBGC assumes trusteeship of a terminated pension plan pursuant to sections 4041 and 4042 of ERISA, it pays benefits to participants pursuant to plan provisions and section 4022 of ERISA. This regulation will fill gaps in the rules and otherwise clarify matters that had been handled on a case-by-case basis in the past.

4113. CALCULATION AND PAYMENT OF UNFUNDED NONGUARANTEED BENEFITS

Priority: Other Significant

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322(c)

CFR Citation: 29 CFR 4022 subpart C

Legal Deadline: None

Abstract: Under ERISA section 4022(c), plan participants and beneficiaries may receive a portion of their unfunded nonguaranteed benefits (UNBs). The PBGC's claim for employer liability covers both its shortfall (unfunded guaranteed benefits) and participants' losses (UNBs). In turn, the PBGC uses a portion of its employer liability recoveries to pay a portion of UNBs to participants and beneficiaries. Section 4022(c) contains several ambiguities and also leaves to the PBGC the development of specific rules and procedures necessary to make this system work.

4118. MERGERS AND TRANSFERS BETWEEN MULTIEMPLOYER PLANS

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 1302(b)(3); 29 USC 1411

CFR Citation: 29 CFR 4231

Legal Deadline: None

Abstract: ERISA section 4231 sets basic guidelines for mergers and transfers between multiemployer plans, including a provision for a 120-day notice to the PBGC. The PBGC's regulation on Mergers and Transfers Between Multiemployer Plans contains implementing rules. Neither the statute nor the regulation makes clear whether or how the merger and transfer rules apply where one or more of the plans involved is terminated. This rule amends 29 CFR part 4231 to clarify its application to mergers and transfers involving one or more terminated multiemployer plans and to specify the criteria that a merger or transfer involving terminated plans must satisfy in order to protect participants and beneficiaries in the affected plans, as well as the PBGC, from risk of loss as a result of the merger or transfer. The rule also liberalizes the 120-day notice requirement for all multiemployer mergers and transfers so that such transactions can proceed more expeditiously.

4119. PBGC RECOUPMENT AND REIMBURSEMENT OF BENEFIT OVERPAYMENTS AND UNDERPAYMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 29 USC 1302; 29 USC 1322; 29 USC 1322b; 29 USC 1341(c)(3)(D); 29 USC 1344

CFR Citation: 29 CFR 4022

Legal Deadline: None

Abstract: Under the PBGC regulation on recoupment of benefit overpayments, unless the participant elects to repay the overpayment in a lump sum, the PBGC recoups the overpayment through an actuarial reduction of all future monthly benefit payments. This amendment provides that recoupment will stop when the total amount collected equals the amount of the overpayment and makes other related changes.

4120. VALUATION AND PAYMENT OF LUMP SUM BENEFITS

Priority: Substantive, Nonsignificant

Legal Authority: 29 USC 1302; 29 USC 1311; 29 USC 1322; 29 USC 1341a; 29 USC 1350; 29 USC 1441

CFR Citation: 29 CFR 4022

Legal Deadline: None

Abstract: The Taxpayer Relief Act of 1997 increased the maximum amount private pension plans may pay to a participant or surviving spouse in a lump sum (i.e., payment in a single installment) without the participant's consent (effective for plan years beginning after August 5, 1997). To reflect this change, the PBGC is amending its regulations to increase from $3,500 to $5,000 the maximum value of benefits that the PBGC may pay in lump sum form.

Railroad Retirement Board

Semiannual Regulatory Agenda

RAILROAD RETIREMENT BOARD (RRB)

RAILROAD RETIREMENT BOARD

20 CFR Ch. II

Semiannual Agenda of Regulations Under Development or Review

AGENCY: Railroad Retirement Board.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda contains lists of regulations that the Board is developing or proposes to develop in the next 12 months and regulations that are scheduled to be reviewed in that period.

ADDRESSES: 844 North Rush Street, Chicago, Illinois 60611.

FOR FURTHER INFORMATION CONTACT: Thomas W. Sadler, Senior Attorney, Bureau of Law, Railroad Retirement Board, (312) 751-4513, FAX (312) 751-7102, TDD (312) 751-4701.

SUPPLEMENTARY INFORMATION: No Regulatory Plan entries have been included for this edition of the Railroad Retirement Board's semiannual regulatory agenda. Current regulations that are proposed to be modified based on a completed review of the regulations are listed in the agenda.

Dated: August 27, 1998.

By Authority of the Board.

Beatrice Ezerski,

Secretary to the Board.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
4121	General Administration	3220-AB35
4122	Plan of Operation During a National Emergency	3220-AB36
4123	Remuneration	3220-AB38
4124	Registration for Railroad Unemployment Benefits; Determination of Daily Benefit Rate; Sickness Benefits; Duration of Normal and Extended Benefits	3220-AB39

Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
4125	Employers Under the Railroad Retirement Act; Employers Under the Railroad Unemployment Insurance Act	3220-AA51
4126	Employees Under the Railroad Retirement Act	3220-AA52
4127	Reduction and Non-Payment of Annuities by Reason of Work	3220-AA61
4128	Voluntary Quit	3220-AA75
4129	Determining Disability	3220-AA99
4130	Requests for Reconsideration and Appeals Within the Board	3220-AB03
4131	Creditable Railroad Compensation	3220-AB23
4132	Finality of Decisions Regarding Unemployment and Sickness Insurance Benefits	3220-AB25
4133	Determining Disability	3220-AB37

Completed Actions

Sequence Number	Title	Regulation Identifier Number
4134	Railroad Employers' Reports and Responsibilities	3220-AB21
4135	Eligibility for an Annuity	3220-AB27
4136	Availability of Information to the Public	3220-AB33
4137	Recovery of Overpayments	3220-AB34

RAILROAD RETIREMENT BOARD (RRB) — Proposed Rule Stage

4131. CREDITABLE RAILROAD COMPENSATION

Priority: Other Significant

Legal Authority: 45 USC 231f

CFR Citation: 20 CFR 211.3

Legal Deadline: None

Abstract: The RRB amends its regulations regarding the creditability of pay for time lost to prohibit the crediting of pay for time lost beyond the date of a judgment or settlement, or in the absence of a judgment or settlement, beyond the date of payment. The Labor Member of the RRB dissents from this proposal and recommends allowing the crediting of pay for time lost in these circumstances when the accompanying railroad retirement taxes are paid on the compensation.

Selective Service System

Semiannual Regulatory Agenda

SELECTIVE SERVICE SYSTEM (SSS)

SELECTIVE SERVICE SYSTEM

32 CFR Ch. XVI

Regulatory Agenda

AGENCY: Selective Service System.

ACTION: Semiannual regulatory agenda.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Selective Service System that might affect the processing of registrants under the Military Selective Service Act (50 U.S.C. app. 451 *et seq.*). This information will allow the public to participate in the System's decisionmaking at an early stage.

FOR FURTHER INFORMATION CONTACT: Henry N. Williams, General Counsel, Selective Service System, 1515 Wilson Boulevard, Arlington, Virginia 22209-2425; telephone (703) 605-4012; FAX (703) 605-4006.

SUPPLEMENTARY INFORMATION: The agenda is published in accord with the requirements of E.O. 12866. Selective Service regulations appear in 32 CFR chapter XVI.

Dated: August 24, 1998.

Gil Coronado,

Director of Selective Service.

SELECTIVE SERVICE SYSTEM (SSS) — Long-Term Actions

4138. SELECTIVE SERVICE REGULATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 451 et seq, Military Selective Service Act

CFR Citation: 32 CFR ch XVI

Part XLIV

Small Business Administration

Semiannual Regulatory Agenda

SMALL BUSINESS ADMINISTRATION (SBA)

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Semiannual regulatory agenda.

SUMMARY: The entries below represent the Small Business Administration's (SBA) 39th semiannual regulatory agenda. Although not a regulatory agency, the SBA drafted the agenda to meet both the criteria and the spirit of the regulatory review process. The SBA publishes this agenda pursuant to Executive Order 12866 and the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*

FOR FURTHER INFORMATION CONTACT: For further information on agenda items, the SBA encourages the public to contact the individual agency official referenced in each entry.

For information concerning the SBA's overall Regulatory Review and Development Program or general semiannual agenda questions, contact Mark K. Stephens, Deputy General Counsel, U.S. Small Business Administration, 409 Third Street SW., Washington, DC 20416, (202) 205-6642.

SUPPLEMENTARY INFORMATION: The SBA agenda is designed to increase public knowledge of all anticipated SBA regulatory activities. Publication may encourage increased public participation in the review and development process.

The SBA's agenda is divided into three parts. Part I, Proposed Rules, includes those rules which likely will be proposed during the next 12 months. Part II, Final Rules, includes proposed rules which probably will be finalized during the agenda period. Part III, Completed Actions, includes regulations completed or withdrawn and reviews completed since the preceding agenda.

Publication of the agenda does not impose any binding obligation on the SBA with regard to any specific item in the agenda. Further, regulatory action not listed on the agenda is not precluded.

For this edition of SBA's regulatory agenda, the most important significant regulatory action is included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entry is listed in the table of contents below and is denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

Finally, the SBA regulations are developed in a manner that promotes economic growth without imposing unnecessary regulatory burdens on the public. The SBA continues its vigorous program of streamlining all its regulatory activity so that only absolutely necessary regulations are promulgated.

Dated: September 16, 1998.

Aida Alvarez,

Administrator.

4140. SUPPLEMENTAL STANDARDS OF ETHICAL CONDUCT FOR EMPLOYEES OF THE SMALL BUSINESS ADMINISTRATION

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 15 USC 684; 15 USC 637(a)(18); 15 USC 637(a)(19); EO 12674

CFR Citation: 5 CFR 5400

Legal Deadline: None

Abstract: This rule is part of SBA's regulatory streamlining effort. The SBA and the Office of Government Ethics are jointly issuing this rule which is designed to establish uniform standards of ethical conduct for the officers and employees of the SBA. The rule will be published at 5 CFR ch XLIV and will supplement the Standards of Ethical Conduct for Employees of the Executive Branch issued by the Office of Government Ethics (57 FR 35006; Aug. 7, 1992). The rule is necessary to supplement the standards issued by OGE because it addresses ethical issues which are unique to SBA.

4163. • SMALL BUSINESS SIZE REGULATION 8(A) BUSINESS DEVELOPMENT/SMALL DISADVANTAGED BUSINESS STATUS DETERMINATIONS; RULES OF PROCEDURE GOVERNING CASES BEFORE THE OFFICE OF HEARINGS AND APPEALS

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 15 USC 634(b)(6); 15 USC 637(a); 15 USC 636(j)

CFR Citation: 13 CFR 121; 13 CFR 124; 13 CFR 134

Legal Deadline: None

Abstract: In response to President Clinton's government-wide regulatory reform initiative, the Small Business Administration (SBA) amends both the eligibility requirements for, and contractual assistance provisions within the SBA's 8(a) Business Development 8(a) BD program. This final rule changes the name of the program from the Minority Small Business and Capital Ownership Development program to the 8(a) BD program to better reflect the purpose of the program. This rule streamlines the operation of the 8(a) BD program, eases certain restrictions perceived to be burdensome on Program Participants, clarifies certain eligibility requirements, and deletes obsolete regulations.

Social Security Administration

Semiannual Regulatory Agenda

SOCIAL SECURITY ADMINISTRATION (SSA)

SOCIAL SECURITY ADMINISTRATION

Office of the Commissioner

20 CFR Ch. III

Semiannual Unified Regulatory Agenda

AGENCY: Social Security Administration.

ACTION: Semiannual regulatory agenda.

SUMMARY: Executive Order 12866 entitled "Regulatory Planning and Review," issued September 30, 1993, and the Regulatory Flexibility Act of 1980 (Pub. L. 96-354) require each Federal agency to publish semiannually a brief description of all regulatory actions then under development or review, expected to be under development or review for the next 12 months, or completed since the previous publication of the agenda. Our last agenda of regulations was published on April 27, 1998.

FOR FURTHER INFORMATION CONTACT: For further information about a specific regulatory action, contact the person identified as the agency contact for that action. Comments or inquiries of a general nature should be directed to Georgia E. Myers, Regulations Officer, Social Security Administration, 6401 Security Boulevard, Baltimore, MD 21235; telephone (410) 965-3632.

SUPPLEMENTARY INFORMATION: For this edition of the Social Security Administration's regulatory agenda, the most important significant regulatory actions are included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

The Social Security Administration (SSA) has responsibility for the old-age, survivors, and disability insurance programs under title II of the Social Security Act (the Act) and the supplemental security income program under title XVI of the Act. We are not a regulatory agency. For the most part, our regulations do not impose burdens on the private sector or on State, local, or tribal governments. Our regulations document the rules under which we make eligibility determinations and set forth both the responsibilities of the Agency toward the public and beneficiary's rights and responsibilities under the programs we administer.

Our regulatory efforts can be placed into one of the following three categories: 1) Legislative implementation; 2) program improvements to provide better service to SSA customers; and 3) improvements or clarifications to fulfill commitments made as part of the President's Regulatory Reinvention Initiative.

We continue to seek legislative improvements for the programs we administer. However, because of the complexity of our programs, statutory language is rarely detailed enough to govern the actions of agency adjudicative decisionmakers. Supporting regulations are often required. In some instances, the Congress directs SSA to issue implementing regulations. For other legislative provisions, SSA regulations provide program information to applicants for benefits, current beneficiaries, and their legal counsels.

One of our agenda items will amend our regulations to provide more choices for people with disabilities who seek return-to-work services so that they may become self-sufficient. These proposed regulations parallel provisions of legislation, The Work Incentives Improvement Act of 1998, presently pending in Congress.

An area in which we are working hard to deliver high quality service is our disability determination process. Several of our agenda items support improvements to disability program administration.

Two of our agenda items implement elements of a major Agency initiative known as "process unification." Process unification is designed to produce one set of adjudicative standards for all levels of disability review within SSA. Weight of Disability Determination Service (DDS) Medical Consultant Opinions will define the weight to be given to opinion evidence from State agency medical and psychological consultants, other program physicians and psychologists, and medical experts in claims at the hearing level for disability benefits under titles II and XVI of the Social Security Act. Assessment of Residual Functional Capacity will clarify the guidelines in our regulations used in determining whether an individual under age 50 lacks the capacity to perform less than a full range of sedentary work.

Depending on results of tests currently underway, we may proceed with implementation of other regulations to streamline the disability claims process. These may include Prehearing Procedures and Decisions by Adjudication Officers, which will provide for the use of an Adjudication Officer as the focal point for all prehearing activities when a request for a hearing before an Administrative Law Judge is filed, and/or regulations which will modify the disability determination procedures we use to make determinations of disability under titles II and XVI of the Social Security Act to provide that, after appropriate medical or psychological consultation, a single decisionmaker will make determinations of eligibility for benefits based on disability.

One of our agenda items—Permit Department of State and the Immigration and Naturalization Service to Collect Information Needed to Assign Social Security Numbers to Aliens—supports the President's Reinventing Government (REGO II) initiative to create a Federal Government that works better and costs less.

Also in this agenda are proposed revisions to our rules on Administrative Res Judicata, proposed rules updating our procedures for access to and disclosure of personally identifiable information, and proposed rules that will provide us with debt collection tools authorized by recent legislation.

Consistent with the President's Regulatory Reinvention Initiative, we are working diligently to improve our program benefit regulations and to develop partnerships with large segments of the community of stakeholders interested in Social Security programs. The remainder of our Unified Agenda items are such improvements and clarifications.

The October 1998 regulatory agenda for the Social Security Administration follows.

Dated: September 9, 1998.

Georgia E. Myers,

SSA Regulations Officer.

SSA

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
4164	Federal Old-Age, Survivors, and Disability Insurance and Supplemental Security Income, Medical and Other Evidence of Your Impairment(s) (469P)	0960-AD91
4165	Administrative Review Process; Administrative Res Judicata and Related Rules (526P) **(Reg Plan Seq. No. 153)**	0960-AE11
4166	Supplemental Security Income; Plans for Achieving Self-Support (506P)	0960-AE17
4167	Supplemental Standards for Ethical Conduct for Employees of the Social Security Administration (601P)	0960-AE48
4168	Implementing Modifications to Prehearing Procedures and Decisions by Adjudication Officers (616P)	0960-AE55
4169	Effective Date of Application for Supplemental Security Income (SSI) Benefits (642F)	0960-AE71
4170	Privacy and Disclosure of Official Records and Information (711P)	0960-AE88
4171	Federal Salary Offset (Withholding a Portion of a Federal Employee's Salary to Collect A Delinquent Debt Owed to the Social Security Administration) (721P) **(Reg Plan Seq. No. 154)**	0960-AE89

SOCIAL SECURITY ADMINISTRATION (SSA) — Proposed Rule Stage

4164. FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME, MEDICAL AND OTHER EVIDENCE OF YOUR IMPAIRMENT(S) (469P)

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 902(a)(5); 42 USC 1383; 42 USC 405

CFR Citation: 20 CFR 404.1512; 20 CFR 404.1513; 20 CFR 416.912; 20 CFR 416.913

Legal Deadline: None

Abstract: We propose to add speech and language pathologists to the list of acceptable medical sources in our current regulations. These sources will assist us in establishing the existence of speech and language impairments. We also propose to make other changes in our regulations to clarify what we mean by an acceptable medical source.

4167. SUPPLEMENTAL STANDARDS FOR ETHICAL CONDUCT FOR EMPLOYEES OF THE SOCIAL SECURITY ADMINISTRATION (601P)

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC app (Ethics in Government Act of 1978); 5 USC 7301; 5 USC 7353

CFR Citation: 5 CFR ch LXXXI (New)

Legal Deadline: None

Abstract: The Social Security Administration (SSA), with the concurrence of the Office of Government Ethics (OGE), proposes to issue regulations for officers and employees of SSA that supplement the

OGE Standards of Ethical Conduct for Employees of the Executive Branch, which became effective February 3, 1993. The proposed rule specifies procedural and substantive requirements that are necessary to address ethical issues unique to SSA. There were no alternatives considered for these proposed rules. The proposed changes addressed have already been implemented. Any costs or savings will be insignificant.

4168. IMPLEMENTING MODIFICATIONS TO PREHEARING PROCEDURES AND DECISIONS BY ADJUDICATION OFFICERS (616P)

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 31 USC 3720A; 42 USC 401(j); 42 USC 405(a); 42 USC 405(b); 42 USC 405(d) to 405(h); 42 USC 421(d); 42 USC 425; 42 USC 902(a)(5)

CFR Citation: 20 CFR 404.943 (New); 20 CFR 416.1443 (New)

Legal Deadline: None

Abstract: We are amending our rules to implement use of an adjudication officer, who, under the Plan for a New Disability Claim Process approved by the Commissioner of Social Security in September 1994 (the disability redesign plan), would be the focal point for all prehearing activities when a request for a hearing before an administrative law judge (ALJ) is filed. The adjudication officer position is an integral part of the disability redesign plan. These proposed rules will add several new sections setting out the responsibilities of the adjudication officer in connection with a claim for Social Security or Supplemental Security Income (SSI) benefits based on disability.

Legal Deadline: None

Abstract: These proposed regulations reflect and implement section 204 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. Section 204 changed the date a supplemental security income (SSI) application is effective so that the earliest month for which benefits can be paid is the month following the month in which the application is filed. Section 204 also made related changes concerning emergency advance payments (EAP), interim assistance reimbursements (IAR) and in the definition of "eligible spouse".

RIN: 0960–AE93

SOCIAL SECURITY ADMINISTRATION (SSA) Final Rule Stage

4176. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; REVISED MEDICAL CRITERIA FOR DETERMINATION OF DISABILITY; MUSCULOSKELETAL SYSTEM (143F)

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 902(a)(5); 42 USC 405; 42 USC 1383

CFR Citation: 20 CFR 404.1500, app 1

Legal Deadline: None

Abstract: Listings 1.00 and 101.00 of appendix 1 to the disability regulations at 20 CFR 404.1501 through 404.1599 describe those musculoskeletal impairments which are considered severe enough to prevent a person from doing any gainful activity or, for an individual under age 18 under the SSI program, an impairment(s) causing "marked and severe functional limitations." Comprehensive revisions to these listings are being made to ensure that the medical evaluation criteria are up to date and consistent with the latest advances in medicine. The SSI program incorporates by reference and uses the same medical criteria as the old-age, survivors, and disability insurance program.

CFR Citation: 20 CFR 404.354; 20 CFR 404.355; 20 CFR 404.356

Legal Deadline: None

Abstract: These final regulations revise our rules on determining whether a natural child has inheritance rights under appropriate State law and therefore may be entitled to Social Security benefits as the child of an insured worker. Specifically, they revise our rules to explain which version of State law we will apply, depending on whether the insured is living or deceased, how we will apply State law requirements on time limits for determining inheritance rights, and how we will apply State law requirements for a court determination of paternity. They also clarify our current rule on determining an applicant's status as a legally adopted child of an insured individual.

RIN: 0960–AE42

4182. FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND AND DISABLED; EVALUATING OPINION EVIDENCE (624F)

Regulatory Plan: This entry is Seq. No. 161 in Part II of this issue of the Federal Register.

RIN: 0960–AE56

4183. REVISED MEDICAL CRITERIA FOR DETERMINATION OF DISABILITY, DELETION OF OBESITY LISTING (620F)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 405; 42 USC 1383

CFR Citation: 20 CFR 404.1500, app 1

Legal Deadline: None

Abstract: This rule will eliminate "Obesity" from the Listing of Impairments in appendix 1 of subpart P of 20 CFR part 404. Current medical and vocational research demonstrates that obesity, viewed alone, is not determinative of an individual's inability to engage in any gainful activity. Instead, individuals with obesity would have their cases reviewed under the listing for (an) affected body system(s) or, on a case-by-case basis, at the remaining steps of the sequential evaluation process.

Legal Deadline: None

Abstract: Effective stewardship at SSA programs requires mechanisms to assure that benefits are used to meet the needs of beneficiaries who are not able to manage their own benefits due to legal incompetence or medical infirmity. Congress determined that improvements to the representative payment procedures were needed to assure program integrity as part of P.L. 101-508. Any costs associated with these regulations are reflected in the President's budget as part of legislative implementation. These regulations are required to further our program integrity efforts.

4190. ELECTION OF BENEFITS BASED ON AGE BY DISABLED WIDOW, WIDOWER, AND SURVIVING DIVORCED SPOUSE BENEFICIARIES (343P)

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 405

CFR Citation: 20 CFR 404.335; 20 CFR 404.336; 20 CFR 404.337

Legal Deadline: None

Abstract: We propose to amend our regulations to permit the election of benefits based on age by widows, widowers and surviving divorced spouses (hereinafter, collectively widows) who are at least age 60 and who are already entitled to widow's benefits based on disability. This proposal would allow the widow to choose which of the two types of widow's benefits is more advantageous. The estimated increase in benefit payments is less than $500,000 per year for fiscal years 1992-1995.

4191. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; REVISED MEDICAL CRITERIA FOR DETERMINATION OF DISABILITY; HEMIC AND LYMPHATIC SYSTEM, AND MALIGNANT NEOPLASTIC DISEASES (399P)

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 1302; 42 USC 1383; 42 USC 405

CFR Citation: 20 CFR 404.1500, app 1

Legal Deadline: None

Abstract: Sections 7.00 and 107.00 (hemic and lymphatic system), and 13.00 and 113.00 (malignant neoplastic diseases) of appendix 1 to subpart P of part 404 of the Disability Regulations (404.1501 through 404.1599) describe those impairments which are considered severe enough to prevent a person from engaging in any gainful activity, or in the case of a child under age 18, age-appropriate activities. We are proposing revisions to these sections to ensure that the medical evaluation criteria are up-to-date and consistent with the latest advances in medical knowledge and treatment. The Supplemental Security Income program incorporates and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program.

4194. COMPUTATION OF SSI BENEFITS FOR THE FIRST THREE MONTHS OF PAYMENT (476P)

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 416.320

Legal Deadline: None

Abstract: SSI eligibility and payment are calculated by taking into account income received by the applicant/recipient. Two calculations must be made for each month. The first is the eligibility computation and is based on the current (payment) month's income. The second is the payment computation, which, under retrospective monthly accounting, is based (usually) on the income of a prior month called the budget month. Generally the budget month is 2 months prior to the payment month. The transitional computation for the first 3 months of SSI payment is an exception to the general rule described above. While the eligibility computation continues to apply to the current month's income, the budget month on which each of the first 3 months' payments are based is the first month of eligibility. This policy was intended to facilitate the transition into the 2 month retrospective accounting cycle and to avoid penalizing the recipient for income received prior to initial SSI eligibility. However, the policy also has the effect of counting income which is only received in one month more than one time. In Jones v. Shalala the Ninth Circuit Court of Appeals ruled that SSA's transitional computation for the first 3 months of eligibility is not permissible because it will result in the triple counting of nonrecurring income received only in the first month of eligibility. The proposed policy addresses the triple counting of nonrecurring income.

4195. DEFINITION OF "LARGEST BENEFIT AMOUNT" FOR SIMULTANEOUS ENTITLEMENT TO CHILD'S BENEFITS (481P)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 402; 42 USC 403; 42 USC 403(a); 42 USC 403(b); 42 USC 404(a); 42 USC 404(e); 42 USC 405(a); 42 USC 405(c); 42 USC 416; 42 USC 422(b); 42 USC 423; 42 USC 424a; 42 USC 428(a) to 428(e); 42 USC 902(a)(5)

CFR Citation: 20 CFR 404.304; 20 CFR 404.353b; 20 CFR 404.407d

Legal Deadline: None

Abstract: Section 202(k)(2)(A) of the Act (42 U.S.C. 402(k)(2)(A)) contains the statutory requirements for determining the earnings record on which SSA will pay a person, who is simultaneously entitled to child's insurance benefits on the earnings records of more than one worker. Generally, the child's benefits will be paid on the earnings record that yields the highest primary insurance amount (PIA). However, under certain circumstances, the child's benefits will be paid on the earnings record that yields a lower PIA if that record produces the "largest benefit" to which the child could be entitled under section 202(d) without the application of the reduction under the "family maximum" provisions. In implementing section 202(k)(2)(A), SSA has determined the "largest benefit" under section 202(k)(2)(A) by comparing the original benefit amount (i.e., 50 percent of the PIA of a living worker and 75 percent of the PIA of a deceased worker) calculated on the dependent and/or survivor claim of the child on the earnings record of each worker without applying any reductions or deductions. The United States District Court for the Northern District of Alabama in Agee v. Sullivan rejected this interpretation and held that SSA must compare the amounts payable to the child under each earnings record after considering all applicable deductions and reductions other than the reduction under the family maximum provisions. Legal support for both interpretations can be found in the statutory language and legislative history of section 202(k)(2)(A). We have found current regulations implementing section 202(k)(2)(A) to be ambiguous. We propose to amend these regulations to reflect the longstanding SSA interpretation, rather than the interpretation adopted by the district court in the Agee decision.

Section 201 of Public Law 103-296.

Abstract: The Social Security Independence and Program Improvements Act of 1994 (Public Law 103-296) contains provisions affecting the payment of benefits under titles II and XVI of the Social Security Act to individuals whose drug addiction or alcoholism is a contributing factor material to the determination of disability. These final rules implement certain provisions related to limitations on benefit payments and the nonpayment and termination of benefits to these individuals.

Abstract: We propose to revise our rules on reduction of Social Security benefits based on disability on account of receipt of workers' compensation and/or public disability benefits and payments provided under Federal (other than Social Security), State, or local laws or plans to clarify our existing policies. We also propose to adopt a uniform method for proration of workers' compensation and public disability benefit/payment settlements. In addition, we propose to incorporate into our rules certain policy interpretations established previously in relevant Social Security Rulings (SSRs). Finally, we propose to update provisions that have not been changed since 1984.

Legal Deadline: None

Abstract: Section 321(g) of Pub. L. 103-296 designates 1994 as the base year to be used in calculating increases in the OASDI contribution and benefit base and earnings test exempt amounts for all years after 1994. (Increases in these amounts will no longer be based on the rounded amounts applicable in the previous year, which can distort the base and exempt amounts over time.) The provision is effective for the contribution and benefit base beginning in 1995 and for earnings test exempt amounts for taxable years ending after 1994.

4209. DEEMING OF INCOME FROM AN INELIGIBLE SPOUSE TO AN ELIGIBLE INDIVIDUAL AND AN ELIGIBLE CHILD (606P)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 902(a)(5); 42 USC 1381a; 42 USC 1382; 42 USC 1382a; 42 USC 1382c(f); 42 USC 1383; 42 USC 1382b; 42 USC 1382j

CFR Citation: 20 CFR 416.1160 (c)(3)(iii); 20 CFR 416.1165 (g)(1); 20 CFR 416.1166

Legal Deadline: None

Abstract: This rule would revise the method used under the SSI program to determine income for a child who lives with both parents where one parent is ineligible for SSI because of income deemed from an ineligible spouse. Instead of deeming any excess income from the ineligible spouse to the child, referred to as "pass-through deeming," we would deem income to the child using the method we use where neither parent files for SSI. Under current rules, "pass-through" deeming has had the unintended effect of deeming more income than would have been deemed if the regular rules for deeming from ineligible parents who do not file for SSI are used.

Legal Deadline: Final, Statutory, November 22, 1996.

Abstract: These regulations reflect amendments to the Social Security Act made by sections 213 and 221 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. Section 213 requires the establishment of accounts in financial institutions for the payment of past-due SSI benefits after reimbursement to a State for Interim Assistance Reimbursement exceeding 6 months' benefits to representative payees on behalf of children under age 18. These accounts will be dedicated for certain purposes by restrictions on the use of such past-due benefits.

Section 221 requires past-due SSI benefits after reimbursement to a State for Interim Assistance Reimbursement which equals or exceeds 12 months' benefits to be paid in installments, with certain exceptions.

CFR Citation: 20 CFR 431

Legal Deadline: None

Abstract: Prior to March 31, 1995, SSA was an operating component of HHS and the general regulatory authority for SSA programs and administration was vested in the Secretary of Health and Human Services (the Secretary) based on section 1102 of the Social Security Act (the Act) (42 U.S.C. 1302). The SSIPIA established SSA as an independent agency in the Executive Branch of the Federal Government effective March 31, 1995, and vested general regulatory authority in the Commissioner of Social Security (the Commissioner). Under section 106(b) of SSIPIA, HHS regulations in effect immediately prior to March 31, 1995, which relate to functions now vested in the Commissioner by reason of SSA's independence, continue to apply to SSA until such time as they are modified, suspended, terminated or repealed by the Commissioner. SSA is promulgating regulations at 20 CFR part 431 which are based in large measure upon the HHS regulations at 45 CFR parts 80, 81, 84, 85, 90, and 91. These SSA regulations reflect changes necessary to adapt the HHS regulations to SSA procedures.

Upon SSA's rules becoming final regulations, the HHS regulations will cease to have application to SSA in accordance with section 106(b) of SSIPIA.

Legal Deadline: None

Abstract: SSA regulations providing Social Security coverage for the services of employees of State and local governments and interstate instrumentalities, were published in the Federal Register on August 29, 1988 (53 FR 32972). Those regulations included sections which contained information collection and recordkeeping requirements which were not effective until they were approved by OMB. This document notifies the public that the information collection and recordkeeping requirements were approved by OMB and provides the OMB control number. This document also adds an OMB approval number to section 404.1215.

4214. DETERMINING DISABILITY AND BLINDNESS; PROVIDING FOR USE OF A SINGLE DECISIONMAKER TO MAKE DETERMINATIONS OF DISABILITY UNDER TITLES II AND XVI OF THE SOCIAL SECURITY ACT (668P)

Priority: Other Significant. Major under 5 USC 801.

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 421; 42 USC 405(a); 42 USC 405(b); 42 USC 902(a); 42 USC 1382c; 42 USC 1383b

CFR Citation: 20 CFR 404.1546; 20 CFR 404.1615; 20 CFR 416.946; 20 CFR 416.1015

Legal Deadline: None

Abstract: We propose to amend our rules to provide for a single decisionmaker who will make determinations of disability under title II and title XVI of the act after consultation with a medical or psychological consultant, as appropriate. The decisionmaker would have the authority to request, review, and evaluate evidence and make the disability determination without having the medical consultant sign the disability determination forms.

4215. REFLECT A REQUIREMENT OF THE SOCIAL SECURITY ACT THAT THE COMMISSIONER DISREGARD EVIDENCE IN CERTAIN SITUATIONS INVOLVING FRAUD OR SIMILAR FAULT UNDER TITLES II OR XVI OF THE ACT (671P)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 405; 42 USC 1383

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: This regulation would reflect amendments to the Social Security Act by P.L. 103-296 concerning program fraud. Those amendments specify that SSA, when redetermining the entitlement, or making an initial determination of entitlement of an individual, will disregard evidence if there is reason to believe that fraud or similar fault was involved in the providing of such evidence. The regulation will include definitions of key terms to be used by SSA or the State disability determination services in making a fraud or similar fault finding.

4217. ADDING NEW SSI INCOME AND RESOURCE EXCLUSION (VA PAYMENTS TO CERTAIN VIETNAM VETERANS' CHILDREN WITH SPINA BIFIDA) TO LISTS OF EXCLUSIONS PROVIDED BY OTHER FEDERAL STATUTES (664F)

Priority: Substantive, Nonsignificant

Legal Authority: 38 USC 1805(d)

CFR Citation: 20 CFR 416.1182, app; 20 CFR 416.1236

Legal Deadline: None

Abstract: P.L. 104-204 provides that a Department of Veterans Affairs monthly allowance paid to children of Vietnam veterans for disabilities resulting from spina bifida will not be considered income or resources in determining eligibility for or the amount of benefits under any Federal or federally assisted program. These regulations update the lists of exclusions from income and resources under the SSI program that are in statutes other than the Social Security Act.

4218. STANDARDS OF CONDUCT 20 CFR PART 430—PERSONNEL (672F)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 902(a)(5); 42 USC 1302

CFR Citation: 20 CFR 430.201; 20 CFR 430.202; 45 CFR 73

Legal Deadline: None

Abstract: These final rules establish policy for standards of conduct for SSA employees. They adopt, with certain minor changes, the same policy prescribed in 45 CFR part 73, sections 73.735-301, 73.735-302, 73.735-305, 73.735-306, 73.735-802, 73.735-805, 73.735-1201 and 73.735-1301 through 73.735-1304 that was applicable to SSA when it was a component of HHS and that has remained applicable to SSA since March 31, 1995 by virtue of section 106(b) of the SSIPIA that continues certain HHS regulations in effect for SSA until such time as they are set aside. These are the provisions that were not superseded by the Office of Government Ethics Standards of Ethical Conduct for employees of the Executive Branch.

4220. • OLD-AGE, SURVIVORS & DISABILITY INSURANCE; CALCULATING BENEFITS FOR AUXILIARIES OR SURVIVORS WHEN THERE IS A DUALLY-ENTITLED BENEFICIARY (692P)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 402; 42 USC 403; 42 USC 404(a); 42 USC 404(e); 42 USC 405(a); 42 USC 405(c); 42 USC 422(b); 42 USC 423(e); 42 USC 424a; 42 USC 425; 42 USC 902(a)(5)

CFR Citation: 20 CFR 404.402; 20 CFR 404.403

Legal Deadline: None

Abstract: We propose to revise our regulation to reflect the adoption by the Social Security Administration of the holding in Parisi by Cooney v. Chater as national policy. This policy has been an Acquiescence Ruling which applied in the First Circuit. The policy is that, when determining the benefits for auxiliaries or survivors after reduction for the family maximum, dually entitled beneficiaries will be considered only to the extent that such persons actually receive a benefit. In Parisi, a child's benefits had been lowered due to the entitlement of another auxiliary on that Social Security number (SSN), even though the other auxiliary did not receive benefits on that same SSN but rather received benefits on another SSN.

4231. • FEDERAL OLD-AGE, SURVIVORS AND DISABILITY INSURANCE; DETERMINING DISABILITY AND BLINDNESS; EXTENSION OF EXPIRATION DATES FOR SEVERAL BODY SYSTEM LISTINGS (702F)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 402; 42 USC 405(a); 42 USC 405(b); 42 USC 405(d) to 405(h); 42 USC 416(i); 42 USC 421(a); 42 USC 421(i); 42 USC 422(c); 42 USC 423; 42 USC 425

CFR Citation: 20 CFR 404.1500, app 1

Legal Deadline: None

Abstract: The Social Security Administration adjudicates claims at the third step of its sequential process for evaluating disability using the Listing of Impairments (the listings) under the Social Security and supplemental security income programs. This rule extends the dates on which several body system listings will no longer be effective. We have made no revisions to the medical criteria i n these listings; they remain the same as they now appear in the Code of Federal Regulations. These extensions will ensure that we continue to have medical evaluation criteria in the listings t o adjudicate claims for disability based on impairments in these body systems at step three of our sequential evaluation process.

Tennessee Valley Authority

Semiannual Regulatory Agenda

TENNESSEE VALLEY AUTHORITY (TVA)

TENNESSEE VALLEY AUTHORITY

18 CFR Ch. XIII

Regulatory Agenda

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Semiannual regulatory agenda.

SUMMARY: As a nonregulatory agency, TVA originates few regulations. TVA will submit a proposed regulation which would revise the requirements applicable to the construction and maintenance of obstructions in the Tennessee River system and codify policies related to management of shoreline land under the jurisdiction of TVA. TVA is therefore publishing a regulatory agenda in voluntary compliance with Executive Order 12866.

FOR FURTHER INFORMATION CONTACT: For further information, please contact the persons listed.

Edward S. Christenbury,

General Counsel.

TENNESSEE VALLEY AUTHORITY (TVA) — Long-Term Actions

4234. APPROVAL OF CONSTRUCTION AND REGULATION OF STRUCTURES IN THE TENNESSEE RIVER SYSTEM AND SHORELINE MANAGEMENT

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 831 to 831dd

CFR Citation: 18 CFR 1304 (Revision)

Legal Deadline: None

Abstract: This action would revise the requirements applicable to construction and maintenance of obstructions in the Tennessee River System to better describe the types of facilities that would be considered for approval. It also would codify policies related to management of certain shoreline lands under the jurisdiction, custody, and control of TVA.

United States Information Agency

Semiannual Regulatory Agenda

UNITED STATES INFORMATION AGENCY (USIA)

UNITED STATES INFORMATION AGENCY

22 CFR Ch. V

Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: United States Information Agency.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the United States Information Agency (USIA) plans for the next 12 months. USIA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of USIA's regulatory plans and to provide a systematic means of monitoring regulatory activity in USIA. None of the regulations listed in the agenda are considered major under Executive Order 12866 "Regulatory Planning and Review."

FOR FURTHER INFORMATION CONTACT: Stanley S. Colvin, Assistant General Counsel, Office of General Counsel, (202) 619-6531.

Stanley S. Colvin,

Assistant General Counsel.

UNITED STATES INFORMATION AGENCY (USIA) — Long-Term Actions

4235. PRIVACY ACT POLICIES AND PROCEDURES

Priority: Info./Admin./Other

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 5 USC 552

CFR Citation: 22 CFR 505

Legal Deadline: None

Abstract: This document updates and replaces the Agency's prior regulation implementing the Privacy Act of 1974, as amended. The update and replacement were made necessary by changes during USIA's reorganization and realignment of functions and responsibilities when the Agency changed names and again when the Agency began to reinvent itself in response to Government downsizing.

The Agency's regulation had not been updated since 1975 and changes in nomenclature and differences in processing Privacy Act requests necessitated these changes. The changes primarily update the definitions, the processes for receiving and handling requests, and to whom to send requests for Privacy Act records. It also better explains the exemptions that the U.S. Information Agency is allowed to use and routine uses.

Federal Acquisition Regulation; Semiannual Regulatory Agenda

DEPARTMENT OF DEFENSE/GENERAL SERVICES ADMINISTRATION NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (FAR)

DEPARTMENT OF DEFENSE

GENERAL SERVICES ADMINISTRATION

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Ch. 1

Semiannual Regulatory Agenda

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council in compliance with Executive Order 12866 "Regulatory Planning and Review." This agenda is being published to allow interested persons an opportunity to participate in the rulemaking process. The Federal Acquisition Regulation (FAR) Secretariat has attempted to list all regulations pending at the time of publication, except for minor and routine or repetitive actions; however, unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Ms. Laurie Duarte, FAR Secretariat, Room 4035, GS Building, Washington, DC 20405, (202) 501-4755.

SUPPLEMENTARY INFORMATION: DoD, GSA, and NASA, under their several statutory authorities, jointly issue and maintain the FAR through periodic issuance of Federal Acquisition Circulars (FACs).

Dated: August 26, 1998.

Jeremy F. Olson,

Acting Director, Federal Acquisition Policy Division.

Priority: Substantive, Nonsignificant

Legal Authority: PL 101-121, Sec 319

CFR Citation: 48 CFR 3; 48 CFR 52

Legal Deadline: None

Abstract: This rule amends the Federal Acquisition Regulation (FAR) to implement section 319 of PL 101-121, which added a new section 1352 to title 31 USC entitled "Limitation on Use of Appropriated Funds to Influence Certain Federal Contracting and Financial Transactions." Section 319 generally prohibits recipients of Federal contracts, grants, and loans from using appropriated funds for lobbying the executive or legislative branches of the Federal Government in connection with a specific contract, grant, or loan. Section 319 also requires that each person who requests or receives a Federal contract, grant, or cooperative agreement, in excess of $100,000, or a loan or Federal commitment to insure or guarantee a loan, in excess of $150,000, must disclose lobbying with other than appropriated funds.

4245. FAR CASE 94-753, TRAVEL COSTS

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: PL 103-355

CFR Citation: 48 CFR 31.205-46

Legal Deadline: Final, Statutory, October 1, 1995.
The Federal Acquisition Streamlining Act eliminated the statutory requirement to the travel cost principle concerning the Federal Travel Regulations. No regulatory implementation was required.

Abstract: This rule is issued pursuant to the Federal Acquisition Streamlining Act of 1994, Public Law 103-355 (the Act). The Federal Acquisition Regulatory Council is considering amending the Federal Acquisition Regulation (FAR) as a result of changes to 41 USC 22 by section 2191 of the Act. This regulatory action was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993. However, the proposed rule would

permit contractors to propose alternative rates to those prescribed in the FTR/JTR.

Legal Deadline: NPRM, Statutory, September 7, 1996.

Abstract: The Federal Acquisition Regulatory Council solicited comments regarding the implementation of section 4203 of the Federal Acquisition Reform Act (Pub. L. 104-106)(the Act) with respect to Commercially Available Off-the-Shelf Item Acquisitions. The Act requires the FAR to list provisions of law that are inapplicable to contracts for the acquisition of commercially available off-the-shelf items. Certain laws have already been determined to be inapplicable to all commercial items as a result of the implementation of the Federal Acquisition Streamlining Act of 1994 (see FAR 12.503).

4249. FAR CASE 96-011, NO-COST VALUE ENGINEERING CHANGE PROPOSALS

Priority: Substantive, Nonsignificant

Legal Authority: 40 USC 486(c); 10 USC 2301 to 2331; 42 USC 2473(c)

CFR Citation: 48 CFR 48.104-3

Legal Deadline: None

Abstract: This rule amends the Federal Acquisition Regulation (FAR) to clarify that the no-cost VECP guidance at FAR 48.104-3 permits the use of no-cost settlements when the Contracting Officer has balanced the administrative costs of negotiating a settlement against the anticipated savings and when, in the Contracting Officer's judgment, reliance on other VECP approaches likely would not be more cost effective and the no-cost settlement would provide adequate consideration to the Government. The no-cost VECP alternatives were not intended for use when significant cost savings are anticipated on the instant contract. This regulatory action was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993, and is not a major rule under 5 U.S.C. 804.

4250. FAR CASE 97-603, EMPOWERMENT CONTRACTING

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 40 USC 486(c); 10 USC 2301 to 2331; 42 USC 2473(c)

CFR Citation: 48 CFR 12.301; 48 CFR 14.206; 48 CFR 15.605; 48 CFR 26.3; 48 CFR 36.602; 48 CFR 52.226

Legal Deadline: None

Abstract: The Federal Acquisition Regulatory Council is proposing amendments to the Federal Acquisition Regulation (FAR) to establish phase one of an Empowerment Contracting Program that provides procurement incentives to both large and small businesses to encourage their activity in areas of general and severe economic distress. This action is being taken to implement Presidential Executive Order 13005 of May 21, 1996, entitled "Empowerment Contracting." On September 13, 1996, the Department of Commerce (DOC) published in the Federal Register proposed guidelines for implementing Executive Order 13005 in the FAR. The proposed amendments to the FAR that are being published here are largely based on those guidelines. This regulatory action was subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993. This is a major rule under 5 U.S.C. 804.

4251. FAR CASES 97-004A AND 97-004B, REFORM OF AFFIRMATIVE ACTION IN FEDERAL PROCUREMENT

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: PL 103-355, sec 7102

CFR Citation: 48 CFR 5.207; 48 CFR 6.203; 48 CFR 12.303; 48 CFR 14.206; 48 CFR 15.605; 48 CFR 15.608; 48 CFR 15.1002; 48 CFR 19; 48 CFR 52.219; 48 CFR 53; 48 CFR 1.106; 48 CFR 15.3; 48 CFR 52.212; 48 CFR 53.219; 48 CFR 53.302-312

Legal Deadline: None

Abstract: These interim rules have been issued to conform to a Department of Justice (DOJ) proposal to reform affirmative action in Federal procurement. DOJ's proposal is designed to ensure compliance with the constitutional standards established by the Supreme Court in Adarand Constructors, Inc. v. Pena. 115 S.Ct. 2097 (1995). The FAR proposed rule would establish three procurement mechanisms benefiting small disadvantaged businesses (SDBs): (a) The first mechanism is a price evaluation adjustment of up to ten percent in certain two-digit Standard Industrial Classification (SIC) Major Groups authorized by the Administrator of the Office of Federal Procurement Policy (OFPP), this mechanism is effective October 1, 1998; (b) The second mechanism is a source selection evaluation factor or subfactor for planned SDB participation, primarily at the subcontract level, in the performance of a contract in the SIC Major Groups; (c) The third mechanism provides for a monetary incentive for subcontracting with SDBs. The last two mechanisms become effective January 1, 1999. This regulatory action was subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993. This is a major rule under 5 U.S.C. 804.

4256. FEDERAL ACQUISITION REGULATION; PROGRESS PAYMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 10 USC ch 137

CFR Citation: 48 CFR 32; 48 CFR 52

Legal Deadline: None

Abstract: The Director of Defense Procurement, Department of Defense, has established a special interagency team with participants from the OUSD (Comptroller), the Military Departments, the DLA, the DCAA, the DFAS, the DOE, and the NASA, that will review and rewrite FAR part 32 and part 52 provisions regarding Progress Payments to make them easier to understand and to minimize the burdens imposed on contractors and contracting officers. The Director of Defense Procurement will provide a forum for an exchange of ideas and information with government and industry personnel by holding at least one public meeting, soliciting public comments, and publishing notices of public meetings in the Federal Register. Discussion will focus on draft revisions of FAR part 32, subpart 32.5, Progress Payments Based on Costs, and associated contract clauses and forms.

Commodity Futures Trading Commission

Semiannual Regulatory Agenda

COMMODITY FUTURES TRADING COMMISSION (CFTC)

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules which the Commission expects to propose or promulgate over the next year. For this edition of the Commission's agenda, the most important and significant regulatory actions are included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II. The Commission welcomes comments from small entities and others.

ADDRESSES: Comments should be sent to Gerald P. Smith, Special Assistant to the Executive Director, Commodity Futures Trading Commission, 1155 21st Street NW., Washington, DC 20581, (202) 418-5160.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* (RFA), sets forth a number of requirements for agency rulemaking. Among other things, 602 of the RFA requires that:

(a) During the months of October and April of each year, each agency shall publish in the **Federal Register** a regulatory flexibility agenda that shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) A summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) The name and telephone number of an agency official knowledgeable about the items listed in paragraph (1). 5 U.S.C. 602(a).

The Commission has prepared an agenda of significant rules that it presently expects may be considered during the course of the next year. The listing of a rule in this regulatory flexibility agenda is not a determination that a rule will require a regulatory flexibility analysis. By publishing all significant rules, regardless of their potential impact on small entities, the Commission hopes to provide the public with an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations. In addition to publishing the regulatory flexibility agenda, the Commission makes information on regulatory matters available through its monthly calendar, weekly advisory, and website (www.cftc.gov). Pursuant to 602 of the Regulatory Flexibility Act, nothing "precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda or requires an agency to consider or act on any matter listed in such agenda."

The Commission's October 1998 regulatory flexibility agenda is set forth below.

issued in Washington, DC, on September 3, 1998, by the Commission.

Jean A. Webb,

Secretary to the Commission.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
4278	Procedures for Involuntary Bulk Transfers or Liquidations of Customer Accounts	3038-AA77

Priority: Info./Admin./Other

Legal Authority: 7 USC 7a(j); 7 USC 12a

CFR Citation: 17 CFR 140.99

Legal Deadline: None

Abstract: The Commission has proposed a rule to establish procedures for requesting issuance by Commission staff of exemptive, no-action and interpretative letters. The proposed rule would require all such requests to be in writing, setting forth all material facts, relevant authorities and public policy bases for the relief or guidance requested. Requestors would certify to accuracy of the facts and undertake to update following material changes. No requests based on hypothetical circumstances or made on behalf of unnamed persons would be granted. Commission staff would have discretion to grant or deny requests without explanation.

Part L

Consumer Product Safety Commission

Semiannual Regulatory Agenda

CONSUMER PRODUCT SAFETY COMMISSION (CPSC)

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Ch. II

Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas

AGENCY: Consumer Product Safety Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: In this document, the Commission publishes its semiannual regulatory flexibility agenda. In addition, this document includes an agenda of regulatory actions the Commission expects to be under development or review by the agency during the next year. This document meets the requirements of the Regulatory Flexibility Act and Executive Order 12866.

DATES: The Commission welcomes comments on each subject area of the agenda, particularly from small entities. Written comments concerning the agenda should be received in the Office of the Secretary by December 31, 1998.

ADDRESSES: Comments on the regulatory flexibility agenda should be mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207, telephone (301) 504-0800, or delivered to the Office of the Secretary, Room 502, 4330 East-West Highway, Bethesda, Maryland 20814. Comments may also be sent to the Office of the Secretary by facsimile at (301) 504-0127 or by e-mail at cpsc-os@cpsc.gov. Comments should be captioned "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact Stephen Lemberg, Office of the General Counsel, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504-0980, ext. 2218. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (RFA) (5 U.S.C. 601-612) contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the RFA (5 U.S.C. 602) requires each agency to publish, twice each year, a regulatory flexibility agenda containing a brief description of the subject area of any rule expected to be proposed or promulgated that is likely to have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the nature of the rule and a schedule for acting on each rule for which the agency has issued a notice of proposed rulemaking.

The regulatory flexibility agenda is also required to contain the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small entities and to solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

Additionally, Executive Order 12866 requires each agency to publish, twice each year, a regulatory agenda of regulations under development or review during the next year and states that such an agenda may be combined with the agenda published in accordance with the RFA. The regulatory flexibility agenda published below lists the regulatory activities expected to be under development or review during the next 12 months. It includes all such activities, whether or not they may have a significant economic impact on a substantial number of small entities.

The agenda contains a brief description and summary of each regulatory activity, including the objectives and legal basis for each; an approximate schedule of target dates, subject to revision, for the development or completion of each activity; and the name and telephone number of a knowledgeable agency official concerning particular items on the agenda. All agency contacts have the same address: Consumer Product Safety Commission, Washington, DC 20207.

For this edition of the Commission's regulatory agenda, the most important significant regulatory actions are included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

Dated: August 20, 1998.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

CONSUMER PRODUCT SAFETY COMMISSION (CPSC) — Prerule Stage

4290. PETITION HP 93-1 REQUESTING DEVELOPMENT OF A RULE TO BAN CERTAIN BACKYARD PLAYSETS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 1261 Federal Hazardous Substances Act

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: A petition from the New York City Department of Consumer Affairs requests the Commission to develop a rule to ban certain backyard playsets. The petition asserts that backyard playsets present unreasonable risks of injury to children if they do not meet the requirements of a voluntary standard for home playground equipment published by ASTM (formerly the American Society for Testing and Materials); are not accompanied with adequate information about ground surfacing; or lack specific features described in the petition. On May 21, 1996, the Commission denied those parts of the petition requesting issuance of a rule to ban any backyard playset that does not conform to all requirements of the ASTM voluntary standard; that has an accessible height that exceeds six feet above protective surfacing; that does not have adequate fall zones under climbing structures; or that does not provide adequate space between any item of swinging equipment and any other item of swinging or stationary equipment. The Commission deferred a decision on those parts of the petition requesting a rule to ban backyard playsets that are not accompanied with instructions to use and maintain specified ground surfacing; that do not have handrails on all platforms that are 30 inches or higher above protective surfacing; that have swing seats made of wood, metal, plastic, or other hard material capable of inflicting serious injury to the head; that have free-swinging ropes; and that are unanchored playsets with swings. 4291. AMENDMENT OF THE STANDARD FOR THE FLAMMABILITY OF CLOTHING TEXTILES

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 1191 Flammable Fabrics Act

CFR Citation: 16 CFR 1610

Legal Deadline: None

Abstract: The Standard for the Flammability of Clothing Textiles prohibits the manufacture, importation, or sale of clothing, and fabrics and related materials intended for use in clothing, which are dangerously flammable because of rapid and intense burning. The standard prescribes the apparatus, procedure, and criteria to be used for testing to determine compliance with that standard. The standard was made mandatory by the Flammable Fabrics Act of 1953 (Pub. L. 83-88, 67 Stat. 111; June 30, 1953). Some of the equipment and procedures specified by the standard, particularly those for laundering and cleaning of test specimens, have become obsolete, unavailable, or unrepresentative of current practices. The staff is preparing a briefing package describing modifications of the standard that may be needed to assure that the test in the standard is conducted with equipment and procedures representative of conditions to which garments currently are exposed. After consideration of the briefing package, the Commission will decide whether to begin a proceeding for amendment of the standard.

4292. PETITION CP 97-1 REQUESTING DEVELOPMENT OF A SAFETY STANDARD FOR ESCALATORS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2051 Consumer Product Safety Act

CFR Citation: None

Legal Deadline: None

Abstract: A petition from Scott and Diana Anderson requests development of a safety standard for escalators. The petition asserts that escalators are associated with unreasonable risks of serious injuries resulting from entrapment of feet, toes, and other body parts in openings between the moving stairs and the sides of the escalators. On May 22, 1997, the Commission published a notice in the Federal Register to solicit comments on the petition from all interested persons. The staff is preparing a briefing package for consideration by the Commission.

4293. • CHILD RESISTANT PACKAGING OF CONSUMER PRODUCTS CONTAINING METHACRYLIC ACID

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 1471 Poison Prevention Packaging Act

CFR Citation: 16 CFR 1700.14

Legal Deadline: None

Abstract: Under section 2(b) of the Poison Prevention Packaging Act, the Commission can require a special packaging standard for cosmetics for home use. Methacrylic acid is a chemical used as a primer for cleaning and etching fingernails prior to applying artificial nails. Methacrylic acid is associated with severe corrosive injury on contact with skin, eyes, and mucous membranes. The staff is reviewing the medical literature and available injury records to determine if serious injury or illness to children less than 5-years-old results from household use of this product. The staff will transmit a briefing package for the Commission's consideration in November 1998.

CONSUMER PRODUCT SAFETY COMMISSION (CPSC)

Proposed Rule Stage

4294. FLAMMABILITY STANDARD FOR UPHOLSTERED FURNITURE

Regulatory Plan: This entry is Seq. No. 166 in Part II of this issue of the **Federal Register**.

RIN: 3041–AB35

4295. REQUIREMENTS FOR CHILD-RESISTANT PACKAGING OF HOUSEHOLD PRODUCTS CONTAINING PETROLEUM DISTILLATES

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 1471 Poison Prevention Packaging Act

CFR Citation: 16 CFR 1700.14(a)

Legal Deadline: None

Abstract: Some household products containing ten percent or more by weight of petroleum distillates are subject to requirements for child-resistant packaging by regulations issued under the Poison Prevention Packaging Act and codified at 16 CFR 1700.14(a). These products include liquid furniture polish (section 1700.14(a)(2)), lighter fluid (section 1700.14(a)(7)), and prepackaged solvents for paint (section 1700.14(a)(15)). However, many other household products containing petroleum distillates are not required to be in child-resistant packaging. On February 26, 1997, the Commission published an advance notice of proposed rulemaking (ANPRM) to initiate a proceeding which may result in mandatory requirements for child-resistant packaging of other household products containing petroleum distillates or other hydrocarbons. On April 28, 1997, the Commission extended the period for receipt of written comments on the ANPRM until July 11, 1997. In the Federal Register of July 21, 1997, the Commission reopened the comment period through September 1, 1997. The Commission will consider comments received in response to the ANPRM before deciding whether to propose requirements for child-resistant packaging of additional household products containing petroleum distillates or other hydrocarbons.

RIN: 3041–AB66

4297. AMENDMENT OF LAUNDERING PROCEDURES IN FLAMMABILITY STANDARDS FOR CHILDREN'S SLEEPWEAR, CARPETS AND RUGS, AND MATTRESS PADS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 1191 Flammable Fabrics Act

CFR Citation: 16 CFR 1615; 16 CFR 1616; 16 CFR 1630; 16 CFR 1631; 16 CFR 1632

Legal Deadline: None

Abstract: Flammability standards for children's sleepwear, carpets and rugs, and mattress pads contain procedures for washing and drying specimens before testing to assure that flame retardants used in these products will not be removed by repeated laundering or cleaning. The laundering procedures in all of these standards currently require use of a detergent and washing methods that are no longer representative of those used for home laundering. The staff is preparing a briefing package concerning the laundering procedures in these standards and modifications that may be needed to assure that the effect of laundering on the flammability of the products covered by these standards is assessed with equipment and methods currently used by consumers. After consideration of the briefing package, the Commission will decide whether to begin proceedings for amendment of the standards to revise their laundering procedures.

CONSUMER PRODUCT SAFETY COMMISSION (CPSC) — Final Rule Stage

4298. REQUIREMENTS FOR CHILD-RESISTANT PACKAGING OF MINOXIDIL

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 1471 Poison Prevention Packaging Act

CFR Citation: 16 CFR 1700.14

Legal Deadline: None

Abstract: Regulations implementing the Poison Prevention Packaging Act (PPPA) require all prescription drugs in oral dosage form that are intended for human use to be in child-resistant packaging. Topical minoxidil is a liquid medication that can be applied to the scalp to stimulate regrowth of hair. However, if ingested, minoxidil is a potent vasodilator capable of producing serious cardiovascular effects. In 1996, the Food and Drug Administration acted to permit the sale of topical minoxidil as an over-the-counter drug, thereby expanding its potential availability to consumers. On March 17, 1998, the Commission published a notice of proposed rulemaking (NPRM) to require child-resistant packaging for minoxidil preparations containing more than 14 mg of minoxidil in a single package. The Commission will consider the comments in response to the NPRM before deciding whether to issue a final rule.

4299. PETITION TO EXEMPT SUCRAID TM FROM SPECIAL PACKAGING REQUIREMENTS UNDER THE POISON PREVENTION PACKAGING ACT

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 15 USC 1471 Poison Prevention Packaging Act

CFR Citation: 16 CFR 1700.14

Legal Deadline: None

Abstract: Orphan Medical petitioned the Commission to exempt Sucraid TM, an oral solution of the enzyme sacrosidase, from special packaging requirements for oral prescription drugs under the Poison Prevention Packaging Act. Sucraid TM is an orphan drug that is the only available treatment for congenital sucrase-isomaltase deficiency. The Commission issued a notice of proposed rulemaking (NPRM) to exempt Sucraid TM on June 12, 1998. The staff will prepare a briefing package for consideration by the Commission after the comment period closes.

4300. AMENDMENTS TO CLARIFY PORTIONS OF THE STANDARDS FOR THE FLAMMABILITY OF CHILDREN'S SLEEPWEAR

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 15 USC 1191 Flammable Fabrics Act

CFR Citation: 16 CFR 1615; 16 CFR 1616

Legal Deadline: None

Abstract: The Standards for the Flammability of Children's Sleepwear were amended September 9, 1996, to allow the marketing of certain sleepwear garments that do not meet the flammability test requirements. These garments, termed "tight-" or "snug-fitting" must not exceed maximum dimensions specified for each garment size. Several technical amendments are needed to clarify provisions of the standards, especially how the specified dimensions are to be measured on these garments. A Notice of Proposed Rulemaking (NPRM) was published on May 21, 1998. In November the staff will provide the Commission with the review of comments on the NPRM and with a recommendation as to whether the Commission should proceed to publish a final rule.

CONSUMER PRODUCT SAFETY COMMISSION (CPSC) — Long-Term Actions

4301. BABY WALKERS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 1261 Federal Hazardous Substances Act; 15 USC 1262 Federal Hazardous Substances Act

CFR Citation: 16 CFR 1500

Legal Deadline: None

Abstract: On August 2, 1994, the Commission published an advance notice of proposed rulemaking (ANPRM) to begin a proceeding that may result in the issuance of mandatory design or performance requirements for baby walkers. A baby walker is a device that supports a child so that the child can use his or her feet to move about before or while learning to walk. Typically, a baby walker consists of a fabric seat that has leg openings and is mounted to a rigid plastic deck. The deck is attached to a base that is mounted on wheels to allow mobility. In 1994, an estimated 25,500 children younger than 15 months of age were treated in hospital emergency rooms for injuries associated with baby walkers. Among the options under consideration by the Commission are mandatory performance or design requirements to reduce risks of injury associated with baby walkers, particularly those resulting to children from falls down stairs. The majority of these injuries resulted from falls down stairs. In response to the Commission's work in this area, the industry approved revisions to the voluntary standard for baby walkers in 1996 to address the hazard of falling down stairs. The staff is developing information concerning the extent of industry conformance with that voluntary standard, designated "Standard Consumer Safety Specification for Infant Walkers," SF 977-96, published by ASTM (formerly the American Society for Testing and Materials). The ASTM standard contains performance requirements to address risks of injury to children from falls down stairs associated with baby walkers. The staff will send that information to the Commission together with options for Commission action, including withdrawal of the ANPRM or further regulatory proceedings.

4302. AMENDMENT OF SAFETY REGULATIONS FOR CRIBS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 5 USC 553 Administrative Procedure Act; 15 USC 1261 Federal Hazardous Substances Act

CFR Citation: 16 CFR 1508; 16 CFR 1509

Legal Deadline: None

Abstract: On December 16, 1996, the Commission published an advance notice of proposed rulemaking (ANPRM) to begin a proceeding that may result in amendment of the safety regulations for full-size and non-full-size cribs, 16 CFR parts 1508 and 1509. Among the regulatory alternatives under consideration is amendment of the regulations to add tests to assure that slats will not disengage from the side panels of cribs. The Commission began this proceeding after considering information about incidents in which crib slats disengaged from the side panels of cribs, creating a risk that children may become entrapped between the remaining slats or fall out of the crib. The Commission will consider written comments received in response to the ANPRM and assess progress toward amending the voluntary standard before deciding whether to continue the proceeding by publication of a notice of proposed rulemaking (NPRM) or terminate further proceedings in reliance on the voluntary standard.

4303. REQUIREMENTS FOR BUNK BEDS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 2051 Consumer Product Safety Act; 15 USC 1261 Federal Hazardous Substances Act

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: On January 22, 1998, the Commission published an advance notice of proposed rulemaking (ANPRM) to begin a proceeding for development of a standard to address risks of injury and death that may be associated with bunk beds constructed so that children can become entrapped in the beds' structure or become wedged between the bed and a wall. This ANPRM was issued after the staff briefed the Commission on the incident data, the adequacy of an existing ASTM voluntary standard, whether there is substantial compliance with that voluntary standard, and other matters. The Commission's staff will review comments received in response to the ANPRM, prepare additional information, and report to the Commission with its recommendation on whether to proceed with the rulemaking by publishing a notice of proposed rulemaking (NPRM).

Farm Credit Administration

Semiannual Regulatory Agenda

FARM CREDIT ADMINISTRATION (FCA)

FARM CREDIT ADMINISTRATION

12 CFR Ch. VI

Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: Farm Credit Administration.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Farm Credit Administration (FCA), as an independent regulatory agency in compliance with Executive Order 12866, sets forth the following agenda of regulations which it will have under development and review during the period of October 1998 through April 1999.

FOR FURTHER INFORMATION CONTACT: Cindy R. Nicholson, Paralegal Specialist, Regulation and Policy Division, Office of Policy and Analysis, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102-5090, (703) 883-4498, TDD (703) 883-4444.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small entities. FCA regulations, which apply to Farm Credit banks and associations and certain other federally chartered entities, generally do not and will not have a substantial impact on "small entities" as that term is defined in the Regulatory Flexibility Act.

The FCA, as an independent regulatory agency, is exempt from certain provisions of Executive Order 12866. It participates in this joint publication to further the public interest by including the FCA in a single source of information concerning current and projected rulemaking and reviews of existing regulations, pursuant to section 4 of the Executive Order 12866.

Dated: August 28, 1998.

Floyd Fithian,

Secretary, Farm Credit Administration Board.

Proposed Rule Stage

4305. FEDERAL AGRICULTURAL MORTGAGE CORPORATION RISK-BASED CAPITAL REGULATION

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 12 USC 2279bb-1; 12 USC 2279aa-11(a)(1)(B)(ii)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: This regulation will establish a risk-based capital requirement for the Federal Agricultural Mortgage Corporation (also known as Farmer Mac). The law says this regulatory requirement will be the amount of capital needed to survive a 10-year period of unfavorable conditions. The conditions include both (a) high loan defaults and losses and (b) very large changes in interest rates. The law includes some additional details on the level of unfavorable conditions to be included in the test.

Farm Credit System Insurance Corporation

Semiannual Regulatory Agenda

FARM CREDIT SYSTEM INSURANCE CORPORATION (FCSIC)

FARM CREDIT SYSTEM INSURANCE CORPORATION

12 CFR Ch. XIV

Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: Farm Credit System Insurance Corporation.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Farm Credit System Insurance Corporation (Corporation), in compliance with Executive Order 12866, sets forth the following agenda of regulations which it will have under development and review during the period of October 1998 through April 1999.

FOR FURTHER INFORMATION CONTACT: Cindy R. Nicholson, Paralegal Specialist, Farm Credit System Insurance Corporation, 1501 Farm Credit Drive, McLean, Virginia 22102, (703) 883-4498, TDD (703) 883-4444.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small entities. Corporation regulations, which apply to Farm Credit banks and associations, generally do not and will not have a substantial impact on "small entities" as that term is defined in the Regulatory Flexibility Act.

The Corporation, as an independent regulatory agency, is exempt from certain provisions of Executive Order 12866. It participates in this joint publication to further the public interest by including the Corporation in a single source of information concerning current and projected rulemaking and reviews of existing regulations, pursuant to section 4 of the Executive Order 12866.

Dated: August 28, 1998.

Floyd Fithian,

Secretary, Farm Credit System Insurance Corporation Board.

Federal Communications Commission

Semiannual Regulatory Agenda

FEDERAL COMMUNICATIONS COMMISSION (FCC)

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulatory and Deregulatory Actions; October 1998

AGENCY: Federal Communications Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: Twice a year, the Commission publishes a list in the Unified Agenda of those major items and other significant proceedings under development or review that pertain to the Regulatory Flexibility Act. See 5 U.S.C. 602. The Agenda also provides the CFR citations and legal authorities which govern these proceedings. The Agenda will be published in the **Federal Register** in April and October of each year.

ADDRESSES: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Belford Lawson, Attorney-Adviser, Office of Communications Business Opportunities, FCC, Room 644E, 1919 M Street NW., Washington, DC 20554, (202) 418-7264.

SUPPLEMENTARY INFORMATION:

Unified Agenda of Major and Other Significant Proceedings

The Commission encourages public participation in the FCC rulemaking process. To help keep the public informed of significant rulemaking proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB will publish the Unified Agenda in the **Federal Register** in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

Docket Number—assigned to a proceeding if the Commission has issued either a Notice of Proposed Rulemaking or a Notice of Inquiry concerning the matter under consideration. The Commission has used docket numbers since January 1, 1978. Docket numbers consist of the last two digits of the calendar year in which the docket was established, plus a sequential number, which begins at 1 with the first docket initiated during a calendar year (e.g., Docket No. 80-1 or Docket No. 83-1). The abbreviation for the responsible Bureau usually precedes the docket number, as in "MM Docket No. 79-164," which indicates that the responsible Bureau is the Mass Media Bureau. A docket number consisting of only five digits (e.g., Docket No. 29622) indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI)—issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rulemaking (NPRM)—issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations. Before any changes are actually made, interested parties may submit written comments on the proposals.

Further Notice of Proposed Rulemaking (FNPRM)

Memorandum Opinion and Order (MO&O)—issued by the Commission to deny a petition for rulemaking, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Rulemaking (RM) Number—assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rulemaking but before the Commission has taken action on the petition.

Report and Order (R&O)—issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed.

Magalie Roman Salas,
Secretary,
Federal Communications Commission.

4365. • 1998 BIENNIAL REGULATORY REVIEW/REVIEW OF ACCOUNTING AND COST ALLOCATION REQUIREMENTS

Priority: Other Significant

Legal Authority: 47 USC 151; 47 USC 154; 47 USC 220; 47 USC 152; 47 USC 161

CFR Citation: 47 CFR 32.11; 47 CFR 64.903; 47 CFR 904; 47 CFR 32.2114; 47 CFR 32.2115; 47 CFR 32.2116; 47 CFR 32.6114; 47 CFR 32.6115; 47 CFR 32.6116; 47 CFR 32.5280; 47 CFR 32.16; 47 CFR 32.2000(b)

Legal Deadline: Final, Statutory, December 31, 1998.

Abstract: This NPRM proposes to modify the FCC's cost allocation and accounting rules as part of the biennial review process. Specifically, it proposes (1) to raise the threshold significantly for Class A accountings, thus allowing mid-sized carriers currently required to use Class A accounts to use the more streamlined Class B accounts; (2) to establish less burdensome cost allocation (CAM) procedures for the mid-sized incumbent local exchange carriers (LECs) and to reduce the frequency with which independent audits of the cost allocations are required; and (3) to make several changes to the uniform system of accounts to reduce accounting requirements and to eliminate or consolidate accounts.

4366. • BIENNIAL REVIEW OF ARMIS REPORTING REQUIREMENTS

Priority: Other Significant. Major under 5 USC 801.

Legal Authority: 47 USC 219; 47 USC 220; 47 USC 151; 47 USC 154; 47 USC 161; 47 USC 201; 47 USC 202; 47 USC 203; 47 USC 204; 47 USC 205; 47 USC 215; 47 USC 218; 47 USC 403

CFR Citation: 47 CFR 43.21

Legal Deadline: Final, Statutory, December 31, 1998.

Abstract: The FCC proposes as part of its biennial regulatory review to reduce reporting requirement for incumbent local exchange carriers with annual operating revenues in excess of the annual indexed revenue threshold, currently $109 million. These modifications are designed to minimize the reporting burden on carriers, improve the quality and use of the reported financial and operating data, and reduce the costs of collection, verification, and distribution of the data. Eliminating the existing requirement to file paper reports and distribute ARMIS data by electronic means are two additional goals of this proposal.

4368. • ACCESS CHARGE REFORM FOR RATE-OF-RETURN LOCAL EXCHANGE CARRIERS

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 5 USC 553; 47 USC 151; 47 USC 154; 47 USC 201; 47 USC 202; 47 USC 203; 47 USC 204; 47 USC 205; 47 USC 254(b)(3); 47 USC 254(g); 47 USC 403

CFR Citation: 47 CFR 61.1; 47 CFR 69.2; 47 CFR 69.4; 47 CFR 69.110; 47 CFR 69.110; 47 CFR 69.112; 47 CFR 69.120; 47 CFR 69.125; 47 CFR 69.153(c); 47 CFR 69307(c)

Legal Deadline: None

Abstract: In order to make the access charge rules compatible with a competitive marketplace as envisioned by the Telecommunications Act of 1996, the FCC on May 26, 1998, initiated a rulemaking to revise interstate access charge rules applicable to incumbent local exchange carriers subject to rate-of-return regulation. The NPRM seeks comment on proposals to allow presubscribed interexchange carrier charges on special access lines and to adjust the allocation of General Support Facilities costs recovered through interstate access charges to ensure that regulated access rates do not recover costs related to nonregulated services. The NPRM proposes that rate-of-return local exchange carriers recover marketing costs allocated to the interstate jurisdiction from end users on a per-line basis. In addition, to establish a new switched access rate element to accommodate a new service offering, the streamlined petition provisions of section 69.4(g) are proposed.

4369. • DEPLOYMENT OF WIRELINE SERVICES OFFERING ADVANCED TELECOMMUNICATIONS CAPABILITY

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 47 USC 151; 47 USC 152; 47 USC 153; 47 USC 154; 47 USC 201; 47 USC 202; 47 USC 271; 47 USC 272; 47 USC 303(r); 47 USC 160

CFR Citation: None

Legal Deadline: None

Abstract: In a Memorandum Opinion and Order, we clarified that sections 251 and 252 apply to advanced telecommunications facilities and services offered by an incumbent local exchange carrier (LEC) and that the facilities and equipment used by incumbent LECs to provide advanced services are network elements and subject to Section 251(c). We denied requests to forbear from application of Sections 251(c) and/or 271, and we denied requests for large-scale changes in LATA boundaries. We have taken these steps to meet one of the fundamental goals of the Telecommunication Act of 1996 to promote innovation and investment by all participants in the telecommunications marketplace. In the NPRM, the FCC sought comment on whether we should modify our rules to promote the deployment of advanced telecommunications capabilities in a competitive manner.

4370. • ELIMINATION OF PART 41: TELEGRAPH AND TELEPHONE FRANKS

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will eliminate existing text in the CFR.

Legal Authority: 47 USC 11; 47 USC 201; 47 USC 210; 47 USC 218

CFR Citation: 47 CFR 41

Legal Deadline: None

Abstract: In an NPRM, the FCC has proposed to eliminate part 41 of the FCC's rules. Part 41 governs the issuance of franks for interstate and foreign telegraph and telephone service by communications common carriers. The Commission tentatively concluded that competition among service providers renders part 41's restrictions unnecessary to protect competitors or consumers. The NPRM is part of the FCC's 1998 Biennial Review of its regulations.

4371. • INQUIRY CONCERNING THE DEPLOYMENT OF ADVANCED TELECOMMUNICATIONS CAPABILITY TO ALL AMERICANS/PURSUANT TO SECTION 706 OF THE 1996 TELECOM ACT

Priority: Other Significant

Legal Authority: PL 104-104, sec 706

CFR Citation: None

Legal Deadline: Other, Statutory, August 8, 1998.
Section 706 directs the FCC to begin this inquiry within 30 months of the enactment of the 1996 Act. The FCC is directed to complete the inquiry within 180 days of its initiation.

Abstract: The FCC has issued a Notice of Inquiry to begin the inquiry called for by section 706 of the Telecommunications Act of 1996. Section 706(b) directs the FCC to conduct an inquiry to determine whether advanced telecommunications capability is being deployed to all Americans in a reasonable and timely fashion.

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 47 USC 11; 47 USC 201; 47 USC 218; 47 USC 225; 47 USC 251; 47 USC 254

CFR Citation: 47 CFR 1.47; 47 CFR 52.16; 47 CFR 52.17; 47 CFR 52.32; 47 CFR 54.705; 47 CFR 54.709; 47 CFR 54.711; 47 CFR 54.713

Legal Deadline: None

Abstract: The FCC may issue an NPRM proposing to simplify the filing requirements associated with the Telecommunications Relay Services Fund, Federal universal service support mechanisms, the cost recovery mechanism for the North American Numbering Plan administration, and the cost mechanism for long-term local number portability administration. This NPRM is part of the FCC's 1998 Biennial Review of its regulations.

4377. • AMENDMENT OF PART 2, SUBPART K OF THE FCC'S RULES REGARDING THE IMPORTATION OF RADIO FREQUENCY DEVICES CAPABLE OF CAUSING HARMFUL INTERFERENCE

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 154(i); 47 USC 154(j); 47 USC 157(a); 47 USC 302; 47 USC 303(b); 47 USC 303(f); 47 USC 303(g); 47 USC 303(r)

CFR Citation: 47 CFR 2

Legal Deadline: None

Abstract: The FCC adopted an Order and Notice of Proposed Rule Making which changes from the Compliance and Information Bureau to the Office of Engineering and Technology the responsibility for reviewing and deciding upon waiver requests regarding imported uncertified devices. Importers will now seek a waiver of the limit on uncertified devices that can be brought into the U.S. for demos, sales, and sales conventions. The Order and NPRM seek comments on proposals that would (1) eliminate the requirement that parties importing radio frequency devices file a copy of the form 740 with the FCC, and (2) eliminate a loophole in one of the FCC's "import conditions rules" that allow the importation and sale in the U.S. of uncertified equipment if the buyer promises not to use it in the United States.

4393. • DEDICATED SHORT RANGE COMMUNICATIONS OF INTELLIGENT TRANSPORTATION SERVICES

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 154(i); 47 USC 157; 47 USC 303

CFR Citation: 47 CFR 2; 47 CFR 90

Legal Deadline: None

Abstract: The FCC proposes to allocate 75 megahertz of spectrum for use by Dedicated Short Range Communications of Intelligent Transportation Systems (ITS). DSRC systems are being designed that require a short range, wireless link to transfer information between vehicles and roadside systems. ITS services are expected to improve traveler safety, decrease traffic congestion, and facilitate reduction of air pollution and conservation of fossil fuels. This action furthers the goal of the U.S. Congress, the Department of Transportation, and the ITS industry to improve the efficiency of the nation's transportation infrastructure and facilitate the growth of the ITS industry. See ET Docket 98-95.

Legal Authority: 47 USC 154; 47 USC 301; 47 USC 302; 47 USC 303; 47 USC 304; 47 USC 307

CFR Citation: 47 CFR 18

Legal Deadline: None

Abstract: The FCC proposes to update the regulations for RF lighting devices. This action is taken in response to new developments in RF lighting technology. Recent developments and advances in RF lighting technology offer potential economic and environmental benefits for consumers and industry. The current FCC rules do not easily accommodate these advancements, and thus hinder the further development and implementation of these promising new products. See ET Docket No. 98-42

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 47 USC 154; 47 USC 301; 47 USC 302; 47 USC 303; 47 USC 304; 47 USC 307

CFR Citation: 47 CFR 154; 47 CFR 25; 47 CFR 682

Legal Deadline: None

Abstract: The Commission proposes to amend the rules to provide the option of private sector approval of equipment that currently requires an approval by the Commission. It also proposes rule changes to implement a mutual recognition agreement (MRA) for product approvals with the European Community (EC) and to allow for similar agreements with other foreign trade parties. These actions are intended to eliminate the need for manufacturers to wait for approval from the FCC before marketing equipment in the United States, thereby reducing the time needed to bring a product to market.

4425. • ASSESSMENT AND COLLECTION OF REGULATORY FEES FOR FY 1999

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 47 USC 159

CFR Citation: 47 CFR 1.1151 et seq

Legal Deadline: None

Abstract: Section 9 of the Communications Act of 1934, as amended, 47 U.S.C 159, requires the FCC to recover the costs of its activities by assessing and collecting annual regulatory fees from beneficiaries of these activities. The Commission will issue a Notice of Inquiry to address key unresolved issues. It will issue a Notice of Proposed Rulemaking to address how the fee plans will implement the fee requirements for FY 1999. Finally, the FCC will issue a Report and Order implementing the FY 1999 Regulatory Fee Schedule. When released, the NOI and NPRM will provide the public with the opportunity to file comments in response to unresolved issues and proposed fee implementation for FY 1999.

Proposed Rule Stage

4426. • AMENDMENT TO PART 27 OF THE FCC'S RULES TO REVISE RULES FOR SERVICES IN THE 2.3GHZ BAND AND TO INCLUDE LICENSING OF SERVICES IN THE 47 GHZ BAND

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 151; 47 USC 154; 47 USC 157; 47 USC 160; 47 USC 201; 47 USC 202; 47 USC 208; 47 USC 214; 47 USC 301; 47 USC 303; 47 USC 309; 47 USC 310; 47 USC 368

CFR Citation: 47 CFR 27

Legal Deadline: None

Abstract: This Notice of Proposed Rulemaking proposes service, licensing, and competitive bidding rules for the 47.2-48.2 GHz band. The FCC proposes to amend the part 27 Rules to include rules for the 47.2-48.2 band and to codify and conform certain rules for the 2.3 GHz band to provide for consistent regulation of part 27 services.

Federal Deposit Insurance Corporation

Semiannual Regulatory Agenda

FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC)

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Ch. III

Semiannual Agenda of Regulations

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Federal Deposit Insurance Corporation (FDIC) is hereby publishing items for the October 1998 regulatory agenda. The agenda contains information about FDIC's current and projected rulemakings, existing regulations under review, and completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Persons identified under regulations listed in the agenda. Unless otherwise noted, the address for all FDIC staff identified in the agenda is Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION: Twice each year, the FDIC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with both the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) and the FDIC statement of policy entitled "Development and Review of FDIC Rules and Regulations." This policy was revised recently (63 FR 25157, May 7, 1998) to focus it more sharply on the FDIC's approach to regulatory reform.

The FDIC amends its regulations under the general rulemaking authority prescribed in section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819) and under specific authority granted by the Act and other statutes.

The Riegle Community Development and Regulatory Improvement Act of 1994 (CDRI) contains reforms that significantly restructure the regulation of financial institutions. As a consequence, many of the regulations included in this agenda are in response to CDRI. The FDIC is continuing to develop regulations implementing the most recent legislative requirements. These include the requirement in section 303 of CDRI that the Federal banking regulators conduct a review of all their regulations and written policies to streamline them, remove inconsistencies, improve efficiency, reduce unnecessary costs, and make uniform all regulations and guidelines implementing common statutory or supervisory policies. Changes to the FDIC's regulations as a result of CDRI will be noted in this and future semiannual agendas as they emerge from these reviews.

The Federal banking regulators are the FDIC, the Office of the Comptroller of the Currency (OCC), the Board of Governors of the Federal Reserve System (FRS), and the Office of Thrift Supervision (OTS). In some cases, the FDIC also coordinates with the National Credit Union Administration (NCUA).

Interested persons may petition the FDIC for the issuance, amendment, or repeal of any regulation by submitting a written petition to the Executive Secretary, Federal Deposit Insurance Corporation, Washington, DC 20429. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Executive Secretary.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number

FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC) — Proposed Rule Stage

4444. RESTRICTIONS ON SALE OF ASSETS BY THE FDIC

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1819; PL 103-204

CFR Citation: 12 CFR 340

Legal Deadline: None

Abstract: This regulatory action implements provisions in the Resolution Trust Corporation Completion Act of 1993 that require assets held by the FDIC in the course of liquidating federally insured depository institutions not to be sold to persons who, in ways specified in the Act, contributed to the demise of the institution.

4445. PROGRAM FRAUD CIVIL REMEDIES

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1819; PL 103-204

CFR Citation: 12 CFR 308

Legal Deadline: None

Abstract: The Program Fraud Civil Remedies Act (PFCRA) requires specified Federal agencies to follow certain procedures to recover penalties and assessments against persons who file false claims and statements. The Resolution Trust Corporation Completion Act of 1993 subjects the FDIC to the requirements of the PFCRA. An interagency task force was established by the President's Council on Integrity and Efficiency to develop model regulations for implementing the PFCRA. This regulatory action adopts, with minor variations, the model regulations set forth by the Council's task force.

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 93a; 12 USC 3201 to 3208

CFR Citation: 12 CFR 348

Legal Deadline: None

Abstract: This rulemaking is sponsored jointly by the OCC, the FRS, the OTS and the FDIC. It conforms the management interlocks rules to recent statutory changes, modernizes and clarifies the rules, and reduces unnecessary regulatory burdens where feasible, consistent with statutory requirements.

4449. • "KNOW YOUR CUSTOMER" REQUIREMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1813; 12 USC 1815; 12 USC 1817; 12 USC 1818; 12 USC 1819 (Tenth); 12 USC 1881 to 1883; 31 USC 5318; 42 USC 4012a; 42 USC 4104b; 42 USC 4106

CFR Citation: 12 CFR 326

Legal Deadline: None

Abstract: This rulemaking proposes to issue regulations requiring insured nonmember banks to develop and maintain "Know Your Customer" programs. As proposed, the regulations would require each institution to develop a program designed to determine the identity of its customers, determine its customers' source of funds; determine the normal and expected transactions of its customers; monitor account activity for transactions that are inconsistent with those normal and expected transactions; and report any transactions of its customers that are determined to be suspicious, in accordance with the FDIC's existing suspicious activity reporting regulations.

4450. • ACTIVITIES OF INSURED STATE BANKS AND INSURED SAVINGS ASSOCIATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 375a(4); 12 USC 375b; 12 USC 1816; 12 USC 1818(a); 12 USC 1818(b); 12 USC 1819; 12 USC 1820(d)(10); 12 USC 1821(f); 12 USC 1818; 12 USC 1819 (Tenth); 12 USC 1828(m); 12 USC 1831a; 12 USC 1831e

CFR Citation: 12 CFR 362; 12 CFR 337

Legal Deadline: None

Abstract: This rulemaking proposes to add safety and soundness standards to govern insured State nonmember banks that engage in the public sale, distribution or underwriting of stocks, bonds, debentures, notes or other securities through a subsidiary if those activities are permissible for a national bank subsidiary but are not permissible for the national bank itself. In addition, the rulemaking proposes to require that insured State nonmember banks file a notice before commencing any activities permissible for the parent national bank itself. The rulemaking also proposes to remove and reserve the provisions addressing "Securities Activites of Subsidiaries of Insured State Banks: Bank Transactions with Affiliated Securities Companies."

FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC)

Final Rule Stage

4451. CAPITAL MAINTENANCE—RECOURSE ARRANGEMENTS AND DIRECT CREDIT SUBSTITUTES

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1815; 12 USC 1816; 12 USC 1818; 12 USC 1819; 12 USC 1828; 12 USC 1831; 12 USC 3907; 12 USC 3909

CFR Citation: 12 CFR 325

Legal Deadline: None

Abstract: The FDIC, the FRS, the OCC, and the OTS (Agencies) are revising their risk-based capital standards to address the regulatory capital treatment of recourse arrangements and direct credit substitutes that expose banks, bank holding companies, and thrifts to credit risk. One portion of the NPRM addressing the risk-based capital treatment of low-level recourse transactions is required to be published as a separate final rule by CDRI.

In addition, the Agencies published, in an ANPRM, a preliminary proposal to use credit ratings to match the risk-based capital assessment more closely to an institution's relative risk of loss in certain asset securitizations. The Agencies are also seeking comment on the need for a similar system for unrated asset securitizations and on how such a system would be designed. The Agencies intend that any final rules adopted in connection with these regulatory actions that result in increased risk-based capital requirements would apply only to transactions that are consummated after the effective dates of such final rules.

A second NPRM combining the issues raised in the ANPRM on credit ratings, and the NPRM on recourse and direct credit substitutes was published in November 1997 (62 FR 59944).

4452. CAPITAL MAINTENANCE—COLLATERALIZED TRANSACTIONS

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1815; 12 USC 1816; 12 USC 1818; 12 USC 1819; 12 USC 1828; 12 USC 1831; 12 USC 3907; 12 USC 3909; 12 USC 4808; PL 102-233; PL 102-242

CFR Citation: 12 CFR 325

Legal Deadline: None

Abstract: This rule was developed in consultation with the OCC, the FRS, and the OTS (Agencies). It amends FDIC's risk-based capital standards to make the standards uniform with the Agencies' treatments for transactions supported by collateral. The effect of the proposal is to allow banks to hold less capital for certain transactions collateralized by cash or qualifying securities.

This action is the result of a CDRI section 303(a) review.

4453. QUALIFICATION REQUIREMENTS FOR THE RECOMMENDATION OR SALE OF CERTAIN SECURITIES

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1818; 12 USC 1831

CFR Citation: 12 CFR 342

Legal Deadline: None

Abstract: This rulemaking is sponsored jointly by the OCC, the FRS, and the FDIC. It establishes qualifications for those banks that sell certain securities directly to retail customers through their employees without having to register as a broker under the Securities Exchange Act. More particularly, this action establishes filing requirements for banks, and registration, testing, and continuing education requirements for bank securities representatives consistent with the professional qualification requirements for broker-dealers and registered representatives under the Securities Exchange Act and rules thereunder, and the rules of the securities self-regulatory organizations.

4454. NOTIFICATION OF CHANGES OF INSURED STATUS

Priority: Info./Admin./Other

Legal Authority: 12 USC 1818; 12 USC 1819

CFR Citation: 12 CFR 307

Legal Deadline: None

Abstract: This rulemaking clarifies reporting and disclosure requirements already applicable to insured depository institutions. It implements the results of a CDRI section 303(a) review.

Timetable:

4455. FORMAL MINORITY- AND WOMEN-OWNED BUSINESS AND LAW FIRM CERTIFICATION PROGRAM

Priority: Info./Admin./Other

Legal Authority: 12 USC 1819; 12 USC 1822

CFR Citation: 12 CFR 361

Legal Deadline: None

Abstract: This rulemaking replaces the self-certification program for minority- and women-owned businesses wishing to do business with the FDIC, with a more formal program for certification. The rulemaking is the result of a CDRI section 303(a) review.

4456. CAPITAL MAINTENANCE—ELIMINATION OF INTERAGENCY DIFFERENCES

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1815; 12 USC 1816; 12 USC 1818; 12 USC 1819; 12 USC 1828; 12 USC 1831; 12 USC 1835; 12 USC 3907; 12 USC 3909; 12 USC 4808; PL 102-242

CFR Citation: 12 CFR 325

Legal Deadline: None

Abstract: This rulemaking, jointly sponsored by the FDIC, the FRS, the OCC, and the OTS, resolves differences among the agencies with regard to the capital treatment of construction loans on presold residential properties, real estate loans secured by junior liens on 1-4 family residential properties, investments in mutual funds, and the minimum Tier 1 leverage capital standard. This rule is the result of a CDRI section 303(a) review.

4457. ADVERTISEMENT OF MEMBERSHIP

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1818; 12 USC 1819; 12 USC 1828

CFR Citation: 12 CFR 328

Legal Deadline: None

Abstract: This regulatory action consolidates provisions relating to display of official signs; extends the official advertising statement that is currently required for insured banks to all insured depository institutions; streamlines exceptions to the use of the statement; prohibits use of the statement in advertisements concerning nondeposit investment products; and delegates authority to approve translations of the statement to certain FDIC officials. In addition, this action solicits comment on issues relating to advertisement of membership in the FDIC over a computer network such as the Internet. This action is the result of a CDRI section 303(a) review.

4458. INSURED STATE NONMEMBER BANKS WHICH ARE MUNICIPAL SECURITIES DEALERS

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 4803(a)

CFR Citation: 12 CFR 343

Legal Deadline: None

Abstract: This rulemaking proposes to rescind the regulation that requires insured state nonmember banks which are municipal securities dealers to file with the FDIC certain information about those persons who are or seek to be associated with these dealers as municipal securities principals or municipal securities representatives. This action is the result of a CDRI section 303(a) review.

4459. ACTIVITIES OF INSURED STATE BANKS AND INSURED SAVINGS ASSOCIATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 378; 12 USC 1813; 12 USC 1815; 12 USC 1816; 12 USC 1817(j); 12 USC 1818; 12 USC 1819 (Seventh and Tenth); 12 USC 1828; 12 USC 1831e; 12 USC 1831o; 12 USC 1831p-1; 15 USC 1607

CFR Citation: 12 CFR 362; 12 CFR 337; 12 CFR 303

Legal Deadline: None

Abstract: This rulemaking withdraws a proposed rule published August 23, 1996, in the Federal Register at 61 FR 43486 (RIN 3064-AB75) to amend the FDIC's regulations governing the activities and investments of insured State banks, and replaces it with a more comprehensive rule.

The more comprehensive rulemaking combines the FDIC's regulations governing the activities and investments of insured State banks (presently found in 12 CFR part 362) with those governing insured savings associations (presently found at 12 CFR 303.12) into a revised part 362. In addition, the rule moves the FDIC's regulations governing safety and soundness of securities activities of subsidiaries and affiliates of insured State nonmember banks (currently at 12 CFR 337.4) into part 362. The intention is to modernize this group of regulations and harmonize the provisions of part 362 governing activities that are not permissible for national banks with those governing the securities activities of State nonmember banks.

4460. • FOREIGN ACTIVITIES OF INSURED STATE NONMEMBER BANKS

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1813; 12 USC 1815; 12 USC 1817; 12 USC 1819; 12 USC 1820; 12 USC 1828; 12 USC 3103; 12 USC 3104; 12 USC 3105; 12 USC 3108; PL 98-181

CFR Citation: 12 CFR 347

Legal Deadline: None

Abstract: This rulemaking is sponsored jointly by the OCC, the FRS, and the FDIC. It implements the provisions related to an extended examination cycle for U.S. branches and agencies of foreign banks set out in section 2214 of the Economic Growth and Regulatory Paperwork Reduction Act of 1996 (EGRPRA).

4461. • RISK-BASED CAPITAL STANDARDS: CLAIMS ON SECURITIES FIRMS

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1815(a); 12 USC 1815(b); 12 USC 1816; 12 USC 1818(a); 12 USC 1818(b); 12 USC 1818(c); 12 USC 1818(t); 12 USC 1819 (Tenth); 12 USC 1828(c); 12 USC 1828(d); 12 USC 1828(i); 12 USC 1828(n); 12 USC 1828(o); 12 USC 1831o; 12 USC 1835

CFR Citation: 12 CFR 325

Legal Deadline: None

Abstract: This rulemaking is sponsored jointly by the OCC, the FRS, the FDIC and OTS. This interim rule would revise the FDIC's risk-based capital standards set forth in the Basle Accord. This revision would permit claims on certain securities firms to receive the same preferential risk-weighting that is applied to claims on banks.

FEDERAL ENERGY REGULATORY COMMISSION (FERC)

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Ch. I

Semiannual Regulatory Agenda

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Semiannual regulatory agenda.

SUMMARY: In accordance with guidance issued by the Office of Management and Budget (OMB), the Federal Energy Regulatory Commission voluntarily submits information about rulemakings under development. Of the 12 rulemakings listed, 6 are current or projected rulemakings, and 6 are completed actions.

DATES: The dates provided represent goals, not commitments, and may be revised due to shifts in workload, changes in priorities, or extensive public comments. See the various dates listed for each specific rulemaking.

ADDRESSES: Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

FOR FURTHER INFORMATION CONTACT: Person listed for each specific rulemaking.

Linwood A. Watson, Jr.,
Acting Secretary.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
4470	Regulation of Short-Term Natural Gas Transportation Services	1902-AB74
4471	Complaint Procedures	1902-AB75
4472	Regulation of Interstate Natural Gas Transportation Services	1902-AB76

Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
4473	Administrative Determination of Full Avoided Costs, Sales of Power to Qualifying Facilities and Interconnection Facilities	1902-AB00

4474. REVISION OF FUEL COST-ADJUSTMENT CLAUSE REGULATION RELATING TO FUEL PURCHASES FROM COMPANY-OWNED OR CONTROLLED SOURCE

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 16 USC 791a to 825r; 16 USC 2601 to 2645; 31 USC 9701; 42 USC 7101 to 7352

CFR Citation: 18 CFR 35

Legal Deadline: None

Abstract: The Commission proposes to amend its regulations to state that where a regulatory body has jurisdiction over the price of fuel from a company-owned or company-controlled source, and exercises that jurisdiction to approve such price, the Commission will presume, subject to rebuttal, that the cost of fuel so purchased is reasonable and includable in the fuel adjustment clause. Federal Housing Finance Board

Semiannual Regulatory Agenda

FEDERAL HOUSING FINANCE BOARD (FHFB)

FEDERAL HOUSING FINANCE BOARD

12 CFR Ch. IX

Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: Federal Housing Finance Board.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Federal Housing Finance Board (Finance Board) hereby publishes items for the Unified Agenda of Federal Regulatory and Deregulatory Actions, as required by section 4 of Executive Order 12866. These items reflect the status of the regulatory agenda of the Finance Board as of October 1, 1998. The Finance Board is an independent agency in the executive branch of the Government that is charged by statute with supervising and regulating the Nation's Federal Home Loan Bank (FHLBank) System and the Financing Corporation (FICO). The FHLBank System consists of: Twelve regional FHLBanks that are each owned by their member financial institutions and that provide wholesale credit to members and certain nonmembers to be used for mortgage lending and related activities and the Office of Finance (OF), which issues FHLBank System consolidated obligations. FICO is a corporate entity separate from the FHLBank System that oversees outstanding debt issued to assist in resolving the savings and loan crisis of the 1980s. The Finance Board has an ongoing need to adopt various regulations dealing with the Agency's internal administration and with FHLBank System and FICO issues.

For this edition of the Finance Board's regulatory agenda, the most important significant regulatory actions are included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

ADDRESSES: Executive Secretariat, Federal Housing Finance Board, 1777 F Street NW., Washington, DC 20006, (202) 408-2837.

FOR FURTHER INFORMATION CONTACT: Eric M. Raudenbush, Attorney-Advisor, Office of General Counsel, Federal Housing Finance Board, 1777 F Street NW., Washington, DC 20006, (202) 408-2932.

By the Federal Housing Finance Board.

Elaine L. Baker,

Executive Secretary.

FEDERAL HOUSING FINANCE BOARD (FHFB) — Proposed Rule Stage

4482. FHLBANK FINANCIAL MANAGEMENT

Regulatory Plan: This entry is Seq. No. 168 in Part II of this issue of the **Federal Register**.

RIN: 3069–AA50

4483. DEVOLUTION OF GOVERNANCE AUTHORITIES TO THE FHLBANKS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 12 USC 1422b; 12 USC 1432(a)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Finance Board intends to publish one or more proposed rules to amend its regulations to devolve corporate governance authority with respect to certain matters from the Finance Board to the FHLBanks and to set forth guidelines regarding the exercise of these authorities.

Federal Maritime Commission

Semiannual Regulatory Agenda

FEDERAL MARITIME COMMISSION (FMC)

FEDERAL MARITIME COMMISSION

46 CFR Ch. IV

Regulatory Plan and Unified Agenda

AGENCY: Federal Maritime Commission.

ACTION: Regulatory plan and semiannual regulatory agenda.

SUMMARY: Pursuant to section 4(b) of E.O. 12866 and the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Commission anticipates having under consideration, during the period from October 1, 1998, to September 30, 1999, actions in the areas listed below.

FOR FURTHER INFORMATION CONTACT: For further information concerning Commission rulemaking proceedings or the status of any matter listed below, contact: Joseph C. Polking, Secretary, 800 North Capitol Street NW., Washington, DC 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: Section 602 of the Regulatory Flexibility Act (5 U.S.C. 602) requires the publication of an agenda of items for which regulatory agencies may propose or promulgate a rule which is likely to have a significant economic impact on a substantial number of small entities. Section 4(b) of Executive Order 12866 also requires agencies to publish a regulatory agenda. The agendas include information on regulatory activities being conducted or reviewed during the succeeding 12 months by the Commission.

The following is the Commission's unified regulatory agenda. The agenda does not necessarily include all petitions for rulemakings which are under staff review.

In addition, the Commission maintains a compilation of the status of pending rulemaking proceedings and a listing of rules that have become final since the publication of the most recent regulatory agenda. This will be made available to the public, including the press and interested persons.

The Commission currently has no actions under consideration that constitute "significant regulatory actions" under the definition in Executive Order 12866. This edition of the Unified Agenda of Federal Regulatory and Deregulatory Actions includes The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Federal Maritime Commission's Statement of Regulatory Priorities is included in part II.

Joseph C. Polking,

Secretary.

Prerule Stage

4499. • INQUIRY INTO AUTOMATED TARIFF FILING SYSTEMS AS PROPOSED BY THE PENDING OCEAN SHIPPING REFORM ACT OF 1998 (DOCKET NO. 98-10)

Priority: Other Significant

Legal Authority: 46 USC app 1701 et seq

CFR Citation: 46 CFR 514

Legal Deadline: None

Abstract: The purposes of the Inquiry are to determine an approach that will produce private automated tariff publication systems that best comport with the directives of S.414, the Ocean Shipping Reform Act of 1998, and its legislative history and to determine whether ocean common carriers should be required to file service contracts electronically. Comments are solicited on the possible requirements for such tariff filing systems and on the electronic filing of service contracts and publication of essential terms.

FEDERAL MARITIME COMMISSION (FMC)

Completed Actions

4503. • UPDATE OF EXISTING AND ADDITION OF NEW FILING AND SERVICE FEES (DOCKET NO. 98-09)

Priority: Info./Admin./Other

Legal Authority: 5 USC 553; 31 USC 9701; 46 USC app 1716

CFR Citation: 46 CFR 502; 46 CFR 503; 46 CFR 510; 46 CFR 514; 46 CFR 540; 46 CFR 572; 46 CFR 585; 46 CFR 587; 46 CFR 588

Legal Deadline: None

Abstract: The FMC proposes to revise its existing fees for: Filing petitions, complaints, special docket applications, freight forwarder applications, vessel performance and casualty certification applications, and agreements; various public information services; and various ATFI-related services. The proposal will update existing fees to reflect current costs to the Commission. In addition, the FMC proposes to add three new fees for the publication of the Regulated Persons Index on diskette; the application to amend a passenger vessel operator's Certification of Financial Responsibility for Indemnification of Passengers; and the Agency's review of corrections of clerical errors in service contracts.

Federal Reserve System

Semiannual Regulatory Agenda

FEDERAL RESERVE SYSTEM (FRS)

FEDERAL RESERVE SYSTEM

12 CFR Ch. II

Semiannual Regulatory Flexibility Agenda

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Board is issuing this agenda under the Regulatory Flexibility Act and the Board's Statement of Policy Regarding Expanded Rulemaking Procedures. The Board anticipates having under consideration regulatory matters as indicated below during the period October 1, 1998, through April 1, 1999. The next agenda will be published in April 1999.

DATES: Comments about the form or content of the agenda may be submitted any time during the next 6 months.

ADDRESSES: Comments should be addressed to Jennifer J. Johnson, Secretary of the Board, Board of Governors of the Federal Reserve System, Washington, DC 20551.

FOR FURTHER INFORMATION CONTACT: A staff contact for each item is indicated with the regulatory description below.

SUPPLEMENTARY INFORMATION: The Board is publishing its October 1998 agenda as part of the October 1998 Unified Agenda of Federal Regulatory and Deregulatory Actions, which is coordinated by the Office of Management and Budget under Executive Order 12866. The agenda also identifies rules the Board has selected for review under section 610(c) of the Regulatory Flexibility Act, and public comment is invited on those entries. Participation by the Board in the Unified Agenda is on a voluntary basis.

The Board's agenda is divided into three sections. The first, Proposed Rule Stage, reports on matters the Board may consider for public comment during the next 6 months. The second section, Final Rule Stage, reports on matters that have been proposed and are under Board consideration. A third section, Completed Actions, reports on regulatory matters the Board has completed or is not expected to consider further. Matters begun and completed between issues of the agenda have not been included.

A dot (•) preceding an entry indicates a new matter that was not a part of the Board's previous agenda and which the Board has not completed.

Barbara R. Lowrey,

Associate Secretary of the Board.

Proposed Rule Stage

FEDERAL RESERVE SYSTEM (FRS) — Proposed Rule Stage

4505. • REGULATION: B—EQUAL CREDIT OPPORTUNITY (DOCKET NUMBER: R-1008)(SECTION 610 REVIEW)

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 1691

CFR Citation: 12 CFR 202

Legal Deadline: None

Abstract: In March 1998, pursuant to requirements of section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994, section 610(c) of the Regulatory Flexibility Act of 1994, and section 2222 of the Economic Growth and Regulatory Paperwork Reduction Act of 1996, the Board approved issuing for public comment an advance notice of proposed rulemaking for Regulation B (63 FR 12326, March 12, 1998) which implements the Equal Credit Opportunity Act (the ECOA). The ECOA makes it unlawful for creditors to discriminate against an applicant in any aspect of a credit transaction on the basis of race, color, religion, national origin, sex, marital status, age, and other specified bases. The review will determine whether Regulation B should be revised to address technological and other developments; better balance consumer protections and industry burden, and delete obsolete provisions. To gather information necessary for this review and to ensure the participation of interested parties, the Board solicited comment on several specific issues, including preapplication marketing practices, inquiry versus application, data collection for nonmortgage credit products, and creditor liability. The Board also solicited comment generally on potential revisions to the regulation.

Following review of the public comments, the Board is expected to issue a proposed rule within the next six months. Specific proposals will take into account the economic impact on small entities subject to the Board's regulation.

4506. • REGULATION: C—HOME MORTGAGE DISCLOSURE (DOCKET NUMBER: R-1001)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 2801

CFR Citation: 12 CFR 203

Legal Deadline: None

Abstract: In March 1998, pursuant to requirements of section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994 and section 2222 of the Economic

FRS — Proposed Rule Stage

Growth and Regulatory Paperwork Reduction Act of 1996, the Board approved issuing for public comment an advance notice of proposed rulemaking for Regulation C which implements the Home Mortgage Disclosure Act (HMDA) (63 FR 12329, March 12, 1998). Regulation C requires most mortgage lenders located in metropolitan statistical areas to report annually to Federal agencies and disclose to the public information about their home purchase and home improvement lending activity. The review will determine whether Regulation C should be revised to address technological and other developments; better balance consumer protections and industry burden; and delete obsolete provisions. To gather information necessary for this review and to ensure the participation of interested parties, the Board is soliciting comment on several specific issues, while also soliciting comment generally on potential revisions to the regulation.

It is not anticipated that any proposed notice of rulemaking will have a significant economic impact on a substantial number of small entities subject to the Board's regulation. Following review of the public comments, the Board is expected to take further action by year-end.

4507. • REGULATION: J—COLLECTION OF CHECKS AND OTHER ITEMS BY FEDERAL RESERVE BANKS; AND REGULATION: CC—AVAILABILITY OF FUNDS AND COLLECTION OF CHECKS (DOCKET NUMBER: R-1009)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 248(i); 12 USC 248(j); 12 USC 248(o); 12 USC 342; 12 USC 360; 12 USC 464; 12 USC 4001 et seq

CFR Citation: 12 CFR 210; 12 CFR 229

Legal Deadline: None

Abstract: In March 1998, the Board approved issuing for public comment an advance notice of proposed rulemaking regarding the benefits and drawbacks associated with the provisions of Regulation CC that require a paying bank to settle with a presenting bank for checks on the same day the checks are presented, as long as the checks are presented by 8:00 a.m. local time at specified locations (63 FR 12700, March 16, 1998). The Board also requested comment on the effects of additional changes to Regulations J and CC to reduce the legal disparities between the Federal Reserve Banks and private-sector banks in the presentment and settlement of checks. The objective of such rule changes would be to promote competition in check collection services, which should promote efficiencies and spur innovation.

It is not anticipated that any proposed notice of rulemaking will have a significant economic impact on small institutions. Following review of the public comments, the Board is expected to take further action by year-end.

4508. REGULATION: T—CREDIT BY BROKERS AND DEALERS; REGULATION: U—CREDIT BY BANKS; AND REGULATION: X—BORROWERS OF SECURITIES CREDIT (DOCKET NUMBER: R-0995)

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 78G, Securities Exchange Act of 1934, as amended

CFR Citation: 12 CFR 220; 12 CFR 221; 12 CFR 224

Legal Deadline: None

Abstract: As part of the regular review of its regulations and in accordance with requirements of section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994 and section 610(c) of the Regulatory Flexibility Act of 1994, the Board is conducting a review of its margin regulations. In order to complete this review, the Board approved issuing for public comment an advance notice of proposed rulemaking and request for comment in December 1997 (63 FR 2840, January 16, 1998). The advance notice highlights issues raised by commenters in response to previous requests for comment that had not been addressed by the Board in the course of its periodic review. It also provides an opportunity to further harmonize the treatment of bank and nonbank lenders under the revised Regulation U adopted by the Board at the same time as the advance notice. The advance notice also invites comment on all areas of the regulations.

Following review of the public comments, the Board is expected to take further action within the next two months.

4509. SECTION 303 REGULATORY REVIEW (SECTION 610 REVIEW)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 4803(a)(1); 5 USC 610

CFR Citation: 12 CFR ch II

Legal Deadline:
Other, Statutory, September 23, 1996, Progress Report due to Congress.

Abstract: In response to the requirements of section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994, the Board is reviewing its regulations for purposes of streamlining, improving efficiency, reducing unnecessary costs, and removing inconsistencies and outmoded/duplicative requirements. The Board is also working jointly with the other banking agencies to make uniform regulations and guidelines implementing common statutory and supervisory policies. A regulatory review timetable was published in the Federal Register in October 1995 (60 FR 53546 October 16, 1995). A progress report was sent to the Congress in September 1996.

Items below indicated with an asterisk are also being reviewed by the Board in accordance with the periodic review requirements of section 610(c) of the Regulatory Flexibility Act.

Within the next twelve months, it is expected that the Board will seek public comment during the course of the reviews of the following regulations/policy statements/other regulatory guidance. Reviews already proposed for public comment appear elsewhere in the Agenda.

Regulations H and Y, Appendices, Capital Adequacy Guidelines.

*Regulation Z, Truth in Lending.

*Regulation DD, Truth in Savings.

FEDERAL RESERVE SYSTEM (FRS) — Final Rule Stage

4510. REGULATION: B—EQUAL CREDIT OPPORTUNITY; AND REGULATION: Z—TRUTH IN LENDING (DOCKET NUMBERS: R-1006 AND R-1005)

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 1601 et seq; 12 USC 4301 et seq

CFR Citation: 12 CFR 202; 12 CFR 213; 12 CFR 226; 12 CFR 230

Legal Deadline: None

Abstract: In March 1998, the Board issued for public comment proposals to amend its consumer regulations, B (Equal Credit Opportunity), and Z (Truth in Lending), to permit electronic communications to substitute generally for oral or written disclosures, documentation, and notices required under the individual regulations (63 FR 14548, March 25, 1998). Comment was also requested on similar amendments to Regulations M (Consumer Leasing) and DD (Truth in Savings) described in separate entries in the Agenda (see Docket Numbers R-1004 and R-1003). At the same time, similar amendments to Regulation E, proposed as part of the Board's overall review of its regulations as required by section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994, were adopted as an interim rule (Docket Number: R-0919; RIN: 7100-AC06). The Board identified the use of electronic communication between consumers and financial institutions as an area that offered an opportunity to reduce regulatory compliance burden without adversely affecting consumer protections.

It is not expected that the proposals would have a significant economic impact on small institutions. Following review of the public comments, the Board is expected to take further action within the next two months.

4511. REGULATION: D—RESERVE REQUIREMENTS OF DEPOSITORY INSTITUTIONS (DOCKET NUMBER: R-0956)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 248(a); 12 USC 248(c); 12 USC 371a; 12 USC 461; 12 USC 601; 12 USC 611; 12 USC 3105

CFR Citation: 12 CFR 208

Legal Deadline: None

Abstract: In December 1996, the Board issued for public comment a proposed rule that would revise and clarify the definition of "savings deposit" consistent with comments received in connection with the Board's June 1996 proposal to simplify Regulation D. The proposal would also make conforming changes to the definition of "transaction account" (61 FR 96054, December 31, 1996). No substantive change in the regulation is intended. It is not expected that the proposal will have a significant adverse impact upon a substantial number of small entities. Following review of the public comments, the Board is expected to take further action during the next year.

RIN: 7100–AC11

4512. REGULATION: E—ELECTRONIC FUND TRANSFERS (DOCKET NUMBERS: R-0919 AND R-1002)

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 1693 et seq

CFR Citation: 12 CFR 205

Legal Deadline: None

Abstract: In May 1996, the Board issued for public comment proposed amendments to Regulation E imposing modified requirements on stored-value products in systems that track individual transactions, cards, or consumers and providing an exemption for cards on which a maximum value of $100 can be stored (Docket No. R-0919; 61 FR 19696, May 2, 1996).

The Board also proposed extending the error resolution time limits for new accounts and permitting electronic communications to substitute generally for orel or written disclosures documentation, and notices required under Regulation E.

The proposals are part of the Board's overall review of its regulations as required by section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994 and section 610(c) of the Regulatory Flexibility Act of 1994. It is not expected that the proposals would have a significant economic impact on small institutions.

In March 1998, following review of the public comments, the Board issued an interim rule, with request for comments, to permit electronic communications to substitute for disclosures, documentation, and notices under regulation E (Docket No. R-1002; 63 FR 14528, March 25, 1998). It is anticipated that the Board will take further action on the electronic communications rule, as well as on the new account proposal, within the next two months. Action on the stored-value card amendment is expected by year-end.

4513. • REGULATION: E—ELECTRONIC FUND TRANSFERS (DOCKET NUMBER: R-1007)

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 1693 et seq

CFR Citation: 12 CFR 205

Legal Deadline: None

Abstract: In March 1998, the Board issued for public comment proposed amendments to Regulation E to eliminate the extended time periods for investigating error claims involving point-of-sale (POS) debit card and foreign-initiated electronic fund transfers (63 FR 14555, March 25, 1998). Under Regulation E, financial institutions generally have 10 business days to provisionally credit an account and up to 45 calendar days to complete an investigation of a claimed error involving an electronic fund transfer to or from a consumer account. For POS and foreign transactions, institutions have up to 20 business days to provisionally credit an account and up to 90 calendar days to complete the investigation. The proposed rule also contains a technical amendment to a model form.

It is not expected that the proposals will have a significant economic impact on a substantial number of small institutions. It is anticipated that the Board will take further action on the proposals within the next two months.

Abstract: In December 1996, the Board, the Federal Deposit Insurance Corporation, and the Office of the Comptroller of the Currency jointly published for comment a proposed regulation establishing a professional qualification program for banks that engage in retail recommendations and sales of certain securities using their own employees (61 FR 68824, December 30, 1996). The proposed regulation will establish qualification testing registration, and continuing education requirements for bank employees that act in the capacity of bank securities representatives. The proposed requirements will be based on the professional qualification rules of the securities self-regulatory organizations. It is not anticipated that the proposal will have a significant economic impact on a substantial number of small banks.

Following review of the public comments and coordination with the other agencies, the Board is expected to take further action within the next two months.

Legal Deadline: None

Abstract: In August 1996, the Board issued for public comment a proposal to revise the risk-based capital treatment for certain collateralized transactions (61 FR 42565, August 16, 1996). Under the Board's existing risk-based capital treatment, the portion of a transaction that is supported by qualifying collateral (that is, cash or OECD government securities) is risk-weighted at 20 percent. Transactions that are fully supported by collateral with a positive margin may be eligible for a zero percent risk weight. Generally, the proposal would permit a portion of a transaction that is fully supported with a positive margin of collateral to be eligible for a zero percent risk weight. The portion that is to be continuously collateralized must be specified by the parties.

This proposal was developed on an interagency basis and, if adopted, would eliminate one of the substantive differences among the agencies with regard to the risk-based capital treatment for collateralized transactions. It would implement part of the Riegle Community Development and Regulatory Improvement Act of 1994, which requires the agencies to make uniform regulations and guidelines implementing common supervisory policies. The effect of the proposal would be to allow institutions to hold less capital for certain collateralized transactions. It is not expected to have a significant economic impact on a substantial number of small entities.

Following review of the public comments, the Board is expected to take further action by year-end.

Abstract: In October 1997, the Board issued for public comment proposals to revise the Federal Reserve's risk-based capital treatment for junior liens on 1- to 4-family residential properties and for investments in mutual funds (62 FR 55686, October 27, 1997). The proposals also simplify the Federal Reserve's leverage capital guidelines for banks and make the leverage capital guidelines for bank holding companies consistent with the definition of a well-capitalized bank holding company for expedited applications purposes. The proposals were issued on an interagency basis as part of the efforts under section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994 to make interagency guidelines uniform. In June 1998, following review of the public comments, the Board adopted the proposed revisions to the bank holding company leverage ratio (63 FR 30369, June 4, 1998). Action by the Board and other agencies on the proposals for banks and thrifts is expected within the next two months. The proposed changes will not have a significant economic impact on a substantial number of small entities subject to the Board's regulation.

Abstract: In October 1997, as part of a joint interagency proposal, the Board requested public comment on revisions to the Federal Reserve's risk-based capital guidelines to permit certain

FRS — Final Rule Stage

revaluation gains on equity securities in Tier 2 capital (62 FR 55682, October 27, 1997). Under the proposal an institution would be permitted to include in Tier 2 capital up to 45 percent of its unrealized revaluation gains on prudently valued equity securities. This treatment is consistent with the Basel Accord.

Following review of the public comments, the Board is expected to take further action within the next two months. It is not expected that the proposal, if adopted as a final rule, would have a significant economic impact on a substantial number of small entities subject to the Board's regulation.

CFR Citation: 12 CFR 208 app A; 12 CFR 225 app A

Legal Deadline: None

Abstract: In May 1994, the Board issued for public comment two proposals on the capital treatment of recourse arrangements and direct credit substitutes. The first proposal: (1) formally defines recourse and direct credit substitutes; (2) reduces the risk-based capital charge for low-level recourse arrangements to the maximum amount of possible loss under the recourse obligation up to the effective capital charge; and (3) requires the same risk-based capital charge for first-loss direct credit substitutes as is currently applied to recourse transactions (59 FR 27115, May 25, 1994). The second proposal, an advance notice of proposed rulemaking, sought public comment on an approach to assessing risk-based capital on banking organizations' risk exposures associated with certain asset securitizations. Under this approach, the capital charge would be based upon the relative risk of loss.

Subsequent to the issuance of this proposal, the Board issued a regulation limiting the amount of risk-based capital an insured depository institution is required to hold for assets transferred with recourse to the maximum amount of recourse for which the institution is contractually liable (60 FR 8177, February 13, 1995).

In November 1997, the Board requested public comment on a revised proposal that sets forth the definitions and capital treatments discussed above (62 FR 59944, November 5, 1997). In addition, the proposal requests comment on several alternative approaches to assessing capital against asset securitizations including the use of internal bank information.

Small entities would be affected by the final rule and the two proposals only to the extent that they engage in extending recourse arrangements and direct credit substitutes or purchasing asset-backed securities. It is not expected that the proposals will have a significant economic impact on small institutions. Following review of the public comments, the Board is expected to take further action by year-end.

4519. REGULATION: K—INTERNATIONAL BANKING OPERATIONS (DOCKET NUMBER: R-0994)

Priority: Substantive, Nonsignificant. Major under 5 USC 801.

Legal Authority: 12 USC 221 et seq; 12 USC 248(i); 12 USC 248(k); 12 USC 1818; 12 USC 1835a; 12 USC 1841 et seq; 12 USC 3101 et seq; 12 USC 3109 et seq

CFR Citation: 12 CFR 211

Legal Deadline: None

Abstract: In December 1997, consistent with section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994, the International Banking Act of 1978, and section 2222 of the Economic Growth and Regulatory Paperwork Reduction Act of 1996, the Board reviewed and proposed for public comment a number of changes to Regulation K which governs international banking operations (62 FR 68424 December 31, 1997). Subpart A of Regulation K governs the foreign investments and activities of all member banks. The proposed amendments include streamlined foreign branching procedures for U.S. banking organizations, authorization of expanded activities in foreign branches of U.S. banks, and expansion of the authority of U.S. banking organizations to engage in equity dealing and underwriting and to make venture capital investments outside the United States. Subpart B of Regulation K governs the U.S. activities of foreign banking organizations. The proposed amendments include revisions aimed at streamlining the applications procedures applicable to foreign banks seeking to expand operations in the United States, changes to provisions regarding the qualification of certain foreign banking organizations for exemption from the nonbanking prohibitions of section 4 of the Bank Holding Company Act, and implementation of provisions of the Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 that affect foreign banks. In addition, a number of technical and clarifying amendments to subparts A and B, as well as to subpart C which governs export trading companies, and certain amendments to the Board's Rules Regarding Delegation of Authority have been proposed.

The proposed amendments are not expected to have a significant economic impact on a substantial number of small entities. Following review of the public comments, the Board is expected to take further action within the next two months.

4520. • REGULATION: L—MANAGEMENT OFFICIAL INTERLOCKS (DOCKET NUMBER: R-1013)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 3201 et seq

CFR Citation: 12 CFR 212

Legal Deadline: None

Abstract: In August 1998, the Board, along with the other Federal depository institution regulatory agencies, approved issuing for public comment a proposal to amend regulations, including the Board's Regulation L, governing depository institution management interlocks to reflect certain statutory changes (63 FR 43051, August 11, 1998). In addition to implementing these statutory changes, the agencies also proposed a small market share exemption for institutions that, on a combined basis, control less than 20 percent of the deposits in a community or relevant metropolitan statistical area. The exemption is intended to enlarge the pool of management talent upon which depository institutions may draw and thereby enhance the competitiveness of these institutions.

It is not anticipated that the proposal will have a significant impact on a substantial number of small entities subject to the Board's regulation. Following review of the public comments, the Board is expected to take further action within the next six months.

4521. • REGULATION: M—CONSUMER LEASING (DOCKET NUMBER: R-1004)

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 1667

CFR Citation: 12 CFR 213

Legal Deadline: None

Abstract: As part of the Board's overall review of its regulations under section 610(c) of the Regulatory Flexibility Act of 1994 and section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994, the Board determined that the use of electronic communications to deliver information to consumers that is required by Federal consumer financial services and fair lending laws could effectively reduce regulatory compliance burden without adversely affecting consumer protections. In March 1998, the Board approved issuing for public comment a proposal to amend Regulation M that would allow lessors to deliver by electronic communication the disclosures required by the act and regulation, if the consumer agrees to such delivery (63 FR 14538, March 25, 1998). In addition, the proposal contains several technical amendments that would be made to the regulation and commentary.

It is not anticipated that the proposal will have any significant economic impact on small entities. The proposed rule would relieve compliance burden and give lessors flexibility in providing disclosures. Following review of the public comments, the Board is expected to take further action within the next two months.

CFR Citation: 12 CFR 225

Legal Deadline: None

Abstract: In December 1997, the Board approved issuing for public comment a proposal to exempt any transaction involving the underwriting or dealing of mortgage-backed securities from the Board's appraisal requirements (62 FR 64997, December 9, 1997). This amendment would permit a nonbank subsidiary of a bank holding company engaged in underwriting and dealing in securities (a so-called section 20 subsidiary) to underwrite and deal in mortgage-backed securities without demonstrating that the loans underlying the securities are supported by appraisals that meet the Board's appraisal requirements. As the proposal notes, the Board believes the public rating or due diligence that the market requires for mortgage-backed securities provides information that is at least as sufficient for assessing risks as new appraisals for the underlying loans. The Board proposed this amendment to

FRS — Final Rule Stage

FRS — Final Rule Stage

address concerns raised by bank holding companies regarding the inability of section 20 subsidiaries to actively participate in the commercial mortgage-backed securities market due to the appraisal restrictions of subpart G.

It is not anticipated that the proposal will have a significant economic impact on a substantial number of small entities subject to the Board's regulation. Following review of the public comments, the Board is expected to take further action within the next two months.

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 4301 et seq

CFR Citation: 12 CFR 230

Legal Deadline: None

Abstract: Sections 261 to 275 of the Federal Deposit Insurance Corporation Improvement Act of 1991 require depository institutions to provide a schedule of terms, rates, and fees for deposit accounts offered by the institution. The law also sets forth rules for advertisements for deposit accounts.

In September 1996, the Congress amended the Truth in Savings Act as a part of the Economic Growth and Regulatory Paperwork Reduction Act of 1996. The amendments repeal the definition of "indoor lobby sign," eliminate any disclosure requirements for nonrenewing time accounts with terms less than 30 days, and exempt certain credit unions from coverage. In March 1998, the Board issued for public comment a proposal that would implement the statutory changes (63 FR 14533, March 25, 1998). The proposal would also allow depository institutions to deliver by electronic communication disclosures required by the act and regulation, if the consumer agrees to such delivery.

It is not expected that there will be a significant economic impact on small institutions. Following review of the public comments, the Board is expected to take further action within the next two months.

4524. APPLICABILITY OF SECTIONS 23A AND 23B OF THE FEDERAL RESERVE ACT TO TRANSACTIONS BETWEEN A MEMBER BANK AND ITS SUBSIDIARIES (DOCKET NUMBER: R-0977)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 371c(b)(1)(E)

CFR Citation: 12 CFR 250.243

Legal Deadline: None

Abstract: Sections 23A and 23B of the Federal Reserve Act restrict the ability of a member bank to fund an affiliate through direct investment, loans, or other transactions. In July 1997, the Board issued for public comment a proposal to apply sections 23A and 23B to transactions between a member bank and any subsidiary that engages in activities that are impermissible for the bank itself and that Congress has not previously exempted from coverage by section 23A (62 FR 37744, July 15, 1997). The proposed treatment is largely consistent with the existing treatment of these subsidiaries by the other banking agencies, which have applied sections 23A and 23B in some form to transactions between a bank and such subsidiaries. The issuance of the proposals will avoid the application of sections 23A and 23B on an ad hoc basis by different agencies, which could result in confusion and inconsistencies.

The proposal is not expected to have a significant economic impact on a substantial number of small businesses. Following review of the public comments, the Board is expected to take further action during the next six months.

4525. • APPLICABILITY OF SECTION 23A TO THE PURCHASE OF SECURITIES FROM CERTAIN AFFILIATES AND TO LOANS AND EXTENSIONS OF CREDIT MADE BY A MEMBER BANK TO A THIRD PARTY (DOCKET NOS.: R-1015 & R-1016)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 371c

CFR Citation: 12 CFR 250

Legal Deadline: None

Abstract: In June 1998, the Board issued for public comment two proposed rules to exempt certain transactions from the restrictions of section 23A of the Federal Reserve Act (63 FR 32766, June 16, 1998). Section 23A restricts the ability of a member bank to fund its affiliates through direct investment, loans, or certain other transactions (covered transactions). These proposals are in response to concerns raised by organizations when the Board earlier proposed removal of certain firewalls between insured depository institutions and their section 20 securities affiliates. Several petitioners stated then that although the removal of the firewalls was welcomed, section 23A continued to limit certain transactions with their section 20 subsidiaries that do not raise significant safety and soundness issues and impeded the efficient operation of the insured depository institutions.

In Docket Number R-1015, the Board is proposing to expand the kind of assets that may be eligible for the (d)(6) exemption to include securities that, although not so widely traded as to warrant publication of their activity in publications of general circulation, are actively traded and whose price can be obtained from independent reliable sources, if the securities are purchased from a registered broker-dealer.

In Docket Number R-1016, the Board is proposing to grant two exemptions from section 23A for certain loans and extension of credit made by an insured depository institution to customers that use the proceeds to purchase certain securities from or through the depository institution's registered broker-dealer affiliate. The first exemption would apply when the affiliate is acting solely as a broker or riskless principal in the securities transaction. The second exemption would apply when the extension of credit is made pursuant to a pre-existing line of credit that was not established for the purposes of buying securities from or through an affiliate.

Following review of the public comments, the Board is expected to take further action within the next three months. It is not anticipated that the proposals will have a significant economic impact on a substantial number of small entities.

CFR Citation: 12 CFR 261

Legal Deadline: None

Abstract: In February 1996, the Board issued for public comment proposed amendments to its Rules Regarding Availability of Information (61 FR 7436, February 28, 1996). The proposed amendments, although primarily technical in nature, are intended to improve the Board's efficiency in processing requests for the disclosure of publicly available information as well as confidential supervisory information. It is not anticipated that the proposed amendments will have a significant economic impact on a substantial number of small entities subject to the regulation.

In light of the passage of time since the Board's February 1996 proposal was issued for public comment, the Board will make changes in that proposal based on the comments received and will reissue revised proposed amendments for further comment. The February 1996 proposal deals primarily with the discretionary authority of the Board's General Counsel to produce information. These amendments are part of the Board's overall review of its regulations as required by section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994. Further Board action on the remainder of the regulation is expected by year-end.

FEDERAL RESERVE SYSTEM (FRS) — Completed Actions

4527. REGULATION: B—EQUAL CREDIT OPPORTUNITY (DOCKET NUMBER: R-0978)

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 1691

CFR Citation: 12 CFR 202

Legal Deadline: None

Abstract: Regulation B requires creditors to provide a consumer with a notice of action taken if an application for credit is denied, an account is terminated, or the terms of an account are unfavorably changed. The Fair Credit Reporting Act (FCRA) requires creditors that take adverse action against a consumer, such as denying an application for credit, to provide the consumer with certain disclosures if the action is based on a credit report provided by a consumer reporting agency or information obtained from a third party. Creditors have the option of including the FCRA disclosures with the notice of action taken required under Regulation B; appendix C to Regulation B provides model forms that combine the current FCRA and Equal Credit Opportunity Act disclosures.

The Economic Growth and Regulatory Paperwork Reduction Act of 1996 made extensive changes to the FCRA, including a requirement that additional disclosures be given to consumers who are denied credit. In July 1997, the Board requested public comment on proposed changes to the FCRA portion of Regulation B's model forms C-1 through C-5 and to the general instructions for these forms (62 FR 37166, July 11, 1997). In April 1998, following review of the public comments, the Board adopted final amended model forms to ease compliance for creditors that choose to

use the forms (63 FR 16392, April 3, 1998). The Board deferred final action on which disclosures should be provided when adverse action is based on information in a consumer report obtained from an affiliate. The Board determined that this issue merits further consideration and would be more appropriately addressed in an interpretation of the FCRA, likely issued jointly with the Federal Trade Commission. The proposals are not expected to have a significant economic impact on small entities.

4528. REGULATION: D—RESERVE REQUIREMENTS OF DEPOSITORY INSTITUTIONS (DOCKET NUMBER: R-0988)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 461

CFR Citation: 12 CFR 4

Legal Deadline: None

Abstract: In November 1997, the Board approved issuing for public comment a proposal to move from the current system of contemporaneous reserve maintenance for institutions that are weekly reporters to a system under which reserves are maintained on a lagged basis by such institutions (62 FR 60671, November 12, 1997). Under a lagged maintenance system, the reserve maintenance period for a weekly reporter will begin 30 days after the beginning of a reserve computation period. Under the current system, the reserve maintenance period begins two days after the beginning of the computation period. The Board is considering this action to improve the ability of the Federal Reserve to estimate accurately the need for reserves on a timely basis to ensure greater effectiveness of the Federal Reserve's open market operations. The proposal will affect only those institutions that are weekly deposit reporters, which generally include depository institutions that have total deposits of $75 million or greater as these are the only institutions currently required to maintain contemporaneous reserves on a contemporaneous basis. For those institutions that are weekly reporters, the proposed amendments generally would simplify compliance with reserve requirements for these institutions.

In March 1998, following review of the public comments, the Board adopted the amendments substantially as proposed (63 FR 15069, March 30, 1998). The proposal is not expected to have a significant economic impact on small institutions.

CFR Citation: 12 CFR 208

Legal Deadline: None

Abstract: In March 1997, the Board issued for public comment proposed amendments to subpart A of Regulation H regarding the general provisions for membership in the Federal Reserve System and subpart E, Interpretations of Regulation H (62 FR 15272, March 31, 1997). The proposed amendments reduce regulatory burden and simplify and update requirements of Regulation H.

The amended subpart A of Regulation H will, when fully effective, replace the existing subpart A in its entirety; it will also eliminate several obsolete interpretations. Also, as part of the revisions, the Board is rescinding Regulation P Security Procedures, and incorporating its provisions into Regulation H (Docket Number R-0965). The proposal to modernize subpart A of Regulation H is in accordance with the Board's review of regulations under section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994. Consistent with the objectives of the Regulatory Flexibility Act, it is expected that the proposed changes will reduce the time and costs associated with complying with Regulation H, thereby improving the ability of small banks to conduct business on a more cost-efficient basis.

In June 1998, following review of the public comments, the Board adopted the proposals substantially as proposed (63 FR 37630, July 13, 1998).

4530. REGULATION: H—MEMBERSHIP OF STATE BANKING INSTITUTIONS IN THE FEDERAL RESERVE SYSTEM; AND REGULATION: Y—BANK HOLDING COMPANIES AND CHANGE IN BANK CONTROL

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1831m

CFR Citation: 12 CFR 208; 12 CFR 225

Legal Deadline:
Final, Statutory, January 3, 1993.

Abstract: During 1992, the Board's staff consulted with the other Federal banking agencies regarding the implementation of section 112, the bank auditing requirements, of the Federal Deposit Insurance Corporation Improvement Act of 1991. The section includes requirements for insured commercial banks to receive audits of their annual reports by independent public accountants requirements for banks and their auditors to report certain information to the Board, and requirements for independent audit committees for banks. In some cases, these requirements can be satisfied by comparable arrangements at the bank holding company level. The Act generally exempts insured depository institutions from these requirements when their total assets are less than $150 million, unless a higher threshold is chosen by the Federal Deposit Insurance Corporation (FDIC).

The FDIC, the agency with primary responsibility for implementing this mandate through regulations, finalized its regulation in May 1993, which applied to all FDIC-insured banks and thrifts. The FDIC's regulation applied these requirements to depository institutions with total assets of $500 million or more. Subsequently in February 1996, the FDIC approved amendments to its rules implementing section 112 that were largely required by the Riegle Community Development and Regulatory Improvement Act of 1994. These amendments expand opportunities for holding companies to file a single report covering multiple subsidiary banking organizations, conform the rule's references to the Federal Reserve's Regulation O, and make other technical revisions.

The Board has joint rulemaking authority with the other banking agencies regarding the enforcement provisions of section 112. The Board and the other agencies will issue a notice of proposed rulemaking for public comment when interagency agreement is reached. Further action is not expected within the next six months.

CFR Citation: 12 CFR 208; 12 CFR 225

Legal Deadline: None

Abstract: In July 1997, the Board approved issuing for public comment a proposal to revise the risk-based and Tier 1 leverage capital adequacy guidelines for State member banks and bank holding companies to address the treatment of servicing assets on both mortgage assets and financial assets other than mortgages (non-mortgages) (62 FR 42006, August 4, 1997). The proposed rule was developed in response to a recent Financial Accounting Standards Board accounting standard that affects servicing assets; that is, Statement of Financial Accounting Standards No. 125, "Accounting For Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" issued in June 1996. Under this proposed rule, the limitation on the amount of mortgage servicing assets (and purchased credit card relationships) that can be recognized as a percent of Tier 1 capital would be increased from 50 to 100 percent. Also, all non-mortgage servicing assets would be fully deducted from Tier 1 capital. This proposal is a joint proposal of the Board, the Federal Deposit Insurance Corporation, the Office of the Comptroller of the Currency, and the Office of Thrift Supervision.

It is not anticipated that the proposal will have a significant economic impact on a substantial number of small entities subject to the Board's regulation. In August 1998, following review of the public comments, the Board adopted the proposal with the following changes: (1) all interest-only strips receivable will be included in Tier 1 capital on an unlimited basis; (2) non-mortgage servicing assets will be subject to the same 100 percent of Tier 1 capital limitation as mortgage servicing assets and purchased credit card relationships (PCCRs); (3) non-mortgage servicing assets will be also subject to a further sublimit of 25 percent of Tier 1 capital, the same sublimit as PCCRs; and (4) the 90 percent of fair value limitation, which is currently applied to mortgage servicing assets and PCCRs, will be extended to non-mortgage servicing assets (63 FR 42667, August 10, 1998).

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 222; 12 USC 282; 12 USC 286 to 288; 12 USC 321; 12 USC 323; 12 USC 327 to 328; 12 USC 333

CFR Citation: 12 CFR 209

Legal Deadline: None

Abstract: In March 1997, the Board issued for public comment proposed amendments to Regulation I to reduce regulatory burden and simplify and update the regulation (62 FR 15297, March 31, 1997). The proposals are a part of the Board's overall review of its regulations under section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994. In general, the amendments condense the regulation and reflect the

replacement of share certificates by a book-entry system. The proposal also codifies Board and staff interpretations. Finally, the amendments delete references to specific obsolete forms or forms which no longer have the same identification numbers.

The proposal would apply to all Federal Reserve Banks and member banks regardless of size and, as consistent with the objectives of the Regulatory Flexibility Act, would be burden-reducing. Therefore, the proposal would not have a significant adverse economic impact on a substantial number of small entities. In July 1998, following review of the public comments, the Board adopted the revisions substantially as proposed (63 FR 37659, July 13, 1998).

4533. REGULATION: DD—TRUTH IN SAVINGS (DOCKET NUMBERS: R-0836 AND R-0869)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 4301 et seq

CFR Citation: 12 CFR 230

Legal Deadline: None

Abstract: Sections 261 to 275 of the Federal Deposit Insurance Corporation Improvement Act of 1991 require depository institutions to provide a schedule of terms, rates, and fees for deposit accounts offered by the institution. The law also sets forth rules for advertisements for deposit accounts.

In January 1995, the Board issued for public comment proposed amendments to Regulation DD that would produce an annual percentage yield (APY) that reflects the timing of interest payments as well as the timing of compounding. The proposal also solicits comment on an alternative method of calculating the APY (an internal rate of return formula) (60 FR 5142, January 26, 1995). The January 1995 proposal is an outgrowth of a May 1994 proposal that would have affected institutions' compounding and crediting practices in addition to changing the APY (59 FR 24378 May 11, 1994). The Board also adopted in January 1995 an interim rule that permits institutions and deposit brokers advertising noncompounding multiyear time accounts that require interest payouts at least annually to disclose an APY equal to the interest rate (60 FR 5128, January 26, 1995; Docket Number R-0836). Public comment on the approach was solicited in a July 1994 notice extending the comment period for the May 1994 proposal (59 FR 35271, July 11, 1994). In July 1998, following review of the public comments, the Board amended Regulation DD to make the interim rule final (63 FR 40635, July 30, 1998).

The amendments, which provide institutions an alternative method for calculating and disclosing the annual percentage yield for certain time accounts, are not likely to have a significant impact on institutions' costs, including the costs to small institutions.

4534. POLICY STATEMENT ON PRIVATELY OPERATED MULTILATERAL SETTLEMENT SYSTEMS (DOCKET NUMBER: R-0987)

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 221 et seq

CFR Citation: None

Legal Deadline: None

Abstract: In November 1997, the Board requested comment on a proposed policy statement on privately operated multilateral settlement systems to integrate current policy statements and new provisions (62 FR 60713, November 12, 1997). The policy would require privately operated multilateral settlement systems for U.S. dollar payments to address material credit, liquidity operational, legal, and systemic risks, thereby enhancing the safety and soundness of the payments system. In June 1998, following review of the public comments, the Board adopted a revised version of its proposed policy (63 FR 34888, June 26, 1998). The policy largely retains the risk criteria of the proposal but applies only to large systems that settle payments with an aggregate gross value of more than $5 billion on any day.

The policy is designed to minimize regulatory burden on small arrangements that do not raise material risks and will not have a significant economic impact on a substantial number of small entities.

Semiannual Regulatory Agenda

FEDERAL TRADE COMMISSION (FTC)

FEDERAL TRADE COMMISSION

16 CFR Ch. I

Semiannual Regulatory Agenda

AGENCY: Federal Trade Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following agenda of Commission proceedings is published in accordance with section 22(d)(1) of the Federal Trade Commission Act, 15 U.S.C. 57b-3(d)(1), and the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, title II of Public Law 104-121, 110 Stat. 847. The Commission's agenda observes guidelines and procedures issued July 8, 1998, by the Office of Management and Budget in accordance with the provisions of President Clinton's Executive Order No. 12866 "Regulatory Planning and Review" of September 30, 1993 (58 FR 51735; October 4, 1993).

The Commission completed its Regulatory Flexibility Act section 610 review of the rules and regulations under the Hobby Protection Act. The Commission has responded to the optional information requirement to identify rulemakings that are likely to have some impact on small entities but are not subject to the requirements of the Regulatory Flexibility Act. The current rulemakings that are likely to have some impact on small entities include: (1) The regulations under the Smokeless Tobacco Health Education Act of 1986, 16 CFR part 307; (2) the Trade Regulation Rule pursuant to the Telephone Disclosure and Dispute Resolution Act of 1992, 16 CFR part 308; (3) the Trade Regulation Rule on Care Labeling of Textile Wearing Apparel and Certain Piece Goods, as amended, 16 CFR part 423; (4) the Trade Regulation Rule on Disclosure Requirements and Prohibitions Concerning Franchising and Business Opportunity Ventures, 16 CFR part 436; (5) the Trade Regulation Rule on Ophthalmic Practice Rules, 16 CFR part 456; (6) the Trade Regulation Rule on Labeling and Advertising of Home Insulation, 16 CFR part 460; (7) the Disclosure of Written Consumer Product Warranty Terms and Conditions, 16 CFR part 701; and (8) the Pre-Sale Availability of Written Warranty Terms, 16 CFR part 702. The Agency also is conducting a review of the 900-Number Rule as required by the Rule itself. Most of the other reviews listed on the following agenda are being conducted as part of the Commission's plan, begun in 1992, to review and seek information about all of its regulations and guides, including their costs and benefits, and regulatory and economic impact, every 10 years. These reviews incorporate and expand upon the review required by the Regulatory Flexibility Act. The Commission's 10-year program is also consistent with the President's March 4, 1995, Regulatory Reform Initiative, directing agencies to conduct a review of all regulations and eliminate or revise those that are outdated or otherwise in need of reform.

Except for notice of completed actions, the information in this agenda represents the judgment of Commission staff based upon information now available. Each projected date of action reflects an assessment by the FTC staff of the likelihood that the specified event will occur during the coming year. No final determination by the staff or the Commission respecting the need for or the substance of a trade regulation rule or any other procedural option should be inferred from the notation of projected events in this agenda. In most instances, the dates of future events are listed by month, not by a specific day. The acquisition of new information, changes of circumstances, or changes in the law may alter this information.

FOR FURTHER INFORMATION CONTACT: For information about specific regulatory actions listed in the agenda, contact the contact person listed for each particular proceeding. Comments or inquiries of a general nature about the agenda should be directed to Sandra M. Vidas, Staff Attorney, Federal Trade Commission, Sixth Street and Pennsylvania Avenue NW., Washington, DC 20580; telephone (202) 326-2456; e-mail: svidas@ftc.gov.

This edition of the Unified Agenda of Federal Regulatory and Deregulatory Actions includes The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The FTC's Statement of Regulatory Priorities is included in part II.

By direction of the Commission.

Benjamin I. Berman,

Acting Secretary.

4535. TRADE REGULATION RULE CONCERNING POWER OUTPUT CLAIMS FOR AMPLIFIERS UTILIZED IN HOME ENTERTAINMENT PRODUCTS

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 432

Legal Deadline: None

Abstract: The Trade Regulation Rule Concerning Power Output Claims for Amplifiers Utilized in Home Entertainment Products ("Amplifier Rule" or "Rule") was promulgated in 1974 to assist consumers in purchasing power amplification equipment for home entertainment purposes by standardizing the measurement and disclosure of various performance characteristics of the equipment. The Amplifier Rule establishes uniform test standards and disclosures so that consumers can make more meaningful comparisons of performance attributes. The Rule makes it an unfair or deceptive act or practice for manufacturers and sellers of sound power amplification equipment for home entertainment purposes to fail to disclose certain performance information in connection with direct or indirect representations of power output, power band, frequency or distortion characteristics. The Rule also sets out standard test conditions for performing the measurements that support the required performance disclosures. Further, the Rule prohibits representations of performance characteristics if they are not obtainable when the equipment is operated by the consumer in the usual and ordinary manner without the use of extraneous aids.

As part of its systematic review of all Commission rules and guides, the Commission requested comments on, among other things, the economic impact of, and the continuing need for, this Rule; possible conflict between the Rule and State, local and other Federal laws; and the effect on the Rule of any technological, economic, or other industry changes. In reviewing the Rule, the Commission tentatively determined that the Rule applies to self-powered speakers for use with home computers and home sound systems, as well as other amplification equipment for home computers, but asked for comments on whether such products should be outside the Rule's scope. The Commission also requested comments on whether the Rule's provisions should be extended to automobile sound systems and whether existing testing and disclosure requirements need to be modified for use with automotive sound amplification.

Based upon the record in this proceeding, the Commission has determined that the Rule applies to self-powered speakers for use with home computers and home sound systems but that the Rule should not be extended to automobile sound systems. The Commission also determined to issue an Advance Notice of Proposed Rulemaking relating to testing procedures and required disclosures in advertisements. The comment period for the ANPRM ended on September 8, 1998.

4536. • TRADE REGULATION RULE ON FUNERAL INDUSTRY PRACTICES

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 45; 15 USC 46(g); 15 USC 57(a)

CFR Citation: 16 CFR 453

Legal Deadline: None

Abstract: The Funeral Industry Practices Rule, which became effective in 1984, requires sellers of funeral goods and services to give price lists to consumers who visit a funeral home, and to disclose price and other information to callers who request it over the telephone. The Rule enables consumers to select and purchase only the goods and services they want, and requires funeral providers to seek authority before performing some services such as embalming. The Rule also requires funeral providers to make disclosures regarding any required purchases and prohibits misrepresentations regarding requirements and other aspects of funeral goods and services. In its 1994 review of the Rule, the Commission determined to retain the Rule and amended it to prohibit funeral providers from charging a "casket handling fee" in addition to any non-declinable basic-services fee and deleted certain affirmative telephone disclosure requirements. The Commission also determined to schedule a "notice and comment" review of the Rule in 1999 in accordance with its ten-year schedule for reviewing all rules and guides. However, the Commission is responding to requests to address emerging issues in the funeral industry by beginning to review the Rule in 1998, instead of 1999, as previously scheduled. Staff is preparing a memorandum to the Commission concerning the scope of the review and the issues to be addressed in an ANPRM.

FEDERAL TRADE COMMISSION (FTC) — Proposed Rule Stage

4537. PREMERGER NOTIFICATION RULES AND REPORT FORM

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 18a Clayton Act

CFR Citation: 16 CFR 801 to 803

Legal Deadline: None

Abstract: The Premerger Notification Rules and the Antitrust Improvements Act Notification and Report Form were adopted pursuant to Section 7A of the Clayton Act. Section 7A requires firms of a certain size contemplating mergers or acquisitions of a specified size to file notification with the Federal Trade Commission (FTC) and the Department of Justice (DOJ) and to wait a designated period before consummating the transaction. It also requires the FTC, with the concurrence of the Assistant Attorney General for Antitrust, to promulgate rules requiring that notification be in a form and contain information necessary to enable the FTC and DOJ to determine whether the proposed acquisition may, if consummated, violate the antitrust laws. These rules are continually reviewed in order to improve the program's effectiveness and reduce the paperwork burden on the business community. The Commission proposed modifications to the Premerger Notification and Report form during fiscal year 1994. In March 1996, the Commission promulgated rules amending the Rule's treatment of acquisitions of goods or realty made in the ordinary course of business and adding new exemptions for acquisitions of realty and carbon-based mineral reserves. In addition, on August 9, 1995, the Commission published a final rule that removed 16 CFR part 800, the transitional rule addressing the treatment of acquisitions consummated before, and notification filed on or before September 5, 1978. On June 25, 1998, the Commission issued a Final Rule with a request for comments amending Rule 802.70, Acquisitions subject to order. This amendment reduces the burden on parties by exempting from the HSR filing requirements divestitures included in consent agreements that have been accepted by the Commission for public comment, or filed by the Commission or the Department of Justice with the District Court and that are subject to public comment but are not final orders. The comment period ended July 27, 1998.

4538. REGULATORY REVIEW

Priority: Other Significant

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 1 et seq

Legal Deadline: None

Abstract: The Commission is conducting a revolving ten-year review of current rules and guides to identify any that should be modified or rescinded. At the beginning of 1998, the Commission published a notice in the Federal Register listing the rules, guides, and exemption procedures to be reviewed during 1998. Early next year, the Commission will publish a list of additional rules and guides it will review in 1999. During 1998, the Commission published separate notices in the Federal Register for each rule or guide, soliciting comments about its costs and benefits and regulatory and economic impact. Where rulemaking timetables have been established for rules being reviewed, they are included in this Agenda. However, no determination about whether to modify or rescind a rule, regulation, guide or interpretation or any other procedural option should be inferred from the Commission's decision to publish a request for comments. In certain instances, the reviews also will address other specific matters or issues, such as reviews mandated by the Regulatory Flexibility Act, 5 U.S.C. 601 et seq.

4539. REGULATIONS UNDER THE COMPREHENSIVE SMOKELESS TOBACCO HEALTH EDUCATION ACT OF 1986

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 4401

CFR Citation: 16 CFR 307

Legal Deadline: None

Abstract: The Comprehensive Smokeless Tobacco Health Education Act of 1986 requires health warnings on all packages and advertising for smokeless tobacco. The Commission published an NPRM on February 14, 1995, seeking public comment on whether the regulations governing the rotation schedule for utilitarian objects should be amended. The 60-day comment period expired on April 14, 1995. The Commission amended the smokeless tobacco regulations to permit rotation of the mandated health warnings on utilitarian items and promotional materials based on either the date the item or material is ordered from a supplier or the date it is disseminated to the public, provided the production of such items is carried out in a manner consistent with ordinary business practices. On a separate point, the Coalition on Smoking or Health petitioned the Commission to enforce the Smokeless Tobacco Act by requiring smokeless tobacco health warnings on sponsored racing cars, banners, flags, and other related objects bearing smokeless tobacco product brand names, logos, or selling messages. On October 26, 1993, the Commission issued an NPRM and proposed a requirement that sponsored auto racing vehicles and all other event-related objects that bear the brand name or selling message of smokeless tobacco products display health warning labels. Staff is reviewing the impact of the final Food and Drug Administration Rule on tobacco products and the State Attorneys' General omnibus settlement as applicable to event and team sponsorship. This review will be included in the rule review scheduled to begin in 1999.

RIN: 3084–AA48

4540. THE CARE LABELING RULE

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing

Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 423

Legal Deadline: None

Abstract: The Care Labeling Rule requires manufacturers and importers of textile wearing apparel to attach cleaning instructions stating what regular care is needed for the ordinary use of the product. If dry cleaning is recommended, the label must state at least one type of solvent that may be used (unless all commercially available types of solvent can be used), and must contain a warning against the use of any part of the normal dry cleaning procedure that would harm the product. The Rule also requires that the manufacturer or importer possess, prior to sale, a reasonable basis for the care instructions. It also states that "any appropriate symbols may be used on care labels or care instructions, in addition to the required appropriate terms so long as the terms fulfill the requirements of this regulation." Although the Rule does not specifically state that the instructions must be in English, they usually are. On February 6, 1997, the Commission granted a Conditional Exemption with request for public comments. The Conditional Exemption, which became effective on July 1, 1997, allows the use of the symbol system developed by the American Society for Testing and Materials on care labels. The symbols, which show consumers how to safely launder or clean their clothing, will be permitted on care labels so long as the manufacturers include with the garments a written explanation of what the symbols mean for the first 18 months they are in use. When it granted the industry permission to use symbols on care labels instead of written words, the FTC launched a national campaign to help consumers in the transition to symbols by making sure they have easy access to additional descriptive information regarding how to care for their clothing. In addition, the Commission is conducting a substantive review of the Rule's requirements. An ANPRM relating to possible substantive changes in connection with methods of cleaning that can or should be listed on the care label, reasonable basis requirements, and definitions of water temperatures was published on December 28, 1995. An NPRM relating to these possible substantive changes was published on May 8, 1998; the comment period ended on July 27, 1998. The NPRM proposes that the Rule be amended as follows: "If an item of textile wearing apparel can be successfully washed and finished by a consumer at home, the label must provide an instruction for washing." The NPRM also proposes that the Rule be amended to allow for labeling for the relatively new process known as "professional wet cleaning." Finally, the NPRM proposes a change in the definition of "reasonable basis" in the Rule, and in the definitions of water temperature.

4541. TRADE REGULATION RULE CONCERNING THE LABELING AND ADVERTISING OF HOME INSULATION

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 460

Legal Deadline: None

Abstract: The Federal Trade Commission's Trade Regulation Rule Concerning the Labeling and Advertising of Home Insulation (R-Value Rule) became effective on September 29, 1980. The Rule is designed to assist consumers in evaluating and comparing the thermal performance characteristics of competing home insulation products. Specifically, the Rule requires manufacturers of home insulation products to provide information about the product's degree of resistance to the flow of heat (R-Value). The Rule also establishes uniform standards for testing, information disclosure and substantiation of product performance claims. As part of its systematic review of all Commission rules and guides, the Commission requested comments on, among other things, the economic impact of, and the continuing need for, this Rule, possible conflicts between the Rule and state, local and other Federal laws, and the effect on the Rule of any technological, economic, or other industry changes. At the same time, in response to a petition, the Commission proposed adopting a non-substantive amendment to the Rule that would allow, but not require, the use of an additional test procedure for measuring R-value, and solicited comments on the proposed amendment. The Commission is considering the comments in two parts. In part I, on March 28, 1996, the Commission reviewed the comments that addressed the current benefits, burdens and need for the Rule and determined to retain the Rule. The Commission also adopted non-substantive amendments that: (1) allow the optional use of the additional R-value test procedure; and (2) require use in the future of revised, current versions of other test procedures cited in the Rule. In part II, the Commission will consider the comments recommending that the Commission adopt substantive revisions to the Rule.

4542. TRADE REGULATION RULE ON FRANCHISING AND BUSINESS OPPORTUNITY VENTURES

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 41 to 58

CFR Citation: 16 CFR 436

Legal Deadline: None

Abstract: The Federal Trade Commission's Trade Regulation Rule on Franchising and Business Opportunity Ventures (Franchise Rule) became effective on October 21, 1979. The Rule is designed to reduce deceptive and unfair practices in the sale of franchises and business opportunities by requiring the pre-sale disclosure of material information about the franchise. For example, the Rule requires franchisors to disclose their business background and litigation history, as well as the number of failed and terminated franchise units. The Rule also requires the disclosure of material terms of the franchise relationship, such as recurring fees and termination and renewal rights. The Rule further requires the franchisor to provide an audited financial statement for the past three fiscal years. Finally, the Rule requires any franchisor who makes earnings representations to provide the prospective franchisee with an earnings claims document that substantiates those claims. As part of its systematic review of all Commission rules and guides, the Commission requested comments about the overall costs and benefits of the Rule and what effects, if any, have changes in relevant technology, economic conditions, and industry practices had on the Rule. Two public workshops have been held, one on September 12, 1995, and the other on March 11, 1996. On February 28, 1997, the Commission published an Advance Notice of Proposed Rulemaking (ANPRM) contemplating amendments to the Rule. The Commission is interested in ensuring that the Rule addresses new technologies and market practices and at the same time reduces any unnecessary regulatory burden. Specifically, the Commission requested comments on whether to revise the Rule to more closely align Federal and State disclosure requirements governing franchise sales, and to address changes in the marketing of franchises, such as the sale of franchises internationally and through the Internet. In the same ANPRM, the Commission announced that it would hold six public workshops in five cities during 1997 to: promote discussions about the issues; allow the public to make statements on the record; and assist Commission staff in drafting a proposed amended Rule. The Commission extended the comment period to December 31, 1997. The ANPRM procedure has been completed and staff is working on a recommendation to the Commission.

4543. RULE GOVERNING DISCLOSURE OF WRITTEN CONSUMER PRODUCT WARRANTY TERMS AND CONDITIONS

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 701

Legal Deadline: None

Abstract: The Rule Governing the Disclosure of Written Consumer Product Warranty Terms and Conditions (Rule 701) requires warrantors to disclose the terms and conditions of written warranties on consumer products actually costing the consumer more than $15.00. Rule 701 specifies the information that must appear in the written warranty, as well as the exact language that must be used for certain items. Under Rule 701, the information must be disclosed in simple, easily understood, and concise language in a single document. In addition to specifying the information that must appear in a written warranty, Rule 701 also requires that, in instances where the warrantor uses a warranty registration or owner registration card, the warranty must disclose whether that registration card is a condition precedent to warranty coverage. Finally, it provides that, in connection with "seal of approval" programs, the disclosures do not have to be given in the actual seal itself, if they are made in a general circulation publication. As part of its systematic review of all Commission regulations and guides, the Commission requested comments on, among other things, the economic impact of, and the continuing need for the Rule, possible conflict between the Rule and State, local, and other Federal laws, and the effect on the Rule of any technological, economic, or other industry changes. The comment period has ended and staff is preparing a recommendation to the Commission.

4544. RULE GOVERNING THE PRE-SALE AVAILABILITY OF WRITTEN WARRANTY TERMS

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 702

Legal Deadline: None

Abstract: The Rule Governing the Pre-Sale Availability of Written Warranty Terms, 16 CFR part 702 (Rule 702) published as a final rule in 1975 and amended in 1987, is being reviewed under the Commission's procedures. Section 102(b)(1)(A) of the Magnuson-Moss Warranty Act, 15 U.S.C. 2301 et seq., directed the Commission to prescribe rules requiring that the terms of any written warranty on a consumer product be made available to the prospective purchaser prior to the sale of the product. Accordingly, the Commission issued Rule 702, which requires sellers and warrantors to make the terms of a written warranty available to the consumer prior to sale. Among other things, the Rule requires sellers to make warranty information readily available by either (1) displaying it in close proximity to the product, or (2) furnishing it on request and posting signs in prominent locations advising consumers that warranty information is available. The Rule requires warrantors to provide materials to enable sellers to comply with the Rule's requirements. It also sets out the methods by which warranty information can be made available prior to the sale of the product in instances where the product is sold through catalogs, mail order, or door-to-door. As part of its systematic review of all Commission regulations and guides, the Commission has determined to seek comments on, among other things, the economic impact of, and the continuing need for the rule, possible conflict between the rule and State, local, and other Federal laws and the effect on the rule of any technological, economic, or other industry changes. The comment period has ended and staff is preparing a recommendation to the Commission.

4545. RULE GOVERNING INFORMAL DISPUTE SETTLEMENT PROCEDURES

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 703

Legal Deadline: None

Abstract: The Rule Governing Informal Dispute Settlement Procedures (Rule 703) establishes minimum requirements for those informal settlement mechanisms (IDSM) that are incorporated by the warrantor into its consumer product warranty. By incorporating the IDSM into the warranty, the warrantor requires the consumer to use the IDSM before pursuing any legal remedies in court. Among other things, the Rule sets out the member qualifications, general operating procedures, and recordkeeping requirements of such IDSMs. The Rule also prescribes the duties of the warrantor in making consumers aware of the IDSM and how to use it, as well as the warrantor's duties to comply with the IDSM's requests and decisions. The Rule also requires IDSMs that operate under Rule 703 to submit annual audits to the Federal Trade Commission to determine their compliance with the Rule. As part of its systematic review of all Commission regulations and guides, the Commission has requested comments on, among other things, the economic impact of, and the continuing need for, the Rule; whether there are changes that might be made to the Rule that would increase consumer benefits or which might minimize cost to firms subject to its requirements; the degree to which it may conflict with other State, local, and other Federal laws; and the effect on the rules of any technological, economic, or other industry changes. The comment period has ended and staff is preparing a recommendation to the Commission.

4546. TRADE REGULATION RULE ON OPHTHALMIC PRACTICE RULES

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 456

Legal Deadline: None

Abstract: The Trade Regulation Rule on Ophthalmic Practice Rules, also known as the "Prescription Release Rule," provides that an optometrist or ophthalmologist must give to the patient a copy of the patient's eyeglass prescription immediately after the eye examination is completed at no extra cost. The Prescription Release Rule prohibits optometrists and ophthalmologists from conditioning the availability of an eye examination, as defined by the Rule, on a requirement that the patient agrees to purchase ophthalmic goods from the optometrist or ophthalmologist, and from placing on the prescription, or delivering to the patient, certain disclaimers or waivers of liability. The Rule does not require an optometrist or ophthalmologist to release a contact lens prescription to a patient after an eye exam. As part of its systematic review of all Commission rules and guides, the Commission requested comments on the economic impact of, and the continuing need for, this Rule, possible conflict between the Rule and State, local, or other Federal laws, and the effect on the Rule of any technological, economic, or other industry changes. Staff is preparing a memorandum to the Commission summarizing the comments received and making recommendations as to whether the Commission should revise, repeal, or retain the rule.

FEDERAL TRADE COMMISSION (FTC) — Final Rule Stage

4547. TRADE REGULATION RULE PURSUANT TO THE TELEPHONE DISCLOSURE AND DISPUTE RESOLUTION ACT OF 1992

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 5701 et seq

CFR Citation: 16 CFR 308

Legal Deadline: None

Abstract: Congress enacted the Telephone Disclosure and Dispute Resolution Act of 1992 (TDDRA) to curtail certain unfair and deceptive practices perpetrated by some pay-per-call businesses, and to encourage the growth of the legitimate pay-per-call industry. TDDRA granted the Commission limited jurisdiction over common carriers for purposes of the 900-Number Rule, which became effective November 1, 1993. The Rule requires that advertisements for 900-Numbers contain certain disclosures; that anyone who calls a 900-Number service be given the opportunity to hang up at the conclusion of the preamble without incurring any charge for the call; and establishes procedures for resolving billing disputes for 900-Number calls and other telephone-billed purchases. Under the terms of the rule itself, a review of the Rule is required to be initiated by the Commission prior to November 1997. As part of this review, the Commission published a notice in the Federal Register on March 12, 1997, requesting comments on, among other things, the economic impact of, and the continuing need for, the 900-Number Rule and the effect on the Rule of any technological or industry changes. The Commission also sought comments, pursuant to authority granted under the Telecommunications Act of 1996, on whether to expand the Rule to govern other similar audio information and entertainment services. Staff held a workshop-conference on June 19-20, 1997, during which members of the industry discussed issues raised in the comments, including billing and collection issues and possible ways to expand the definition of "pay-per-call services." Staff is preparing a recommendation to the Commission.

4549. TRADE REGULATION RULE CONCERNING THE USE OF NEGATIVE OPTION PLANS BY SELLERS IN COMMERCE

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 425

Legal Deadline: None

Abstract: The Trade Regulation Rule Concerning the Use of Negative Option Plans by Sellers in Commerce (Negative Option Rule) governs a type of selling technique known as a prenotification negative option plan. Under such a plan, a seller and a subscriber enter into a contractual agreement whereby the seller will periodically sell merchandise to the subscriber by shipping merchandise to the subscriber even though the subscriber has not affirmatively ordered the merchandise. The Negative Option Rule requires sellers who use prenotification negative option plans to disclose the material terms of the plans clearly and conspicuously in their promotional materials. The Rule requires, in part, that the seller send to the subscriber an announcement, which identifies the merchandise the seller intends to send to the subscriber. The seller will then send the merchandise and bill the subscriber for it, unless the subscriber instructs the seller by a certain date not to send the merchandise. A negative option plan will often require a subscriber to purchase a minimum quantity of merchandise, after which the subscriber may cancel the membership. As part of its systematic review of Commission rules and guides, the Commission has completed its review of this Rule. The Commission decided to retain the Rule in its present form with minor technical changes.

4550. RULES AND REGULATIONS UNDER THE HOBBY PROTECTION ACT (SECTION 610 REVIEW)

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 41 et seq

CFR Citation: 16 CFR 304

Legal Deadline: None

Abstract: The Rules and Regulations under the Hobby Protection Act require that all imitation numismatic and imitation political items sold in, or imported into, the United States be marked with the word "Copy" or the year of manufacture. An amendment to the Rule in 1988 permits manufacturers of miniature numismatic items to mark the word "Copy" in smaller dimensions than those required under the previous Rule. The Commission determined, at that time, that the amendment would facilitate compliance with the Rule and eliminate potential costs, in both time and resources, to industry and the Commission from individual variance applications for miniature numismatic items.

The Commission has conducted a review of this Rule under the Regulatory Flexibility Act, 5 USC 601 et seq., as amended by the Small Business Regulatory Enforcement Fairness Act of 1996. At the same time, and as part of its systematic review of all Commission rules and guides, the Commission requested comments on, among other things, the economic impact of, and the continuing need for, this Rule, possible conflict between the Rule and State, local and other Federal laws, and the effect on the Rule of any technological, economic, or other industry changes, with particular emphasis on the effect on small businesses.

Based on the record in this proceeding, the Commission has determined that the Rules successfully protect consumers from those who would try to pass off reproductions as originals and that the costs of compliance are not significant to either small entities or others.

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Ch. VII

Semiannual Regulatory Agenda

AGENCY: National Credit Union Administration (NCUA).

ACTION: Semiannual regulatory agenda.

SUMMARY: Pursuant to its ongoing policy of reviewing regulations, NCUA is publishing a list of current and projected rulemakings, reviews of existing regulations, and completed actions as of August 7, 1998. NCUA will also include this agenda in the Unified Agenda of Federal Regulatory and Deregulatory Actions.

DATES: This information is current as of August 7, 1998.

ADDRESSES: National Credit Union Administration, 1775 Duke Street, Alexandria, Virginia 22314-3428.

FOR FURTHER INFORMATION CONTACT: For each regulation listed, the person(s) named in the listing at the above address, unless otherwise noted, or listed telephone number.

SUPPLEMENTARY INFORMATION: The purpose of this agenda is to enable credit unions and the public to follow regulatory development and review at NCUA and participate in that process more effectively. The agenda is divided into three parts: (1) Actions completed since the last agenda; (2) actions proposed but not completed; and (3) actions planned but not yet proposed by the NCUA Board.

The agenda is published pursuant to NCUA Interpretive Ruling and Policy Statement Number 87-2 ("Developing and Reviewing Government Regulations," 54 FR 35231; September 18, 1987). Executive Order 12866, signed by President Clinton on September 30, 1993, requires independent executive agencies such as NCUA to publish a regulatory agenda. This agenda will be included in the next publication of the Unified Agenda of Federal Regulatory and Deregulatory Actions.

Approved by the NCUA Board on August 18, 1998.

Becky Baker,

Secretary of the Board.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
4551	Federal Credit Union Ownership of Fixed Assets	3133-AB90
4552	Management Official Interlocks	3133-AB93
4553	Federal Credit Union Bylaws	3133-AB94
4554	Federal Credit Union Chartering, Field of Membership Modifications, and Conversions	3133-AC02
4555	Change in Official or Senior Executive Officer in Credit Unions That Are Newly Chartered or Are in Troubled Condition	3133-AC03
4556	Fidelity Bond and Insurance Coverage of Federal Credit Unions	3133-AC04
4557	Purchase, Sale and Pledge of Eligible Obligations	3133-AC05
4558	Loans to Members and Lines of Credit to Members	3133-AC10

Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
4559	Member Business Loans	3133-AB91
4560	Organization and Operations of Federal Credit Unions; Trustees and Custodians of Pension Plans	3133-AC09

Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
4561	Involuntary Liquidation of Federal Credit Unions and Adjudication of Creditor Claims Involving Federally Insured Credit Unions in Liquidation	3133-AC06
4562	Federal Credit Union Insurance and Group Purchasing Activities	3133-AC07

Completed Actions

Sequence Number	Title	Regulation Identifier Number
4563	Golden Parachute and Indemnification Payments	3133-AB28

NCUA

Completed Actions (Continued)

Sequence Number	Title	Regulation Identifier Number
4564	Investment and Deposit Activities	3133-AC01

NATIONAL CREDIT UNION ADMINISTRATION (NCUA) — Proposed Rule Stage

4551. FEDERAL CREDIT UNION OWNERSHIP OF FIXED ASSETS

Priority: Info./Admin./Other

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 12 USC 1754(4)

CFR Citation: 12 CFR 701.36

Legal Deadline: None

Abstract: The current rule establishes a specific limitation on an FCU's investment in fixed assets at 5 percent of shares and retained earnings when an FCU's assets exceed $1 million. The proposal anticipates using a new fixed asset threshold based on an FCU's net capital. In addition, fixed asset waiver requests would need to be documented more fully than at present.

RIN: 3133–AB90

4552. MANAGEMENT OFFICIAL INTERLOCKS

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 3201 et seq; 12 USC 1757

CFR Citation: 12 CFR 711

Legal Deadline: None

Abstract: The current regulation will need to be amended to conform it to recent changes made to the Depository Institutions Management Interlocks Act (the Interlocks Act). The Interlocks Act was amended to raise the asset threshold for the prohibition against interlocks involving an institution with at least $1 billion in total assets and an institution with at least $500 million in total assets. The Interlocks Act also was amended to expand the exemptive authority of the OCC and other Federal banking agencies.

4553. FEDERAL CREDIT UNION BYLAWS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 12 USC 1758

CFR Citation: None

Legal Deadline: None

Abstract: The request for comments was issued to help guide the preparation of a proposed rule which would clarify, revise, and reorganize existing FCU bylaws and eliminate bylaws that are obsolete.

4555. CHANGE IN OFFICIAL OR SENIOR EXECUTIVE OFFICER IN CREDIT UNIONS THAT ARE NEWLY CHARTERED OR ARE IN TROUBLED CONDITION

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1752(5); 12 USC 1755; 12 USC 1756; 12 USC 1757; 12 USC 1759; 12 USC 1761a; 12 USC 1761b; 12 USC 1766; 12 USC 1767; 12 USC 1782; 12 USC 1787; 12 USC 1789

CFR Citation: 12 CFR 701.14

Legal Deadline: None

Abstract: This regulation was implemented in 1990. It sets forth the condition under which a newly chartered or troubled credit union must notify NCUA of any changes in its board of directors, committee members, or senior executive staff. The provisions relating to when the notice period begins for NCUA's review and the definition of a troubled federally insured state credit union have created some problems for NCUA staff. NCUA intends to clarify the notice provision and to define a federally insured State credit union as troubled if it receives a 4 or 5 CAMEL rating from NCUA or State Supervisory Authority.

Email: ogc@ncua.gov

RIN: 3133–AC04

4557. PURCHASE, SALE AND PLEDGE OF ELIGIBLE OBLIGATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 12 USC 1752(5); 12 USC 1755; 12 USC 1756; 12 USC 1757; 12 USC 1759; 12 USC 1761a; 12 USC 1761b; 12 USC 1766; 12 USC 1767; 12 USC 1782; 12 USC 1787; 12 USC 1789

CFR Citation: 12 CFR 701.23

Legal Deadline: None

Abstract: The regulation sets forth the requirements that a Federal credit union may purchase real estate loans from any source if it is granting real estate loans on an ongoing basis and the purchase will facilitate the packaging of a pool of loans for sale on the secondary market. The proposal clarifies that a pool must include a substantial portion of the Federal credit union loans and must be sold promptly. Further, the proposed rule explains when the purchase of a member loan is not the purchase of an eligible obligation, but rather the making of a direct loan.

Final Rule Stage

4559. MEMBER BUSINESS LOANS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 12 USC 1752(5); 12 USC 1755; 12 USC 1756; 12 USC 1757; 12 USC 1759; 12 USC 1761a; 12 USC 1761b; 12 USC 1766; 12 USC 1767; 12 USC 1782; 12 USC 1787; 12 USC 1789

CFR Citation: 12 CFR 701.21(h)

Legal Deadline: None

Abstract: NCUA proposes to update, clarify, and streamline its existing rules concerning member business loans and appraisals for federally insured credit unions. The intended effect of the proposal is to reduce regulatory burden, maintain safety and soundness, and expand the number and type of business loans a Federal credit union may grant its members.

Abstract: NCUA is adopting as final the interim final amendments to the investment regulation as issued last year. The final amendments revise the broker-dealer and safekeeping provisions. NCUA is also deleting the references to the High Risk Securities Test for Collateralized Mortgage Obligations and Real Estate Mortgage Investment in its regulations on investments and corporate credit unions. These amendments will clarify certain procedures related to credit unions' involvement with broker-dealers and safekeeping of securities.

National Indian Gaming Commission

Semiannual Regulatory Agenda

NATIONAL INDIAN GAMING COMMISSION (NIGC)

NATIONAL INDIAN GAMING COMMISSION

25 CFR Ch. III

Semiannual Regulatory Agenda

AGENCY: National Indian Gaming Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The National Indian Gaming Commission today is publishing an agenda of its open and anticipated rulemaking actions. The agenda is a general announcement to the public intended to provide notice of rulemaking actions in which the public may wish to participate. In the near future, the Commission intends to issue Notices of Proposed Rulemaking or Advance Notices of Proposed Rulemaking for rules concerning practice before the Commission; rules concerning hearings and appeals procedures; rules concerning enforcement; rules concerning definitions; rules revising the scope and review of management contracts; rules concerning net gaming revenue; rules revising tribal background investigation submission requirements and timing; rules concerning administrative fees; rules concerning public health and safety compliance; rules concerning compulsory process and testimony of employees; rules revising Freedom of Information Act Procedures; rules concerning gaming facility licensing standards; and rules concerning technical amendments to the Minimum Internal Control Standards. The Commission invites questions and public comment on individual agenda items.

FOR FURTHER INFORMATION CONTACT: Penny J. Coleman, National Indian Gaming Commission, 1441 L Street NW., 9th Floor, Washington, DC 20005, (202) 632-7003 (not a toll-free number).

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12866 "Regulatory Planning and Review" and the Regulatory Flexibility Act, 5 U.S.C. 605, executive agencies are required to publish semiannual regulatory agendas in the **Federal Register** in April and October of each year.

The regulations being considered by the Commission are not "significant" rules within the meaning of E.O. 12866, and no regulatory impact analysis is required. The Commission also has determined, under the Regulatory Flexibility Act, that the regulations under consideration will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Flexibility Analysis is required. The proposed rules are not covered under section 202 of the Unfunded Mandates Reform Act (Pub. L. 104-4), as they are not Federal mandates that may result in an expenditure of $100 million or more in any 1 year by State, local, or tribal governments, in the aggregate, or the private sector. Further, these proposed rules are not considered major under 5 U.S.C. 801 enacted by Public Law 104-121 and, therefore, are not subject to section 801's 60-day deferral requirement.

For this edition of the Commission's regulatory agenda, the most important significant regulatory actions are included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

Tadd M. Johnson,

Chairman of the National Indian Gaming Commission.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
4565	Game Classification **(Reg Plan Seq. No. 172)**	3141-AA12
4566	Self-Regulation Certification for Class III Gaming Operations **(Reg Plan Seq. No. 173)**	3141-AA22

4580. • TECHNICAL AMENDMENTS TO THE MINIMUM INTERNAL CONTROL STANDARDS

Priority: Substantive, Nonsignificant

Legal Authority: 25 USC 2702; 25 USC 2706(b)(10)

CFR Citation: 25 CFR 542

Legal Deadline: None

Abstract: The National Indian Gaming Commission anticipates that there will be a need to make technical changes to the minimum internal control standards to respond to changes in technology and the gaming industry. Because these standards are established by Federal regulation, it is necessary to make the changes to the current standards. The benefit is better internal control standards and the anticipated costs are minimal.

Nuclear Regulatory Commission

Semiannual Regulatory Agenda

NUCLEAR REGULATORY COMMISSION (NRC)

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I

Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: Nuclear Regulatory Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing its semiannual regulatory agenda in accordance with Public Law 96-354 "The Regulatory Flexibility Act" and Executive Order 12866 "Regulatory Planning and Review." The agenda is a compilation of all rules on which the NRC has recently completed action or has proposed or is considering action. This issuance updates any action occurring on rules since publication of the last semiannual agenda on April 27, 1998 (63 FR 23040).

ADDRESSES: Comments on any rule in the agenda may be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff. Comments may also be hand delivered to the One White Flint North Building, 11555 Rockville Pike, Rockville, Maryland, between 7:30 a.m. and 4:15 p.m., Federal workdays. Comments received on rules for which the comment period has closed will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before the closure dates specified in the agenda.

The agenda and any comments received on any rule listed in the agenda are available for public inspection and copying for a fee at the Nuclear Regulatory Commission's Public Document Room, 2120 L Street NW. (Lower Level), Washington, DC 20555-0001. Single copies of the NRC agenda can be purchased from the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, DC 20013-7082. Customers may call (202) 512-2249.

FOR FURTHER INFORMATION CONTACT: For further information concerning NRC rulemaking procedures or the status of any rule listed in this agenda, contact David L. Meyer, Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone (301) 415-7162, e-mail dlm1@nrc.gov. Persons outside the Washington, DC, metropolitan area may call, toll-free: (800) 368-5642. For further information on the substantive content of any rule listed in the agenda, contact the individual listed under the heading "Agency Contact" for that rule.

SUPPLEMENTARY INFORMATION: The information contained in this semiannual publication is updated to reflect any action which has occurred on rules since publication of the last NRC semiannual agenda on April 27, 1998 (63 FR 23040). Within each group, the rules are ordered according to the Regulation Identifier Number (RIN).

The information in this agenda has been updated through August 28, 1998. The date for the next scheduled action under the heading "Timetable" is the date the rule is scheduled to be published in the **Federal Register**. The date is considered tentative and is not binding on the Commission or its staff. The agenda is intended to provide the public early notice and opportunity to participate in the NRC rulemaking process. However, the NRC may consider or act on any rulemaking even though it is not included in the agenda.

Rulemakings Approved by the Executive Director for Operations (EDO)

The EDO initiated a procedure for review of the regulations being prepared by staff offices that report to him to ensure that staff resources are allocated most effectively to achieve NRC's regulatory priorities. This procedure requires EDO approval before staff resources may be expended on the development of any new rulemaking. Furthermore, all existing rules must receive EDO approval prior to the commitment of additional resources.

The NRC agenda lists rulemaking actions. Of these, one rulemaking item is considered to be priority or major as defined in section 3(f) of Executive Order 12866. Seven rules potentially will have a "significant economic impact on a substantial number of small entities" as defined in the Regulatory Flexibility Act.

For this edition of NRC's regulatory agenda, the most important significant regulatory action is included in The Regulatory Plan, which appears in part II of this issue of the **Federal Register**. The Regulatory Plan entry is listed in the table of contents below and is denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

Dated at Rockville, Maryland, this 27th day of August 1998.

For the Nuclear Regulatory Commission.

Michael T. Lesar,

Rules and Directives Branch, Division of Administrative Services, Office of Administration.

Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
4582	Domestic Licensing of Special Nuclear Material—Revision	3150-AF22
4583	Nuclear Regulatory Commission Acquisition Regulation	3150-AF52
4584	Medical Uses of Byproduct Material	3150-AF74
4585	Certification Amendment Process	3150-AF85
4586	Criticality Accident Requirements	3150-AF87
4587	Emergency Planning Requirements for Permanently Shutdown Nuclear Power Plant Sites	3150-AF92
4588	Expand Applicability To Include Certificate Holders and Applicants and Their Contractors and Subcontractors	3150-AF93
4589	Changes, Tests, and Experiments	3150-AF94
4590	Requirements for Monitoring the Effectiveness of Maintenance at Nuclear Power Plants	3150-AF95
4591	Conformance to National Policies for Access to and Protection of Classified Information	3150-AF97

NRC

Proposed Rule Stage (Continued)

Sequence Number	Title	Regulation Identifier Number
4592	Elimination of Reporting Requirement and 30-Day Hold in Loading Spent Fuel After Preoperational Testing of Independent Spent Fuel or Monitored Retrievable Storage Installations	3150-AG02
4593	Requirements for Certain Generally Licensed Industrial Devices Containing Byproduct Material	3150-AG03
4594	Disposal of High-Level Radioactive Waste in a Proposed Geologic Repository at Yucca Mountain, Nevada	3150-AG04
4595	Environmental Impacts of High-Level Waste Transportation	3150-AG05
4596	Requirements for the Possession of Industrial Devices Containing Byproduct Material	3150-AG06
4597	Availability of Public Records at NRC Public Document Rooms	3150-AG07
4598	Revision of Fee Schedules; 100 Percent Fee Recovery, FY 1999 **(Reg Plan Seq. No. 175)**	3150-AG08
4599	Streamlined Hearing Process for NRC Approval of License Transfers	3150-AG09

References in boldface appear in the Regulatory Plan in Part II of this issue of the **Federal Register**.

Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
4600	Elimination of Inconsistencies Between NRC Regulations and EPA HLW Standards	3150-AC03
4601	Requirements for Possession of Industrial Devices Containing Byproduct Material	3150-AD34
4602	Industry Codes and Standards; Amended Requirements	3150-AE26
4603	Clarification of Assessment Requirements for Siting Criteria and Performance Objectives	3150-AE40
4604	Fitness for Duty	3150-AF12
4605	Reporting Reliability and Availability Information for Risk-Significant Systems and Equipment	3150-AF33
4606	Initial Licensed Operator Examination Requirements	3150-AF62
4607	Audit Frequency for Emergency Planning and Security	3150-AF63
4608	Financial Protection Requirements for Permanently Shutdown Nuclear Power Reactors	3150-AF79
4609	Miscellaneous Changes	3150-AF80
4610	Respiratory Protection and Controls to Restrict Internal Exposure, Subpart H and Appendix A	3150-AF81
4611	Procedures Applicable to Proceedings for the Issuance of Licensees for the Receipt of High-Level Radioactive Waste at a Geologic Repository	3150-AF88
4612	Codes and Standards; IEEE National Consensus Standard	3150-AF96

Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
4613	Addition of Radon-222 and Technetium-99 Values to Table S-3 and Revisions Resulting From Consideration of Higher-Burnup Fuel	3150-AA31
4614	Criteria for an Extraordinary Nuclear Occurrence	3150-AB01
4615	Availability of Official Records	3150-AC07
4616	Comprehensive Quality Assurance in Medical Use and a Standard of Care	3150-AC42
4617	Requirements Concerning the Accessible Air Gap for Generally Licensed Devices	3150-AD82
4618	Standardized Plant Designs, Early Review of Site Suitability Issues; Clarifying Amendments	3150-AE25
4619	Distribution of Source and Byproduct Material: Licensing and Reporting Requirements	3150-AE33
4620	Disposal by Release Into Sanitary Sewerage	3150-AE90
4621	Shutdown and Fuel Storage Pool Operation at Nuclear Power Plants	3150-AE97
4622	Steam Generator Tube Integrity for Operating Nuclear Power Plants	3150-AF04
4623	Performance-Oriented Requirements for Fire Protection of Nuclear Power Facilities	3150-AF29
4624	Revision to Nuclear Power Reactor Decommissioning Cost Requirements	3150-AF40
4625	Submittal Procedures for Documents	3150-AF61
4626	Modification to Event Reporting Requirements for Power Reactors	3150-AF98

NRC

Completed Actions

Sequence Number	Title	Regulation Identifier Number
4627	Fitness for Duty (Scope Change)	3150-AF13
4628	Physical Protection for Spent Nuclear Fuel and High-Level Radioactive Waste	3150-AF32
4629	Revision to Nuclear Power Reactor Decommissioning Financial Assurance Implementation Requirements	3150-AF41
4630	Minor Corrections and Clarifying Changes and a Minor Policy Change	3150-AF46
4631	Criteria and Procedures for Determining Eligibility for Access to Restricted Data or National Security Information or an Employment Clearance	3150-AF48
4632	Requirements for Shipping Packages Used to Transport Vitrified Wastes Containing Plutonium	3150-AF59
4633	Self-Guarantee of Decommissioning Funding by Non-Profit and Non-Bond Issuing Licensees	3150-AF64
4634	Codes and Standards; IEEE National Consensus Standard	3150-AF73
4635	Revision of Prototype Testing Requirements for Dials, Hands, and Pointers Containing Tritium	3150-AF76
4636	License Term for Medical Licenses	3150-AF77
4637	Access to Secret Restricted Data	3150-AF82
4638	Revision of Fee Schedules; 100 Percent Fee Recovery, FY 1998	3150-AF83
4639	Adoption of Part 20 Dose Limits and Dose Calculational Methodology in Part 72	3150-AF84
4640	Access Authorization Fee Schedule for Licensee Personnel	3150-AF90
4641	Revision of Dose Limit for Members of the Public Exposed to Hospitalized Radiation Patients	3150-AF91
4642	Transfer for Disposal and Manifests; Minor Technical Conforming Amendment	3150-AF99
4643	Physical Protection for Spent Nuclear Fuel and High-Level Radioactive Waste: Corrective Amendment	3150-AG00
4644	Financial Protection Requirements and Indemnity Agreements	3150-AG01

NUCLEAR REGULATORY COMMISSION (NRC) — Proposed Rule Stage

4582. DOMESTIC LICENSING OF SPECIAL NUCLEAR MATERIAL—REVISION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 2282

CFR Citation: 10 CFR 70

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to provide a risk-informed performance-based regulation for certain licensees authorized to possess a critical mass of special nuclear material. Concurrent with this amendment, companion support guidance documents are being developed for issuance. The proposed rule would require affected licensees to conduct an integrated safety analysis to identify potential accidents at the facility and the items relied on for safety. While the NRC believes that fuel facilities operate with an adequate degree of safety, the safety bases for licensing and inspection may have significant uncertainties.

4583. NUCLEAR REGULATORY COMMISSION ACQUISITION REGULATION

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 41 USC 251 note; 42 USC 251 note; 40 USC 1401 note

CFR Citation: 48 CFR 20

Legal Deadline: None

Abstract: The proposed rule would amend the Nuclear Regulatory Commission Acquisition Regulation (NRCAR) for the procurement of goods and services within the NRC to satisfy the particular needs of the agency. The proposed rule would incorporate streamlining and simplification methods identified under the NRC's Procurement Reinvention Laboratory (PRL) and legislated under the Federal Acquisition Streamlining Act of 1994 (FASA), the Federal Acquisition Reform Act of 1996 (FARA), and the Information Technology Management Reform Act (ITMRA) of 1996. The intent of the FASA, FARA, and ITMRA is to streamline procurement processes within the Federal Government. Implementing instructions are needed for some of these processes. In addition, the NRC's PRL will require the NRC to streamline and simplify procedures in the NRCAR wherever possible.

Email: mls2@nrc.gov

RIN: 3150–AF52

4584. MEDICAL USES OF BYPRODUCT MATERIAL

Priority: Other Significant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5841

CFR Citation: 10 CFR 35

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations for the use of radionuclides in medicine. The process started with NRC's 1993 internal senior management review report; continued with the 1996 independent external review by the National Academy of Sciences, Institute of Medicine; and culminated with NRC's Strategic Assessment process, which addressed medical oversight. As a result of these actions, the Commission directed the staff to restructure part 35 into a more risk-oriented, performance-based regulation that focuses on those procedures that pose the highest risk. Alternative regulatory oversights will be considered for those diagnostic procedures that are consistent with the lower overall risk of these procedures. Other issues to be considered during the rulemaking include: the best way to capture not only relevant safety-significant events, but also precursor events; revision of the quality management program to focus on those requirements that are essential for patient safety; the viability of using or referencing available industry and training and experience for authorized users, radiation safety officers, and medical physicists. Public input on regulatory alternatives for these and other crosscutting issues were solicited via the Internet, Federal Register notices, and public workshops.

RIN: 3150–AF74

4585. CERTIFICATION AMENDMENT PROCESS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 2297b-11; 42 USC 2297f; 42 USC 5841; 42 USC 5842; 42 USC 5845; 42 USC 5846; 42 USC 2243(a); 42 USC 5851; 42 USC 2243(f); 42 USC 2152

CFR Citation: 10 CFR 76

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations that apply to gaseous diffusion plants. In 1994, these regulations established the process by which the NRC would assume regulatory authority for the Paducah and Portsmouth Gaseous Diffusion Plants. These plants first came under NRC oversight on March 3, 1997. While implementing the initial certification and amendment processes specified in the 1994 regulations, the NRC staff identified several areas in these processes that should be revised and improved so that they are more effective and efficient. This proposed rulemaking would modify the process for certificate renewals, establish a process for certificate amendment comparable to the process currently used to amend a fuel cycle license, revise the appeal process for amendments, eliminate the significant designation for amendments, simplify the criteria for persons who are eligible to file a petition for review of an amendment action, remove references to the initial application because the initial certificates have been issued, and lengthen the time periods associated with filing a petition for review.

RIN: 3150–AF85

4586. CRITICALITY ACCIDENT REQUIREMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2132; 42 USC 2133; 42 USC 2134; 42 USC 2135; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2236; 42 USC 2239; 42 USC 2282

CFR Citation: 10 CFR 50; 10 CFR 70

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to provide light-water nuclear power reactor licensees with greater flexibility in meeting the requirement that licensees authorized to possess more than a small amount of special nuclear material maintain a criticality monitoring system in each area where the material is handled, used, or stored. This action is taken as a result of the experience gained in processing and evaluating a number of exemption requests from power reactor licensees and NRC's safety assessments in response to these requests that

NRC

Proposed Rule Stage

concluded that the likelihood of criticality was negligible.

Timetable:

Action	Date	FR Cite

RIN: 3150–AF87

4587. EMERGENCY PLANNING REQUIREMENTS FOR PERMANENTLY SHUTDOWN NUCLEAR POWER PLANT SITES

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations by providing relief from emergency planning requirements for permanently shutdown nuclear power plant sites based on the reduced risks associated with the configuration of the stored fuel and the passage of time since power operation. These factors, under specified conditions, result in significantly reduced accident risk and consequences, therefore, not warranting emergency plans devised for full power operations.

4588. EXPAND APPLICABILITY TO INCLUDE CERTIFICATE HOLDERS AND APPLICANTS AND THEIR CONTRACTORS AND SUBCONTRACTORS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 72

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations by placing appropriate requirements on certificate holders, and applicants, as well as their contractors and subcontractors. This should enhance the staff's capability to take enforcement action in the form of Notice of Violations (NOV) rather than administrative action in the form of Notice of Non-Conformance (NNC) when acceptable requirements are violated. The staff believes that issuance of NOVs will clearly identify that a violation of a legally binding requirement has occurred.

4589. CHANGES, TESTS, AND EXPERIMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations concerning authority of licensees for production or utilization facilities to make changes to their facilities or procedures, without prior NRC approval. The proposed rule would clarify the criteria that determine when prior approval is needed. The purpose of this rulemaking is to resolve differences in interpretation of requirements within the nuclear community so that changes which might affect the basis for licensing are reviewed before implementation, without also subjecting less significant changes to the license amendment review process. In an SRM dated April 25, 1997, the Commission directed the staff to develop a rulemaking plan that would allow changes involving small or negligible increases in probability of occurrence or consequences of accidents or malfunctions not to require prior approval. The staff recommended rulemaking on this issue in SECY-97-205, dated September 10, 1997, and is awaiting Commission direction.

4590. REQUIREMENTS FOR MONITORING THE EFFECTIVENESS OF MAINTENANCE AT NUCLEAR POWER PLANTS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

NRC

Proposed Rule Stage

Abstract: The Commission has directed the staff to prepare a modification to the maintenance rule to require that safety assessments be taken into account before performing maintenance activities. Currently, the rule recommends (vs requires) that safety assessment be performed for preventive maintenance activities. The intent of this part of the rule is to assure that the cumulative impact of out-of-service equipment on the performance of safety functions does not result in the plant being placed in risk-significant configurations. Results of the staff's maintenance rule baseline inspections indicated that many licensee's processes for conducting safety assessment are inadequate and in some cases, implementation of these processes were not followed during preventive maintenance activities and resulted in undesirable plant configurations. The proposed amendment would be designated as section 50.65(a)(4). Additionally, the rule would be changed to add that the requirements are applicable during all conditions of plant operation, including normal shutdown conditions.

4591. • CONFORMANCE TO NATIONAL POLICIES FOR ACCESS TO AND PROTECTION OF CLASSIFIED INFORMATION

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2165; 42 USC 220; 42 USC 2273; 42 USC 5841; EO 12829; EO 12958; EO 10865

CFR Citation: 10 CFR 10; 10 CFR 11; 10 CFR 25; 10 CFR 95

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations by conforming NRC regulations to national requirements for the protection of and access to classified National Security Information and Restricted Data, including revised personnel security due process procedures; a new requirement for a facility clearance for those licensees or others who require access to classified information at a facility other than their own; additional information on the scope and reporting requirements for the Foreign Ownership, Control or Influence (FOCI) program; a requirement for a foreign visitor control program; a change to the period between reinvestigations for "L" and "R" access authorizations from five years to ten years; a change in the investigative requirements for "Q", "L", "U", and "R" access authorizations; changes to the security classification markings to conform to Executive Order 12958; and greater specificity as to when particular reports are required. Also, the proposed rule would include administrative matters such as modified definitions to reflect a change in responsibility for certain decisions from the Executive Director for Operations to the Deputy Executive Director for Management Services and revisions to a number of definitions in all four parts to reflect a change in the name of the Division of Security to the Division of Facilities and Security.

Additionally, the proposed rule republishes for additional public comment sections 25.15 and 95.35, which address the personnel security investigative requirements for access to Secret Restricted Data. These proposed changes were originally published as a proposed rulemaking on August 5, 1996 (61 FR 40555), and would have permitted access to most Secret Restricted Data, other than that defined as "Critical Secret Restricted Data" (that term is no longer used but the concept continues to be used for selected types of Secret Restricted Data) in the NISPOM and its supplement, with an "L" clearance based on a National Agency Check with Law and Credit investigation. This republication now provides interested parties an equal opportunity to address the issues and provide supporting rationale for their recommendations and comments.

4592. • ELIMINATION OF REPORTING REQUIREMENT AND 30-DAY HOLD IN LOADING SPENT FUEL AFTER PREOPERATIONAL TESTING OF INDEPENDENT SPENT FUEL OR MONITORED RETRIEVABLE STORAGE INSTALLATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 072

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations by eliminating a reporting requirement and 30-day hold in loading spent reactor fuel into an Independent Spent Fuel Storage Installation (ISFSI) following completion of preoperational testing. The staff considers the reporting requirements and hold period unnecessary because the NRC has an extensive oversight presence during preoperational testing looking at the acceptance criteria and test results in real time. The NRC staff proposes to remove these requirements.

4593. • REQUIREMENTS FOR CERTAIN GENERALLY LICENSED INDUSTRIAL DEVICES CONTAINING BYPRODUCT MATERIAL

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 30; 10 CFR 31; 10 CFR 32; 10 CFR 170; 10 CFR 171

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations for certain industrial devices containing byproduct material to include more specific provisions for a registration and accounting program including associated annual fees and modification of the quarterly transfer reporting requirements for manufacturers and initial distributors of these industrial devices. The rule would also consider other recommendations made by an NRC Agreement State Working Group in NUREG-1551, such as additional labeling requirements. The proposed rule is intended to ensure that general licensees are aware of and understand the requirements for the possession of devices containing byproduct material and allow NRC to account for devices which have been distributed for use under the general license. Better awareness on the part of general licensees of their responsibilities would help to ensure that the general licensees comply with the requirements for proper handling and disposal of generally licensed devices and should help reduce the potential for incidents that could result in unnecessary radiation exposure to the public as well as contamination of property.

4594. • DISPOSAL OF HIGH-LEVEL RADIOACTIVE WASTE IN A PROPOSED GEOLOGIC REPOSITORY AT YUCCA MOUNTAIN, NEVADA

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 063

Legal Deadline: None

Abstract: In a Staff Requirements Memorandum dated March 6, 1998, the Commission directed the staff to pursue development of new, site-specific regulations for Yucca Mountain, consistent with the Energy Policy Act of 1992 and the 1995 findings and recommendations of the National Academy of Sciences. The proposed rule would focus on the identification of a single, overall performance measure for Yucca Mountain that is either risk- or dose-based. The level of protection provided to the public by such a measure may be more easily communicated to the public than the limit on cumulative release upon which current NRC generic regulations at part 60 are based. The staff's strategy for preparing the Yucca Mountain-specific regulations is described in SECY-97-300, dated December 24, 1997.

4595. • ENVIRONMENTAL IMPACTS OF HIGH-LEVEL WASTE TRANSPORTATION

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 051

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to reflect the generic and cumulative environmental impacts of transportation of high-level waste (HLW) in the vicinity of a HLW repository. This rulemaking would address the environmental impacts of the use of higher burn-up fuel. Further, the impact of plant associated traffic on local highway service levels during the renewal term would be changed from Category 1 to Category 2 as it should have been designated in the initial license renewal rulemaking, based on the analysis described in NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (May 1996).

4596. • REQUIREMENTS FOR THE POSSESSION OF INDUSTRIAL DEVICES CONTAINING BYPRODUCT MATERIAL

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 031

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations governing the use of byproduct material in certain measuring, gauging, or controlling devices to explicitly require general licensees who possess these devices to provide the NRC with information concerning the devices. The NRC intends to use this provision to provide legal basis to request information from licensees regarding accountability of devices containing certain quantities of specific radionuclides that present a higher risk (compared to other generally licensed devices) of exposure to the public or property damage if a device were lost and initiate an annual registration program. The rule is intended to ensure that general licensees are aware of and understand the requirements for the possession of devices containing byproduct material and can account for their devices. Better awareness on the part of these licensees of their responsibilities would help to ensure that they comply with the requirements for proper handling and disposal of generally licensed devices and should help reduce the potential for incidents that could result in unnecessary radiation exposure to the public as well as contamination of property.

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations regarding public availability of NRC records. The NRC is establishing an Agencywide Documents Access and Management System (ADAMS) that will allow for the electronic submission, storage, and retrieval of NRC official records. After ADAMS becomes operational, NRC will discontinue furnishing paper and microfiche copies of its publicly available records to the NRC Public Document Room (PDR) and Local Public Document Rooms (LPDRs). ADAMS will enable the NRC to make its documents publicly available electronically on the NRC Internet website, http://www.nrc.gov. When the public is able to obtain paper copies of the new electronic records by printing them from the NRC website, or by ordering them from the NRC PDR directly from the NRC website, or by e-mail, fax, or telephone, the NRC LPDR program will be discontinued. The projected date for making NRC documents available electronically through the NRC website is July 1, 1999.

4599. • STREAMLINED HEARING PROCESS FOR NRC APPROVAL OF LICENSE TRANSFERS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 002; 10 CFR 051

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations that would provide specific uniform procedures and rules of practice for handling requests for hearings associated with license transfer applications involving both material and reactor licensees. Conforming amendments are also made to certain other parts of the Commission's regulations. This new provision would provide for public participation and opportunity for an informal hearing on matters relating to license transfers, specifies procedures for filing and docketing applications for license transfers, and assigns appropriate authorities for issuance of administrative amendments to reflect approved license transfers. This rulemaking would also add a categorical exclusion that would permit processing of transfer applications without preparation of Environmental Assessments.

NUCLEAR REGULATORY COMMISSION (NRC) — Final Rule Stage

4600. ELIMINATION OF INCONSISTENCIES BETWEEN NRC REGULATIONS AND EPA HLW STANDARDS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 60

Legal Deadline: None

Abstract: The proposed rule would have eliminated several inconsistencies with the generic EPA standards to be developed for the disposal of HLW in deep geologic repositories. The Nuclear Waste Policy Act of 1982 (NWPA) directs the NRC to issue criteria for the licensing of HLW geologic repositories. Section 121(c) of this Act states that the criteria for the licensing of HLW geologic repositories must be consistent with these standards.

The proposed rule was necessary to eliminate several inconsistencies with the EPA standards, thus fulfilling the statutory requirement. However, most recently, Congress passed the Energy Policy Act of 1992 (EnPA), which requires EPA to issue radiation standards for the proposed geologic repository at Yucca Mountain, based on and consistent with the 1995 findings and recommendations of the National Academy of Sciences (NAS). Under EnPA, NRC is also required to develop site-specific disposal regulations that would apply solely to geologic repository at Yucca Mountain. NAS published its findings and recommendations in 1995. At present, the NRC staff has proposed and is implementing a strategy for developing site-specific disposal regulations that would apply solely to the proposed geologic repository at Yucca Mountain, consistent with the 1995 NAS findings and recommendations, and is deferring the updating/revising of 10 CFR part 60 generic requirements to a later date. The NRC staff's strategy for developing the site-specific disposal regulations for Yucca Mountain can be found in a Commission paper, designated SECY-97-300, dated December 24, 1997. This strategy was approved by the Commission in a Staff Requirements Memorandum dated March 6, 1998. Because the NRC is developing site-specific disposal regulations for Yucca Mountain, Nevada, consistent with the Energy Policy Act of 1992, the staff is planning to withdraw this proposed rulemaking. These site-specific disposal regulations will be addressed in another rulemaking.

4601. REQUIREMENTS FOR POSSESSION OF INDUSTRIAL DEVICES CONTAINING BYPRODUCT MATERIAL

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2111; 42 USC 2114; 42 USC 2201

CFR Citation: 10 CFR 31; 10 CFR 32

Legal Deadline: None

Abstract: The proposed rule would have amended the Commission's regulations for the possession of industrial devices containing byproduct material to require device users to report to the NRC initially and then on a periodic basis. The Commission has reconsidered these issues with the help of an NRC-Agreement State Working Group. The subject matter of this rulemaking will be addressed by another rulemaking with the same title, which is scheduled to be published in November 1998. A subsequent, more comprehensive rulemaking in this area is also planned. Therefore, this proposed rule is going to be withdrawn.

4602. INDUSTRY CODES AND STANDARDS; AMENDED REQUIREMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations that mandate use of section III of the ASME Boiler and Pressure Vessel Code (ASME BPV Code) for construction of Class 1, 2, and 3 components in nuclear power plants, and use of section XI of the ASME BPV Code for inservice inspection (ISI) and inservice testing (IST) of those components. Section 50.55a requires that each licensee update its ISI and IST programs every 120 months to conform to the latest edition of the ASME BPV Code endorsed by the NRC in that section of the regulations. The rulemaking would also include expedited implementation of section XI appendix VIII, Performance Demonstration for Ultrasonic Examination Systems. In addition, the proposed rule would incorporate by reference the ASME Operation and Maintenance (OM) Code to replace the section XI requirements for IST. The latter action is made necessary by the ASME Code changes that transferred all responsibility for IST from section XI to the ASME Operation and Maintenance Committee.

4603. CLARIFICATION OF ASSESSMENT REQUIREMENTS FOR SITING CRITERIA AND PERFORMANCE OBJECTIVES

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 10101; PL 97-425

CFR Citation: 10 CFR 60

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations concerning regulatory requirements for licensing of high-level waste geologic repositories. A June 30, 1995, Staff Requirements Memorandum, SECY-95-019, disapproved issuance of the proposed final amendments at this time because of significant Congressional activity with regard to the Nuclear Waste Policy Act, and directed staff to reconsider the need for the amendments or guidance upon determining that the legislative situation has stabilized. Because Congressional activity in this area is ongoing and because the NRC is developing site-specific disposal regulations for Yucca Mountain, Nevada, consistent with the Energy Policy Act of 1992, the staff is planning to withdraw this proposed rulemaking.

4604. FITNESS FOR DUTY

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 26

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's fitness-for-duty regulations. This proposed rule would also address the petition for rulemaking submitted by Virginia Electric and Power Company (VEPCO) (PRM-26-1), and address the Regulatory Review Group items on audit frequency and annual submittal of data. VEPCO requested that the Commission amend its fitness-for-duty regulations to change the frequency that licensees are required to audit their fitness-for-duty programs from annually to biennially. The Commission and the EDO approved the staff proposals in SECY-92-308, but asked that the staff resubmit the proposed rule to address a backfit analysis. The staff proposals were submitted to the Commission in SECY-95-262 in October 1995, and were published in the Federal Register on May 9, 1996 (61 FR 21105). The public comment period closed on August 7, 1996. Approximately 1000 comments were received from public meetings and from 37 individuals. The staff met with the Advisory Committee on Reactor Safeguards (ACRS) in July 1997 to discuss the revised rule. The staff is preparing an analysis of the application of the backfit rule to each proposed change to facilitate Commission understanding of the issues. The staff also plans to meet with the ACRS to review generic requirements before submitting the rulemaking package to the EDO in October 1998.

4605. REPORTING RELIABILITY AND AVAILABILITY INFORMATION FOR RISK-SIGNIFICANT SYSTEMS AND EQUIPMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would have amended the Commission's regulations to require that licensees for commercial nuclear power reactors report summary reliability and availability data for risk-significant systems and equipment to the NRC. The proposed rule would also have required licensees to maintain onsite, and to make available for NRC inspection, records and documentation that provide the basis for the summary data reported to the NRC. The Commission has decided to accept industry's proposed voluntary alternative to the rule, and plans to withdraw this proposed rule.

4606. INITIAL LICENSED OPERATOR EXAMINATION REQUIREMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in

the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 55

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to require power reactor facility licensees to prepare the written examinations and operating tests, and to proctor and grade the written examinations, that the NRC uses to license operators and senior operators at those facilities. The rule will also require the NRC to review and approve each examination and test before it is given and preserve the NRC's authority to prepare the examinations and tests, as necessary, to maintain examination quality and staff proficiency. This rule is not expected to affect reactor safety.

Although a 1994 industry proposal to implement such a program on a voluntary basis was rejected by the NRC, subsequent budget reductions prompted the NRC to reconsider its position. In 1995, the Commission approved a voluntary pilot program to evaluate the revised examination process and, in 1996, directed the staff to initiate the subject rulemaking. The results of the pilot examinations conducted through the end of FY 1997 are consistent with results of NRC-prepared examinations conducted before and since initiating the pilot program, and voluntary participation in the program has allowed the NRC to eliminate approximately $3 million per year in contractor support for the operator licensing programs. This rule will enable facility licensees to exercise more control over the cost of licensing operators at their facilities. Some licensees have saved money during the pilot program, but others have had more costly examinations, largely because the examinations they submitted for NRC review and approval required extensive revisions to achieve NRC standards for quality and level of difficulty.

4607. AUDIT FREQUENCY FOR EMERGENCY PLANNING AND SECURITY

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations by changing the frequency with which licensees conduct independent reviews, and audits of their safeguard contingency plans, security programs and emergency preparedness programs. The regulations would be revised to require that licensees conduct program reviews and audits at least every 24 months. The proposed rule would also clarify that the necessity for more frequent, focused audits be based on an assessment by the licensee against performance indicators or a significant change in personnel, procedures, equipment, or facilities. The proposed changes would promote performance-based, rather than compliance-based, review and audit activities. Also, the proposed changes would clarify that programs must be reviewed and audited following a significant change in personnel, procedures, or equipment as soon as reasonably practicable, but no later than 12 months after the changes. The purpose of these focused audits would be to ensure that changes have not adversely affected the operation of the particular program element or function in question. This proposed rule also addresses PRM-50-59 and PRM-50-60 submitted by Virginia Electric and Power Company.

4608. FINANCIAL PROTECTION REQUIREMENTS FOR PERMANENTLY SHUTDOWN NUCLEAR POWER REACTORS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50; 10 CFR 140

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to allow nuclear reactor licensees to reduce onsite and offsite liability coverage during permanent shutdown of the reactors if they meet specified reactor configurations. This proposed amendment would reduce the level of insurance coverage commensurate with the risk reduction after the appropriate spent fuel cooling period following permanent shutdown of the reactor. This rule will also address a petition for rulemaking submitted by the North Carolina Public Utility Commission (PRM-50-57).

4609. MISCELLANEOUS CHANGES

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 72

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to correct a number of inconsistencies and clarify the applicability of several sections of part 72. The proposed rule would differentiate the requirements for the storage of spent fuel under wet and dry conditions, clarify requirements for the content and submission of various reports and specify that quality assurance records must be maintained as permanent records. Also, the Purpose and Scope would be amended to reference the spent fuel storage cask approval process and to delete obsolete information.

4610. RESPIRATORY PROTECTION AND CONTROLS TO RESTRICT INTERNAL EXPOSURE, SUBPART H AND APPENDIX A

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2073; 42 USC 2093; 42 USC 2095; 42 USC 2111; 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2236

CFR Citation: 10 CFR 20

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to incorporate into part 20 an industry standard developed by the American National Standards Institute (ANSI) standard Z88.2-1992, "American National Standard Practice for Respiratory Protection." The proposed changes would eliminate the unnecessary and detrimental use of respirators by applying ALARA principles to the sum of the Deep Dose Equivalent and the Committed Effective Dose Equivalent, or the Total Effective Dose Equivalent. The use of process or engineering controls, decontamination of work areas, access control, and other procedures are stressed instead of the automatic use of respiratory protection devices, which tend to increase external dose and stress.

Also, the proposed rulemaking would allow the use of new respiratory protection devices that have been proven effective, discourage the use of other devices that are now considered less effective, adopt new Assigned Protection Factors based on ANSI determinations and revise respiratory protection procedures such as fit testing to reflect current industry good practice.

4611. PROCEDURES APPLICABLE TO PROCEEDINGS FOR THE ISSUANCE OF LICENSEES FOR THE RECEIPT OF HIGH-LEVEL RADIOACTIVE WASTE AT A GEOLOGIC REPOSITORY

Priority: Other Significant

Legal Authority: 42 USC 2201; 42 USC 5841; 5 USC 552

CFR Citation: 10 CFR 2

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations regarding the licensing proceeding on the disposal of high-level radioactive waste at a geologic repository (HLW proceeding). The proposed amendments are intended to allow application of technological developments that have occurred since the original rule was adopted in 1989, while achieving the original goals of facilitating the Commission's ability to comply with the schedule for decision on the construction authorization for the repository contained in section 114(d) of the Nuclear Waste Policy Act, and providing for a thorough technical review of the license application and equitable access to information for the parties to the hearing.

NRC

Final Rule Stage

4612. • CODES AND STANDARDS; IEEE NATIONAL CONSENSUS STANDARD

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to incorporate by reference IEEE Std. 603-1991, "Criteria for Safety Systems for Nuclear Power Generating Stations," a national consensus standard for power, instrumentation, and control portions of safety systems in nuclear power plants. This action is necessary to endorse the latest version of this national consensus standard in NRC's regulations. The Commission published a direct final rule on October 17, 1997 (62 FR 53933). However, the direct final rule was withdrawn due to the significant number of adverse comments received and has been revised. Because the rule was significantly revised, it is being reissued as a proposed rule.

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The advance notice of proposed rulemaking (ANPRM) was published to request public comment on the Commission's event reporting requirements for nuclear power reactors contained in sections 50.72 and 50.73. The rulemaking would reduce or eliminate the reporting burden associated with events of little or no safety significance, and better align the rules with the NRC's current needs, including revising reporting requirements based on importance to risk and extending the required reporting items consistent with the need for prompt NRC action.

4628. PHYSICAL PROTECTION FOR SPENT NUCLEAR FUEL AND HIGH-LEVEL RADIOACTIVE WASTE

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 60; 10 CFR 72; 10 CFR 73; 10 CFR 75

Legal Deadline: None

Abstract: The final rule amends the Commission's regulations to clarify physical protection requirements for spent nuclear fuel or high-level radioactive waste stored at independent spent fuel storage installations, power reactors that have permanently ceased reactor operations, monitored retrievable storage installations, and geologic repository operations areas. This rule allows general licensees the option of implementing the proposed physical protection requirements for spent nuclear fuel stored in approved casks at operating power reactor sites. This action is necessary to reduce the regulatory uncertainty regarding the physical protection requirements for the storage of spent nuclear fuel and high-level radioactive waste without reducing the level of protection for public health and safety.

4629. REVISION TO NUCLEAR POWER REACTOR DECOMMISSIONING FINANCIAL ASSURANCE IMPLEMENTATION REQUIREMENTS

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The final rule amends the Commission's regulations to modify the financial assurance requirements for the decommissioning of nuclear power plants. The impact of deregulation of the power generating industry has created uncertainty with respect to the availability of decommissioning funds and would likely require a modification of the financial mechanism required by the NRC to provide decommissioning funds when needed. The amendment also requires power reactor licensees to report periodically on the status of their decommissioning trust funds during an extended safe storage period.

4631. CRITERIA AND PROCEDURES FOR DETERMINING ELIGIBILITY FOR ACCESS TO RESTRICTED DATA OR NATIONAL SECURITY INFORMATION OR AN EMPLOYMENT CLEARANCE

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2165; 42 USC 2201; 42 USC 5841; EO 12958; EO 12968; EO 10865; EO 10450

CFR Citation: 10 CFR 10

Legal Deadline: None

Abstract: The proposed rule would have amended the Commission's regulations conforming NRC policy for access to and protection of National Security Information and Restricted Data to new national policies for the protection of this type of information. The existing regulations were issued before the October 31, 1994, approval of the National Industrial Security Program Operating Manual (NISPOM) by the Deputy Secretary of Defense and the April 17, 1995 and August 2, 1995, signature of Executive Orders 12958, "Classified National Security Information," and 12968, "Access to Classified Information," by the President. The NISPOM establishes a uniform Government policy for the protection of classified National Security Information and Restricted Data within industrial facilities under a contractual or other (e.g., license) legal relationship with the Government. Executive Order 12958 revises the Governmentwide requirements for classification and protection of National Security Information, and Executive Order 12968 revises the Governmentwide requirements for access to National Security Information. The current 10 CFR part 10 is not fully compliant with the requirement of the NISPOM and the new Executive orders. Some areas of inconsistency are the NRC Criteria for Determining Eligibility for Access to Restricted Data or National Security Information or an Employment Clearance and the NRC Due Process Appeal Procedures. 10 CFR part 10 must be amended to ensure its consistency with established national policy for the protection of classified information and due process. This rule has been subsumed by the proposed rule entitled "Conformance to National Policies for Access to and Protection of Classified Information" (RIN 3150-AF97), and has been incorporated into that rule.

4632. REQUIREMENTS FOR SHIPPING PACKAGES USED TO TRANSPORT VITRIFIED WASTES CONTAINING PLUTONIUM

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 71

Legal Deadline: None

Abstract: The final rule amends the Commission's regulations by exempting canisters containing vitrified waste containing plutonium from the package requirement for double containment.

NRC

Completed Actions

This final rule responds to a petition for rulemaking (PRM-71-11) submitted by the Department of Energy (DOE). This final rule reduces the regulatory requirements for certain DOE plutonium shipments, and therefore cost less, while having no significant reduction in health and safety. The primary purpose for double containment is to ensure that any respirable plutonium will not leak into the atmosphere. The NRC staff believes that vitrified waste containing plutonium is essentially nonrespirable. Therefore, the packaging requirement for double containment is unnecessary. This final rule also makes minor corrections to the usage of units to be consistent with existing NRC policy.

4634. CODES AND STANDARDS; IEEE NATIONAL CONSENSUS STANDARD

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The direct final rule would have amended the Commission's regulations to incorporate by reference a national consensus standard for power, instrumentation, and control portions of safety systems in nuclear power plants issued by the Institute of Electric and Electronics Engineers (IEEE Std. 603-1991). This final rule was withdrawn due to the significant number of adverse comments received and has been revised. Because the rule was significantly revised, it is being reissued as a proposed rule (see Codes and Standards; IEEE National Consensus Standard; RIN 3150-AF96).

4635. REVISION OF PROTOTYPE TESTING REQUIREMENTS FOR DIALS, HANDS, AND POINTERS CONTAINING TRITIUM

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 32

Legal Deadline: None

Abstract: The final rule amends the Commission's regulations to permit timepieces containing gaseous tritium light sources to be treated on the same regulatory basis as those containing tritium paint with regard to their distribution. The proposed rule would remove from the regulations the specific requirements for prototype testing of these products containing tritium, while the specifics for prototype testing would be provided in a separate document. The final rule simplifies the licensing process and allows the use of a new technology in self-illuminated timepieces. This action was taken in response to a petition for rulemaking (PRM-32-4) submitted by mb-microtec, Inc.

4636. LICENSE TERM FOR MEDICAL LICENSES

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5841

CFR Citation: 10 CFR 35

Legal Deadline: None

Abstract: The final rule amends the Commission's regulations regarding license term limits for medical use licenses. Medical use license terms will be set by policy up to ten years, the same as license terms for other materials licenses. The NRC may issue some licenses for shorter terms if warranted by the circumstances of license applicants. The revision reduces the administrative burden of license renewals for both NRC and licensees, and supports NRC's goal of streamlining the licensing process.

RIN: 3150–AF77

4637. ACCESS TO SECRET RESTRICTED DATA

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 220; 42 USC 2165; 42 USC 2273; 42 USC 5841; EO 12829; EO 12958; EO 10865; EO 12968

CFR Citation: 10 CFR 25; 10 CFR 95

Legal Deadline: None

Abstract: The proposed rule would have amended the Commission's regulations conforming NRC policy for access to Secret Restricted Data to new national policies for access to this type of information. This change was originally proposed, along with numerous other changes to parts 25 and 95, in the proposed rulemaking, "Access to and Protection of Classified Information" (August 5, 1996; 61 FR 40555). While most of the changes were generally accepted by commenters, DOE's comments concerning the level of background investigation required for access to Secret Restricted Data were significant and posed a dilemma for NRC. Because of DOE's statutory responsibilities for the protection of Restricted Data, NRC did not want to ignore their comments without further evaluation. The NRC could not simply adopt them because, if adopted the comments would subject licensees and/or certificate holders to additional expenses. The DOE position also appears to exceed the requirements of the current national policy (the NISPOM) for the protection of such information. It was decided that this issue could not be resolved without giving affected parties additional opportunity to comment. Therefore, a proposed rule resubmitting sections 21.15 and 95.35 of the original August 5, 1996, proposed rule for public comment is being developed. However, the need for additional changes to these rules resulted in the preparation of a new proposed regulatory initiative, which has been forwarded to the EDO. The initiative will incorporate this rulemaking and the rulemaking entitled "Criteria and Procedures for Determining Eligibility for Access to Restricted Data or National Security Information or an Employment Clearance" into a single new, expanded rulemaking. This rule has been subsumed by the proposed rule entitled, "Conformance to National Policies for Access to and Protection of Classified Information" (RIN 3150-AF97), and has been incorporated into that rule.

4638. REVISION OF FEE SCHEDULES; 100 PERCENT FEE RECOVERY, FY 1998

Priority: Economically Significant. Major under 5 USC 801.

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 170; 10 CFR 171

Legal Deadline: Other, Statutory, September 30, 1998.
Omnibus Budget Reconciliation Act of 1990

Abstract: The final rule amends the licensing, inspection and annual fees charged to NRC licensees and applicants for an NRC license. The amendments are necessary to recover approximately 100 percent of the NRC budget authority for Fiscal Year 1998 less the amounts appropriated from the Nuclear Waste Fund and the General Fund. The Omnibus Budget Reconciliation Act of 1990, as amended (OBRA-90), requires that the NRC accomplish the 100 percent recovery through the assessment of fees. The dollar amount to be recovered for FY 1998 is $454.8 million. The Act requires that the fees for FY 1998 must be collected by September 30, 1998. Therefore, the final rule is to become effective by August 10, 1998.

4640. ACCESS AUTHORIZATION FEE SCHEDULE FOR LICENSEE PERSONNEL

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841; 5 USC 552

CFR Citation: 10 CFR 11; 10 CFR 25

Legal Deadline: None

Abstract: The final rule amends the Commission's regulations to revise the fee schedule for background investigations of licensee personnel who require access to National Security Information and/or Restricted Data and access to or control over Special Nuclear Material. These amendments comply with current regulations that provide that the NRC will publish fee adjustments upon notification of any changes in the rate charged the NRC by the Office of Personnel Management for conducting investigations.

4641. REVISION OF DOSE LIMIT FOR MEMBERS OF THE PUBLIC EXPOSED TO HOSPITALIZED RADIATION PATIENTS

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2073; 42 USC 2093; 42 USC 2095; 42 USC 2111; 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2236; 42 USC 2297F

CFR Citation: 10 CFR 20; 10 CFR 35

Legal Deadline: None

Abstract: The proposed rule would have amended the Commission's regulations to allow licensees the discretion to permit consenting visitors of hospitalized radiation patients to receive up to 0.5 rem (5 mSv) in a year as a result of their exposure to these patients. Also, the amendments would have responded to a petition for rulemaking from the University of Cincinnati (PRM-20-24). The petitioner requested that the NRC amend its regulations to revise the dose limit for members of the public exposed to hospitalized radiation patients. This rule has been subsumed by the proposed rule entitled, "Medical Uses of Byproduct Material," (RIN 3150-AF74), and has been incorporated into that rule.

4642. • TRANSFER FOR DISPOSAL AND MANIFESTS; MINOR TECHNICAL CONFORMING AMENDMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 020

Legal Deadline: None

Abstract: The final rule amends the Commission's regulations concerning low-level waste shipment manifest information. The use of new manifesting requirements, which were issued on March 27, 1995, became mandatory on March 1, 1998. Therefore, this action is necessary to remove expired provisions from the regulations. An additional correction is being made to the scope section of this part to rectify an inadvertent change.

4643. • PHYSICAL PROTECTION FOR SPENT NUCLEAR FUEL AND HIGH-LEVEL RADIOACTIVE WASTE: CORRECTIVE AMENDMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 073

Legal Deadline: None

Abstract: The direct final rule amends a final rule appearing in the Federal Register on May 15, 1998 (63 FR 26955), that clarifies physical protection requirements for spent nuclear fuel and high-level radioactive waste stored at independent spent fuel storage installations, monitored-retrievable storage installations, and geologic repository operating areas. The action is necessary to correct the inappropriate placement of the phrase "...including illumination systems..." within the requirement for tamper indication and line supervision. The only anticipated impact of this rulemaking is to eliminate an unnecessary and inadvertently placed requirement on affected licensees.

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 140

Legal Deadline: Other, Statutory, August 20, 1988.
Price-Anderson Amendments Act of 1988

Abstract: The final rule amends the Commission's regulations to increase the retrospective deferred premium based on inflation. Specifically, the rule amends section 140.11(a)(4) to increase this premium to $83.9M/reactor/accident (but not to exceed $10M in any one year) based on the aggregate percentage change since 1993 in the Consumer Price Index for all urban consumers published by the Secretary of Labor. This inflation adjustment is required by the Price-Anderson Amendments Act of 1988 to be made at least once each 5 years.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Ch. II

[Release Nos. 33-7567, 34-40371, 35-26911, 39-2368, IC-23415, IA-1748, File No. S7-24-98]

Regulatory Flexibility Agenda

AGENCY: Securities and Exchange Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Securities and Exchange Commission is publishing an agenda of its rulemaking actions pursuant to the Regulatory Flexibility Act. Information in the agenda was accurate on August 27, 1998, the date on which the Commission's staff completed compilation of the data. To the extent possible, rulemaking actions by the Commission since that date have been reflected in the agenda. The Commission invites questions and public comment on the agenda and on the individual agenda entries.

DATES: Public comments are due by December 30, 1998.

ADDRESSES: Persons wishing to submit written comments should file three copies of their comments with Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 5th Street NW., Room 6184, Stop 6-9, Washington, DC 20549. All submissions should refer to File No. S7-24-98 and will be available for public inspection and copying at the Commission's Public Reference Room, Room 1026, at the same address.

FOR FURTHER INFORMATION CONTACT: Anne H. Sullivan, Office of the General Counsel, 202-942-0954.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (RFA) (Pub. L. No. 96-354, 94 Stat. 1164 (September 19, 1980)) requires each Federal agency, during April and October of each year, to publish in the **Federal Register** an agenda identifying rules which the agency expects to propose or adopt that are likely to have a significant economic impact on a substantial number of small entities (5 U.S.C. 602(a)). The RFA specifically provides that publication of the agenda does not preclude an agency from considering or acting on any matter not included in the agenda and that an agency is not required to consider or act on any matter which is included in the agenda (5 U.S.C. 602(d)). The agenda includes new entries, entries carried over from previous publications, and rulemaking actions which have been completed (or withdrawn) since publication of the last agenda. As described in the Introduction to the Unified Agenda, information in the October 1998 agenda on whether small entities are affected by the rule is displayed in a modified format. The agenda now reports whether a regulatory flexibility analysis is required by existing law; if it is not required, the agenda reports whether the rule nonetheless is likely to have some effect on small entities.

The following abbreviations for the acts administered by the Commission are used throughout the agenda:

"Securities Act" - Securities Act of 1933

"Exchange Act" - Securities Exchange Act of 1934

"PUHCA" - Public Utility Holding Company Act of 1935

"Investment Company Act" - Investment Company Act of 1940

"Investment Advisers Act" - Investment Advisers Act of 1940

The Commission's regulatory flexibility agenda is set forth below. The Commission invites public comment on the agenda and on the individual agenda entries.

Dated: August 27, 1998.

By the Commission.

Jonathan G. Katz,

Secretary.

4727	Proposed Amendment to Rule 102(e) of the Commission's Rules of Practice	3235-AH47

SECURITIES AND EXCHANGE COMMISSION (SEC)
DIVISION OF CORPORATION FINANCE

Proposed Rule Stage

4645. ASSET-BACKED SECURITIES DISCLOSURE

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 77e; 15 USC 77f; 15 USC 77g; 15 USC 77h; 15 USC 77j; 15 USC 77s; 15 USC 78l; 15 USC 78m; 15 USC 78n; 15 USC 78o; 15 USC 78w

CFR Citation: 17 CFR 229; 17 CFR 230; 17 CFR 239; 17 CFR 240; 17 CFR 249

Legal Deadline: None

Abstract: The Division of Corporation Finance is considering whether to recommend to the Commission amendments to revise rules and forms which would specify disclosure requirements for asset-backed securities transactions.

Timetable:

Action	Date	FR Cite
NPRM	03/00/99	

Regulatory Flexibility Analysis Required: Undetermined

Government Levels Affected: Undetermined

Agency Contact: Mark Green, Division of Corporation Finance, Securities and Exchange Commission
Phone: 202 942-1940
Fax: 202 942-9635

RIN: 3235–AF74

4646. COMPANY REGISTRATION AND REGULATION OF CAPITAL FORMATION

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 77a et seq; 15 USC 78a et seq

CFR Citation: 17 CFR 230; 17 CFR 239; 17 CFR 240; 17 CFR 249

Legal Deadline: None

Abstract: The Division is considering recommending that the Commission

SEC—DIVISION OF CORPORATION FINANCE — Proposed Rule Stage

propose rules that would reform the registration of the capital formation process while maintaining or enhancing investor protection. The Division is considering a number of approaches to reform, including: the implementation of a "company registration" approach; modifications to the shelf registration system; liberalization of the treatment of unregistered securities; and the deregulation of offers.

4647. • FINANCIAL STATEMENTS AND PERIODIC REPORTS FOR RELATED ISSUER GUARANTORS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 77a et seq; 15 USC 78a et seq

CFR Citation: 17 CFR 210; 17 CFR 240

Legal Deadline: None

Abstract: The Division is considering recommending that the Commission propose rules that would specify the financial statements and periodic reports for related issuers and guarantors. The proposals would largely reflect staff interpretations under SAB 53.

Fax: 202 942-9525

RIN: 3235–AH52

4648. REGULATION OF EXTRAORDINARY CORPORATE TRANSACTIONS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 78n

CFR Citation: 17 CFR 240

Legal Deadline: None

Abstract: The Division is considering recommending that the Commission propose rules designed to adapt the regulatory scheme applicable to extraordinary corporate transactions such as mergers, tender offers and going private transactions to the realities of today's securities marketplace, as well as promote uniform disclosure in connection with such transactions.

RIN: 3235–AG84

4649. DEFINITIONS FOR PURPOSES OF THE PRIVATE LITIGATION REFORM ACT OF 1995

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 77a et seq; 15 USC 78a et seq

CFR Citation: 17 CFR 230.177(New); 17 CFR 230.178(New); 17 CFR 230.17a(New); 17 CFR 240.3b-12(New); 17 CFR 240.3b-13(New)

Legal Deadline: None

Abstract: The Division is considering recommending that the Commission issue proposed rules that will define the terms "outside director," "limited liability company," "partnership," and "direct participation investment program." These definitions are deemed necessary in view of changes to the Securities Act and Exchange Act made in the Private Securities Litigation Reform Act of 1995.

4650. DEFINITION OF "QUALIFIED PURCHASER"

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 77a et seq

CFR Citation: 17 CFR 230

Legal Deadline: None

Abstract: The Division is considering recommending that the Commission propose a definition of the term "qualified purchaser" as used in section 18 of the Securities Act of 1933. Under that section, securities offered or sold to "qualified purchasers" are "covered securities," and thus, exempt from state regulation.

SEC—DIVISION OF CORPORATION FINANCE — Proposed Rule Stage

4651. EXEMPTIONS FOR INTERNATIONAL TENDER AND EXCHANGE OFFERS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 77b; 15 USC 77f; 15 USC 77g; 15 USC 77h; 15 USC 77j; 15 USC 77s; 15 USC 77sss; 15 USC 78c; 15 USC 78l; 15 USC 78m; 15 USC 78n; 15 USC 78o; 15 USC 78w; 15 USC 79t; 15 USC 80a-37

CFR Citation: 17 CFR 200; 17 CFR 230; 17 CFR 239; 17 CFR 240; 17 CFR 260

Legal Deadline: None

Abstract: The Division is considering recommending that the Commission repropose amendments to facilitate the extension of international tender offers to U.S. holders. The proposed rules would provide exemptions from the tender offer rules, securities registration and reporting requirements, and trust indenture provisions.

SECURITIES AND EXCHANGE COMMISSION (SEC) DIVISION OF CORPORATION FINANCE — Final Rule Stage

4652. STREAMLINING RULE 144

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 77a et seq

CFR Citation: 17 CFR 230.144

Legal Deadline: None

Abstract: The Commission has proposed revisions to Rule 144, Rule 145 and Form 144 to make the rules and form easier to understand and apply. The proposed amendments would, among other things, add a bright line test to the Rule 144 definition of affiliate, eliminate the Rule 144 manner of sale requirements, increase the Form 144 filing thresholds, and codify certain interpretive positions. The proposals also would eliminate the presumptive underwriter provisions of Rule 145.

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 80a-37(a)

CFR Citation: 17 CFR 274.218; 17 CFR 270.8F-1; 17 CFR 232.101

Legal Deadline: None

Abstract: The staff of the Division of Investment Management is considering recommending to the Commission amendments to rule 8f-1 and Form N-8F under the Investment Company Act. Rule 8f-1 and Form N-8F prescribe the form that certain registered investment companies must use to apply for an order to deregister under section 8(f). The proposed amendments to rule 8f-1 would expand the categories of funds eligible to use Form N-8F. The proposed amendments to Form N-8F are designed to simplify and expedite the deregistration process for investment companies by, among other things, requiring that the form be filed on the Commission's Data Gathering, Analysis,and Retrieval (EDGAR) system. In system. In connection with the proposal to require that the form be filed on EDGAR, the staff is considering recommending amending rule 101 of the Commission's Regulation S-T.

Legal Deadline: None

Abstract: The Commission has proposed a rule that would make electronic filing of Form 13F reports mandatory instead of optional. It would also eliminate special formatting requirements for the electronic version of those reports and the related requirement that they be submitted on magnetic tape. Form 13F reports are filed quarterly by institutional investment managers having more than $100,000,000 worth of equity securities in accounts under management to report the equity securities holdings of those accounts.

4681. REQUIREMENTS RELATING TO CODES OF ETHICS WITH RESPECT TO REGISTERED INVESTMENT COMPANIES; RECORDS TO BE MAINTAINED BY INVESTMENT ADVISERS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 80a-17(j); 15 USC 80a-37; 15 USC 80b-4; 15 USC 80b-6(4); 15 USC 80b-11(a); 15 USC 80a-6(c); 15 USC 80a-39; 15 USC 80b-2(a)(17); 15 USC 80b-3; 15 USC 80b-5(e); 15 USC 80b-3a; 15 USC 80b-6a

CFR Citation: 17 CFR 270.17j-1; 17 CFR 275.204-2

Legal Deadline: None

Abstract: The Commission has proposed amendments to rule 17j-1 under the Investment Company Act, rule 204-2 under the Investment Advisers Act, and investment company registration forms under the Investment Company Act and the Securities Act. The amendments to rule 17j-1 would enhance oversight of personal investment activities of investment company personnel by boards of directors and would require access persons to report to their employers all securities owned by them at the time they become access persons. Additional amendments would make the scope of the rule more consistent with its purpose. Amendments to rule 204-2 under the Investment Advisers Act would expand the list of securities exempt from the recordkeeping requirements of that rule. The amendments to fund registration forms would require investment companies to provide disclosure in their registration statements relating to codes of ethics and to file copies of their codes of ethics with the Commission as exhibits to their registration statements.

Legal Deadline: None

Abstract: The Commission proposed for public comment a new rule under the Securities Act of 1933 to allow issuers and broker-dealers to satisfy the Act's prospectus delivery requirements, for two or more investors sharing the same address, by sending a single prospectus, subject to certain conditions. The Commission proposed similar amendments to the rules under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 that govern the delivery of annual and (in the case of investment companies) semiannual reports to shareholders. The proposed rule and rule amendments are intended to reduce the waste and inconvenience of duplicate documents sent to investor households and to save costs for issuers.

4683. INSURANCE PRODUCTS: NEW FORM N-6 FOR REGISTRATION OF SEPARATE ACCOUNTS OFFERING VARIABLE LIFE INSURANCE CONTRACTS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 77a et seq; 15 USC 80a-1 et seq; 15 USC 77g; 15 USC 77j; 15 USC 77s; 15 USC 80a-8; 15 USC 80a-29; 15 USC 80a-37

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Commission proposed a new Form N-6 to be used for separate accounts offering variable life insurance contracts to register under both the Investment Company Act and the Securities Act. Currently, most insurance company separate accounts are organized as unit investment trusts (UITs) and register their interests on Form S-6. Form S-6 was developed for UITs generally, and not specifically for insurance company separate accounts that offer interests in variable life insurance contracts.

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 80a-8; 15 USC 77g; 15 USC 77j

CFR Citation: 17 CFR 239.16; 17 CFR 274.12

Legal Deadline: None

Abstract: The Division is considering recommending that the Commission repropose for public comment Form N-7, a new form for registering unit investment trusts (UITs) and their securities under the Investment Company Act and the Securities Act. Adoption of Form N-7 would: (1) codify the disclosure requirements for UITs into one form; (2) codify the disclosure standards that have been developed for UITs; and (3) shorten and simplify the prospectus used in connection with the sale of units in both the initial offering and in the secondary market maintained by the sponsor. The requirement for audited financial statements would be eliminated under certain circumstances. Under the reproposal, the requirement that registrants include certain third-party financial statements in the registration statement would be extended to insurers as well as guarantors of portfolio securities of the trust.

CFR Citation: 17 CFR 230.482; 17 CFR 239.16; 17 CFR 270.34b-1

Legal Deadline: None

Abstract: On November 22, 1995 the Commission published a request for public comment on a proposal that would standardize yields advertised by certain unit investment trusts (UITs). The proposal would amend Form S-6, the form used by UITs to register under the Securities Act, Rule 482 under the 1933 Act, which governs investment company sales materials not accompanied or preceded by a prospectus (advertisements), and Rule 34b-1 under the Investment Company Act which governs sales materials that accompany or follow the delivery of a statutory prospectus (sales literature). The proposal would require UITs to use a standardized formula for calculating yield in their prospectuses, advertisements, and sales literature.

4699. EXEMPTION OF CERTAIN FOREIGN BROKERS AND DEALERS

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 78c; 15 USC 78j; 15 USC 78o; 15 USC 78q; 15 USC 78u

CFR Citation: 17 CFR 240.15a-6

Legal Deadline: None

Abstract: Exchange Act Rule 15a-6, which was adopted to exempt conditionally foreign broker-dealers from registration in response to the internationalization of the securities markets, is premised in large part on the willingness of U.S. broker-dealers to take responsibility for resulting trades. The Commission is considering revising the rule to focus instead on the types of securities that are sold by foreign broker-dealers, to allow institutional customers to take advantage of the efficiencies of foreign markets.

4716. REGULATION OF ALTERNATIVE TRADING SYSTEMS AND NATIONAL SECURITIES EXCHANGES

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 78a et seq; 15 USC 78mm

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Commission is considering proposals that would create a new regulatory framework for alternative trading systems and would relieve national securities exchanges of certain rule filing requirements.

4718. AMENDMENT TO RULE 9B-1 UNDER THE SECURITIES EXCHANGE ACT RELATING TO THE OPTIONS DISCLOSURE DOCUMENT

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 78i; 15 USC 78w

CFR Citation: 17 CFR 240.9b-1

Legal Deadline: None

Abstract: The Commission is proposing to amend Exchange Act Rule 9b-1, which requires that an Options Disclosure Document (ODD) be sent to a customer opening an options account. The proposed amendment would refine certain language of the Rule so that it more clearly reflects the regulatory standards it was designed to establish. In paragraph (a)(3) of the Rule, the definition of "Options Disclosure Document" will be amended to explicitly state that amendments and supplements to the ODD are included as part of the ODD. Paragraphs (c)(2) and (c)(3) will be amended to better reflect the type of information appropriately included in the ODD. Paragraphs (c)(4) and (c)(7) will be similarly amended.

4719. REPORTS TO BE MADE BY CERTAIN BROKERS AND DEALERS

Priority: Substantive, Nonsignificant. Major under 5 USC 801.

Legal Authority: 15 USC 80o(c)(3); 15 USC 78w

CFR Citation: 17 CFR 240.17a-5

Legal Deadline: None

Abstract: On July 13, 1998, the Commission adopted a rule that would require broker-dealers to file with the Commission and their designated examining authority certain reports regarding their Year 2000 readiness (63 FR 37688). The Commission reopened the comment period with respect to its proposal that would have required broker-dealers to engage an independent public accountant to attest to specific assertions included in the broker-dealer's report on Year 2000 compliance. The attestation by independent public accountants was one amendment to Rule 17a-5 under the Exchange Act proposed by the Commission in Release No. 34-39724 which was published in the Federal Register on March 12, 1998 (63 FR 12056).

4720. INITIATION OR RESUMPTION OF QUOTATIONS WITHOUT SPECIFIED INFORMATION

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 78b; 15 USC 78c; 15 USC 78j(b); 15 USC 78o(q); 15 USC 78q(a); 15 USC 78w(a)

CFR Citation: 17 CFR 240.15c2-11

Legal Deadline: None

Abstract: As part of its efforts to respond to fraud in the microcap securities market, the Commission proposed for comment amendments to Rule 15c2-11. These amendments would require broker-dealers to: have more issuer information before publishing quotations; review updated information periodically when publishing priced quotations; and make issuer information more widely available. The amendments also would expand the issuer's information that a broker-dealer must review for a non-reporting issuer.

SECURITIES AND EXCHANGE COMMISSION (SEC) DIVISION OF MARKET REGULATION

Long-Term Actions

4722. AMENDMENT TO FORM BDW AND AMENDMENT TO EXCHANGE ACT RULE 15B6-1 AND AMENDMENTS TO RULES 15B1-1, 15B3-1, 15BA2-2, 15CA1-1, AND 15CA2-1

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 15 USC 77c; 15 USC 77d; 15 USC 77g; 15 USC 77j; 15 USC 77S; 15 USC 77eee; 15 USC 77ggg; 15 USC 77nnn; 15 USC 77sss; 15 USC 77ttt; 15 USC 78c; 15 USC 78d; 15 USC 78i; 15 USC 78j; 15 USC 78l

CFR Citation: 17 CFR 240; 17 CFR 249; 17 CFR 249.501a

Legal Deadline: None

Abstract: The Commission proposed amendments to Form BDW, the uniform request for withdrawal from broker-dealer registration under the Securities Exchange Act. The proposed amendments are designed to implement recommended changes to the Central Registration Depository System, a computer system operated by the National Association of Securities Dealers, Inc. that maintains registration information regarding registered broker-dealers and their registered personnel for use by the Commission, the self-regulatory organizations, and state securities regulators. The amendments include certain clarifying amendments to Form BDW, including new instructions for filing Form BDW electronically with the Central Registration Depository. The Commission also has proposed revisions to rules governing the withdrawal of broker-dealer registration under the Securities Exchange Act. Specifically, the revisions would permit broker-dealers that are withdrawing from registration to consent to an extension of the effective date of their withdrawal. The proposed revisions also would permit the Commission to extend the effective date for such periods as the Commission may determine. In addition, the Division has recommended revisions to the rules governing the filing of Form BD and Form BDW to provide for electronic filing of these forms.

Surface Transportation Board

Semiannual Regulatory Agenda

SURFACE TRANSPORTATION BOARD (STB)

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

49 CFR Ch. X

[STB Ex Parte No. 536; Sub-No. 5]

Semiannual Regulatory Agenda

AGENCY: Surface Transportation Board, DOT.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Surface Transportation Board, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of: (1) Current and projected rulemakings and (2) existing regulations being reviewed to determine whether to propose modifications through rulemaking. Listed below are the regulatory actions to be developed or reviewed during the next 12 months. Following each rule identified is a brief description of the rule including its purpose and legal basis.

FOR FURTHER INFORMATION CONTACT: A contact person is identified for each of the rules listed below.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* (RFA), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that, during the months of April and October of each year, each agency shall publish in the **Federal Register** a regulatory flexibility agenda, which shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) A summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) The name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

Accordingly, a list of proceedings appears below containing information about subject areas in which the Board is currently conducting rulemaking proceedings or may institute such proceedings in the near future. It also contains information about existing regulations being reviewed to determine whether to propose modifications through rulemaking.

The agenda represents the Board's best estimate of rules which will be considered over the next 12 months. However, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda or requires an agency to consider or act on any matter listed in such agenda."

The Board is publishing its October 1998 regulatory flexibility agenda as part of the Unified Agenda of Federal Regulatory and Deregulatory Actions. The Unified Agenda of Federal Regulatory and Deregulatory Actions is coordinated by the Office of Management and Budget pursuant to Executive Order 12866. The Board is participating in the program voluntarily to assist OMB.

Decided: August 21, 1998.
By the Board, Chairman Morgan and Vice Chairman Owen.

Vernon A. Williams,
Secretary.

4733. REVISIONS TO REGULATIONS GOVERNING FINANCE APPLICATIONS INVOLVING MOTOR PASSENGER CARRIERS, STB EX PARTE NO. 559

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.

Legal Authority: 5 USC 552(a)(4)(A); 5 USC 553; 31 USC 9701; 49 USC 721(a); 49 USC 14303

CFR Citation: 49 CFR 1002.2(f)(2); 49 CFR 1002.2(f)(5); 49 CFR 1182; 49 CFR 1187; 49 CFR 1188

Legal Deadline: None

Abstract: The Surface Transportation Board has revised the procedures governing finance applications involving motor passenger carriers filed under 49 USC 14303. The regulations at 49 CFR parts 1187 and 1188 were removed and replaced by new provisions incorporated at 49 CFR part 1182.

4735. RAIL SERVICE CONTINUATION SUBSIDY STANDARDS, STB EX PARTE NO. 566

Priority: Substantive, Nonsignificant

Reinventing Government: This rulemaking is part of the Reinventing Government effort. It will eliminate existing text in the CFR.

Legal Authority: 49 USC 721(a)

CFR Citation: 49 CFR 1155

Legal Deadline: None

Abstract: The Surface Transportation Board has removed from the Code of Federal Regulations rules concerning standards for determining subsidies for the continuation of rail service on rail properties not transferred to Consolidated Rail Corporation under the Final System Plan pursuant to the Rail Reorganization Act of 1973. Regulations concerning offers of financial assistance were also amended to provide rules for the purchase or subsidization of rail lines that have been continuously subsidized since the inception of the Final System Plan.

INDEX TO ENTRIES FOR WHICH A REGULATORY FLEXIBILITY ANALYSIS IS REQUIRED

The Regulatory Flexibility Act (5 U.S.C. 601) requires that agencies publish regulatory agendas identifying those rules that may have a significant economic impact on a substantial number of small entities. Agencies meet that requirement by including the information in their submissions for The Regulatory Plan and the Unified Agenda.

The following index lists the regulatory actions in this publication for which agencies believe that the Act may require a Regulatory Flexibility Analysis because the rule is likely to have such effects on small businesses, small governmental jurisdictions, or small organizations. The Sequence Number (Seq. No.) of the entry identifies the location of the entry in this edition. For further information, see the Regulatory Information Service Center's Introduction to The Regulatory Plan and the Unified Agenda in Part II of this issue.

Small Businesses

Seq. No.	Title
	USDA
4	Special Supplemental Food Program for Women, Infants, and Children (WIC): Food Delivery Systems Integrity
11	Elimination of Requirements for Partial Quality Control Programs

INDEX TO ENTRIES THAT MAY AFFECT SMALL ENTITIES WHEN A REGULATORY FLEXIBILITY ANALYSIS IS NOT REQUIRED

The Regulatory Flexibility Act (5 U.S.C. 601) requires that agencies publish regulatory agendas identifying those rules that may have a significant economic impact on a substantial number of small entities. Agencies meet that requirement by including the information in their submissions for The Regulatory Plan and the Unified Agenda. Some agencies have chosen to identify additional regulatory actions that may have some impact on small entities even though a Regulatory Flexibility Analysis may not be required.

The following index lists the regulatory actions in this publication for which agencies have chosen to indicate that some impact on small entities is likely even though a Regulatory Flexibility Analysis may not be required. The Sequence Number (Seq. No.) of the entry identifies the location of the entry in this edition. For further information, see the Regulatory Information Service Center's Introduction to The Regulatory Plan and the Unified Agenda in Part II of this issue.

INDEX TO ENTRIES THAT MAY AFFECT GOVERNMENT LEVELS

Executive Order 12866 entitled "Regulatory Planning and Review" (October 4, 1993; 58 FR 51735) and the Unfunded Mandates Reform Act of 1995 (P.L. 104-4) direct agencies to assess the effects of Federal regulations on State, local, and tribal governments. In addition, Executive Order 12875 entitled "Enhancing the Intergovernmental Partnership" (October 26, 1993; 58 FR 58093) directs agencies to reduce the imposition of unfunded mandates upon State, local, and tribal governments. In keeping with these efforts, agencies include in their submissions for The Regulatory Plan and the Unified Agenda information on whether their regulatory actions have an effect on various levels of government.

The following index lists the regulatory actions in this joint publication that agencies believe may have effects on State, local, tribal, or Federal levels of government. The Sequence Number (Seq. No.) of the entry identifies the location of the entry in this edition. For further information, see the Regulatory Information Service Center's Introduction to The Regulatory Plan and the Unified Agenda in Part II of this issue.

4687	Performance Advertising by Unit Investment Trusts

INDEX TO ENTRIES THAT AGENCIES HAVE DESIGNATED FOR SECTION 610 REVIEW

Section 610(c) of the Regulatory Flexibility Act (5 U.S.C. 601) requires each agency to have a plan for the periodic review of its rules that have significant economic impact on a substantial number of small entities. Each agency must publish annually in the **Federal Register** a list of the rules that it plans to review in the next year. Some agencies use The Regulatory Plan and the Unified Agenda to fulfill this requirement. Those agencies indicate such entries by appending "(Section 610 Review)" to the titles.

The following index lists the regulatory actions for which agencies included this designation. The Sequence Number (Seq. No.) of the entry identifies the location of the entry in this edition. For further information, see the Regulatory Information Service Center's Introduction to The Regulatory Plan and the Unified Agenda in Part II of this issue.

Seq. No.	Title
	USDA
180	Federal Milk Order Consolidation and Reform **(Section 610 Review)**
	ED
17	Assistance for Education of All Children With Disabilities **(Section 610 Review)**
1064	Early Intervention Program for Infants and Toddlers With Disabilities **(Section 610 Review)**
	DOJ
53	Reduction of the Number of Acceptable Documents and Other Changes to Employment Verification Requirements **(Section 610 Review)**
	DOL
54	Government Contractors: Nondiscrimination and Affirmative Action Obligations, Executive Order 11246 (ESA/OFCCP) **(Section 610 Review)**
2212	Control of Hazardous Energy Sources (Lockout/Tagout)**(Section 610 Review)**
2213	Occupational Exposure to Ethylene Oxide **(Section 610 Review)**
2218	Grain Handling Facilities **(Section 610 Review)**
2219	Cotton Dust **(Section 610 Review)**
	DOT
88	Hours of Service of Drivers **(Section 610 Review)**
93	Requirements for Cylinders **(Section 610 Review)**
2279	Update of Drug and Alcohol Procedural Rules **(Section 610 Review)**
2280	Computer Reservations System Regulations Comprehensive Review **(Section 610 Review)**
2327	Deep Water Ports (CGD 97-050) **(Section 610 Review)**
2328	Commercial Diving Operations (USCG-98-3786) **(Section 610 Review)**
2476	Advanced Technology in Commercial Motor Vehicle Operations **(Section 610 Review)**
	EPA
3402	Standards of Performance for New Stationary Sources; New Residential Wood Heaters **(Section 610 Review)**
3611	Lead Phasedown **(Section 610 Review)**
3612	NSPS for Industrial Surface Coating: Metal Coils **(Section 610 Review)**
3613	NSPS for Industrial Surface Coating: Metal Furniture **(Section 610 Review)**
3614	NSPS for Industrial Surface Coating: Large Appliances **(Section 610 Review)**
3687	Polychlorinated Biphenyls (PCBs) Disposal Amendments **(Section 610 Review)**
3688	Asbestos Worker Protection Rule **(Section 610 Review)**
3690	Asbestos Model Accreditation Plan **(Section 610 Review)**
3741	Final Rule on Land Disposal Restrictions for First Third Scheduled Wastes **(Section 610 Review)**
3742	Technical Standards and Corrective Action Requirements for Owners and Operators of Underground Storage Tanks **(Section 610 Review)**
3756	Effluent Guidelines and Standards for the Ore Mining and Dressing Point Source Category, Gold Placer Mine Subcategory **(Section 610 Review)**
	FRS
4505	Regulation: B – Equal Credit Opportunity (Docket Number: R-1008)**(Section 610 Review)**
4509	Section 303 Regulatory Review **(Section 610 Review)**
	FTC
4550	Rules and Regulations Under the Hobby Protection Act **(Section 610 Review)**
